VOLUME 4: TABLE OF CONTENTS

AUTHORSHIP

ABBREVIATIONS AND ACRONYMS

DEFINITIONS

28 Population and Demographics 28-1

28.1 Approach 28-1
28.1.1 Regulatory and Policy Setting 28-1
28.1.2 Key Issues and Identification of Potential Effects 28-1
28.1.3 Standard Mitigation Measures and Effects Addressed 28-3
28.1.4 Selection of Key Indicators 28-4
28.1.5 Spatial and Temporal Boundaries 28-4
28.1.5.1 Spatial Boundaries 28-4
28.1.5.2 Temporal Boundaries 28-5

28.2 Information Sources and Methodology 28-5
28.2.1 Literature Review 28-5
28.2.2 Interviews 28-6
28.2.3 Data Management, Mapping, and Modelling 28-6
28.2.4 Aboriginal Community and Traditional Knowledge 28-6

28.3 Baseline Conditions 28-7
28.3.1 Population Numbers 28-7
28.3.1.1 Population – Determinants of Population Change 28-7
28.3.2 Population: Age, Gender, Marital Status, and Household Characteristics 28-8
28.3.3 Population Forecast 28-10

28.4 Effects Assessment 28-11
28.4.1 Effects Assessment – Construction – Project Effects on Labour Market and Effects on Population and Demographics 28-11
28.4.1.1 Labour Market Effects and Assumptions 28-11
28.4.1.2 Projected Population Effects 28-12
28.4.1.3 Aboriginal Peoples 28-12
28.4.2 Effects Assessment – Construction – Population Change for the City of Fort St. John 28-13
28.4.3 Mitigation Measures – Construction 28-14
28.4.3.1 General Population 28-14
28.4.3.2 Aboriginal Peoples 28-14
28.4.4 Other Mitigation Options Considered 28-16

28.5 Residual Effects 28-16
28.5.1 Characterization of Residual Effects 28-16
28.5.2 Standards or Thresholds for Determining Significance 28-20
28.5.3 Determination of Significance of Residual Effects 28-20

28.6 Cumulative Effects Assessment 28-22

28.7 Monitoring and Follow-Up 28-22

References 28-23

Literature Cited 28-23

Internet Sites 28-23

Personal Communications 28-23

29 Housing 29-1

29.1 Approach 29-1
29.1.1 Regulatory and Policy Setting 29-1
29.1.2 Key Issues and Identification of Potential Effects 29-1
29.1.3 Standard Mitigation Measures and Effects Addressed 29-3
29.1.4 Selection of Key Indicators 29-4
29.1.5 Spatial and Temporal Boundaries 29-4
29.1.5.1 Spatial Boundaries 29-4
29.1.5.2 Temporal Boundaries 29-5

29.2 Information Sources and Methods 29-5
29.2.1 Review of Existing Information 29-5
29.2.2 Interviews 29-6
29.2.3 Data Management, Mapping, and Modelling 29-6
29.2.4 Aboriginal Community and Traditional Knowledge 29-6

29.3 Baseline Conditions 29-7
29.3.1 Housing Ownership and Type 29-7
29.3.1.1 Private Dwellings 29-7
29.3.1.2 Type of Housing Structure 29-7
29.3.1.3 Population Mobility 29-8
29.3.1.4 Temporary Accommodation 29-9
29.3.1.5 Non Market Housing 29-10
29.3.2 Residential Construction Activity 29-12
29.3.3 Multiple Listing Service Activity 29-12
29.3.4 Occupancy Costs 29-13
29.3.5 Occupancy and Vacancy Rates 29-15
29.3.6 Outlook 29-16
29.3.6.1 Planned Housing Developments and Land Available for Housing 29-16
29.3.6.2 Housing Projection 29-19
29.3.7 Housing Baseline Conditions for Aboriginal Peoples 29-20

29.4 Effects Assessment 29-21
29.4.1 Effects Assessment – Construction – Changes in Demand for Housing– General Population 29-21
29.4.1.1 Change in Labour Market and Population and Demographics 29-21
29.4.1.2 Change in Worker Accommodation 29-22
29.4.1.3 Change in Demand for Accommodation 29-22
29.4.1.3.1 Owned Housing 29-25
29.4.1.3.2 Rental Housing 29-25
29.4.1.3.3 Temporary Accommodation 29-26
29.4.1.3.4 Occupancy Costs 29-26
29.4.1.3.5 Non Market Housing 29-27
29.4.1.4 Aboriginal Peoples 29-27
29.4.2 Mitigation Measures – Changes in Demand for Housing 29-28
29.4.2.1 General Population 29-28
29.4.2.2 Aboriginal Peoples 29-28

29.5 Summary of Effects Assessment and Mitigation Measures 29-29
29.5.1 Other Mitigation Options Considered 29-30

29.6 Residual Effects 29-30
29.6.1 Characterization of Residual Effects 29-30
29.6.2 Standards or Thresholds for Determining Significance 29-32
29.6.3 Determination of Significance of Residual Effects 29-32

29.7 Cumulative Effects Assessment 29-35

29.8 Monitoring and Follow up 29-35
References 29-36
Literature Cited 29-36
Internet Sites 29-37
Personal Communications 29-37
30 Community Infrastructure and Services 30-1
30.1 Approach 30-1
30.1.1 Regulatory and Policy Setting 30-1
30.1.1.1 Health and Social Services 30-1
30.1.1.2 Emergency Services 30-1
30.1.1.3 Public Education Services 30-2
30.1.1.4 Municipal Services 30-3
30.1.1.5 Regulatory and Policy Setting for Community and Infrastructure Services – Aboriginal Peoples 30-3
30.1.2 Key Issues and Identification of Potential Effects 30-3
30.1.3 Standard Mitigation Measures and Effects Addressed 30-5
30.1.4 Selection of Key Indicators 30-6
30.1.5 Spatial and Temporal Boundaries 30-7
30.1.5.1 Spatial Boundaries 30-7
30.1.5.2 Temporal Boundaries 30-8
30.2 Information Sources and Methodology 30-8
30.2.1 Literature Review 30-8
30.2.2 Interviews 30-10
30.2.3 Data Management, Mapping, and Modelling 30-10
30.2.4 Aboriginal Community and Traditional Knowledge 30-11
30.3 Baseline Conditions 30-11
30.3.1 Health Services and Social Services – General Population 30-11
30.3.1.1 Regional Programming 30-11
30.3.1.1.1 Preventative Public Health 30-12
30.3.1.1.2 Public Health Protection 30-12
30.3.1.1.3 Mental Health and Addiction Services 30-12
30.3.1.1.4 Men's Health Program 30-12
30.3.2 Medical, Dental, and Optometry Practitioners 30-13
30.3.3 Medical Facilities 30-14
30.3.4 Medical Services and Expenditures 30-15
30.3.5 Health Services and Outlook 30-15
30.3.6 Child Care Services 30-16
30.3.6.1 Daycare Services 30-16
30.3.6.1.1 Fort St. John Child Development Centre 30-17
30.3.7 Emergency Services – General Population 30-17
30.3.7.1 Police 30-17
30.3.7.1.1 Police – Funding Source 30-17
30.3.7.1.2 Jurisdiction Boundaries, Staffing, and Case Loads 30-17
30.3.7.1.3 Policing Focus and Outlook in LAA 30-19
30.3.7.2 Justice and Court Services 30-19
30.3.7.2.1 Funding Source 30-19
30.3.7.2.2 Facilities and Staffing 30-19
30.3.7.2.3 Court Wait Times 30-20
30.3.7.2.4 Outlook for Court Services 30-20
30.3.7.3 Fire Protection 30-20
30.3.7.3.1 Resources and Staffing 30-20

30.3.7.3.2 Fire Call Trends in the LAA 30-22
30.3.7.3.3 Outlook for Fire Services 30-22
30.3.7.4 Ambulance Services 30-22
30.3.7.4.1 Funding Source 30-22
30.3.7.4.2 Resources and Staffing 30-23
30.3.7.4.3 Ambulance Call Trends 30-23
30.3.7.4.4 Outlook for Ambulance Services 30-23
30.3.7.5 Provincial Emergency Program 30-24
30.3.7.5.1 Overview 30-24
30.3.8 Education Services – General Population 30-24
30.3.8.1 Elementary and Secondary 30-24
30.3.8.2 Post-Secondary Education 30-26
30.3.8.3 Outlook for Education 30-26
30.3.9 Municipal (Community) Services – Municipalities 30-28
30.3.9.1 Funding Sources 30-28
30.3.9.2 Recreation and Leisure Facilities 30-28
30.3.9.2.1 Fort St. John 30-28
30.3.9.2.2 Taylor 30-28
30.3.9.2.3 Hudson's Hope 30-29
30.3.9.2.4 Chetwynd 30-29
30.3.9.2.5 Dawson Creek 30-29
30.3.9.2.6 Tumbler Ridge 30-30
30.3.9.2.7 Outlook for Recreation and Leisure Facilities 30-30
30.3.9.3 Municipal Solid Waste 30-30
30.3.9.4 Water and Sewage Infrastructure 30-31
30.3.9.4.1 Fort St. John 30-32
30.3.9.4.2 Taylor 30-33
30.3.9.4.3 PRRD Electoral Area C [Charlie Lake and North Peace Regional Airport] 30-33
30.3.9.4.4 Hudson's Hope 30-34
30.3.9.4.5 Dawson Creek 30-34
30.3.9.4.6 Chetwynd 30-34
30.3.10 Baseline Conditions – First Nations Communities 30-35
30.3.10.1 Doig River First Nation 30-37
30.3.10.2 Halfway River 30-37
30.3.10.3 Prophet River First Nation 30-38
30.3.10.4 West Moberly First Nations 30-38

30.4 Effects Assessment 30-38
30.4.1 Effects Assessment – Construction – Change in Demand for or Provision of Services 30-41
30.4.1.1 Health and Social Services 30-41
30.4.1.2 Emergency Services 30-42
30.4.1.3 Education Services 30-42
30.4.1.4 Municipal (Community) Services 30-44
30.4.1.4.1 Recreation and Leisure 30-44
30.4.1.4.2 Solid Waste Management 30-44
30.4.1.4.3 Sewer and Water Infrastructure 30-45
30.4.1.4.4 Aboriginal Peoples and Communities 30-45
30.4.2 Mitigation Measures – Construction – Change in Demand for or Provision of Services 30-46
30.4.3 Effects Assessment – Construction – Infrastructure Displacement 30-48
30.4.3.1 Hudson's Hope Water and Sewage Facilities 30-48
30.4.3.2 Charlie Lake Sewage Outfall 30-48

30.4.3.3 Fort St. John Wells and Intake 30-48
30.4.3.4 Taylor Wells and Water Intake 30-49
30.4.3.5 First Nations Communities 30-49
30.4.4 Mitigation Measures – Construction – Infrastructure Displacement 30-50
30.4.4.1 General Population 30-50
30.4.4.2 First Nations Communities 30-50
30.4.5 Summary of Effects Assessment and Mitigation Measures 30-50
30.4.6 Other Mitigation Options Considered 30-53

30.5 Residual Effects 30-53
30.5.1 Characterization of Residual Effects 30-53
30.5.2 Standards or Thresholds for Determining Significance 30-57
30.5.3 Determination of Significance of Residual Effects 30-57

30.6 Cumulative Effects Assessment 30-58

30.7 Monitoring and Follow-up 30-59

References 30-60

Personal Communications 30-65

31 Transportation 31-1

31.1 Approach 31-1
31.1.1 Regulatory and Policy Setting 31-1
31.1.2 Key Issues and Identification of Potential Effects 31-2
31.1.3 Standard Mitigation Measures and Effects Addressed 31-5
31.1.4 Selection of Key Indicators 31-6
31.1.5 Spatial and Temporal Boundaries 31-7
31.1.5.1 Spatial Boundaries 31-7
31.1.5.2 Temporal Boundaries 31-8

31.2 Information Sources and Methodology 31-9
31.2.1 Literature Review 31-9
31.2.2 Interviews 31-9
31.2.3 Field Investigations 31-9
31.2.4 Methodology 31-10

31.3 Baseline Conditions 31-10
31.3.1 Existing Conditions 31-10
31.3.1.1 Road Network 31-10
31.3.1.2 Traffic Volumes and Traffic Counts 31-12
31.3.1.3 Road Accident Rates and Road Safety 31-12
31.3.1.4 Number of Fog Hours 31-13
31.3.1.5 Regional Road Restrictions 31-14
31.3.2 Road Transportation Outlook 31-14
31.3.2.1 Road Infrastructure Improvements 31-17

31.4 Effects Assessment 31-17
31.4.1 Effects Assessment — Construction — Changes in Traffic Delays 31-21
31.4.1.1 Highway 29 North 31-21
31.4.1.2 Highway 29 South 31-23
31.4.1.3 Jackfish Lake Road 31-23
31.4.1.4 North Bank Minor Roads 31-24
31.4.1.5 Highway 97 North 31-25
31.4.1.6 Highway 97 South 31-26
31.4.2 Mitigation Measures – Changes in Traffic Delays 31-27

31.4.2.1 Construction 31-27
31.4.3 Effects Assessment – Construction – Changes in Road Safety 31-27
31.4.3.1 Highway 29 North 31-27
31.4.3.2 Highway 29 South 31-28
31.4.3.3 Jackfish Lake Road 31-29
31.4.3.4 North Bank Minor Roads 31-30
31.4.3.5 Highway 97 North 31-31
31.4.3.6 Highway 97 South 31-31
31.4.3.7 Sensitivity Analysis 31-32
31.4.4 Effects Assessment – Operations – Potential Changes in Road Safety 31-32
31.4.4.1 Highway 29 North 31-33
31.4.4.2 North Bank Minor Roads 31-33
31.4.4.3 Highway 97 North 31-33
31.4.5 Mitigation Measures – Changes in Road Safety 31-34
31.4.5.1 Construction 31-34
31.4.6 Summary of Mitigation Measures 31-35

31.5 Summary of Effects Assessment and Mitigation Measures 31-35
31.5.1 Summary Table 31-35
31.5.2 Other Mitigation Options Consider 31-39

31.6 Residual Effects 31-39
31.6.1 Characterization of Residual Effects 31-39
31.6.2 Standards or Thresholds for Determining Significance 31-44
31.6.3 Determination of Significance of Residual Effects 31-44

31.7 Cumulative Effects Assessment 31-46

31.8 Monitoring and Follow-Up 31-46

32 Heritage Resources 32-1

32.1 Approach 32-1
32.1.1 Regulatory and Policy Setting 32-2
32.1.1.1 Canadian Environmental Assessment Act, 2012 32-2
32.1.1.2 British Columbia Environmental Assessment Act 32-2
32.1.1.3 British Columbia Fossil Management Framework 32-2
32.1.1.4 British Columbia Heritage Conservation Act 32-3
32.1.1.5 Cremation, Interment and Funeral Services Act and Coroners Act 32-4
32.1.1.6 Aboriginal Groups' Heritage Policies and Memoranda of Understanding 32-4
32.1.2 External Communications 32-4
32.1.3 Key Issues and Identification of Potential Effects 32-5
32.1.4 Standard Mitigation Measures and Effects Addressed 32-9
32.1.5 Selection of Key Indicators 32-11
32.1.6 Spatial and Temporal Boundaries 32-14
32.1.6.1 Spatial Boundaries 32-14
32.1.6.2 Temporal Boundaries 32-14

32.2 Baseline Conditions 32-14
32.2.1 Review of Existing Information 32-15
32.2.1.1 Palaeontological Resources 32-15
32.2.1.2 Archaeological Resources 32-15
32.2.1.3 Historical Resources 32-18

32.2.2 Field Summary 32-18
32.2.2.1 Palaeontological Resources 32-19
32.2.2.2 Archaeological Resources 32-20
32.2.2.3 Historical Resources 32-21
32.3 Effects Assessment 32-23
32.3.1 Effects Assessment – Construction – Heritage Resources 32-24
32.3.1.1 Primary Construction Activities 32-24
32.3.1.2 Dam, Generating Station, and Spillways 32-24
32.3.1.3 Reservoir 32-25
32.3.1.4 Hudson's Hope Shoreline Protection 32-25
32.3.1.5 Transmission Line to Peace Canyon 32-25
32.3.1.6 Highway 29 Realignment 32-25
32.3.1.7 Construction Access 32-25
32.3.1.8 Quarried and Excavated Construction Materials 32-26
32.3.1.9 Worker Accommodation 32-26
32.3.2 Effects Assessment – Operations – Heritage Resources 32-26
32.3.2.1 Dam, Generating Station, and Spillways 32-26
32.3.2.2 Reservoir 32-26
32.3.2.3 Transmission Line to Peace Canyon 32-27
32.3.2.4 Highway 29 Realignment 32-27
32.3.3 Mitigation Measures – Heritage Resources 32-27
32.3.3.1 Palaeontological Resources 32-28
32.3.3.2 Archaeological Resources 32-35
32.3.3.3 Historical Resources 32-46
32.3.3.4 Summary of Proposed Heritage Resources Mitigation 32-51
32.3.3.5 Other Mitigation Measures Considered 32-53
32.4 Residual Effects 32-53
32.4.1 Characterization of Residual Effects 32-53
32.4.2 Standards or Thresholds for Determining Significance 32-62
32.4.3 Assessing Significance of Residual Effects on Palaeontological Sites 32-62
32.4.4 Assessing Significance of Residual Effects on Archaeological Sites 32-62
32.4.5 Assessing Significance of Residual Effects on Historical Sites 32-63
32.4.6 Determination of Significance of Residual Effects 32-63
32.5 Cumulative Effects Assessment 32-65
32.5.1 Screening of Cumulative Effects 32-65
32.6 Monitoring and Follow-up 32-65
References 32-68
Literature Cited 32-68
Internet Sites 32-72
Personal Communications 32-73
33 Human Health 33-1
33.1 Approach 33-1
33.1.1 Regulatory Framework 33-2
33.1.1.1 Drinking and Recreational Water Quality 33-2
33.1.1.2 Air Quality 33-4
33.1.1.3 Noise 33-5
33.1.1.4 Electric and Magnetic Fields 33-6
33.1.1.5 Methylmercury 33-7
33.1.2 Key Issues and Identification of Potential Effects 33-7
33.1.3 Standard Mitigation Measures and Effects Addressed 33-11

33.1.4 Selection of Key Indicators 33-12
33.1.5 Spatial and Temporal Boundaries 33-15
33.1.5.1 Spatial Boundaries 33-15
33.1.5.2 Temporal Boundaries 33-16

33.2 Information Sources and Methods 33-17
33.2.1 Information Sources 33-17
33.2.1.1 Reference Documents 33-17
33.2.1.2 Interviews 33-18
33.2.1.3 Human Receptor Mapping – Application in Ambient Air Quality and Noise and Vibration Modelling 33-18
33.2.1.4 Surveys 33-19
33.2.1.5 Aboriginal and Traditional Community Knowledge 33-19
33.2.2 Methodology 33-20
33.2.2.1 Contaminant Screening 33-20
33.2.2.2 Receptor Screening 33-21
33.2.2.3 Exposure Pathway Screening 33-23
33.2.2.4 Exposure and Risk Assessment 33-24

33.3 Baseline Conditions 33-25
33.3.1 Potable and Recreational Water Quality 33-25
33.3.1.1 Human Receptors 33-25
33.3.1.2 Drinking Water Sources 33-25
33.3.1.2.1 Ground Water Wells 33-25
33.3.1.2.2 Recreational Water Use 33-25
33.3.1.3 Baseline Conditions – Potable and Recreational Water Quality 33-26
33.3.2 Ambient Air Quality 33-28
33.3.2.1 Human Receptors 33-28
33.3.2.2 Ambient Air Quality Baseline Conditions 33-30
33.3.3 Noise and Vibration 33-31
33.3.3.1 Human Receptors 33-31
33.3.3.2 Noise and Vibration Baseline Conditions 33-32
33.3.4 Electric and Magnetic Fields 33-32
33.3.4.1 Human Receptors 33-32
33.3.4.2 Status of Research on Health Effects from EMF 33-32
33.3.4.3 Electric and Magnetic Fields Baseline Conditions 33-33
33.3.5 Country Foods and Methylmercury in Fish 33-33
33.3.5.1 Fish Consumption and Retention 33-33
33.3.5.2 Baseline Mercury Levels of Selected Aboriginal Groups 33-35
33.3.5.3 Country Foods and Methylmercury in Fish – Baseline Conditions 33-35

33.4 Effects Assessment 33-38
33.4.1 Effects Assessment – Operations – Change in Potable and Recreational Water Quality and Effect on Human Health 33-38
33.4.1.1 Site C Reservoir 33-38
33.4.1.1.1 Surface Water Quality 33-38
33.4.1.1.2 Groundwater Quality 33-39
33.4.2 Mitigation Measures – Change in Potable and Recreational Drinking Water Quality and Effect on Human Health 33-40
33.4.3 Effects Assessment – Construction – Change in Ambient Air Quality and Effect on Human Health 33-40
33.4.3.1 Site C Dam, Generating Station, and Spillways (including Wuthrich Quarry, 85th Avenue Industrial Lands, and Area E) 33-41
33.4.3.1.1 Dustfall 33-41
33.4.3.1.2 Total Suspended Particulates (TSP) 33-41
33.4.3.1.3 PM2.5 and PM10 33-41

33.4.3.1.4 NO2, SO2, and CO 33-42
33.4.3.2 Site C Reservoir Preparation and Filling 33-45
33.4.3.3 Transmission Line to Peace Canyon 33-45
33.4.3.4 Quarried and Excavated Material Development 33-45
33.4.3.5 Construction Access Road Development and Highway 29 Realignment 33-46
33.4.4 Mitigation Measures – Change in Ambient Air Quality and Effect on Human Health 33-46
33.4.5 Effects Assessment – Construction – Change in Noise and Vibration and Effect on Human Health 33-47
33.4.5.1 Site C Dam, Generating Station, and Spillways (including 85th Avenue Industrial Lands) 33-48
33.4.5.2 Site C Reservoir Preparation and Filling 33-50
33.4.5.3 Transmission Line to Peace Canyon 33-51
33.4.5.4 Quarried and Excavated Material Source Development 33-51
33.4.5.5 Highway 29 Realignment 33-52
33.4.5.6 Construction Access Road Development 33-53
33.4.5.7 Summary of Receptor Sites with Exceedances 33-54
33.4.6 Mitigation Measures – Change in Noise and Vibration 33-54
33.4.6.1 Site C Dam, Generating Station, and Spillways 33-54
33.4.6.2 Site C Reservoir Preparation and Filling 33-55
33.4.6.3 Highway 29 Realignment 33-56
33.4.7 Effects Assessment – Operations – Change in Electric and Magnetic Fields and Effect on Human Health 33-56
33.4.8 Mitigation Measures – Change in Electric and Magnetic Fields and Effect on Human Health 33-57
33.4.9 Effects Assessment – Operations – Change in Country Foods and Effect on Human Health 33-58

List of Appendices

Appendix A Social Assessment Supporting Documentation:

- Part 1) Social Assessment Interview Methodology;
- Part 2) Population and Demographic Base Case Forecast;
- Part 3) Population Effects Model;
- Part 4) Housing Baseline Data;
- Part 5) Housing Effects Model;
- Part 6) Supplementary Health Service Information and Education Baseline;
- Part 7) Transportation Baseline

Appendix B Project Traffic Analyses Report

Appendix C Heritage Resource Assessment Report

Appendix D Human Health Assessment Supporting Documentation:

- Part 1) Human Health Assessment Interview Methodology;
- Part 2) Human Health Technical Memoranda;
- Part 3) Recreational Angler Fish Consumption
