

Map Notes:
1. Datum: NAD83
2. Projection: UTM Zone 10N
3. Base Data: Province of B.C.
4. Hillshade created from Digital Elevation Models (DEM) generated from LiDAR data acquired July/August 2006.
5. Proposed reservoir area (461.8 m maximum normal elevation) from Digital Elevation Models (DEM) generated from LiDAR data acquired July/August 2006.
6. The 5 Year Beach Line for reservoir clearing is not shown due to scale; at the map scale it would be approximately equal to the reservoir inundation extents. Refer to the clearing plan for actual clearing extents.
7. Worker accommodation and Site C substation are not shown; would be constructed within the dam site area.
