Hi Derek,

Please see the attached comments from the federal review team on the Environmental Impact Statement for the BURNCO Aggregate Mine Project. These comments were generated by Environment and Climate Change Canada, Fisheries and Oceans Canada, Health Canada, Natural Resources Canada, and Transport Canada.

BURNCO's response to the comments will be considered as the Comprehensive Study Report is prepared. The response will also inform the Agency's advice to the Minister of Environment and Climate Change Canada on the significance of adverse environmental impacts of the Project.

Should you have any questions the Agency will facilitate any discussions between BURNCO and the federal review team.

Regards,

Rob Hajdú
