Written Submission:

The world we create for our child and their children is our responsibility. We have no right to destroy irreplaceable natural beauty and wildlife habitat. We have no right to pollute a home that we are merely visiting and passing on. We have a responsibility to do everything in our power to create a sustainable future for our children and the animals we share this world with. Clean water and clean air are not options they are necessities.

1. the disposition of the proceeding that you will advocate, if any;

2. the facts that you propose to show in evidence;

3. the reasons why you believe the Panel should decide in the manner you advocate, and;

4. if relevant, whether you have attempted to resolve issues associated with the proceeding directly with the proponent;
