

Appendix 4.7-C

Record of Public Consultation

AJAX PROJECT

**Environmental Assessment Certificate Application / Environmental Impact Statement
for a Comprehensive Study**

Ajax Project – Summary of Communications with the Public to March 31, 2015

This table has three sections. The first section, “Public – Community Organizations” – is organized by stakeholder and then chronologically so all Records of Contact (ROCs) are together for each organization. If multiple organizations attended the same meeting, the meeting is listed under each organization. The remaining two sections are organized chronologically only.

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Public – Community Organizations (organized by stakeholder and then chronologically)				
Anglican Parishes of the Central Interior, KAM	2933	Phone Call	July 22, 2014	Discussed the Goose Lake Church and potential burial sites on the Project site.
Anglican Parishes of the Central Interior, KAM	3146	Phone Call	September 10, 2014	Discussed the Goose Lake Church and burial sites.
Association of Professional Engineers and Geoscientists of BC, KAM	3029	Presentation	February 14, 2012	KAM provided an overview presentation on the Project.
BC Agrologists, KAM	2816	Site Tour	May 9, 2013	KAM hosted a full-day site tour, video model presentation, and discussion for 38 members of the BC Agrologists.
Business Networking International, KAM	3037	Presentation	March 9, 2012	KAM provided an overview presentation on the Project.
Business Networking International, KAM	2016	Presentation	June 6, 2012	KAM provided an update presentation on the Project to approximately 40 members at Business Networking International's regular meeting. Topics of discussion included economic benefits, jobs, and the EA process and timelines.
Canadian Home Builders Association, KAM	2001	Presentation	April 11, 2012	KAM provided an overview presentation on the Project to approximately 150 people at the Canadian Home Builders Association monthly meeting. Topics of discussion included: project timeline, depth of EA studies, and economic opportunities.
Canadian Home Builders Association, KAM	2021	Community Event	June 22, 2012	KAM had an information booth at the Canadian Home Builders Association annual golf tournament to provide project information.
Canadian Home Builders Association, KAM	3041	Site Tour	October 2, 2012	KAM hosted a site tour for members of the Canadian Home Builders Association.
Daybreak Rotary Club, KAM	3025	Presentation	January 13, 2012	KAM provided an overview presentation on the Project.

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Grasslands Conservation Council, Purity Feed Co. Ltd., KAM	2886	Meeting	December 12, 2013	Meeting with stakeholders to discuss concerns relating to reclamation and noxious weeds. Concerns: (a) effectiveness of weed control during reclamation; (b) use of proper seed mixes; (c) effects on ranching and cattle movement; (d) potential for cattle to eat drilling mud or bentonite.
Grasslands Conservation Council, KAM	2902	Meeting	June 19, 2014	Meeting with stakeholder. KAM provided information on the updated General Arrangement. Topics of discussion included: grasslands, industrial disturbance, smelter, contaminants in and control of dust, groundwater, increased traffic on Highway 5A, on-site facilities, engagement, safety at Peterson Creek, and malfunctions. Concerns: (a) amount of grassland to be disturbed; (b) smelter; (c) extent of industrial disturbance to the south; (d) dust - amount, contaminants, control; (e) increased traffic during construction; (f) safety around Peterson Creek; (g) effect of malfunctions.
International Union of Operational Engineers, KAM	3034	Presentation	March 8, 2012	KAM provided an overview presentation on the Project.
International Union of Operational Engineers, KAM	2006	Site Tour	May 4, 2012	KAM hosted a site tour for union members.
Kamloops Area Preservation Association, KAM	2831	Drop-in Visit/Casual Meeting	July 7, 2013	Member of the association dropped by the KAM office to pick up her documents from the Community Advisory Group. Discussed potential health effects from the Project. Member also expressed frustration with the Community Advisory Group process. Concerns: (a) health effects from reduced air and water quality.
Kamloops Area Preservation Association, Lloyd George Elementary School, KAM	3176	Presentation	February 2, 2015	Presentation on mining and processing to the Grade 5 students.
Kamloops Astronomical Society, KAM	2033	Presentation	September 22, 2012	KAM provided an overview presentation on the dark sky study to about 35 members at a regular meeting of the society. Topics of discussion included: project light and noise emissions, mitigation strategies, and EA process and timelines.

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Kamloops Astronomical Society, Public, KAM	2838	Site Tour	July 27, 2013	KAM hosted a site tour for 11 members of the society and the general public. Topics of discussion included: TSF, potential project effects on the watershed, effects from blasting and noise, effects on Peterson Creek.
Kamloops Astronomical Society, KAM	2884	Presentation	September 10, 2014	KAM provided a presentation to update the society on the dark sky study. The society asked KAM to share the sampling locations for the study.
Kamloops Astronomical Society, Public, KAM	3006	Presentation	September 20, 2014	KAM provided a presentation on the dark sky study at the society's public open house.
Kamloops Bike Riders Association, KAM	2039	Meeting	November 2, 2012	Meeting with stakeholder. KAM provided a project update.
Kamloops Brain Injury Association, KAM	3056	Community Event	September 7, 2012	KAM attended the Kamloops Brain Injury Association golf tournament as a sponsor, and provided information on the Project.
Kamloops Brain Injury Association, KAM	3067	Community Event	November 1, 2012	KAM attended the Kamloops Brain Injury Association reception as a sponsor.
Kamloops Business Improvement Association, KAM	2844	Phone Call	August 2, 2013	KAM left a voicemail informing the association that KAM will not be submitting their EA Application in September as planned, and provided information from the press release.
Kamloops Business Improvement Association, KAM	2893	Phone Call	May 29, 2014	KAM informed the association of the updated General Arrangement, which was discussed. Also discussed project support/non-support in the community, and the 3-D table top model under construction.
Kamloops Central Business Improvement Association, KAM	3046	Community Event	May 23, 2012	KAM attended the launch of the Kamloops Street Ambassadors as a sponsor and provided project information.
Kamloops Centre for Seniors Information, KAM	3038	Presentation	April 28, 2012	KAM provided an overview presentation on the Project.

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Kamloops Centre for Seniors Information, KAM	2002	Meeting	May 2, 2012	Meeting with Kamloops Centre for Seniors Information to discuss setting up an information display at their two locations in Kamloops at the Fortune Mall and Brock Mall. Kamloops Centre for Seniors requested posters of the proposed site layout to go with the brochures and any other handouts that were available for people to pick up. KAM had two posters printed and delivered to their office the following week along with a supply of the information booklets that were sent out to residences in the Kamloops Daily News in January 2012. Discussed setting up an information display at their two locations in Kamloops to provide seniors with information about the Project.
Kamloops Centre for Seniors Information, KAM	2034	Presentation	September 26, 2012	KAM provided an update presentation on the Project.
Kamloops Chamber of Commerce, KAM	2020	Presentation	June 14, 2012	KAM met with the Kamloops Chamber of Commerce to provide them with an update on the Project.
Kamloops Chamber of Commerce, KAM	3059	Community Event	September 10, 2012	KAM sponsored the Chamber event to announce finalists for the Business Excellence Awards, and also provided project information.
Kamloops Chamber of Commerce, KAM	3064	Community Event	October 13, 2012	KAM attended the Chamber of Commerce Business Awards Gala and sponsored the Home-Based Business category.
Kamloops Chamber of Commerce, KAM	2843	Phone Call	August 2, 2013	KAM informed the Chamber that KAM will not be submitting its EA Application in September as originally planned. Also invited the Chamber to the community sessions in September 2013.
Kamloops Chamber of Commerce, KAM	2891	Phone Call	May 29, 2014	KAM left a voicemail informing the Chamber of the updated General Arrangement.
Kamloops Communities in Bloom, KAM	3052	Community Event	July 31, 2012	KAM attended the Kamloops Communities in Bloom reception as a sponsor and provided project information.
Kamloops Communities in Bloom, KAM	3078	Community Event	July 15, 2013	KAM attended the Kamloops Communities in Bloom reception as a sponsor and provided project information.

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Kamloops & District Fish & Game Association, KAM	2751, 2755	Presentation	March 10, 2011	KAM provided an overview presentation at the association's general meeting. In follow-up, the association thanked KAM by letter for their presentation on March 10, 2011. Noted they have formed a committee to review the Project in relation to their fish and wildlife resources, and will submit comments during the EA process (April 26, 2011).
Kamloops & District Fish & Game Association, KAM	3141	Phone Call	August 19, 2014	KAM invited the association to participate in a fish habitat loss compensation planning meeting.
Kamloops & District Fish & Game Association, Kamloops Fly Fishers' Association, Riseform Fishing, KAM, Knight Piésold Ltd.	3010	Meeting	September 17, 2014	Meeting with special interest group in the angling community to discuss fish habitat compensation planning. KAM provided information and there was discussion on: the updated General Arrangement; history of Jacko Lake and the preliminary fish habitat assessment; anticipated habitat changes because of the Project; why the Kinder Morgan pipeline is being relocated; potential diversion of Peterson Creek; fish compensation regulatory requirements; blasting and effects on fish; monitoring; ideas for offsets; consultation on fish habitat compensation with a broader audience; increased traffic in the area; restoration of habitat after mine closure; and next steps in the process. Group concerns: (a) pumping station affecting flow in the southeast arm of Jacko Lake, causing fish loss in the area; (b) effects of blasting and noise on fish; (c) effects of blasting on the fishing experience; (d) increased traffic in the area.
Kamloops & District Real Estate Association, KAM	3033	Presentation	March 7, 2012	KAM provided an overview presentation on the Project.
Kamloops Downtown Rotary Club, KAM	3028	Presentation	February 13, 2012	KAM provided an overview presentation on the Project.
Kamloops Exploration Group Society, KAM	3026	Presentation	January 18, 2012	KAM provided an overview presentation on the Project.
Kamloops Fly Fishers' Association, KAM	3142	Meeting	August 19, 2014	Meeting with the stakeholder to discuss the upcoming fish habitat loss compensation meeting for Jacko Lake and Peterson Creek. KAM wants to involve special interest groups in the compensation discussions.

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Kamloops Fly Fishers' Association, Kamloops & District Fish & Game Association, Riseform Fishing, KAM, Knight Piésold Ltd.	3010	Meeting	September 17, 2014	Meeting with special interest group in the angling community to discuss fish habitat compensation planning. KAM provided information and there was discussion on: the updated General Arrangement; history of Jacko Lake and the preliminary fish habitat assessment; anticipated habitat changes because of the Project; why the Kinder Morgan pipeline is being relocated; potential diversion of Peterson Creek; fish compensation regulatory requirements; blasting and effects on fish; monitoring; ideas for offsets; consultation on fish habitat compensation with a broader audience; increased traffic in the area; restoration of habitat after mine closure; and next steps in the process. Group concerns: (a) pumping station affecting flow in the southeast arm of Jacko Lake, causing fish loss in the area; (b) effects of blasting and noise on fish; (c) effects of blasting on the fishing experience; (d) increased traffic in the area.
Kamloops Interior Summer School of Music, KAM	3051	Community Event	July 25, 2012	KAM attended the School of Music's Festival as a sponsor and provided project information.

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Kamloops Physicians for a Healthy Environment Society, KAM	2897, 2898, 2899, 2900	Letter	February 27, 2014	<p>In follow-up to the society's recent public presentation, KAM noted they share the association's concerns about air quality and human health in Kamloops, and respect their efforts to raise public awareness about the topic. KAM provided facts on the air quality regulations to be followed, noted there will not be a smelter on-site, and noted that air quality studies are underway. KAM offered to arrange a meeting between the association and the health and environment experts conducting the studies.</p> <p>In response, the society declined KAM's offer. The society noted they would like a public forum style of meeting, and requested a list of the studies underway and when they will be released to the public (April 2, 2014).</p> <p>Concerns: (a) cumulative effects on air quality from additional industry so close to the city.</p> <p>In response to the society's letter, KAM requested a private meeting for preliminary discussion as KAM doesn't believe a public forum is a productive climate for technical discussions at this time. Asked for the society's insights regarding the National Pollutant Release Inventory data, and an opportunity to provide information on how the data will be utilized (April 16, 2014).</p> <p>The society responded to KAM's letter on April 22, 2014 noting they don't feel a private meeting would be productive and does not address the society's objectives outlined in their April 2, 2014 letter. The society looks forward to an open forum when the conditions they requested can be met.</p>
Kamloops Physicians for a Healthy Environment Society, KAM	2896	Letter	June 10, 2014	<p>KAM informed the society of KAM's updated General Arrangement. Again requested a private meeting with the society with KAM's experts to discuss the ongoing studies. Also invited the society to the upcoming community information sessions on June 24 and 25, 2014.</p>
Kamloops Pro Business Club, KAM	2004	Presentation	April 26, 2012	<p>KAM provided an overview presentation of the Project to approximately 200 people at the club meeting. Topics of discussion included: EA process, economic benefits, and jobs.</p>

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Kamloops Retired Professionals Group, KAM	3024	Presentation	January 12, 2012	KAM provided an overview presentation on the Project.
Kamloops Stockmen's Association, KAM	2768	Letter	May 11, 2012	The association noted that at their annual general meeting a motion was passed regarding negotiations with KAM. Requested acknowledgement of the letter or a meeting to discuss the motion and its purpose.
Kamloops Trap and Skeet Club, KAM	3155, 3156, 3157	E-mail	June 9, 2014	KAM informed the Kamloops Trap and Skeet Club of the airborne geophysics survey planned to start on June 16, 2014. In response, the Club informed KAM they have a social shoot planned for June 16, 2014, and the BC Sporting Clays Challenge from June 20-22, 2014. Noted that if the helicopter is flying at low levels, it could be within the range of shot-shell pellets, posing a safety issue. Asked that KAM make adjustments to the survey schedule to accommodate the event (June 10, 2014). KAM informed the Club that the survey will work around their time constraints (June 11, 2014).
Kamloops West Rotary Club, KAM	2030	Presentation	September 6, 2012	KAM provided an overview presentation on the Project at their regular meeting. Topics of discussion included: economic benefits, jobs, and the EA process and timelines.
Lloyd George Elementary School, KAM	2008	Presentation	May 7, 2012	KAM made a presentation to the Grade 4/5 class on extraction and processing of ore and what it is used for to tie into Mining Week.
Lloyd George Elementary School, KAM	3176	Presentation	February 2, 2015	Presentation on mining and processing to the Grade 5 students.
Mining Association of BC, Venture Kamloops, KAM	3035	Presentation	March 8, 2012	KAM provided an overview presentation of the Project at the Venture Kamloops and MABC mine managers' meeting.
Mining Association of BC, KAM	2009	Presentation	May 8, 2012	KAM provided an update presentation on the Project.
North Shore Business Improvement Association, KAM	2041	Presentation	January 22, 2013	KAM provided an update presentation on the Project.

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
North Shore Business Improvement Association, KAM	2049	Meeting	May 23, 2013	Meeting with stakeholder to discuss ideas that KAM has been looking into for corporate sustainability responsibility for the Project, including day-lighting Peterson Creek through the city centre, steelhead trout population revival, and the issue with burrowing owls.
North Shore Business Improvement Association, KAM	2845	Phone Call	August 2, 2013	KAM informed the association that KAM is delaying submission of their EA Application. Invited the association to the community information sessions in September 2013.
North Shore Business Improvement Association, KAM	2849	Meeting	August 13, 2013	Meeting with stakeholder to discuss the August 2, 2013 press release about KAM delaying the EA Application submission, and KAM participation in upcoming events.
North Shore Business Improvement Association, KAM	2892	Phone Call	May 29, 2014	KAM left a voicemail informing the association of the updated General Arrangement.
RCMP Veterans' Association, KAM	3027	Presentation	January 18, 2012	KAM provided an overview presentation on the Project.
Resource Industry Suppliers Association, KAM	3040	Presentation	September 24, 2012	KAM provided an overview presentation on the Project at the RISA Trade Mission.
Rotary Club of Kamloops, KAM	3039	Community Event	June 6, 2012	KAM sponsored a hole at the Rotary Golf Tournament and provided an information booth for players to learn about the Project. The event took place at Rivershore Estates and Golf Links.
Rotary Club of Kamloops, KAM	2029	Community Event	August 10, 2012	KAM sponsored the Rotary Club Ribfest, and had a booth to provide information on the Project, including a scale model of the proposed mine site layout and rocks from the mine site. Many people that stopped by the booth expressed their support for the Project.
Rotary Club of Kamloops, KAM	2051	Presentation	July 4, 2013	KAM provided an update presentation on the Project.
Rotoract Club, KAM	2018	Presentation	June 12, 2012	KAM provided an overview presentation of the Project to approximately 35 members at the Rotoract Club's regular meeting. Topics of discussion included: economic benefits, jobs, and EA process and timelines.

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
School District No. 73 (Kamloops/Thompson), Minerals Ed, KAM	3013	Site Tour	October 24, 2014	KAM provided a presentation on the Project as well as a site tour for 26 teachers from elementary and secondary schools in School District No. 73, facilitated through Minerals Ed (assists with facilitation of education programs for teachers on mineral development).
St. Ann's Academy, KAM	3042	Presentation	October 17, 2012	KAM did two presentations on the Project at St. Ann's Academy social study classes.
Thompson Rivers University, KAM	3030	Presentation	February 15, 2012	KAM provided a project overview presentation to the Thompson Rivers University (TRU) Executive.
Thompson Rivers University, KAM	3036	Presentation	March 9, 2012	KAM provided a project overview presentation to the TRU President.
Thompson Rivers University, KAM	2012	Meeting	May 16, 2012	Meeting with TRU to discuss synergies between TRU and KAM.
Thompson Rivers University Foundation , KAM	3054	Community Event	August 24, 2012	KAM sponsored the TRU Foundation golf tournament and provided project information.
Thompson Rivers University, KAM	3057	Presentation	September 7, 2012	KAM provided a project overview presentation to the Thompson Rivers University Forum on Mining.
Thompson Rivers University, KAM	3062	Community Event	September 21, 2012	KAM sponsored the TRU Wolfpack golf tournament and provided project information.
Thompson Rivers University, KAM	3075	Meeting	February 7, 2013	Meeting with TRU. KAM provided a project update to the TRU Faculties of Trades, Sciences, Business and Economics, Student Development, Arts, Advancement, and Human, Social and Educational Development.
Thompson Rivers University, KAM	2043	Meeting	February 12, 2013	Meeting with TRU to discuss mentoring opportunities with TRU students.
Thompson Rivers University, KAM	2862	Site Tour	September 26, 2013	KAM hosted a site tour for the TRU heavy duty mechanics class, providing information about the Project, the mining process, and job opportunities.

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Thompson Rivers University, KAM	3139	Meeting	August 6, 2014	Meeting with TRU to discuss logistics and next steps to set up reclamation test trials at the historic Afton TSF that will be designed and maintained by the TRU faculty and graduate students.
Tourism Kamloops, KAM	3032	Presentation	February 27, 2012	KAM provided an overview presentation on the Project.
Tourism Kamloops, KAM	2766	Letter	April 24, 2012	Further to KAM's mining workshop on April 18, 2012, Tourism Kamloops provided an outline of the types of information they could provide relating to tourism values and potential economic effects on the tourism industry. The information relates to outdoor recreation, air quality and visual effects on visitor impressions of the area, traffic effects, and economic effects.
United Steelworkers Union Local 7619, KAM	3023	Presentation	January 10, 2012	KAM provided an update presentation on the Project to the Local, who represent Highland Valley Copper.
Venture Kamloops, Mining Association of BC, KAM	3035	Presentation	March 8, 2012	KAM provided an overview presentation of the Project at the Venture Kamloops and MABC mine managers' meeting.
Venture Kamloops, KAM	2007	Meeting	May 7, 2012	Meeting with stakeholder to provide a project update.
Venture Kamloops, KAM	2024	Site Tour	July 12, 2012	KAM hosted a site tour for Venture Kamloops.
Venture Kamloops, KAM	2044	Meeting	February 14, 2013	Meeting with stakeholder to provide a project update.
Venture Kamloops, KAM	2047	Meeting	May 16, 2013	Meeting with stakeholder to discuss collaborating on Venture Kamloops' community strategies.
Venture Kamloops, KAM	2050	Meeting	June 20, 2013	Meeting with stakeholder to discuss Venture Kamloops' sustainable industries program roll-out.

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Public – Open Houses, Workshops, and Community Advisory Group Meetings <i>(organized chronologically)</i>				
Public, BC EAO	2444	Public Comment	July 11, 2011	There were 182 comments provided during the Project Description public comment period. Comments related to air quality (health, climate, mitigation, economics, cumulative effects), noise (quality of life, recreation, health, business, wildlife, property values, cumulative effects), vibration (housing, health, landslides, fish, malfunctions), light pollution (effects on ecosystems), fish (habitat, cumulative effects), surface water quality (process, malfunctions, cumulative effects, quantity, climate change), groundwater quality (processing, quantity), wildlife (noise, light pollution, mining, traffic, habitat, water, dust, transmission line, mitigation), transmission line, grasslands (wildlife, dust), wetlands, aesthetics, well-being, safety, recreation (noise, surface water, grasslands, traffic, water quality, birds, wildlife), tourism (traffic, aesthetics, economy, air quality, infrastructure), property values, investment, property damage compensation, economy, employment, health, land and resource use, agriculture (water, cumulative effects, dust, wildlife), traffic (cumulative impacts), infrastructure, soil stability (blasting, groundwater), power, consultation, monitoring, reclamation, and operations.
Public, KAM	2013	Office Grand Opening	August 8, 2011	KAM hosted a project overview and provided information to the public at the new KAM office grand opening.
CAG: Aberdeen Highlands Development Corp., BC EAO, CEA Agency, CPEK, Grasslands Conservation Council, Kamloops & District Fish & Game Association, Kamloops Area Preservation Association, Kamloops Astronomical Society, Kamloops Naturalist Club, Kamloops Stockmen's Association, Pineview Community Group, Thompson Institute of Environmental Studies	2079	Meeting	February 2, 2012	Community Advisory Group meeting. Initial discussion of developing a CAG, and to develop and/or refine the principles, terms of reference, and operating procedures for the group.

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Public, BC EAO, CEA Agency, KAM	2053	Open Houses	February 6 and 7, 2012	BC EAO and CEA Agency hosted two community information sessions as part of the draft AIR/EIS Guidelines Public Comment Period.
CAG: Aberdeen Community Association, Aberdeen Highlands Development Corp., BC EAO, CPEK, Grasslands Conservation Council, Kamloops & District Fish & Game Association, Kamloops Area Preservation Association, Kamloops Astronomical Society, Kamloops Fly Fishers' Association, Kamloops Naturalist Club, Kamloops Stockmen's Association, Lac Le Jeune Conversation Association, Pineview Community Group, Public, Thompson Institute of Environmental Studies, Thompson Watershed Coalition, KAM	2081	Meeting	February 27, 2012	Community Advisory Group meeting. Topics of discussion included: terms of reference/operating procedures, EA process (section 10 and 11 Orders), KAM's draft Public Consultation Plan, Feasibility Study Technical Report, list of questions submitted for KAM, and future group meeting dates and topics.
CAG: Aberdeen Community Association, Aberdeen Highlands Development Corp., BC EAO, CEA Agency, CPEK, Grasslands Conservation Council, Kamloops & District Fish & Game Association, Kamloops Area Preservation Association, Kamloops Astronomical Society, Kamloops Fly Fishers' Association, Kamloops Naturalist Club, Kamloops Stockmen's Association, Lac Le Jeune Conversation Association, Public, Thompson Watershed Coalition	2088	Meeting	March 28, 2012	Community Advisory Group meeting. Topics of discussion included: site tour in May or June, CAG terms of reference, Public Consultation Plan, and review of draft AIR/EIS Guidelines comments.

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Public, KAM	2014	Workshop	April 18, 2012	KAM hosted a workshop on mining processes, held at TRU and attended by 118 people. Provided project-specific information to community members living closest to the mine site. Topics of discussion included: water use and quality, dust control, mine layout, project footprint, effects on the Kinder Morgan pipeline, increased traffic on local roads, effects on the city's image as a tournament capital, studies on country food consumption, onsite fuel storage, carbon footprint, cumulative effects on pollution levels, and a model of the mine site.
CAG, KAM	2090	Meeting	April 19, 2012	Community Advisory Group meeting. Discussed CAG feedback from the April 18, 2012 public workshop and improvements for future workshops. Suggestions related to workshop design, content, support, and logistics.
Public, KAM	2015	Workshop	May 30, 2012	<p>KAM hosted a workshop on mining processes, held at TRU and attended by approximately 50 people. Provided project-specific information similar to the April 18, 2012 workshop. Topics of discussion included: the processing plant, and tailings and waste rock.</p> <p>Comments during the exercises related to: air quality, general mining concerns, development of a 3-D model, response to public concerns, jobs, ongoing monitoring, accountability after a permit is awarded, reclamation, dust and contaminants, noise, vibration, effects on the Kinder Morgan pipeline, air quality monitoring, EA process, carbon footprint, leakage into Jacko Lake and Peterson Creek, grasslands restoration, overseas processing, visual aesthetics of waste rock piles, water usage, nearby property values, increased population, and change in topography.</p> <p>Issues: (a) contaminants in dust; (b) noise, dust, and vibration related to processing; (c) need for air quality monitoring; (d) visibility and size of waste rock and tailings piles; (e) water usage; (f) potential for contaminants to leak into waterbodies; (g) reclamation of waste rock and tailings; (h) proximity to the city; (i) potential health effects; (j) effects on wildlife and fisheries; (k)</p>

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
				soil stability; (l) chemicals released during the mining process; (m) decrease in nearby property values; (n) increase in crime from increased population.
Public, KAM	2019	Workshop	June 13, 2012	<p>KAM hosted a workshop on the EA process and environmental studies being undertaken, held at TRU and attended by approximately 65 people. KAM provided information about the EA process, valued components, and studies relating to air quality, human health, noise, vibration, Jacko Lake, water (quality, balance, use), wildlife, grasslands, rare plants, and reclamation. Comments during the exercises related to: project footprint and plans for expansion, reclamation, road access, timelines for studies, long-term effects on the area, carbon footprint, tailings process, increased local traffic, waste rock, baseline studies, wildlife, visual effects, and air quality/ dust.</p> <p>Issues: (a) proximity to the city; (b) carbon footprint; (c) long-term effects on the area; (d) waste going into Inks Lake; (e) traffic volume on Lac la Jeune Road; (f) loss of natural habitat, particularly grasslands; (g) visual effects; (h) effects of dust on nearby children’s health.</p>
Public, KAM	2022	Workshop	June 28, 2012	<p>KAM hosted a community workshop at TRU to provide information and the project environmental studies. Topics discussed included: effects on and mitigation for recreation and Inks Lake, TSF, dust modelling, project footprint, reclamation, human health assessment, BC EAO Working Group, groundwater contamination, dark sky study, diversion of Peterson Creek, effects of blasting on waterbodies, and climate change.</p> <p>Issues: (a) effects on recreation and Inks Lake; (b) reclamation of the tailings and waste rock facility; (c) restoration of grassland areas; (d) effects of blasting on waterbodies and groundwater; (e) potential for light pollution; (f) additional fog from evaporated water.</p>

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
CAG: Aberdeen Community Association, Aberdeen Highlands Development Corp., BC EAO, CEA Agency, CPEK, Grasslands Conservation Council, Kamloops & District Fish & Game Association, Kamloops Area Preservation Association (KAPA), Kamloops Astronomical Society, Kamloops Fly Fishers' Association, Kamloops Naturalist Club, Kamloops Stockmen's Association, Pierce Lefebvre Consulting, Pineview Community Group, Public, Thompson Watershed Coalition	2097	Meeting	October 2, 2012	<p>Community Advisory Group meeting. Topics of discussion included: BC EAO and CEA Agency review of draft AIR/EIS Guidelines comments, next steps in the EA process and CAG involvement in the process, traffic along Goose Lake Road, air quality, blasting, infrastructure and housing, compliance and enforcement, tourism, socio-economics, housing, recreation, and financial feasibility.</p> <p>Group concerns: (a) increased traffic on Goose Lake Road; (c) cumulative effects on air quality; (d) noise; (e) dust and vibration from blasting; (f) socio-economic effects; (g) tournament branding; (h) recruitment/retention of professionals, (i) air transport; (j) infrastructure; (k) housing; (l) recreation opportunities; (m) compliance, enforcement, and accountability.</p>
Public, KAM	3073	Open Houses	January 15 and 16, 2013	<p>KAM hosted community information sessions, attended by approximately 575 people. The comment form asked that responders rank project effects on six factors, in the following order: air and water quality in Kamloops (negative), the local environment (negative), community health (neutral), community services and infrastructure (positive), growth in Kamloops (positive), and tax revenue to Kamloops (positive). No responses were extremely positive or negative.</p>
Public, KAM	3106	Open Houses	September 9-12, 2013	<p>KAM hosted four community information sessions, attended by 214 people total, to provide residents with more information on the environmental studies being undertaken. Sessions covered ground vibration and air-blast controls, noise and vibration models, water quality models, air quality models, and the human health and ecological risk assessment.</p>

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Public, KAM	2916	Open Houses	June 24-26, 2014	KAM hosted three community information sessions, attended by approximately 150 people per session, to provide details on the updated General Arrangement. Topics of discussion related to: Goose Lake Church burial sites, Goose Lake Road, creating a heritage park, and fugitive dust. Issues: (a) burial area at Goose Lake Church; (b) fugitive dust and effects on wildlife and cattle.
CAG, KAM	3175	Site Tour	October 20, 2014	KAM hosted a site tour for the CAG.
Public, BC EAO, CEA Agency, KAM	3022	Open Houses	November 25 and 26, 2014	BC EAO and CEA Agency hosted community information sessions to provide community members an opportunity to speak with various federal and provincial EA representatives and technical experts, and provide their feedback on the revised AIR/EIS Guidelines. Topics of discussion included: housing and property values, job opportunities, the updated General Arrangement, reclamation and closure, Goose Lake, power line, noise, air quality, TSF, human health, EA process, and monitoring. Issues: (a) landowners being forced to sell their properties; (b) property values; (c) proximity of mine to houses; (d) loss of Goose Lake rather than mitigation to save it; (e) view obstruction from power line and waste storage facility; (f) noise from waste rock storage facility and plant site; (g) effects of dust from the plant site on air quality; (h) effects of tailings effluent in the event of a breach; (i) effects on human health; (j) KAM's commitment to monitoring.
Public - Correspondence, Meetings, Site Tours, and Community Events <i>(organized chronologically)</i>				
Project Mailing List, KAM	2113	E-mail	July 18, 2011	KAM invited those on the project mailing list to attend the KAM community office opening.
Acres Enterprises, KAM	2011	Meeting	May 14, 2012	KAM provided information on the Project.
BC Lions Football Club, KAM	3047	Community Event	June 19, 2012	KAM attended BC Lion's Training Camp as a sponsor and provided project information.
Kamloops Art Gallery, KAM	3050	Community Event	June 30, 2012	KAM attended the Kamloops Art Gallery open house as a sponsor and provided project information.

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Public, KAM	2038	Site Tours	July 28 to November 12, 2012	KAM hosted tours of the project site from July 28 through November 12, 2012 on Thursdays and Saturdays.
RDM Stem, KAM	2028	Meeting	August 8, 2012	KAM provided a project update.
Domtar, New Gold Inc., KAM, PR Associates	3055	Meeting	August 28, 2012	KAM met with local industry to provide a project update.
Best West Realty, KAM	2031	Presentation	September 11, 2012	KAM provided an overview presentation at the Best West Realty regular meeting for approximately 14 realtors. Topics of discussion included: economic benefits, jobs, the EA process and timelines, project location, and surrounding land use.
Grey Cup Festival Committee, KAM	3060	Community Event	September 12, 2012	KAM attended the Grey Cup tour as a sponsor and provided project information.
Public, Tobiano Golf Club, KAM	2032	Information Kiosk	September 22, 2012	KAM sponsored a golf tournament and hosted an information booth to provide project information.
BC EAO, CEA Agency, CAG	2098, 2099	Letter	November 16, 2012	Additional draft AIR/EIS Guidelines comments were provided by the CAG. Comments related to: property values, soil contamination, levels of uranium, test blasting, use of explosives, valued components, cumulative effects, jobs and employment, groundwater and groundwater monitoring, visual impact of blast plumes, and insurance and KAM corporate structure. BC EAO responded by letter to the CAG's draft AIR/EIS Guidelines comments, noting they will be considered part of the draft AIR/EIS Guidelines review process. The next version of the dAIR will be shared at the next CAG meeting (December 19, 2012).
CSC Electric , KAM	93, 198	E-mail, Meeting	March 11, 2013	CSC Electric provided information on their services, noting they are an Aboriginal company. Requested a meeting to provide further information. On March 14, 2013, a meeting was held and CSC Electric provided information on the services they can offer to KAM.

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Sunridge Equipment, KAM	65, 80	Phone Call	March 27, 2013	Sunridge Equipment requested a meeting to discuss the company's services. Also asked if a project newsletter is available, and expressed their support for the Project.
Public, KAM	2813	Information Kiosk	April 11-13, 2013	KAM hosted an information table at the Aberdeen Mall. About 320 people stopped by the table, with questions relating to: employments and jobs, timeline, and dust. Approximately 75% of those who stopped by the table were in support of the Project, 22% undecided, and 3% against.
Public, KAM	2817, 2819	E-mail, Meeting	April 12, 2013	A member of the public requested a meeting with KAM to discuss questions on the Project. On June 11, 2013, she and her two children met with KAM to discuss questions relation to: what KAM will be doing at the mine, potential for air pollution, noise from blasting. Issues: (a) toxic dust and diesel fumes in the air; (b) noise from blasting.
Sunridge Equipment, KAM	141	Meeting	May 9, 2013	Sunridge Equipment provided information on their services, noting they are an Aboriginal company. Noted their support of the Project.
Lynx Creek Industrial & Hydrovac Ltd., KAM	144, 215, 206	E-mail, Meeting	May 15, 2013	Lynx Creek Industrial & Hydrovac provided information on their services, noting that is an Aboriginal business. Requested a meeting to provide further information on their services. At a meeting on June 14, 2013, Lynx Creek provided information on the services they can provide to KAM.
Public, KAM	2818	Phone Call	May 17, 2013	A member of the public followed up on KAM's notification of the updated General Arrangement. Expressed concerns about effects on fish in Jacko Lake, groundwater contamination, dust management, and need for more information in the community. Issues: (a) effects of blasting on fish and fishing in Jacko Lake; (b) contaminated water leaching into the ground; (c) dust management; (d) need for more information in the community.
Prime Quality Construction, KAM	147	E-mail	May 21, 2013	Prime Quality Construction provided information on their services, noting they are an Aboriginal business.

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Public, KAM	2822	Drop-in Visit/Casual Meeting	June 18, 2013	A member of the public stopped by the KAM office to discuss the Project. Topics of discussion included water quality, KAM's reputation, and socio-economics. Issues: (a) effects on water quality, usage, and treatment.
Public, KAM	2823	Drop-in Visit/Casual Meeting	June 18, 2013	A member of the public requested information on the exact project location; KAM provided the information. Expressed his non-support for the Project relating to property purchases, air quality, TSF, and blasting.
Lynx Creek Industrial & Hydrovac Ltd., KAM	218, 219	E-mail	July 5, 2013	Lynx Creek requested assistance regarding the KAM bidding procedure so they can be in a position to supply what KAM needs. In follow-up, KAM provided information on contracts currently available, and noted that KAM will send them information on future opportunities within their area of expertise.
ALS Global, KAM	2833	Meeting	July 12, 2013	KAM provided a project update. Also discussed mining education and women in mining. ALS Global expressed their support for the Project.
Public, KAM	2835	Phone Call	July 19, 2013	Topics of discussion included: negative articles in the paper, current mine activity, and public perception of health studies.
Public, KAM	2836	Drop-in Visit	July 23, 2013	Discussed the Project and KAM's efforts in the community.
Molycop, KAM	2837	Site Tour	July 25, 2013	KAM hosted a site tour and provided project information for Molycop staff (mining industry supplier). Topics of discussion included: spin-off jobs and mining supply. Molycop expressed their support for the Project.
Petro-Canada, KAM	2856	Meeting	July 25, 2013	Discussed using the PetroCanada parking lot as a staging area for mine site tours; PetroCanada does not have the required space. Also discussed positive project benefits for Kamloops. PetroCanada representative expressed his support for the Project.
Kamloops Astronomical Society, Public, KAM	2838	Site Tour	July 27, 2013	KAM hosted a site tour for 11 members of the society and the general public. Topics of discussion included: tailings storage facility, potential project effects on the watershed, effects from blasting and noise, effects on Peterson Creek.

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Public, KAM	2842	Phone Call	August 2, 2013	KAM provided information to the member of the public on the updated General Arrangement.
Public, KAM	2854	Press Release	August 2, 2013	Press release that KAM has decided to postpone filing the EA Application. Invited the public to the community information sessions on September 9-12, 2013.
Public, KAM	2847	Drop-in Visit/Casual Meeting	August 8, 2013	A member of the public expressed her concerns about project effects on the city and her grandchildren.
Public, KAM	2848	Phone Call	August 8, 2013	Discussed ways to increase support for the Project through a foundation that would promote the Ajax Mine.
Target Drilling, KAM	353	E-mail	August 27, 2013	Target Drilling, an Aboriginal company, requested information on potential contracting opportunities with KAM.
Public, KAM	2853	Drop-in Visit/Casual Meeting	August 31, 2013	KAM representative stopped by the Stop Ajax booth at the farmers' market. Concerns of the group include effects on health, the environment, and reclamation.
SCS Diamond Drilling, KAM	402	E-mail	October 22, 2013	Discussed SCS Diamond Drilling's services and how they could be a service provider to KAM.
MOE, MFLNRO, CEA Agency, Public, KAM	2654	Community Meeting	October 24, 2013	Small-group community meeting. Topics of discussion included: updated General Arrangement, economic growth, the EA Application, job and contract opportunities, environmental effects, air quality, noise and vibration, Aboriginal consultation, training and education, and community well-being. Issues: (a) dust and air quality; (b) noise and vibrations from mine operations.

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Public, KAM	3115	Meeting	October 30, 2013	<p>KAM hosted a small group meeting with public stakeholders. Topics of discussion included: tailings, reclamation, EA Application, air quality, noise, vibration, the updated General Arrangement, community well-being, housing, job opportunities, blasting, product transport, open pit, mine processing, and water quality/resources.</p> <p>Issues: (a) effectiveness of reclamation on residual solid tailings; (b) potential for chemicals to leach into the groundwater; (c) assessment of effects; (b) corporate value of "zero harm"; (d) effect of particulates on human health; (e) effect of underground gases on community and worker health and safety; (f) air quality problems from historical projects that might return during operations; (g) increased noise and vibration from operations; (h) reliability of noise modelling; (i) increased traffic; (j) noise; (k) effects of blasting on elementary school children; (l) need for a warning system; (m) potential relocation of families for work; (n) effects of blasting on infrastructure and residential houses; (o) worker safety during a blasting malfunction; (p) infiltration of residue into groundwater; (q) increased flooding because of Aberdeen topographic issues.</p>

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Public, KAM	3116	Meeting	November 5, 2013	<p>Small group community meeting. Topics of discussion included: the EA Application, mine life, mine processing, product transport, noise and vibration, blasting, drilling, water resources/quality, monitoring, tailings, project footprint, Jacko Lake, air quality, visual impact, open pit, reclamation, community well-being, mine plan, community relations, Aboriginal relations, economic growth, and job opportunities.</p> <p>Issues: (a) regulatory process and assessment of effects; (b) noise and vibration from operations; (c) reliability of the noise modelling; (d) connection of fractures in groundwater flow from drilling and blasting; (e) increased groundwater issues in Aberdeen; (f) potential for geological catastrophic failure in the Aberdeen slide area; (g) effects from acid drainage from stockpiles; (h) effects on reclamation of residual solid tailings; (i) flow of toxic chemicals from the retaining ponds into area waterbodies; (j) size of mine; (k) effects on Jacko Lake; (l) increase in inversion and fumes; (m) decrease in student population because of mining operations; (n) not enough stakeholder engagement; (o) no response to concerns raised through the project website; (p) employment of foreign workers and associated decrease in opportunities for local workers; (q) young workers leaving the area because no job opportunities.</p>
Public, KAM	2850	E-mail	February 19, 2014	<p>KAM responded to questions raised through the website relating to milling of ore, tailings facility onsite, area drainage, risk of effluent draining into waterbodies, and dust control.</p> <p>Issues: (a) leakage of effluent into waterbodies; (b) effects of dust on air quality.</p>
Lynx Creek Industrial & Hydrovac Ltd., KAM	627	E-mail	May 26, 2014	<p>Lynx Creek reminded KAM of the services they provide.</p>

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Public, KAM	2917, 3145	Phone Call	June 25, 2014	Further to the community information session, the member of the public provided additional information about the Goose Lake Church; information passed on to KAM's heritage experts. On August 28, 2014, she stopped by the KAM office and provided additional history for the Goose Lake Church. Discussed the process for investigation of the site (August 28, 2014).
Public, KAM	2913	Letter	July 2, 2014	A member of the public provided feedback on the community information session, noting that it did not provide any real new information on the Project. Requested more concrete details on the Project relating to air quality, water levels, potential for leaks, and other concerns.
Public, KAM	2949, 2950, 2951	E-mail	July 3, 2014	In follow-up to the community information session, a member of the public asked questions regarding the new footprint and how much grasslands will be disturbed. KAM will follow up with a response to the questions. KAM forwarded the questions internally and is waiting for a response. The member of the public asked additional questions about the project footprint and the 3-D model (July 9, 2014). KAM provided responses by e-mail on July 16, 2014.
Public, KAM	3136	Phone Call	July 10, 2014	Discussed the Project in relation to the resident's property.
Public, KAM	2947, 2948	E-mail	July 17, 2014	A member of the public requested further information on the environmental studies being undertaken. In follow-up, KAM noted that the environmental studies are underway and will be posted when complete (July 28, 2014).
Public, KAM	2932	E-mail	July 22, 2014	KAM responded to questions raised by the member of the public at the community information session, providing information on the baseline health studies and how KAM is collaborating with stakeholders and the public.

Summary of Communications with the Public

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Public, KAM	2980, 2981	E-mail	August 7, 2014	A member of the public asked where effluent would go if the tailings dam was breached. KAM responded on August 11, 2014. Issues: (a) tailings dam breach.
Public, KAM	2979	Phone Call	August 8, 2014	A member of the public expressed concern about potential TSF failures and need for a contingency plan. Issues: (a) tailings storage facility malfunction.
Riseform Fishing, KAM	3143, 3144	Phone Call	August 19, 2014	KAM invited Riseform Fishing, a local fly fishing outfitter, to attend the fish habitat loss compensation planning meeting for Jacko Lake and Peterson Creek. Outfitter expressed his frustration that KAM had not responded to his e-mailed questions following the community information sessions. On August 19, 2014, KAM followed up in person. The stakeholder expressed concern that Jacko lake is the fly fisherman's favorite area, and about one third of the fish habitat would be lost. Outfitter agreed to attend the meeting. Issues: (a) amount of fly fishing habitat in Jacko Lake that will be affected by the mine site.
Public, KAM	2901	E-mail	August 23, 2014	A member of the public asked questions about the tailings storage facility; KAM responded.
Public, KAM	3016	Door-to-Door Canvassing	July and August 2014	KAM canvassed approximately 16,000 homes in neighbourhoods across Kamloops from mid-July through August 2014 to reach out to those who potentially hadn't been reached to date, and to provide additional project information if needed. Spoke with more than 4,500 people. Of those spoken to, 27% were not interested in further information, 16% were opposed to the Project, 29% supported it and 28% were undecided. Concerns related to effects on air quality, noise, and dust.
Lynx Creek Industrial & Hydrovac Ltd., KAM	861	E-mail	September 9, 2014	Discussed Lynx Creek's services; KAM will provide their contact information to the appropriate parties.

Participating Organizations/ Stakeholders	ROC #	Event Type	Date	Summary
Kamloops & District Fish & Game Association, Kamloops Fly Fishers' Association, Riseform Fishing, KAM, Knight Piesold Consulting	3010	Meeting	September 17, 2014	Meeting with special interest group in the angling community to discuss fish habitat compensation planning. KAM provided information and there was discussion on: the updated General Arrangement; history of Jacko Lake and the preliminary fish habitat assessment; anticipated habitat changes because of the Project; why the Kinder Morgan pipeline is being relocated; potential diversion of Peterson Creek; fish compensation regulatory requirements; blasting and effects on fish; monitoring; ideas for offsets; consultation on fish habitat compensation with a broader audience; increased traffic in the area; restoration of habitat after mine closure; and next steps in the process. Group Issues: (a) pumping station affecting flow in the southeast arm of Jacko Lake, causing fish loss in the area; (b) effects of blasting and noise on fish; (c) effects of blasting on the fishing experience; (d) increased traffic in the area.
City Council Candidates, KAM	3014	Site Tour	October 29, 2014	KAM hosted an information session and site tour for city council candidates. Topics of discussion included: breach of the TSF and KAM's hiring policies.
Project Mailing List, KAM	3173	E-mail	December 11, 2014	In follow-up to the recent community information sessions, KAM sent an e-mail to their mailing list that included a link to the project website, and asked that stakeholders voice their support for the Project by submitting a comment.
Public, Stantec	3020	E-mail	December 15, 2014	KAM responded to stakeholder's request at the community information session for wind roses of the area, providing the requested information.
Public, KAM	3174	E-mail	February 2, 2015	In follow up to the community information session and KAM's e-mail requesting support, the stakeholder provided positive comments about the information session and updated General Arrangement.

Ajax Project – Summary of Communications with Provincial and Federal Agencies to March 31, 2015

This table is organized chronologically under each sub-heading. If multiple organizations attended the same meeting, the meeting is listed under each organization/sub-heading.

Participating Organizations	ROC #	Event Type	Date	Summary
British Columbia Environmental Assessment Agency (BC EAO) and Canadian Environmental Assessment Agency (CEA Agency)				
BC EAO, Knight Piésold Ltd.	2809	Letter	February 7, 2011	Revision 1 of the Project Description submitted to the BC EAO.
BC EAO, KAM	2054	Letter	February 25, 2011	BC EAO provided the section 10 Order, noting that the Project may have significant adverse environmental, economic, social, heritage, or health effects, and that the Project will require an Environmental Assessment Certificate.
BC EAO, CEA Agency, NRCan, KAM, Knight Piésold Ltd.	207	Meeting	March 3, 2011	Meeting with provincial and federal agencies. KAM provided a project update. BC EAO confirmed that notifications letters were sent to the First Nations on February 25, 2011. Topics of discussion included: EA process, archaeology permit, revenue sharing agreements, federal government feedback, harmonized review process, and the draft AIR/EIS Guidelines.
BC EAO, CEA Agency, NRCan, KAM, Knight Piésold Ltd.	207	Meeting	March 3, 2011	Meeting with provincial and federal agencies. KAM provided a project update. BC EAO confirmed that notifications letters were sent to the First Nations on February 25, 2011. Topics of discussion included: EA process, archaeology permit, revenue sharing agreements, federal government feedback, harmonized review process, and the draft AIR/EIS Guidelines.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
BC EAO, MEM, MOE, MFLNRO, CEA Agency, City of Kamloops, Environment Canada, DFO, Health Canada, Knight Piésold Ltd., TNRD, SSN, Transport Canada, KAM	252	Meeting	April 27, 2011	BC EAO Working Group meeting. Topics of discussion included: federal and provincial EA processes, the Project Description, First Nations consultation program, project study program, preliminary issue identification, and next steps. Specific project-related topics of discussion included: water quality and quantity, TSF, metal leaching and acid rock drainage, noise, mineral tenures, smelting, and valued components. Working Group concerns: (a) neutral metal leaching (MEM); (b) effects on water quantity in the Cherry and Peterson Creek watersheds due to isolation of catchment areas at the mine site; (c) noise from back-up alarms on mining vehicles.
BC EAO, Knight Piésold Ltd.	2056	Letter	May 17, 2011	Revision 2 of the Project Description submitted to the BC EAO. Includes removal of the Rainbow Pit, relocation of the processing facility and related infrastructure, and an alternative power line option.
BC EAO, KAM	209	Letter	June 3, 2011	BC EAO issued a section 11 Order, requested an additional period of public consultation for the Project Description, coordinated with CEA Agency. The public comment period will be June 8 to July 11, 2011, and KAM must hold an open house during that time.
BC EAO, KAM	2810	Open House	June 16, 2011	BC EAO and CEA Agency held an open house in Kamloops as part of the Project Description public comment period.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
BC EAO, Public	2444	Public Comment	July 11, 2011	There were 182 comments provided during the Project Description public comment period. Comments related to air quality (health, climate, mitigation, economics, cumulative effects), noise (quality of life, recreation, health, business, wildlife, property values, cumulative effects), vibration (housing, health, landslides, fish, malfunctions), light pollution (effects on ecosystems), fish (habitat, cumulative effects), surface water quality (process, malfunctions, cumulative effects, quantity, climate change), groundwater quality (processing, quantity), wildlife (noise, light pollution, mining, traffic, habitat, water, dust, transmission line, mitigation), transmission line, grasslands (wildlife, dust), wetlands, aesthetics, well-being, safety, recreation (noise, surface water, grasslands, traffic, water quality, birds, wildlife), tourism (traffic, aesthetics, economy, air quality, infrastructure), property values, investment, property damage compensation, economy, employment, health, land and resource use, agriculture (water, cumulative effects, dust, wildlife), traffic (cumulative impacts), infrastructure, soil stability (blasting, groundwater), power, consultation, monitoring, reclamation, and operations.
BC EAO, CEA Agency, KAM, Knight Piésold Ltd.	247	E-mail	October 20, 2011	CEA Agency notified KAM that funding will be provided to the following Aboriginal Groups: TtseS, SIB, LNIB, MNBC, and AIB.
BC EAO, MEM, MOE, MFLNRO, CEA Agency, City of Kamloops, DFO, Interior Health Authority, NRCan, SSN, TNRD, Transport Canada, KAM, Knight Piésold Ltd.	2071	Meeting	October 27, 2011	BC EAO Working Group meeting. Topics of discussion included: objectives, roles, and responsibilities of the Working Group, the provincial and federal EA processes, deliverables to date, and next steps. Also reviewed the draft AIR/EIS Guidelines public comments relating to public engagement, land use zoning, water discharge, site safety, utility requirements, air emissions, noise dispersion modelling, and light pollution.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
BC EAO, MEM, MOE, MFLNRO, CEA Agency, City of Kamloops, Environment Canada, DFO, Health Canada, Interior Health Authority, NRCan, SIB, TNRD, Transport Canada	2445	Public Comment	November 17, 2011	The BC EAO received 244 comments from provincial and federal government agencies relating to the draft AIR/EIS Guidelines, Version C. All comments were specific to the draft AIR/EIS Guidelines, and no project-related concerns were raised.
BC EAO, KAM	289	Meeting	December 12, 2011	Meeting with BC EAO. Further to meetings with several stakeholder groups in the Kamloops area, BC EAO and CEA Agency will form and chair a Community Advisory Group. The Community Advisory Group will be a non-technical forum where the government can provide updates. KAM will be invited to attend as required. BC EAO has also added two requirements to the section 11 Order - a First Nations Consultation Plan and a Community Consultation Plan. Suggested that KAM engage the public through a number of open houses and/or question and answer periods.
BC EAO, KAM	2075	Letter	January 11, 2012	BC EAO issued a section 11 Order regarding preparation of a Public Consultation Plan, to be submitted within 30 days. Plan posted to the BC EAO website on May 17, 2012.
BC EAO, CEA Agency	2076	Press Release	January 11, 2012	Notice of the BC EAO and CEA Agency 60-day public comment period on the draft AIR/EIS Guidelines from January 11 to March 12, 2012 and open houses February 6-7, 2012 in Kamloops.
BC EAO, KAM	2077	Letter	January 23, 2012	KAM requested that BC EAO make the Orica blast report (dated April 2011) be made public and posted on the BC EAO website. Report posted to their website.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
BC EAO, City of Kamloops, Health Canada, InterGroup, Interior Health Authority, SSN, KAM, Knight Piésold Ltd., Stantec	290	Meeting	January 24, 2012	<p>BC EAO health sub-working group meeting to discuss health-related components of the draft AIR/EIS Guidelines. Topics of discussion included: air quality, noise and vibration, water quality, vegetation and plant communities, First Nations engagement, and community relations. It was noted that discussions would not be considered as feedback on the draft AIR/EIS Guidelines, and that KAM would be expected to address comments provided in the meeting.</p> <p>Requests - SIB requested to include the SIB community in the domain for health risk assessment of the Project. Other requests were for a list of locations for dust monitoring and other substances of concern, to include recreational water quality in the draft AIR/EIS Guidelines, qualitative assessment be undertaken by KAM to analyze noise effects in relation to mental health, and data from Highland Valley Copper be considered to illustrate impacts of a similar project.</p> <p>Working Group concerns: (a) light pollution is a potential health concern for those living close to the Project area; (b) ongoing dust from mining operations after closure; (c) potential effects of noise on wildlife.</p>
BC EAO, CEA Agency, Public	2053	Open House	February 6, 2012	BC EAO and CEA Agency hosted two open houses (February 6 and 7, 2012) as part of the draft AIR/EIS Guidelines Public Comment Period.
BC EAO, KAM	2080	Letter	February 13, 2012	KAM provided a link to the Feasibility Study Technical Report.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
AIB, BC EAO, MEM, MOE, MFLNRO, CEA Agency, Environment Canada, DFO, Interior Health Authority, NRCan, SSN, KAM, Knight Piésold Ltd., Lorax Environmental Services Ltd.	251, 2087, 2763	Meeting	February 27, 2012	<p>BC EAO water quality sub-working group meeting to discuss key water quality-related components for further development of the draft AIR/EIS Guidelines.</p> <p>Working Group concerns: (a) effect of local climate (e.g., freezing) on dry stack tailings; (b) potential effects of open collection ditches on wildlife, particularly birds; (c) water quality changes to Inks Lake.</p> <p>On March 16, 2012, KAM responded by letter to the action items relating to the TTP emergency pond, TSF ditching system, conditioners being added to thickened tailings, technology used for thickened tailings, and whether or not water spray systems will function during winter months. KAM attached a map of the thickened tailings location, including the TSF and drainage patterns. KAM responded to the remainder of the questions by letter on March 29, 2012.</p>
BC EAO, Aberdeen Community Association, Adaptive Glass, BC EAO, CEA Agency, City of Kamloops, Discovery-Corp Enterprises Inc., Grasslands Conservation Council, KAM Landowner, Kamloops & District Fish & Game Association, Kamloops 350, Kamloops Area Preservation Association (KAPA), Kamloops Astronomical Society, Kamloops Chamber of Commerce, Kamloops Fly Fishers' Association, Kamloops Food Policy Council, Kamloops Naturalist Club, Kamloops Stockmen's Association, Public	2448	Public Comment	March 27, 2012	<p>The BC EAO received more than 1,400 comments from the public during the draft AIR/EIS Guidelines Version D Public Comment Period. Comments related to climate, soils (infrastructure, erosion), blasting, geology, compensation, surface water, metals leaching/acid rock drainage, air quality, surface water quantity, groundwater (quantity, quality, blasting), fish (blasting), grasslands, wetlands, reclamation, wildlife (dust), labour force, employment, property values and housing, safety, infrastructure, roads, power, economic diversification, culture, well-being, dark sky, recreation, land use, health (air quality, noise, vibration).</p>

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
CEA Agency, KAM	1094	E-mail	April 5, 2012	CEA Agency forwarded to KAM a list of concerns received from SSN. Concerns related to: the hunting blind complex study, a study on wildlife health, water management and quality for human use, fish and fish habitat studies, terrestrial resources, emergency response planning, cumulative environmental impacts, reclamation and closure plans, employment and economic benefits/impacts, potential health effects, and traditional plant inventory, effects, and transplanting.
BC EAO, KAM	2811, 2765	Letter	April 11, 2012	KAM expressed concern regarding BC EAO's decision to hold a public open mic meeting in Kamloops. BC EAO responded to KAM's letter, removing that requirement from the plan at this time (April 20, 2012).
BC EAO, MOE, City of Kamloops, Health Canada, Interior Health Authority, SSN, InterGroup, KAM, Knight Piésold Ltd., Stantec	2091	Meeting	May 10, 2012	BC EAO health sub-working group meeting to discuss KAM's proposed draft noise modelling and air dispersion modelling plans. Topics of discussion included: the modelling plans, generation of power, monitoring of radioactive substances, particulate matter in country foods, if there would be polycyclic aromatic hydrocarbons (PAHs) in the explosives to be used, mine life, contaminant concentrations in nearby lakes, toxicology receptors, and line of site for waste piles.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
AIB, BC EAO, MEM, MOE, MFLNRO, CEA Agency, Environment Canada, DFO, Interior Health Authority, NRCAN, SSN, Golder Associates, KAM, Knight Piésold Ltd., Lorax Environmental Services Ltd.	3170, 3171	Conference Call	May 16, 2012	<p>BC EAO health sub-working group conference call to provide members with an opportunity to discuss any outstanding questions regarding KAM's proposed water quality model, specific to TSF. Other topics of discussion included: fish and aquatic, water quality/resources, Kinder Morgan pipeline, air quality, visual impacts, and reclamation.</p> <p>Working Group concerns: (a) potential effects of wind blowing the dry tailings onto waterbodies; (b) stability of portions of the TSF that do not contain wet tailings; (c) effects of effluent on Inks Lake and interaction with migratory birds; (d) potential seepage of tailings into groundwater; (e) implications of the Kinder Morgan pipeline expansion on the right-of-way between the pit boundary and Jacko Lake; (f) potential visual effects of the TSF.</p> <p>Interior Health provided further comments on the TSF by letter on May 31, 2012. Most comments related to how the content of the tailings will interact with the environment and watershed.</p>
BC EAO, Interior Health Authority	2093	Letter	June 19, 2012	Interior Health provided comments on the draft air and noise modelling plans.
CEA Agency, KAM	3172	Letter	July 17, 2012	CEA Agency informed KAM of recent changes to federal environmental legislation that apply to the Project, namely the Canadian Environmental Assessment Act, 2012. Noted that the new Act does not apply to this Project because the comprehensive study started on May 25, 2011. Provided information on the regulatory process going forward.
BC EAO, MARR, MFLNRO, SSN, KAM	1088	Meeting	July 24, 2012	Tripartite meeting to discuss the EA review process, as well as roles and responsibilities of the government agencies.
BC EAO, MOE	2094	Memo	August 30, 2012	MOE clarified comments made to BC EAO regarding air and noise modelling plans for the Project. Noted they found no issues that are not being addressed through the proposed dispersion modelling and air quality impact assessment.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
BC EAO, KAM	166, 47	Phone Call	November 7, 2012	KAM requested more specific input regarding First Nations consultation and feedback on the draft First Nations Consultation Plan. BC EAO provided more specific information regarding First Nations consultation, generally, and feedback on the draft First Nations Consultation Plan.
BC EAO, CEA Agency, CAG	2098	Letter	November 16, 2012	Additional draft AIR/EIS Guidelines comments were provided by the CAG. Comments related to: property values, soil contamination, levels of uranium, test blasting, use of explosives, valued components, cumulative effects, jobs and employment, groundwater and groundwater monitoring, visual impact of blast plumes, and insurance and KAM corporate structure.
AIB, BC EAO, MEM, MOE, MFLNRO, MOTI, City of Kamloops, Interior Health Authority, LNIB, NRCan, SIB, TNRD	2446	Public Comment	November 28, 2012	BC EAO received 141 comments from provincial and federal agencies relating to the draft AIR/EIS Guidelines, Version D between March 1 and November 28, 2012. All comments were specific to the draft AIR/EIS Guidelines, and no project-related concerns were raised.
BC EAO, CAG, Public	2099	Letter	December 19, 2012	BC EAO responded to the CAG's draft AIR/EIS Guidelines comments, noting they will be considered part of the draft AIR/EIS Guidelines review process. The next version of the draft AIR/EIS Guidelines will be shared at the next CAG meeting.
BC EAO, SSN, Arbutus Consulting, KAM	95	Meeting	January 16, 2013	Meeting at SSN office. Discussed the Project, the EA process, and opportunities for SSN input. Also clarified SSN information regarding their strength of claim assessment.
BC EAO, KAM, Public	2101	Presentation	January 17, 2013	BC EAO presented information to the general public on the EA process. Topics covered included: purpose of an assessment, steps in the process, roles of assessment participants (Working Group, First Nations, public), the CAG, project update and comments received to date, and information on providing public comments.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
BC EAO, MOE, Stantec	2107	Memo	May 8, 2013	Stantec provided information on effects of the updated General Arrangement on the air quality dispersion modelling.
BC EAO, CEA Agency, KAM	2109	Report	June 3, 2013	KAM submitted the final AIR/EIS Guidelines to BC EAO and CEA Agency.
BC EAO, CEA Agency, KAM	164	Letter	June 4, 2013	BC EAO and CEA Agency approved the AIR/EIS Guidelines. KAM is to provide information specified by the AIR/EIS Guidelines to BC EAO within three years. If KAM is unable to provide the information, KAM should contact BC EAO at least six months before the deadline.
BC EAO, CEA Agency, Public	2110	Report	June 4, 2013	CEA Agency and BC EAO provided responses to many of the process-related comments received during the draft AIR/EIS Guidelines public comment period. Also provided information on the purpose of the EA and the coordinated provincial-federal review process.
BC EAO, CEA Agency, KAM	164	Letter	June 4, 2013	BC EAO and CEA Agency approved the AIR/EIS Guidelines. KAM is to provide information specified by the AIR/EIS Guidelines to BC EAO within three years. If KAM is unable to provide the information, KAM should contact BC EAO at least six months before the deadline.
CEA Agency, MOE, MFLNRO, Public, KAM	2654	Community Meeting	October 24, 2013	Small-group community meeting. Topics of discussion included: updated General Arrangement, economic growth, the EA Application, job and contract opportunities, environmental effects, air quality, noise and vibration, Aboriginal consultation, training and education, and community well-being. Concerns: (a) dust and air quality; (b) noise and vibrations from mine operations.
BC EAO, CEA Agency, KAM	3114	Meeting	October 30, 2013	Meeting with BC EAO and CEA Agency. KAM provided a project update. Topics of discussion included: EA process, BC EAO Working Group, project changes and updating the AIR/EIS Guidelines, meetings with regulators.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
CEA Agency, KAM	3118	Phone Call	December 11, 2013	Discussed the Project and new CEA Agency project manager. KAM confirmed they will provide CEA Agency with a week's notice before releasing new project details to the public.
BC EAO, CEA Agency, KAM	3071	Meeting	May 22, 2014	Meeting with BC EAO and CEA Agency. Discussed the updated General Arrangement.
CEA Agency, KAM	3072	Letter	May 28, 2014	KAM provided information on the updated General Arrangement.
CEA Agency, KAM	3070	Letter	June 9, 2014	CEA Agency thanked KAM for the information on the updated General Arrangement provided at the meeting on May 22, 2014 and by letter on May 28, 2014. CEA Agency provided an update on their scope of consultation for the Project, as well as a description of KAM's Aboriginal engagement requirements for the EIS. CEA Agency confirmed consultation with the following Aboriginal Groups: (a) high depth - SSN; (b) moderate depth, AIB, LNIB and WP/CIB; (c) low depth - MNBC.
BC EAO, SIB, TteS, KAM	1258	Letter	June 11, 2014	SSN responded to the BC EAO's request for a meeting with SSN to discuss the updated General Arrangement and next steps in the EA process. Noted that SSN has continued to express significant concerns about the level of proposed development in their traditional territory, including KAM's activities. Also noted there are several new issues relating to the destruction of Goose Lake, water use from Jacko Lake, emission studies, acid rock leachate, wildlife and harvesting, and that the new project area is outside the boundary used for the Cultural Heritage Study. Concerns: (a) location and size of updated General Arrangement; (b) destruction of Goose Lake; (c) water use from Jacko Lake; (d) need for emissions studies; (e) acid rock leachate; (f) effects on wildlife and harvesting; (g) need for an expanded Cultural Heritage Study.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
AIB, BC EAO, MEM, MOE, MFLNRO, MOTI, CEA Agency, City of Kamloops, Environment Canada, DFO, Health Canada, Interior Health Authority, LNIB, NRCan, SSN, TNRD, Transport Canada, ERM Rescan, KAM	762, 763	Meeting and Site Tour	June 23, 2014	<p>BC EAO Working Group meeting. BC EAO and CEA Agency provided information on their respective processes. KAM provided information on the Project and the updated General Arrangement. Also discussed the TSF, water resources, Jacko Lake, design of the Peterson Creek diversion, draft AIR/EIS Guidelines, air quality, and public consultation.</p> <p>Working Group concerns: (a) mine water source; (b) design flood for the TSF; (c) lack of plan for surface water discharge; (d) exclusion of the Thompson River in water quality and quantity regional study area; (e) potential restriction of access to Jacko Lake; (f) effects of dust generation; (g) potential extension of effects beyond the air quality model; (h) effects of noise and vibration on sensitive receptors such as schools and hospitals; (i) potential effects of the updated General Arrangement.</p> <p>Following the meeting, KAM hosted a tour of the Project site.</p>
BC EAO, BC EAO Working Group	734	E-mail	July 8, 2014	BC EAO provided the draft AIR/EIS Guidelines Version G to the Working Group for comments by August 8, 2014.
BC EAO, CEA Agency, KAM	3018	Report	November 7, 2014	KAM submitted the revised AIR/EIS Guidelines to BC EAO and CEA Agency.
BC EAO, CEA Agency, KAM	3019	Letter	November 10, 2014	KAM provided an overview of the updated General Arrangement, current status in the EA process, and key proposed changes to the AIR/EIS Guidelines.
BC EAO, CEA Agency	3021	Press Release	November 10, 2014	BC EAO and CEA Agency provided notice of the 30-day Public Comment Period and open house for the revised AIR/EIS Guidelines that reflects the updated General Arrangement. Public Comment Period is November 18 to December 18, 2014, and open houses in Kamloops on November 25 and 26, 2014.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
BC EAO, CEA Agency, Public	3022	Open House	November 25, 2014	<p>BC EAO and CEA Agency hosted open houses on November 25 and 26, 2014 to provide community members an opportunity to speak with various federal and provincial EA representatives and technical experts, and provide their feedback on the revised AIR/EIS Guidelines. Topics of discussion included: housing and property values, job opportunities, updated General Arrangement, reclamation and closure, Goose Lake, power line, noise, air quality, TSF, human health, EA process, and monitoring.</p> <p>Concerns: (a) landowners being forced to sell their properties; (b) property values; (c) proximity of mine to houses; (d) loss of Goose Lake rather than mitigation to save it; (e) view obstruction from power line and waste storage facility; (f) noise from waste rock storage facility and plant site; (g) effects of dust from the plant site on air quality; (h) effects of tailings effluent in the event of a breach; (i) effects on human health; (j) KAM's commitment to monitoring.</p>
BC EAO, MOE, MFLNRO, CEA Agency, SSN, KAM, Knight Piésold Ltd.	1178	Meeting	February 5, 2015	<p>Fisheries and aquatics technical meeting. Reviewed project baseline information, discussed high-level preliminary offsetting opportunities, and collected feedback on preliminary data on Jacko Lake and Peterson Creek.</p>
CEA Agency, DFO, KAM, Knight Piésold Ltd.	3181	Meeting	February 19, 2015	<p>Meeting with federal agencies to discuss fish and aquatics.</p>
CEA Agency, SSN, KAM	1209	E-mail	February 26, 2015	<p>SSN asked why they had not received notification of the fish and aquatics meeting on February 5, 2015. KAM noted that SSN had a representative at the meeting, and that a request for SSN's involvement in fish habitat compensation planning was sent on October 6, 2014.</p>
BC EAO, MOE, MFLNRO, CEA Agency, SSN, KAM	1394	E-mail	March 9, 2015	<p>KAM provided draft notes for the February 5, 2015 fisheries and aquatics meeting, as well as the revised presentation. Requested comments on the notes by March 20, 2015.</p>

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
Ministry of Forests Lands and Natural Resource Operations (MFLNRO) and Ministry of Energy and Mines (MEM)				
MEM, KAM	3043	Site Tour	August 5, 2008	KAM hosted a site tour for the Assistant Deputy Minister.
MEM, SSN, KAM	1071	Site Tour	August 1, 2009	KAM hosted a visit to the hunting blind area for SSN and MEM.
MEM, MFLNRO, TteS, KAM	23	Letter	April 19, 2011	TteS responded to BC MEM's NOW for the Project, raising a number of questions and concerns relating to the work. As the Advanced Exploration Agreement with KAM is not being followed, TteS cannot support the application.
BC EAO, MEM, MOE, MFLNRO, CEA Agency, City of Kamloops, Environment Canada, DFO, Health Canada, Knight Piésold Ltd., TNRD, SSN, Transport Canada, KAM	252	Meeting	April 27, 2011	BC EAO Working Group meeting. Topics of discussion included: federal and provincial EA processes, the Project Description, First Nations consultation program, project study program, preliminary issue identification, and next steps. Specific project-related topics of discussion included: water quality and quantity, tailings storage facility, metal leaching and acid rock drainage, noise, mineral tenures, smelting, and valued components. Working Group concerns: (a) neutral metal leaching (MEM); (b) effects on water quantity in the Cherry and Peterson Creek watersheds due to isolation of catchment areas at the mine site; (c) noise from back-up alarms on mining vehicles.
MFLNRO, MEM, KAM, others	2113	E-mail	July 18, 2011	KAM invited those on the project mailing list to attend the KAM community office opening.
MFLNRO, MEM, KAM, others	2013	Open House	August 8, 2011	KAM hosted a project overview and information to stakeholders the new KAM office grand opening.
BC EAO, MEM, MOE, MFLNRO, CEA Agency, City of Kamloops, DFO, Interior Health Authority, NRCan, SSN, TNRD, Transport Canada, KAM, Knight Piésold Ltd.	2071	Meeting	October 27, 2011	BC EAO Working Group meeting. Topics of discussion included: objectives, roles, and responsibilities of the Working Group, the provincial and federal EA processes, deliverables to date, and next steps. Also reviewed the draft AIR/EIS Guidelines public comments relating to public engagement, land use zoning, water discharge, site safety, utility requirements, air emissions, noise dispersion modelling, and light pollution.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
BC EAO, MEM, MOE, MFLNRO, CEA Agency, City of Kamloops, Environment Canada, DFO, Health Canada, Interior Health Authority, NRCan, SIB, TNRD, Transport Canada	2445	Public Comment	November 17, 2011	BC EAO received 244 comments from provincial and federal government agencies relating to the draft AIR/EIS Guidelines, Version C. All comments were specific to the draft AIR/EIS Guidelines, and no project-related concerns were raised.
MEM, KAM	2759	Letter	December 19, 2011	KAM provided an overview of the Project, including information on employment during construction and operations.
AIB, BC EAO, MEM, MOE, MFLNRO, CEA Agency, Environment Canada, DFO, Interior Health Authority, NRCan, SSN, KAM, Knight Piésold Ltd., Lorax Environmental Services Ltd.	251, 2087, 2763	Meeting	February 27, 2012	<p>BC EAO water quality sub-working group meeting to discuss key water quality-related components for further development of the draft AIR/EIS Guidelines.</p> <p>Working Group concerns: (a) effect of local climate (e.g., freezing) on dry stack tailings; (b) potential effects of open collection ditches on wildlife, particularly birds; (c) water quality changes to Inks Lake.</p> <p>On March 16, 2012, KAM responded by letter to the action items relating to the TTP emergency pond, TSF ditching system, conditioners being added to thickened tailings, technology used for thickened tailings, and whether or not water spray systems will function during winter months. KAM attached a map of the thickened tailings location, including the TSF and drainage patterns. KAM responded to the remainder of the questions by letter on March 29, 2012.</p>

Summary of Communications with Provincial and Federal Agencies

BC EAO and CEA Agency provided information on their respective processes. KAM provided information on the Project and the updated General Arrangement. Also discussed the TSF, water resources, Jacko Lake, design of the Peterson Creek diversion, dAIR, air quality, and public consultation.</p> <p>Working Group concerns: (a) mine water source; (b) design flood for the tailings storage facility; (c) lack of plan for surface water discharge; (d) exclusion of the Thompson River in water quality and quantity regional study area; (e) potential restriction of access to Jacko Lake; (f) effects of dust generation; (g) potential extension of effects beyond the air quality model; (h) effects of noise and vibration on sensitive receptors such as schools and hospitals; (i) potential effects of the updated General Arrangement.</p> <p>Following the meeting, KAM hosted a tour of the project site.</p>

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
BC EAO, BC EAO Working Group	734	E-mail	July 8, 2014	BC EAO provided the draft AIR/EIS Guidelines Version G to the Working Group for comments by August 8, 2014.
BC EAO, MARR, MFLNRO, SSN, KAM	1088	Meeting	July 24, 2012	Tripartite meeting to discuss the EA review process, as well as roles and responsibilities of the government agencies.
MFLNRO, KAM	2027	Site Tour	August 1, 2012	KAM hosted a site tour for MFLNRO regarding visual impacts at the Project site.
MFLNRO, Nicola Tribal Association, KAM	38	Letter	August 15, 2012	The Nicola Tribal Association responded to the MFLNRO's request for comments on the NOW application, and requested a meeting with KAM to discuss. Noted that an archaeology overview assessment needs to be conducted by the Association, and that reclamation plans need to involve them as well. The Nicola Tribal Association requires capacity funding to undertake this work.
MFLNRO, SSN, TteS, KAM, Terra Archaeology	115	Meeting	March 7, 2013	Tripartite meeting to discuss archaeology work for the Jacko Lake drilling NOW. SSN requested shape files for the work; Terra will provide.
MFLNRO, KAM	53	E-mail	March 14, 2013	KAM requested MFLNRO's attendance at a meeting with SSN to discuss KAM's NOW application for condemnation and pit infill drilling.
MEM, SSN, KAM	54	Letter	March 15, 2013	In response to receiving the NOW application from MEM, SSN highlighted their preliminary requirements, noting that the Capacity Funding Agreement should be signed and consultation activities implemented before drilling begins. Also expressed concern that the activity is in an area of cultural heritage and traditional activities for SSN, and will affect their Aboriginal rights and title.
MFLNRO, KAM	67	Phone Call	March 28, 2013	Discussed SSN's concerns regarding the NOW geotechnical program. SSN asked to inspect the test pits before excavation, KAM asked that they provide names and dates so that site access could be provided.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
MFLNRO, SSN, KAM	77	E-mail	April 3, 2013	KAM requested a meeting to discuss the NOW applications. SSN noted that their questions had been answered by MFLNRO and a meeting would not be required. SSN requested a formal response from KAM to their letter of March 15, 2013 about the application.
MFLNRO, KAM	104	E-mail	April 4, 2013	Discussed SSN's inspection of the test pit sites as part of their Cultural Heritage Study.
MFLNRO, KAM	106	E-mail	April 4, 2013	KAM notified MFLNRO that SSN declined a meeting to discuss the NOW application. KAM noted the purpose of the meeting was to kick off a monthly update regarding all NOW applications to improve information flow and keep the bands updated on reclamation and upcoming programs.
MFLNRO, KAM	107	E-mail	April 4, 2013	MFLNRO asked about the SSN site visit to inspect the test pits. KAM noted that although SSN had monitors onsite as part of the archaeological work, they were not part of the Cultural Heritage Study. KAM will follow up with SSN on the potential site visit.
MFLNRO, KAM	110	E-mail	April 10, 2013	KAM provided updated information on the drilling and test pit locations and equipment to be used, and noted that no excavation of the larger geotechnical test pits will take place until SSN has inspected the locations for their Cultural Heritage Study.
MFLNRO, KAM	111	E-mail	April 10, 2013	Discussed presenting KAM's new NOW with SSN before submission; MFLNRO suggested meeting with SSN to discuss, as well as set up a monthly meeting to discuss upcoming and ongoing work.
MFLNRO, KAM	179	Meeting	May 6, 2013	Meeting with MFLNRO to discuss the NOW application process and related engagement with SSN.
MFLNRO, KAM	142	E-mail	May 14, 2013	KAM requested an update on the engagement process for the current NOW applications. MFLNRO requested a meeting to discuss, and requested KAM's engagement records with SSN.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
MFLNRO, KAM	217	Meeting	May 17, 2013	<p>Meeting with MFLNRO. Topics of discussion included: engagement with SSN on the NOW applications, disturbance areas, outstanding permits, SSN's request to meet with the BC EAO and discussions on potential findings of the Cultural Heritage Study, and the 3-D model.</p> <p>Engagement with SSN - Discussed engagement with SSN relating to the NOW applications. KAM provided the requested summary of engagement with SSN to date.</p> <p>NOW applications - MFLNRO is concerned about cumulative effects with the number of drill holes and test pits. Requested a summary of areas of disturbance vs. application areas, as well as a summary map showing all the drill holes and test pits completed to date, and those that were moved because of location to a heritage, wildlife, or sensitive vegetation site.</p>
MFLNRO, KAM	216	Site Tour	May 31, 2013	<p>KAM hosted a site tour of the pit area, old waste rock piles, the Aboriginal hunting bind, and the proposed development area. The tour provided context for the NOW applications.</p>
MFLNRO, KAM	159, 161	E-mail	June 3, 2013	<p>MFLNRO thanked KAM for the site tour on May 31, 2013. MFLNRO asked if the consultation summary had been sent to SSN; KAM confirmed that it had been sent to them with the NOW application. KAM noted that they had not been successful in arranging another site tour with SSN to discuss the NOW applications.</p> <p>MFLNRO informed KAM that SSN will provide input on the NOW applications after their leadership meeting the following week, which affects the Mine Inspector approving the NOW by the end of the week (June 4, 2013).</p>
MEM, MFLNRO, KAM	210	E-mail	June 12, 2013	<p>KAM requested an update on the NOW applications and related SSN engagement.</p>

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
MEM, SSN, KAM	330	Meeting	August 1, 2013	Joint Council meeting at the SSN office. KAM presented information on the Jacko Lake NOW work. Topics of discussion included: drill holes and test pits, diversion of Peterson Creek, fish spawning, proximity of Kinder Morgan pipeline to the proposed work, and Elder access to the area. SSN noted that they had discontinued consultation with KAM until the Capacity Funding Agreement was signed, but requested a presentation on this NOW because it relates to Jacko Lake, one of their most important resources. Noted that the presentation is not considered consultation. SSN requested copies of the cross section and plan view for the work to be done; KAM will provide.
MFLNRO, KAM	3099	Phone Call	August 2, 2013	KAM informed MFLNRO of the delay in submitting their EA Application, noting the company will re-evaluate certain technical aspects related to the Ajax Project. Also invited MFLNRO to the community information sessions on September 9-12, 2013. MFLNRO asked, and KAM confirmed, that more NOW applications would be submitted.
MEM, KAM	3098	Phone Call	August 2, 2013	KAM informed MEM of the delay in submitting their EA Application, noting the company will re-evaluate certain technical aspects related to the Ajax Project. Also invited MEM to the community information sessions on September 9-12, 2013.
MFLNRO, KAM	3087	Meeting	August 26, 2013	Meeting with MFLNRO. Topics of discussion included: new timeline for EA submission, dry vs. wet tailings storage, agreements with First Nations, site access safety for SSN members using the land for traditional purposes, and the September community information sessions.
MFLNRO, KAM	2040	Meeting	September 11, 2013	Meeting with MFLNRO to discuss the Occupant Licence to Cut for the NOW application. Noted that SSN needs to be consulted before licence approval, as does the tenure holder.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
MOE, MFLNRO, CEA Agency, Public, KAM	2654	Community Meeting	October 24, 2013	Small-group community meeting. Topics of discussion included: updated General Arrangement, economic growth, the EA Application, job and contract opportunities, environmental effects, air quality, noise and vibration, Aboriginal consultation, training and education, and community well-being. Concerns: (a) dust and air quality; (b) noise and vibrations from mine operations.
MEM, MFLNRO, KAM	2880	Meeting	November 7, 2013	Meeting with MEM and MFLNRO to discuss MEM concerns with the south option NOW applications and the Occupant Licence to Cut permitting process. KAM to submit new maps and provide clarity on other NOW application details.
MFLNRO, KAM	2885	Phone Call	December 3, 2013	Discussed the letter from MFLNRO to MEM regarding KAM's Wildlife Management Plan. Topics of discussion included timing restrictions, riparian buffer, sumps, and replanting.
MFLNRO, KAM	3148	Phone Call	January 20, 2014	Discussed the need for a permit for the hand auger samples proposed for the Jacko Lake pit wall connectivity study.
MFLNRO, KAM	3149	Meeting	April 15, 2014	Meeting with MFLNRO to discuss seasonal access for recreational users to the Pineview area trails. Access would be formalized through an access agreement with the Kamloops Performance Cycling Centre (KPCC), be designated as a pilot project, and be reviewed annually. Also discussed decommissioning and seeding of trails.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
MFLNRO, SSN, KAM	635	Meeting	May 29, 2014	SSN Joint Resource Council meeting. Topics of discussion included: the updated General Arrangement, drilling program with Target Drilling/SSN, removal of the Kinder Morgan pipeline, Jacko Lake investigation, field programs, need for a Cultural Heritage Study on the south footprint, closure plans, TSF, site access, Goose Lake, and capacity funding. SSN requested GIS and shape files for the updated General Arrangement; KAM will send. Also requested all historic information on Jacko Lake, and a map with the hunting blind shown on it.
MOE, MFLNRO, DFO, KAM, Knight Piésold Ltd.	3177	Meeting	October 8, 2014	Meeting with provincial and federal agencies. Topics of discussion included: history and current use of Jacko Lake, potential habitat loss, removal of the Kinder Morgan pipeline, effects from blasting, Peterson Creek diversion, transportation and access to the lake, Fisheries Act regulations, closure options, discussing offset options with stakeholders, anticipated habitat changes, and next steps.
BC EAO, MOE, MFLNRO, CEA Agency, SSN, KAM, Knight Piésold Ltd.	1178	Meeting	February 5, 2015	Fisheries and aquatics technical meeting. Reviewed project baseline information, discussed high-level preliminary offsetting opportunities, and collected feedback on preliminary data on Jacko Lake and Peterson Creek.
BC EAO, MOE, MFLNRO, CEA Agency, SSN, KAM	1394	E-mail	March 9, 2015	KAM provided draft notes for the February 5, 2015 fisheries and aquatics meeting, as well as the revised presentation. Requested comments on the notes by March 20, 2015.
Ministry of Environment (MOE)				

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
BC EAO, MEM, MOE, MFLNRO, CEA Agency, City of Kamloops, Environment Canada, DFO, Health Canada, Knight Piésold Ltd., TNRD, SSN, Transport Canada, KAM	252	Meeting	April 27, 2011	BC EAO Working Group meeting. Topics of discussion included: federal and provincial EA processes, the Project Description, First Nations consultation program, project study program, preliminary issue identification, and next steps. Specific project-related topics of discussion included: water quality and quantity, TSF, metal leaching and acid rock drainage, noise, mineral tenures, smelting, and valued components. Working Group concerns: (a) neutral metal leaching (MEM); (b) effects on water quantity in the Cherry and Peterson Creek watersheds due to isolation of catchment areas at the mine site; (c) noise from back-up alarms on mining vehicles.
MOE and others	2113	E-mail	July 18, 2011	KAM invited those on the project mailing list to attend the KAM community office opening.
BC EAO, MEM, MOE, MFLNRO, CEA Agency, City of Kamloops, DFO, Interior Health Authority, NRCan, SSN, TNRD, Transport Canada, KAM, Knight Piésold Ltd.	2071	Meeting	October 27, 2011	BC EAO Working Group meeting. Topics of discussion included: objectives, roles, and responsibilities of the Working Group, the provincial and federal EA processes, deliverables to date, and next steps. Also reviewed the draft AIR/EIS Guidelines public comments relating to public engagement, land use zoning, water discharge, site safety, utility requirements, air emissions, noise dispersion modelling, and light pollution.
BC EAO, MEM, MOE, MFLNRO, CEA Agency, City of Kamloops, Environment Canada, DFO, Health Canada, Interior Health Authority, NRCan, SIB, TNRD, Transport Canada	2445	Public Comment	November 17, 2011	BC EAO received 244 comments from provincial and federal government agencies relating to the draft AIR/EIS Guidelines, Version C. All comments were specific to the dAIR, and no project-related concerns were raised.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
AIB, BC EAO, MEM, MOE, MFLNRO, CEA Agency, Environment Canada, DFO, Interior Health Authority, NRCan SSN, KAM, Knight Piésold Ltd., Lorax Environmental Services Ltd.	251, 2087, 2763	Meeting	February 27, 2012	<p>BC EAO water quality sub-working group meeting to discuss key water quality-related components for further development of the draft AIR/EIS Guidelines.</p> <p>Working Group concerns: (a) effect of local climate (e.g., freezing) on dry stack tailings; (b) potential effects of open collection ditches on wildlife, particularly birds; (c) water quality changes to Inks Lake.</p> <p>On March 16, 2012, KAM responded by letter to the action items relating to the TTP emergency pond, TSF ditching system, conditioners being added to thickened tailings, technology used for thickened tailings, and whether or not water spray systems will function during winter months. KAM attached a map of the thickened tailings location, including the TSF and drainage patterns. KAM responded to the remainder of the questions by letter on March 29, 2012.</p>
BC EAO, MOE, City of Kamloops, Health Canada, Interior Health Authority, SSN, InterGroup, KAM, Knight Piésold Ltd., Stantec	2091	Meeting	May 10, 2012	<p>BC EAO health sub-working group meeting to discuss KAM's proposed draft noise modelling and air dispersion modelling plans. Topics of discussion included: the modelling plans, generation of power, monitoring of radioactive substances, particulate matter in country foods, if there would be polycyclic aromatic hydrocarbons (PAHs) in the explosives to be used, mine life, contaminant concentrations in nearby lakes, toxicology receptors, and line of site for waste piles.</p>

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
AIB, BC EAO, MEM, MOE, MFLNRO, CEA Agency, Environment Canada, DFO, Interior Health Authority, NRCan, SSN, Golder Associates, KAM, Knight Piésold Ltd., Lorax Environmental Services Ltd.	3170, 3171	Conference Call	May 16, 2012	<p>BC EAO health sub-working group conference call to provide members with an opportunity to discuss any outstanding questions regarding KAM's proposed water quality model, specific to the TSF. Other topics of discussion included: fish and aquatic, water quality/resources, Kinder Morgan pipeline, air quality, visual impacts, and reclamation.</p> <p>Working Group concerns: (a) potential effects of wind blowing the dry tailings onto waterbodies; (b) stability of portions of the tailings storage facility that do not contain wet tailings; (c) effects of effluent on Inks Lake and interaction with migratory birds; (d) potential seepage of tailings into groundwater; (e) implications of the Kinder Morgan pipeline expansion on the right-of-way between the pit boundary and Jacko Lake; (f) potential visual effects of the TSF.</p> <p>Interior Health provided further comments on the TSF by letter on May 31, 2012. Most comments related to how the content of the tailings will interact with the environment and watershed.</p>
AIB, BC EAO, MEM, MOE, MFLNRO, MOTI, CEA Agency, City of Kamloops, Environment Canada, DFO, Health Canada, Interior Health Authority, LNIB, NRCan, SSN, TNRD, Transport Canada, ERM Rescan, KAM	762, 763	Meeting and Site Tour	June 23, 2014	<p>BC EAO Working Group meeting. BC EAO and CEA Agency provided information on their respective processes. KAM provided information on the Project and the updated General Arrangement. Also discussed the TSF, water resources, Jacko Lake, design of the Peterson Creek diversion, draft AIR/EIS Guidelines, air quality, and public consultation.</p> <p>Working Group concerns: (a) mine water source; (b) design flood for the TSF; (c) lack of plan for surface water discharge; (d) exclusion of the Thompson River in water quality and quantity regional study area; (e) potential restriction of access to Jacko Lake; (f) effects of dust generation; (g) potential extension of effects beyond the air quality model; (h) effects of noise and vibration on sensitive receptors such as schools and hospitals; (i) potential effects of the updated General Arrangement.</p> <p>Following the meeting, KAM hosted a tour of the Project site.</p>

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
BC EAO, BC EAO Working Group	734	E-mail	July 8, 2014	BC EAO provided the draft AIR/EIS Guidelines Version G to the Working Group for comments by August 8, 2014.
BC EAO, MOE	2094	Memo	August 30, 2012	MOE clarified comments made to BC EAO regarding air and noise modelling plans for the Project. Noted they found no issues that are not being addressed through the proposed dispersion modelling and air quality impact assessment.
MOE, Stantec	2096	Letter	September 12, 2012	MOE provided approval of the final Detailed Dispersion Modelling Plan.
BC EAO, MOE, Stantec	2107	Memo	May 8, 2013	Stantec provided information on effects of the updated General Arrangement on the air quality dispersion modelling.
MOE, KAM	3084	Phone Call	August 1, 2013	KAM informed MOE of the delay in submitting their EA Application, noting the company will re-evaluate certain technical aspects related to the Ajax Project. Also invited MOE to the community information sessions on September 9-12, 2013.
MOE, 1793 Holdings Ltd., KAM	3086	Meeting	August 8, 2013	Meeting with MOE and landowner to discuss the air quality monitoring station location and agreement with MOE and the affected landowner.
MOE, SSN, KAM	361	E-mail	September 3, 2013	KAM requested a meeting on September 6, 2013 for further discussion on the Dust Mitigation Plan for the historic Afton site as they have received more information on the potential products to be used.
MOE, SSN, KAM	371	E-mail	September 9, 2013	MOE offered to participate in any meetings about dust mitigation planning.
MOE, SSN, KAM	372	E-mail	September 9, 2013	Further to KAM's meeting on August 29, 2013 with SSN, MOE clarified that it doesn't matter if the historic Afton site is part of the Project; what's important is that as the current owners, KAM is taking responsibility for dust mitigation at the site.
MOE, KAM	2048	Phone Call	September 12, 2013	Discussed the PE-3904 annual report. Arranged a site tour to the historic Afton site for early October.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
MOE, KAM	2863	Site Tour	October 3, 2013	KAM hosted a site tour of the historic Afton site. Inspected sampling sites that were a component of the PE-3904 monitoring report, as well as reclamation sites. Topics discussed included: site layout and conditions, adding an additional surface water sampling site on the south side of the south waste dump, potential project changes, First Nations engagement, general regional water quality, regulator expectations for using contaminated water at drill sites, and reclamation.
MOE, MFLNRO, CEA Agency, Public, KAM	2654	Community Meeting	October 24, 2013	Small-group community meeting. Topics of discussion included: updated General Arrangement, economic growth, the EA Application, job and contract opportunities, environmental effects, air quality, noise and vibration, Aboriginal consultation, training and education, and community well-being. Concerns: (a) dust and air quality; (b) noise and vibrations from mine operations.
MOE, SSN, KAM	828	E-mail	September 3, 2014	MOE responded to questions raised by SSN about the air quality monitoring station, noting that he will review the proposal as part of the EA process and will be responsible for any potential air permit. Noted that MOE has had some dialogue with KAM on siting and equipment, but the monitoring station had not yet been approved.
MOE, MFLNRO, DFO, KAM, Knight Piésold Ltd.	3177	Meeting	October 8, 2014	Meeting with provincial and federal agencies. Topics of discussion included: history and current use of Jacko Lake, potential habitat loss, removal of the Kinder Morgan pipeline, effects from blasting, Peterson Creek diversion, transportation and access to the lake, Fisheries Act regulations, closure options, discussing offset options with stakeholders, anticipated habitat changes, and next steps.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
BC EAO, MOE, MFLNRO, CEA Agency, SSN, KAM, Knight Piésold Ltd.	1178	Meeting	February 5, 2015	Fisheries and aquatics technical meeting. Reviewed project baseline information, discussed high-level preliminary offsetting opportunities, and collected feedback on preliminary data on Jacko Lake and Peterson Creek.
BC EAO, MOE, MFLNRO, CEA Agency, SSN, KAM	1394	E-mail	March 9, 2015	KAM provided draft notes for the February 5, 2015 fisheries and aquatics meeting, as well as the revised presentation. Requested comments on the notes by March 20, 2015.
Other Provincial Agencies				
Ministry of Jobs, Tourism & Skills Training, KAM	2758	Letter	December 19, 2011	KAM provided a project overview to the Minister, including information on anticipated construction and operations employment.
MARR, BC EAO, MFLNRO, SSN, KAM	1088	Meeting	July 24, 2012	Tripartite meeting to discuss the EA review process, as well as roles and responsibilities of the government agencies.
MARR, KAM	3113	Meeting	October 2, 2013	Meeting with MARR. KAM provided a project overview. Topics of discussion included: First Nations consultation (in particular with SSN), economic and community development and project agreements with First Nations, and joint information sharing committees.
Federal Agencies				
BC EAO, CEA Agency, NRCAN, KAM, Knight Piésold Ltd.	207	Meeting	March 3, 2011	Meeting with provincial and federal agencies. KAM provided a project update. BC EAO confirmed that notifications letters were sent to the First Nations on February 25, 2011. Topics of discussion included: EA process, archaeology permit, revenue sharing agreements, federal government feedback, harmonized review process, and the draft AIR/EIS Guidelines.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
BC EAO, MEM, MOE, MFLNRO, CEA Agency, City of Kamloops, Environment Canada, DFO, Health Canada, Knight Piésold Ltd., TNRD, SSN, Transport Canada, KAM	252	Meeting	April 27, 2011	BC EAO Working Group meeting. Topics of discussion included: federal and provincial EA processes, the Project Description, First Nations consultation program, project study program, preliminary issue identification, and next steps. Specific project-related topics of discussion included: water quality and quantity, RAD, metal leaching and acid rock drainage, noise, mineral tenures, smelting, and valued components. Working Group concerns: (a) neutral metal leaching (MEM); (b) effects on water quantity in the Cherry and Peterson Creek watersheds due to isolation of catchment areas at the mine site; (c) noise from back-up alarms on mining vehicles.
Human Resources and Skills Development Canada, KAM	40	Letter	October 14, 2011	KAM provided a letter of support for BCAMTA.
BC EAO, MEM, MOE, MFLNRO, CEA Agency, City of Kamloops, DFO, Interior Health Authority, NRCAN, SSN, TNRD, Transport Canada, KAM, Knight Piésold Ltd.	2071	Meeting	October 27, 2011	BC EAO Working Group meeting. Topics of discussion included: objectives, roles, and responsibilities of the Working Group, the provincial and federal EA processes, deliverables to date, and next steps. Also reviewed the draft AIR/EIS Guidelines public comments relating to public engagement, land use zoning, water discharge, site safety, utility requirements, air emissions, noise dispersion modelling, and light pollution.
BC EAO, MEM, MOE, MFLNRO, CEA Agency, City of Kamloops, Environment Canada, DFO, Health Canada, Interior Health Authority, Natural Resources Canada, SIB, TNRD, Transport Canada	2445	Public Comment	November 17, 2011	BC EAO received 244 comments from provincial and federal government agencies relating to the draft AIR/EIS Guidelines, Version C. All comments were specific to the draft AIR/EIS Guidelines, and no project-related concerns were raised.
Environment Canada, KAM	2760	Letter	December 19, 2011	KAM provided an overview of the Project and where it is in the EA process, and requested time during Environment Canada's upcoming visit to Kamloops to tour the mine site.

Summary of Communications with Provincial and Federal Agencies

Participating Organizations	ROC #	Event Type	Date	Summary
BC EAO, City of Kamloops, Health Canada, InterGroup, Interior Health Authority, SSN, KAM, Knight Piésold Ltd., Stantec	290	Meeting	January 24, 2012	<p>BC EAO health sub-working group meeting to discuss health-related components of the draft AIR/EIS Guidelines. Topics of discussion included: air quality, noise and vibration, water quality, vegetation and plant communities, First Nations engagement, and community relations. It was noted that discussions would not be considered as feedback to the draft AIR/EIS Guidelines, and that KAM would be expected to address comments provided in the meeting.</p> <p>Requests - SIB requested to include the SIB community in the domain for health risk assessment of the Project. Other requests were for a list of locations for dust monitoring and other substances of concern, to include recreational water quality in the draft AIR/EIS Guidelines, qualitative assessment be undertaken by KAM to analyze noise effects in relation to mental health, and data from Highland Valley Copper be considered to illustrate impacts of a similar project.</p> <p>Working Group concerns: (a) light pollution is a potential health concern for those living close to the project area; (b) ongoing dust from mining operations after closure; (c) potential effects of noise on wildlife.</p>
NRCan and others	2053	Open House	February 6, 2012	BC EAO and CEA Agency hosted two open houses (February 6 and 7, 2012) as part of the draft AIR/EIS Guidelines Public Comment Period.

City of Kamloops, Golder Associates, KAM	2762	Letter	March 29, 2012	The City expressed potential conflict of interest issues relating to Golder's role with the City and with KAM.
City of Kamloops, KAM	2764	Letter	April 10, 2012	After viewing the 3-D model developed by KAM about the mine, the Mayor asked that a second 3-D model be developed that would be

Summary of Communications with Local Governments

Participating Organizations	ROC #	Event Type	Date	Summary
				more clearly articulate potential visual effects of the mine on the city.
City of Kamloops and others	2014	Workshop	April 18, 2012	KAM hosted a workshop on mining processes, held at TRU and attended by 118 people. Provided project-specific information to community members living closest to the mine site. Topics of discussion included: water use and quality, dust control, mine layout, project footprint, effects on the Kinder Morgan pipeline, increased traffic on local roads, effects on the city's image as a tournament capital, studies on country food consumption, on-site fuel storage, carbon footprint, cumulative effects on pollution levels, and a model of the mine site.
City of Kamloops, KAM	2005	Presentation	May 3, 2012	KAM provided an update presentation to the Mayor and Council.
BC EAO, MOE, City of Kamloops, Health Canada, Interior Health Authority, SSN, InterGroup, KAM, Knight Piésold Ltd., Stantec	2091	Meeting	May 10, 2012	BC EAO health sub-working group meeting to discuss KAM's proposed draft noise modelling and air dispersion modelling plans. Topics of discussion included: the modelling plans, generation of power, monitoring of radioactive substances, particulate matter in country foods, if there would be polycyclic aromatic hydrocarbons (PAHs) in the explosives to be used, mine life, contaminant concentrations in nearby lakes, toxicology receptors, and line of site for waste piles.
City of Kamloops and others	2015	Workshop	May 30, 2012	<p>KAM hosted a workshop on mining processes, held at TRU and attended by about 50 people. Provided project-specific information similar to the April 18, 2012 workshop. Topics of discussion included: the processing plant, and tailings and waste rock.</p> <p>Comments during the exercises related to: air quality, general mining concerns, development of a 3-D model, response to public concerns, jobs, ongoing monitoring, accountability after a permit is awarded, reclamation, dust and contaminants, noise, vibration, effects on the Kinder Morgan pipeline, air quality monitoring, EA process, carbon footprint, leakage into Jacko Lake and Peterson Creek, grasslands restoration, overseas processing, visual aesthetics of waste rock piles, water usage, nearby property values, increased population, and change in topography.</p> <p>Concerns: (a) contaminants in dust; (b) noise, dust, and vibration related to processing; (c) need for air quality monitoring; (d) visibility</p>

				and size of waste rock and tailings piles; (e) water usage; (f) potential for contaminants to leak into waterbodies; (g) reclamation of waste rock and tailings; (h) proximity to the city; (i) potential health effects; (j) effects on wildlife and fisheries; (k) soil stability; (l) chemicals released during the mining process; (m) decrease in nearby property values; (n) increase in crime from increased population.
City of Kamloops and others	2019	Workshop	June 13, 2012	<p>KAM hosted a workshop on the EA process and environmental studies being undertaken, held at TRU and attended by about 65 people. KAM provided information about the EA process, valued components, and studies relating to air quality, human health, noise, vibration, Jacko Lake, water (quality, balance, use), wildlife, grasslands, rare plants, and reclamation.</p> <p>Comments during the exercises related to: project footprint and plans for expansion, reclamation, road access, timelines for studies, long-term effects on the area, carbon footprint, tailings process, increased local traffic, waste rock, baseline studies, wildlife, visual effects, and air quality/dust.</p> <p>Concerns: (a) proximity to the city; (b) carbon footprint; (c) long-term effects on the area; (d) waste going into Inks Lake; (e) traffic volume on Lac la Jeune Road; (f) loss of natural habitat, particularly grasslands; (g) visual effects; (h) effects of dust on nearby children’s health.</p>
City of Kamloops and others	2022	Workshop	June 28, 2012	<p>KAM hosted a workshop to provide information and the project environmental studies, held at TRU. Topics discussed included: effects on and mitigation for recreation and Inks Lake, tailings pond and facility, dust modelling, project footprint, reclamation, human health assessment, BC EAO Working Group, groundwater contamination, dark sky study, diversion of Peterson Creek, effects of blasting on waterbodies, and climate change.</p> <p>Concerns: (a) effects on recreation and Inks Lake; (b) reclamation of the tailings and waste rock facility; (c) restoration of grassland areas; (d) effects of blasting on waterbodies and groundwater; (e) potential for light pollution; (f) additional fog from evaporated water.</p>
City of Kamloops, KAM	2851,	Letter	April 29, 2013	KAM responded to the City’s letter of July 11, 2011 to the BC EAO

Summary of Communications with Local Governments

Participating Organizations	ROC #	Event Type	Date	Summary
	2769			<p>expressing concerns about the Project. KAM did not respond sooner because some studies needed to be completed before answers could be provided. Responses to concerns related to: mine location, additional storage areas, public health, groundwater stability, transportation, socio-economic effects, waterbodies, wildlife and habitat, power line location, visual effects, dust levels, acid rock drainage, dark sky effects, noise, blasting, emergency response, product transport, waste management, economic growth, air quality, employment, grasslands, tailings reclamation, and waste rock.</p> <p>The City thanked KAM for their letter by return letter. The City looks forward to meeting with KAM once study results are available, and to meeting regarding the borehole drilling program. Provided further information on their alternative of installing a buffer between the mine, and the Aberdeen and Knutsford neighbourhoods. Requested copies of human health impact/monitoring/studies from other mines operated by KAM. Also asked for clarification of KAM's response regarding peak acceleration (May 31, 2013).</p>
City of Kamloops, KAM	3093	Meeting	May 6, 2013	Meeting with the City of Kamloops. Topics of discussion included: the water treatment plan, potential utility right-of-way to access the proposed new industrial complex at Bauer Lake, dewatering in Aberdeen, and a site tour for city staff.
City of Kamloops, KAM	3085	Phone Call	August 1, 2013	KAM informed the Mayor that KAM has decided to postpone filing the EA Application to facilitate further consideration and possible redesign of the project's general arrangement and operational plans. KAM informed the Mayor that KAM has a new website, and requested feedback from the City. Also invited the Mayor to the community information sessions on September 9-12, 2013.
City of Kamloops, KAM	3095	Phone Call	August 2, 2013	KAM informed the City that KAM has decided to postpone filing the EA Application as they have found there may be additional ore bodies on the site which need to be studied further. KAM informed the City that KAM has a new website, and requested feedback from the City. Also invited the City to the community information sessions on September 9-12, 2013. The City appreciates that KAM is doing further

NRCan, SSN, TNRD, Transport Canada, KAM, Knight Piésold Ltd.				steps. Also reviewed the draft AIR/EIS Guidelines public comments relating to public engagement, land use zoning, water discharge, site safety, utility requirements, air emissions, noise dispersion modelling, and light pollution.
BC EAO, MEM, MOE, MFLNRO, CEA Agency, City of Kamloops, Environment Canada, DFO, Health Canada, Interior Health Authority, NRCan, SIB, TNRD, Transport Canada	2445	Public Comment	November 17, 2011	BC EAO received 244 comments from provincial and federal government agencies relating to the draft AIR/EIS Guidelines, Version C. All comments were specific to the draft AIR/EIS Guidelines, and no project-related concerns were raised.
BC EAO, City of Kamloops, Health Canada, InterGroup, Interior Health Authority, SSN, KAM, Knight Piésold Ltd., Stantec	290	Meeting	January 24, 2012	<p>BC EAO health sub-working group meeting to discuss health-related components of the draft AIR/EIS Guidelines. Topics of discussion included: air quality, noise and vibration, water quality, vegetation and plant communities, First Nations engagement, and community relations. It was noted that discussions would not be considered as feedback to the draft AIR/EIS Guidelines, and that KAM would be expected to address comments provided in the meeting.</p> <p>Requests - SIB requested to include the SIB community in the domain for health risk assessment of the Project. Other requests were for a list of locations for dust monitoring and other substances of concern, to include recreational water quality in the draft AIR/EIS Guidelines, qualitative assessment be undertaken by KAM to analyze noise effects in relation to mental health, and data from Highland Valley Copper be considered to illustrate impacts of a similar project.</p> <p>Working Group concerns: (a) light pollution is a potential health concern for those living close to the project area; (b) ongoing dust from mining operations after closure; (c) potential effects of noise on wildlife.</p>
AIB, BC EAO, MEM, MOE, MFLNRO, CEA Agency, Environment Canada, DFO, Interior Health Authority, NRCan, SSN, KAM, Knight Piésold Ltd., Lorax	251, 2087, 2763	Meeting	February 27, 2012	<p>BC EAO water quality sub-working group meeting to discuss key water quality-related components for further development of the draft AIR/EIS Guidelines.</p> <p>Working Group concerns: (a) effect of local climate (e.g., freezing) on dry stack tailings; (b) potential effects of open collection ditches on wildlife, particularly birds; (c) water quality changes to Inks Lake.</p>

Summary of Communications with Local Governments

Participating Organizations	ROC #	Event Type	Date	Summary
Environmental Services Ltd.				On March 16, 2012, KAM responded by letter to the action items relating to the TTP emergency pond, TSF ditching system, conditioners being added to thickened tailings, technology used for thickened tailings, and whether or not water spray systems will function during winter months. KAM attached a map of the thickened tailings location, including the TSF and drainage patterns. KAM responded to the remainder of the questions by letter on March 29, 2012.
BC EAO, MOE, City of Kamloops, Health Canada, Interior Health Authority, SSN, InterGroup, KAM, Knight Piésold Ltd., Stantec	2091	Meeting	May 10, 2012	BC EAO health sub-working group meeting to discuss KAM's proposed draft noise modelling and air dispersion modelling plans. Topics of discussion included: the modelling plans, generation of power, monitoring of radioactive substances, particulate matter in country foods, if there would be polycyclic aromatic hydrocarbons (PAHs) in the explosives to be used, mine life, contaminant concentrations in nearby lakes, toxicology receptors, and line of site for waste piles.
AIB, BC EAO, MEM, MOE, MFLNRO, CEA Agency, Environment Canada, DFO, Interior Health Authority, NRCAN, SSN, Golder Associates, KAM, Knight Piésold Ltd., Lorax Environmental Services Ltd.	3170, 3171	Conference Call	May 16, 2012	BC EAO health sub-working group conference call to provide members with an opportunity to discuss any outstanding questions regarding KAM's proposed water quality model, specific to the TSF. Other topics of discussion included: fish and aquatic, water quality/resources, Kinder Morgan pipeline, air quality, visual impacts, and reclamation. Working Group concerns: (a) potential effects of wind blowing the dry tailings onto waterbodies; (b) stability of portions of the TSF that do not contain wet tailings; (c) effects of effluent on Inks Lake and interaction with migratory birds; (d) potential seepage of tailings into groundwater; (e) implications of the Kinder Morgan pipeline expansion on the right-of-way between the pit boundary and Jacko Lake; (f) potential visual effects of the TSF. Interior Health provided further comments on the TSF by letter on May 31, 2012. Most comments related to how the content of the tailings will interact with the environment and watershed.
AIB, BC EAO, MEM, MOE, MFLNRO, MOTI, CEA Agency, City of Kamloops, Environment Canada, DFO, Health Canada,	762, 763	Meeting and Site Tour	June 23, 2014	BC EAO Working Group meeting. BC EAO and CEA Agency provided information on their respective processes. KAM provided information on the Project and the updated General Arrangement. Also discussed the TSF, water resources, Jacko Lake, design of the Peterson Creek
