Acronyms and Abbreviations

AIB	Ashcroft Indian Band
Amec Foster Wheeler	Amec Foster Wheeler Environment & Infrastructure
BC EAO	British Columbia Environmental Assessment Office
CEA Agency	Canadian Environmental Assessment Agency
DFO	Department of Fisheries and Oceans Canada
ERM	ERM Consultants Canada Ltd.
LNIB	Lower Nicola Indian Band
MEM	Ministry of Energy, Mines and Natural Gas
MFLNRO	Ministry of Forests, Lands and Natural Resource Operations
MNBC	Métis Nation of British Columbia
MOE	Ministry of Environment
MOTI	Ministry of Transportation & Infrastructure
MOU	Memorandum of Understanding
NOW	Notice of Work
SIB	Skeetchestn Indian Band
SSN	Stk'emlupsemc te Secwepemc Nation
TNRD	Thompson-Nicola Regional District
TteS	Tk'emlúps te Secwépemc
WP/CIB	Whispering Pines/Clinton Indian Band

Table 1: Ajax Project – Engagement with Ashcroft Indian Band to July 31, 2015

Event Type	Date	Participating Organizations	Summary
Letter	January 19, 2011	AIB, KAM	KAM provided information on the Ajax Project. Noted that the CEA Agency and BC EAO have stated the Project is in the AIB's asserted territory. Asked that AIB contact Arbutus Consulting (KAM's First Nations liaison) if they wish to discuss the Project.
Meeting	February 27, 2012	BC EAO Working Group: AIB, BC EAO, MEM, MOE, MFLNRO, CEA Agency, Environment Canada, DFO, Interior Health Authority, Natural Resources Canada, SSN, KAM, Knight Piesold Consulting, Lorax Environmental Services	BC EAO water quality sub-working group meeting. Discussed key water quality related components for further development of the dAIR. Working Group Issues: (a) effect of local climate (e.g., freezing) on dry stack tailings; (b) potential effects of the open pit on wildlife, particularly birds; (c) water quality changes to Inks Lake.
Letter	April 5, 2012	AIB, KAM	KAM invited AIB to attend a public community workshop on April 18, 2012, at which specific project-related information on areas of concern will be provided and discussed.
Conference Call	May 16, 2012	BC EAO Working Group: AIB, BC EAO, MEM, MOE, MFLNRO, CEA Agency, Environment Canada, DFO, Interior Health Authority, Natural Resources Canada, SSN, Golder Associates, KAM, Knight Piesold Consulting, Lorax Environmental Services	BC EAO health sub-working group conference call to provide members with an opportunity to discuss any outstanding questions regarding KAM's proposed water quality model, specific to the tailings storage facility. Other key topics discussed included: fish and aquatic, water quality/resources, Kinder Morgan pipeline, air quality, visual impacts, and reclamation. Working Group Issues: (a) potential effects of wind blowing the dry tailings onto waterbodies; (b) stability of portions of the tailings storage facility that do not contain wet tailings; (c) effects of effluent on Inks Lake and interaction with migratory birds; (d) potential seepage of tailings into groundwater; (e) implications of the Kinder Morgan pipeline expansion on the right-of-way between the pit boundary and Jacko Lake; (f) potential visual effects of the tailings storage facility.
Letter	June 14, 2012	AIB, KAM	AIB confirmed they are actively participating in the federal and provincial EA process for the Project, and are represented on all the sub-working groups. AIB cannot continue to meaningfully participate in the EA process with the current levels of federal and provincial funding, and requested additional funding from KAM to assist with their participation. KAM requested details on the participation and consultation covered by CEA Agency's funding, and activities AIB wishes to undertake that are not covered by federal funding (June 28, 2012).

Event Type	Date	Participating Organizations	Summary
E-mail	June 20, 2012	AIB, Arbutus Consulting	Arbutus provided shape files for the General Arrangement on behalf of KAM. Offered to discuss the Project if AIB has any questions. AIB requested the information in a different format on June 28 and July 4, 2012; KAM provided on a CD. KAM requested a map of AIB's traditional territory to be included in the file (June 28, 2012).
E-mail	July 4, 2012	AIB, Arbutus Consulting	AIB is working towards a meeting the week of July 23, 2012. KAM requested potential meeting dates from AIB to discuss the Project (January 16, 2013).
E-mail	July 9, 2013	AIB, Amec Foster Wheeler	Meeting with AIB set for July 10, 2013.
Meeting	July 10, 2013	AIB, Amec Foster Wheeler, KAM	Topics of discussion included: project water draw, request for a TLU study (at the Nation level), involvement in the NOW consultation process, request for a site tour, training and work in security and first aid, and content of community information sessions. KAM requested a meeting with AIB to collect socio-economic baseline information.
E-mail	August 2, 2013	AIB, KAM	KAM provided an update on the Project, noting that the General Arrangement has been changed, and there will be a new timeline for submission of the EA. Invited AIB to the public community information sessions in Kamloops on September 9-12, 2013.
E-mail	August 20, 2013	AIB, KAM	Further to their meeting on July 10, 2013, AIB requested a meeting to discuss a TLU study. KAM noted they will get back to AIB with potential dates (August 30, 2013). KAM suggested September 26, 2013 for the meeting (September 17, 2013). Meeting confirmed for September 25, 2013.
E-mail	September 6, 2013	AIB, KAM	KAM invited AIB to the public community information sessions on September 9-12, 2013. Topics to be discussed include ground vibration and air-blast controls, noise and vibration models, water quality models, air quality models, and human health and ecological risk assessment.
E-mail	September 10, 2013	AIB, KAM	Further to the discussion at their meeting on July 10, 2013, AIB requested a tour of the Robinson Mine in Nevada the week of November 5, 2013.
Meeting	September 25, 2013	AIB, KAM	Discussed a potential TLU study.
E-mail	October 2, 2013	AIB, KAM	Further to their discussion on September 25, 2013, AIB will work with adjacent First Nations to develop protocols for the Nlaka'pamux TLU study. Provided costs and timeline to develop the TLU study proposal, which would include budget to do the TLU study, timelines and deliverables will be provided to KAM for consideration and negotiation.

Event Type	Date	Participating Organizations	Summary
E-mail	October 11, 2013	AIB, KAM	KAM informed AIB that the EA submission will be delayed until 2014. KAM will contact AIB in the next month to discuss the TLU study proposal.
E-mail	June 4, 2014	AIB, KAM	KAM requested a meeting with AIB to present the updated General Arrangement; AIB will provide potential dates. Discussed potential meeting dates on June 6, 2014. Meeting arranged for June 24, 2014 at the KAM office (June 11, 2014).
Meeting	June 23, 2014	BC EAO Working Group: AIB, BC EAO, MEM, MOE, MFLNRO, MOTI, CEA Agency, City of Kamloops, Environment Canada, Fisheries and Oceans Canada, Health Canada, Interior Health Authority, LNIB, Natural Resources Canada, SSN, , TNRD, Transport Canada, ERM, KAM	BC EAO Working Group meeting. BC EAO and CEA Agency provided information on their respective processes. KAM provided information on the Project and the updated General Arrangement. Also discussed the tailings storage facility, water resources, Jacko Lake, design of the Peterson Creek diversion, dAIR, air quality, and public consultation. Working Group Issues: (a) mine water source; (b) design flood for the tailings storage facility; (c) lack of plan for surface water discharge; (d) exclusion of the Thompson River in water quality and quantity regional study area; (e) potential restriction of access to Jacko Lake; (f) effects of dust generation; (g) potential extension of effects beyond the air quality model; (h) effects of noise and vibration on sensitive receptors such as schools and hospitals; (i) potential effects of the updated General Arrangement.
Meeting	June 24, 2014	AIB, Amec Foster Wheeler, KAM	KAM provided a project update and information on the updated General Arrangement. Topics of discussion included: consultation with AIB and other Nlaka'pamux Nation groups, collection of socio-economic baseline information, clarification on the AIR vs the EA application, SSN Cultural Heritage Study, archaeological impact assessment, water quality and changes to related regulations, shipping of condensate and Goose Lake Road access, reclamation, potential metals effects on nearby cattle and country foods, supporting recreational use in the area, land purchases, mitigation for general air quality concerns, training and capacity building, use of foreign workers and unions, holding regular meetings to share information related to the Project. TLU study - Discussed the proposal previously submitted to KAM, and agreed to have further discussions on it. Archaeology - AIB requested involvement in the archaeology impact assessment, including a site visit. Noted that Nlaka'pamux use of the area would be different than uses by Secwepemc. Issues: (a) effects on water quality; (b) effects of metals on nearby cattle and country foods; (c) need for training and capacity building opportunities.

Event Type	Date	Participating Organizations	Summary
Phone Call	June 26, 2014	AIB, KAM	AIB requested a meeting with KAM to discuss the information KAM requires from AIB for the EA application. AIB would like to be involved in the work rather than having consultants do it. Meeting arranged for July 3, 2014.
Meeting	July 3, 2014	AIB, KAM	Discussed information required from AIB for the EA application. KAM provided a written proposal relating to collection of socio-economic and current use information. AIB is willing to support the Project if an Impacts Benefit Agreement and opportunities for community businesses, training, and employment are facilitated.
E-mail	July 10, 2014	AIB, Amec Foster Wheeler	Amec Foster Wheeler provided draft notes for the June 24, 2014 meeting, requesting any comments by July 24, 2014. Also provided a copy of the meeting presentation. Feedback requested again on July 24; none received so final notes provided by KAM on July 28, 2014. On August 3, 2014, AIB requested more time to review the meeting notes; KAM requested comments by August 15, 2014. Comments provided on August 20, 2014 by AIB and notes finalized by KAM and sent to AIB on October 7, 2014.
E-mail	July 28, 2014	AIB, KAM	KAM provided the updated General Arrangement shape files, noting that there will continue to be changes to the design as the process moves forward.
Agreement	October 24, 2014	AIB, KAM	AIB and KAM signed a Consultation and Benefits Agreement.
E-mail	November 17, 2014	AIB, KAM	KAM requested that a meeting with the Chief, Council and Elders be set up to discuss collection of socio-economic information. Meeting confirmed for December 3, 2014. KAM provided the data request for socio-economic information to be discussed at the December 3, 2014 meeting (December 2, 2014).
Meeting	December 3, 2014	AIB, Amec Foster Wheeler, InterGroup, KAM	Meeting with Chief, Council and Elders to collect socio-economic data. KAM explained the reason for collecting the data and the roles of their consultants. Information was provided on AIB services, infrastructure, traditional land use, Aboriginal language use, education and training of AIB members, protective and health services available, economic development opportunities and employment, potential mine effects, demographics, housing, noise, and dust. Agreed to future meetings to complete baseline data collection. AIB will be given the opportunity to review the information collected, and all baseline information gathered will be provided to AIB for their use. Issues: (a) potential effects on salmon and other fish downstream of the mine.
E-mail	December 22, 2014	AIB, Amec Foster Wheeler	Amec Foster Wheeler provided draft notes from the December 3, 2014 meeting, requesting any comments/corrections by January 15, 2015. Amec Foster Wheeler requested comments again on January 20, 2015; none received and final notes provided on March 2, 2015.

Event Type	Date	Participating Organizations	Summary
E-mail	March 7, 2015	AIB, KAM	KAM provided the preliminary socio-economic and background baseline information reports for AIB to review. Requested a meeting to discuss the reports and any additional information AIB may be able to provide.
Email	August 5, 2015	AIB, KAM	KAM provided AIB with Part C of the Application for their review and requested comments by September 3, 2015.

Table 2: Ajax Project – Engagement with Lower Nicola Indian Band to July 31, 2015

Event Type	Date	Participating Organizations	Summary
Letter	January 19, 2011	LNIB, KAM	KAM provided information on the Ajax Project. Noted that the CEA Agency and BC EAO have stated the Project is in the LNIB's asserted territory. Asked that LNIB contact Arbutus Consulting (KAM's First Nations liaison) if they wish to discuss the Project.
Letter	April 5, 2012	LNIB, KAM	KAM invited LNIB to attend a public community workshop on April 18, 2012, at which specific project-related information on areas of concern will be provided and discussed.
Letter	June 28, 2012	LNIB, KAM	LNIB noted the project falls within their territory and affects their Aboriginal title and rights. Requested a meeting with KAM to discuss negotiation of an Engagement Agreement, TK Protocol, and Socio-Economic Participation Agreement. In response on July 20, 2012, KAM listed the consultation undertaken with LNIB to date, and noted that Arbutus will contact LNIB to schedule a meeting. KAM noted that CEA Agency offered funding to LNIB for participation in the Working Group, and noted that no aspects of Crown consultation were delegated to KAM. KAM requested details on potential effects to LNIB's Aboriginal rights and title so that KAM can ensure they are identified and addressed.
E-mail	July 17, 2012	LNIB, KAM	KAM provided a list of plant species found at the project site, and asked if LNIB could identify if any are used for traditional or medicinal purposes. Requested feedback by August 1, 2012.
Letter	July 20, 2012	LNIB, KAM	In response to LNIB's June 28, 2012 letter to the BC EAO, KAM listed the consultation undertaken with LNIB to date, and noted that Arbutus will contact LNIB to schedule a meeting. KAM noted that CEA Agency offered funding to LNIB for participation in the Working Group, and noted that no aspects of Crown consultation were delegated to KAM. KAM requested details on potential effects to LNIB's Aboriginal rights and title so that KAM can ensure they are identified and addressed.
E-mail	July 30, 2012	LNIB, Arbutus Consulting	Arbutus requested potential dates to discuss the Project with LNIB. Requested again on August 27, 2012. LNIB provided suggested dates, and meeting arranged for October 5, 2012 (September 20, 2012).

Event Type	Date	Participating Organizations	Summary
Meeting	October 5, 2012	LNIB, KAM	Meeting with Chief and Councillor. KAM provided an overview of the Project and the regulatory process. LNIB requested more involvement in the formal consultation process; KAM noted the opportunities available for LNIB to participate. LNIB noted that KAM does not have authority to determine the nature of Aboriginal rights and interests in the Project.
E-mail	November 9, 2012	LNIB, Arbutus Consulting	Further to the meeting on October 5, 2012, KAM requested another meeting to discuss how KAM and LNIB can work together and gather information of relevance to the Project. The LNIB Negotiating Committee is available to meet in January (December 14, 2012). Arbutus will contact LNIB in January with potential meeting dates (December 17, 2012).
E-mail	December 17, 2012	LNIB, Arbutus Consulting	KAM requested rationale from LNIB to assist KAM in understanding their request for deeper consultation on the Project. KAM noted that their current mandate for consultation is to: (a) share information and receive/address comments on the EA, and work with affected First Nations to identify potential effects and ways to address the effects; and (b) provide economic and related project opportunities to area First Nations.
Meeting	July 10, 2013	LNIB, Amec Foster Wheeler, KAM	Meeting with Chief and Councillor. KAM provided information on the Project and consultation to date. Socio-economic baseline data collection - LNIB agreed to community discussions in August and a meeting with Chief & Council in September.
E-mail	September 6, 2013	LNIB, KAM	KAM invited LNIB to the public community information sessions on September 9-12, 2013. Topics to be discussed include ground vibration and air-blast controls, noise and vibration models, water quality models, air quality models, and human health and ecological risk assessment.
E-mail	November 20, 2013	LNIB, KAM	KAM requested a meeting to introduce some of the KAM team to the LNIB negotiating team and new Chief. LNIB suggested December 11, 2013 to meet with KAM (December 3, 2013). Meeting confirmed for December 11, 2013 at the Band office.
E-mail	June 4, 2014	LNIB, KAM	Meeting to update LNIB on the General Arrangement set for June 10, 2014.

Event Type	Date	Participating Organizations	Summary
Meeting	June 10, 2014	LNIB, Amec Foster Wheeler, KAM	<p>Meeting with Chief and LNIB Negotiating Committee. KAM provided information on the updated General Arrangement. Topics of discussion included: dust (including monitoring and mitigation), tailings, location of Goose Lake (in the proposed tailings area), site tour for LNIB, Working Group site tour on June 23, 2014 (LNIB is attending), potential move of the Kinder Morgan pipeline, size of mine operation, environmental studies (LNIB requested copies), reclamation strategies, LNIB territory, mine water requirements, contract opportunities for LNIB, collection of socio-economic information, project timing, and the upcoming LNIB/industry open house.</p> <p>Traditional territory - LNIB has provided a report to the BC EAO to support their claim that the Project is within their traditional territory, and will provide a copy of the report to KAM.</p> <p>Socio-economic baseline - KAM asked LNIB to share socio-economic and other information for the EA, as well as to help identify opportunities for training and procurement.</p> <p>Issues: (a) effects of dust on grazing, wildlife and harvested plants; (b) potential for lakes to be drained for mine water usage.</p>
Meeting	June 23, 2014	BC EAO Working Group: AIB, BC EAO, MEM, MOE, MFLNRO, MOTI, CEA Agency, City of Kamloops, Environment Canada, DFO, Health Canada, Interior Health Authority, LNIB, Natural Resources Canada, SSN, TNRD, Transport Canada, ERM, KAM	<p>BC EAO Working Group meeting. BC EAO and CEA Agency provided information on their respective processes. KAM provided information on the Project and the updated General Arrangement. Also discussed the tailings storage facility, water resources, Jacko Lake, design of the Peterson Creek diversion, dAIR, air quality, and public consultation.</p> <p>Working Group Issues: (a) mine water source; (b) design flood for the tailings storage facility; (c) lack of plan for surface water discharge; (d) exclusion of the Thompson River in water quality and quantity regional study area; (e) potential restriction of access to Jacko Lake; (f) effects of dust generation; (g) potential extension of effects beyond the air quality model; (h) effects of noise and vibration on sensitive receptors such as schools and hospitals; (i) potential effects of the updated General Arrangement.</p>
E-mail	June 24, 2014	LNIB, Amec Foster Wheeler	Amec Foster Wheeler provided draft notes for the June 10, 2014 meeting. Will follow up the following week on comments from LNIB on the notes, set up a meeting to discuss socio-economic baseline data collection, and find out when KAM will receive a copy of the traditional territory report provided to BC EAO.
Phone Call	June 27, 2014	LNIB, Amec Foster Wheeler	Amec Foster Wheeler left a message, requesting dates for a meeting.

Event Type	Date	Participating Organizations	Summary
E-mail	July 3, 2014	LNIB, Amec Foster Wheeler	Amec Foster Wheeler resent the draft notes for the June 10, 2014 meeting, requesting any changes or comments. Final notes provided on January 12, 2015. Amec Foster Wheeler sent a list of socio-economic questions to be used for the socio-economic assessment and Aboriginal background sessions of the EA. Also asked when KAM would receive a copy of the BC EAO report. Requested again on July 8, 2014.
E-mail	July 8, 2014	LNIB, Amec Foster Wheeler	In follow-up to his e-mails and phone call, Amec Foster Wheeler asked for meeting dates to discuss LNIB interests in the project area and socio-economic data collection for the EA. LNIB suggested meeting on August 6, 2014. Amec Foster Wheeler will confirm this date with KAM (July 17, 2014).
E-mail	July 22, 2014	LNIB, Amec Foster Wheeler	Amec Foster Wheeler provided a draft agenda for the August 6, 2014 meeting, and requested input from LNIB on the topics suggested; none received.
E-mail	July 28, 2014	LNIB, KAM	KAM provided the updated GA shape files for review, noting that they are still in the planning stages and there will be some changes to design as the Project proceeds.
Meeting	August 6, 2014	LNIB, Amec Foster Wheeler, KAM	Topics of discussion included: consultation; collection of socio-economic and other interests information; economic, employment, training, and other capacity-building opportunities; status of the BC EAO report on LNIB's traditional territory; the General Arrangement; the BC EAO Working Group site tour in June; timeline for the regulatory process; and capacity funding. LNIB noted that Lac le Jeune is an area of interest to them. Level of consultation - Section 11 Order does not require KAM to consult with LNIB, but KAM is engaging LNIB to share information, identify economic/employment/training opportunities, and gather information for the EA. LNIB wants more than a "Working Group First Nation" relationship on the Project; they want to be consulted and accommodated, and understand potential effects on their Aboriginal rights and title. Socio-economic information - LNIB is willing to provide information they have available, and discuss any data gaps. Traditional knowledge - LNIB does not have specific information for the project area. Economic opportunities - LNIB will provide a community profile, which includes demographics and members' skills. KAM agreed to work with LNIB on training initiatives. LNIB provided their 2014 community profile on August 6, 2014. EA application - LNIB would like to see the final application before it is submitting; this will be discussed further at a later date.

Event Type	Date	Participating Organizations	Summary
E-mail	August 7, 2014	LNIB, KAM	<p>Also provided a copy of the presentation from the meeting that day, as well as the updated general arrangement shape files. KAM offered to present the information to the full LNIB council.</p> <p>KAM will forward the updated project description once the updated AIR document is approved by BC EAO. (This was subsequently provided at the Working Group meeting).</p>
E-mail	August 7, 2014	LNIB, Amec Foster Wheeler	<p>As discussed at the August 6, 2014 meeting, Amec Foster Wheeler asked if the LNIB Negotiations Committee is available to meet on September 4 or 5, 2014. Also asked for meeting dates for late September, October, and possible November. LNIB will let Amec Foster Wheeler know when they are available (August 8, 2014).</p> <p>Amec Foster Wheeler also asked for a copy of the traditional territory report provided to the BC EAO, discussed at the last two meetings. LNIB agreed to provide a copy of the report (August 8, 2014). Amec Foster Wheeler requested the report again on August 26, 2014.</p>
E-mail	August 7, 2014	LNIB, Amec Foster Wheeler	<p>Amec Foster Wheeler thanked LNIB for the community profile provided on August 6, 2014, and will get back to LNIB with any additional information that may be needed. Requested a call the week of August 18, 2014 to discuss further. This call was discussed again at the meeting on September 4, 2014.</p>
E-mail	August 19, 2014	LNIB, Amec Foster Wheeler, KAM	<p>Amec Foster Wheeler followed up on his request for confirmation of the next meeting date. Requested that LNIB confirm availability on September 4 or 5, 2014. Discussed dates through several e-mails; meeting confirmed for September 5, 2014.</p> <p>Provided an agenda, and asked for any additional items LNIB would like to discuss; asked again on August 26, 2014.</p> <p>Draft notes provided by Amec Foster Wheeler on August 30, 2014.</p> <p>The socio-economic consultant has reviewed the information provided by LNIB, and Amec Foster Wheeler will send a summary of the additional information they are looking for. Amec Foster Wheeler provided a list of data gaps in the socio-economic information found in the LNIB community profile provided, and asked for a meeting or conference call to discuss how to address the gaps (August 31, 2014). LNIB agreed to discuss at the September 5, 2014 meeting (September 2, 2014).</p>

Event Type	Date	Participating Organizations	Summary
Meeting	September 5, 2014	LNIB, Amec Foster Wheeler, KAM	<p>Chief and councillor were unable to attend the meeting. Topics of discussion included: level of engagement, the BC EAO territory report, capacity funding and agreements, collection of information for the EA, and a community meeting.</p> <p>BC EAO report - LNIB is seeking legal counsel before releasing the traditional territory report to KAM. KAM asked if approval had been granted for release of the report on October 10, 2014.</p> <p>Discussed capacity funding for engagement with LNIB. KAM is looking for a longer-term relationship, not just gathering information for the EA. Chief & Council will make the decision on how LNIB moves forward with KAM. KAM will provide a draft Capacity Funding Agreement to LNIB to review. KAM confirmed a proposal had been sent to for LNIB to review (September 25, 2014).</p> <p>Socio-economic baseline information - LNIB will confirm a conference call to discuss the following week, after meeting with Chief & Council. KAM proposed monthly meetings that would include collection of this information (September 25, 2014). KAM asked if approval to proceed had been received from Chief & Council (October 10, 2014).</p> <p>TLU study - LNIB would like to undertake a study as they have a strong interest in the project area.</p> <p>Community meeting - LNIB would like to have project information presented to their members at a community meeting; October 8, 2014 was suggested.</p> <p>Designation as Working Group First Nation - LNIB is meeting with BC EAO to discuss; they believe the Project is within their territory and they should be designated as a "Section 11 First Nation" instead. Regardless of the designation by BC EAO, CEA Agency expects KAM to engage LNIB and the AIR requires KAM to gather information on LNIB interests.</p> <p>Issues: (a) tailings management; (b) effects on water; (c) level of dust.</p>
E-mail	September 12, 2014	LNIB, Amec Foster Wheeler, KAM	<p>Amec Foster Wheeler provided a draft questionnaire for the LNIB community meeting. Amec Foster Wheeler requested input again on September 25 and October 10, 2014.</p>
E-mail	September 17, 2014	LNIB, Amec Foster Wheeler	<p>Amec Foster Wheeler asked for comments on the August 6, 2014 meeting notes so they can be finalized. Requested again on October 10, 2014 and October 29, 2014. Amec Foster Wheeler provided final notes (November 4, 2014).</p>

Event Type	Date	Participating Organizations	Summary
E-mail	September 19, 2014	LNIB, KAM	KAM suggested October 8 or 9, 2014 for the community meeting; LNIB will confirm availability. The hall is unavailable that date; KAM suggested alternative dates for LNIB to consider (October 2, 2014). Hall booked for October 22, 2014. KAM suggested having an LNIB member deliver the invitations door to door. LNIB confirmed (October 7, 2014).
Letter	September 25, 2014	LNIB, KAM	KAM proposed capacity funding for LNIB to provide information on the "Four Questions" (current TLU, effects of project changes on TLU, concerns regarding effects on Aboriginal rights, potential mitigation). Provided an approach to collect this information (database search, workshop, summary report). KAM also proposed monthly meetings to discuss socio-economic and other information required for the EA, for which capacity funding would also be provided.
E-mail	October 10, 2014	LNIB, Amec Foster Wheeler	Amec Foster Wheeler provided draft notes for the September 5, 2014 meeting, requesting comments from LNIB. Follow-up request for comments sent on October 29, 2014. Amec Foster Wheeler provided final notes (November 4, 2014).
E-mail	October 15, 2014	LNIB, Amec Foster Wheeler, KAM	Amec Foster Wheeler requested a meeting on October 22, 2014 to discuss capacity funding and information collection. LNIB is not available to meet on October 22, 2014. Meeting requests sent again on November 3, 7 12 and 24, 2014. LNIB suggested December 1, 2014 to meet with the KAM Negotiating Committee; KAM and Amec Foster Wheeler are available that date (November 25, 2014). Also requested a call to discuss the community meeting questionnaire.
E-mail	October 17, 2014	LNIB, KAM	KAM requested an update on logistics for the October 22, 2014 community meeting. LNIB responded that the Negotiations Committee has decided to postpone the community meeting and meeting scheduled for that day, and will contact KAM at a later date to arrange the next meeting.
E-mail	December 1, 2014	LNIB, Amec Foster Wheeler, KAM	LNIB provided a copy of their Engagement Protocol for discussion at the meeting that day.

Event Type	Date	Participating Organizations	Summary
Meeting	December 1, 2014	First Peoples Law (LNIB), LNIB, Amec Foster Wheeler, KAM	<p>Meeting with the LNIB Negotiating Committee at the KAM office. Topics of discussion included: socio-economic baseline data collection, Section 11 Order and level of consultation, calls from AIB to LNIB, the capacity funding proposal, previous requests for the BC EAO traditional territory report, LNIB relationship with KAM, and common interests. Next meeting tentatively set for December 12, 2014.</p> <p>Socio-economic baseline data collection - no meeting set to date.</p> <p>Capacity funding proposal - has been reviewed by LNIB. LNIB will likely need its own consultant to assist.</p> <p>Traditional territory report was not received.</p>
E-mail	December 9, 2014	First Peoples Law (LNIB), LNIB, Amec Foster Wheeler	Amec Foster Wheeler provided draft notes for the December 1, 2014 meeting, and requested any feedback by December 19, 2014. Feedback requested again on December 27, 2014; none received. Final notes provided by Amec Foster Wheeler on January 5, 2015.
E-mail	December 10, 2014	LNIB, Amec Foster Wheeler	<p>Amec Foster Wheeler confirmed the meeting for December 12, 2014.</p> <p>Requested confirmation that the Nlaka'pamux Nation territory map on the LNIB website is suitable for use in the EA, or if there is an alternate map that should be used. LNIB noted that it was suitable for use.</p>
Meeting	December 12, 2014	First Peoples Law (LNIB), LNIB, Amec Foster Wheeler, KAM, Lawson Lundell LLP	<p>Meeting with Chief and Negotiating Committee. Topics of discussion included: engagement and building a relationship between KAM and LNIB, capacity funding, and confidentiality of traditional knowledge information, and gathering information for the EA. Next meeting set for January 19, 2015 at the KAM office.</p> <p>Capacity Funding Agreement - discussed details of the agreement, noting that focus should be on reducing the negotiating process so more funds are available to benefit the community. LNIB will work on details for the agreement.</p> <p>Engagement Protocol - KAM feels the document provided by LNIB is too high level and requested further discussion.</p>
E-mail	December 27, 2014	First Peoples Law (LNIB), LNIB, Amec Foster Wheeler	Amec Foster Wheeler provided draft notes for the December 12, 2014 meeting, requesting any feedback by January 16, 2015. Final notes provided on January 19, 2015.
E-mail	January 16, 2015	First Peoples Law (LNIB), Lawson Lundell LLP	LNIB's counsel reviewed the draft Capacity Funding Agreement and Engagement Protocol, and suggested that the Agreement be appended as a schedule to the Engagement Protocol. KAM's legal counsel provided comments on the revised documents, and will provide a tracked changes version for further discussion.

Event Type	Date	Participating Organizations	Summary
Meeting, Site Tour	January 19, 2015	First Peoples Law (LNIB), LNIB, Amec Foster Wheeler, KAM, Lawson Lundell LLP	<p>Meeting with Councillor and legal counsel at the KAM office. Topics of discussion included: the LNIB-KAM relationship, combining the Engagement Protocol and Capacity Funding Agreement, collection of information for the EA, training and employment opportunities, and a site tour. LNIB will provide the next meeting date.</p> <p>Draft Capacity Funding Agreement - LNIB to prepare a detailed budget. KAM asked to receive the budget and work plan before the next meeting (February 10, 2015). LNIB agreed to provide before the March 11, 2014 meeting (February 17, 2015).</p> <p>Engagement Protocol - KAM to provide comments to LNIB on the draft Engagement Protocol. KAM asked to receive the protocol before the next meeting (February 10, 2015). LNIB agreed to review KAM's comments (February 3, 2015). LNIB agreed to review KAM's comments (February 4, 2015).</p> <p>Collection of EA information - Amec Foster Wheeler noted that information from LNIB is required for the EA, which is expected to be filed in April. LNIB would like to assess effects on rights and title so they can explain the effects and benefits before they involve the community. LNIB will discuss with Chief & Council ways LNIB can provide EA information to KAM on an interim basis.</p> <p>Amec Foster Wheeler offered a site tour for LNIB; one set up for that afternoon following the meeting. LNIB requested that discussions during the tour not be recorded.</p>
E-mail	January 26, 2015	First Peoples Law (LNIB), Lawson Lundell LLP	<p>LNIB's legal counsel provided a revised draft letter to regulatory bodies to be attached to the draft Capacity Funding Agreement.</p> <p>LNIB requested KAM's availability for a meeting on February 23, 2015 in Kamloops. Further discussions on meeting date (February 3, 4, 10, 17, 24, 25, 2014); meeting set for March 11, 2015.</p>
E-mail	January 28, 2015	First Peoples Law (LNIB), LNIB, Amec Foster Wheeler	<p>Amec Foster Wheeler provided draft notes for the January 19, 2015 meeting, and requested feedback from LNIB by February 11, 2015. Final notes provided on February 12, 2015.</p>
E-mail	March 3, 2015	LNIB, Amec Foster Wheeler	<p>Further to a request from LNIB for information on employment, training, and other economic opportunities, Amec Foster Wheeler provided a preliminary workforce estimate. Also asked for a meeting in later March to discuss additional socio-economic information and information about LNIB's Aboriginal interests in the project area. Amec Foster Wheeler requested a meeting to collect socio-economic information again on March 25, 2015, noting that information about Aboriginal interests can be collected at a later date. Discussed further on March 26, 2015.</p>

Event Type	Date	Participating Organizations	Summary
E-mail	March 7, 2015	LNIB, KAM	KAM provided preliminary socio-economic and background baseline reports for LNIB to review. Requested a meeting to discuss any additional community-specific information LNIB can provide. No response was provided by LNIB.
E-mail	March 11, 2015	LNIB, KAM	LNIB is unable to attend their scheduled meeting; requested new potential meeting dates.
E-mail	March 26, 2015	LNIB, Amec Foster Wheeler	Further to a call, Amec Foster Wheeler provided an outline of the types of socio-economic information they wish to collect. Asked that LNIB confirm with the Negotiations Committee about collecting this information. Amec Foster Wheeler followed up on March 31, 2015 to see if confirmation had been received from the Negotiations Committee.
Email	April 8, 2015	LNIB, AMEC, KAM	LNIB and KAM exchanged emails and agreed on a date for their next meeting.
Email	April 10, 2015	LNIB, KAM	LNIB legal counsel provided KAM with the draft Engagement Protocol and Work Plan; LNIB is in the process of preparing a draft budget to be attached. On April 21, 2015 LNIB legal council asked when they would receive KAM's comments on the draft engagement protocol. On May 6, 2015 KAM informed LNIB they have no comments on the Engagement Protocol and are looking forward to receiving the draft budget. On May 7, 2015 LNIB legal counsel and KAM legal counsel exchanged emails on the draft work plan and budget.
Meeting	April 13, 2015	LNIB, AMEC, KAM	KAM and LNIB met to discuss Socio-Economic studies, engagement protocol, capacity funding and agreements. AMEC wants to meet with LNIB to discuss the socio-economic information requirements and traditional land use. KAM noted an interest in hosting an open house with LNIB; LNIB suggested that not many band members reside in Kamloops. KAM requested an estimate budget from LNIB, however no information can be provided due to uncertainty of consultants on the project. KAM requested an update on Strength Of Claim discussions between LNIB and BCEAO, LNIB has nothing to share.
Email	June 19, 2015	LNIB, KAM	LNIB thanked KAM for identifying that the mine site falls within traditional Lower Nicola Indian Band territory and also provided KAM with the Engagement Protocol and Budget.

Event Type	Date	Participating Organizations	Summary
Letter	June 24, 2015	LNIB, KAM	KAM sent LNIB a signed letter of agreement for the CFA. Once LNIB's Chief signs the letter the agreement will be fully executed. The letter contains the details and terms of the CFA. Once KAM receives the signed letter they will expedite the payment. On July 28, 2015 LNIB returned the final, signed CFA and requested the first payment so they could begin the TUS work.
Meeting	July 7, 2015	LNIB, SSN, KAM, ERM, Knight Piesold, Lorax, Stantec, BGC, MEM, BC EAO, CEAA, Interior Health, FLNRO, Environment Canada, MoTI, City of Kamloops, TNRD, JTST, NRCAN, MMPO, MOE	Working Group Meeting. The first of three working group meetings was held with approximately 50 attendees in person or over the phone. Topics included an overview of the application, project description, project alternatives, geochemistry, water quantity and quality as well as fish and aquatics.
Meeting	July 8, 2015	LNIB, SSN, KAM, ERM, Knight Piesold, BGC, BC EAO, MEM, FLNRO, MMPO, CEAA, NRCAN, City of Kamloops, MOE, Environment Canada	Working Group Meeting. The second of three working group meetings was held with approximately 50 attendees in person or over the phone. Topics included noise and vibration, air quality, human health and ecological risk assessment, social VCs as well as accidents and malfunctions. Comments and concerns raised by LNIB included the following. <ul style="list-style-type: none"> - HHERA; concern if the assumptions used for tissue data lead to a prediction over the guideline that KAM will need explain.
Meeting	July 8, 2015	LNIB, SSN, KAM, Stantec, Intergroup, BC EAO, MOE, Interior Health, Health Canada, MMPO, FLNRO, City of Kamloops	As sub-working group meeting regarding health was held with approximately 20 attendees. Comments and concerns raised by LNIB included the following. <ul style="list-style-type: none"> - Concern of potential effect of noise on human health.
Meeting	July 8, 2015	LNIB, SSN, KAM, Stantec, Intergroup, BC EAO, City of Kamloops, Interior Health, TNRD, MOE	As sub-working group meeting regarding social aspects was held with approximately 20 attendees.
Meeting	July 8, 2015	LNIB, SSN, KAM, ERM, Knight Piesold, Lorax, BGC, MEM, BC EAO, TNRD, Environment Canada, NRCAN, FLNRO, CEAA	As sub-working group meeting regarding water was held with approximately 30 attendees.

Event Type	Date	Participating Organizations	Summary
Meeting	July 8, 2015	LNIB, SSN KAM, ERM, Knight Piesold, BGC, BC EAO, CEAA, MEM, MMPO, FLNRO, Environment Canada, NRCAN, City of Kamloops, MOE	As sub-working group meeting regarding fish and aquatics was held with approximately 30 attendees.
Meeting	July 9, 2015	LNIB, SSN, KAM, ERM, Amec Foster Wheeler, Keystone, MEM, BC EAO, CEAA, City of Kamloops, FLNRO, Environment Canada, MOE, Interior Health, TNRD, Health Canada, NRCAN, Canadian Wildlife Services	<p>Working Group Meeting. The last of three working group meetings was held with approximately 50 attendees in person or over the phone. Topics included terrestrial wildlife, soils and reclamation, archaeology as well as Part C (Aboriginal Groups Information Setting and Background; Procedural Aspects of Consultation; Aboriginal Interests (Rights and Title))</p> <p>Comments and concerns raised by LNIB included the following.</p> <ul style="list-style-type: none"> - Nesting sites: concern that nesting sites on pit wall or other infrastructure should be monitored and managed appropriately
Email	August 5, 2015	LNIB, KAM	KAM provided LNIB with Part C of the Application for their review and requested comments by September 3, 2015.

Table 3: Ajax Project – Engagement with Stk'emlupsemc te Secwépemc Nation to July 31, 2015 (representing Tk'emlúps te Secwépemc and Skeetchestn Indian Band)

Event Type	Date	Participating Organizations	Summary
Meeting	January 7, 2008	SSN, KAM	Leadership meeting at the SSN office. KAM introduced the Project to SSN.
Agreement	July 2, 2008	SSN, KAM	SSN and KAM signed a Negotiation Agreement.
Site Tour	August 1, 2009	MEM, SSN, KAM	KAM hosted a site tour to the hunting blind area for SSN and MEM.
Agreement	October 28, 2010	SSN, KAM	SSN and KAM signed an Advanced Exploration Agreement.
Meeting	January 12, 2011	SSN, KAM	Meeting at the KAM office. Topics of discussion included: the Project Description, a presentation on the Project Description, a Working Interest Agreement, joint ventures, and development of a Cultural Heritage Study. SSN will provide a template for a Working Interest Agreement. (Discussed further on August 9, 2011.)
Meeting	March 3, 2011	SSN, KAM	Leadership meeting at the TteS office. Topics of discussion included: product transport, First Nations involvement in the Project, a Cultural Heritage Study, water management, importance of fish in Jacko Lake, the hunting blind, species of cultural significance, effects on wildlife, reclamation, traditional use of plants in the area, and consultation for the Project. Issues: (a) need for a buffer around the hunting blind; (b) project effects on water resources, fish, and wildlife; (c) First Nations involvement in the Project; (d) reclamation.
Letter	March 23, 2011	MEM, SSN	MEM informed SSN of KAM's NOW application for drill holes for mineral exploration. SSN responded, raising a number of questions and concerns relating to the work. As the Advanced Exploration Agreement with KAM is not being followed, SSN cannot support the application (April 19, 2011).
E-mail	March 29, 2011	SSN, KAM	KAM provided information on part-time summer environmental sampling positions.
Phone Call	March 29, 2011	SSN, KAM	KAM provided information on available employment opportunities.

Event Type	Date	Participating Organizations	Summary
Meeting	April 27, 2011	SSN, KAM, BC EAO Working Group, BC EAO, MEM, MOE, MFLNRO, CEA Agency, City of Kamloops, Environment Canada, DFO, Health Canada, Knight Piesold Consulting, Thompson-Nicola Regional District, Transport Canada, Knight Piesold Consulting	BC EAO Working Group meeting. Topics of discussion included: federal and provincial EA processes, the Project Description, First Nations consultation program, project study program, preliminary issue identification, and next steps. Specific project-related topics of discussion included: water quality and quantity, tailings storage facility, metal leaching and acid rock drainage, noise, mineral tenures, smelting, and valued components. Working Group Issues: (a) neutral metal leaching (MEM); (b) effects on water quantity in the Cherry and Peterson Creek watersheds due to isolation of catchment areas at the mine site; (c) noise from back-up alarms on mining vehicles.
E-mail	May 2, 2011	SSN, KAM	SSN provided a proposal requesting an alternative EA process.
Letter	May 6, 2011	SSN, KAM	SSN provided a proposal for a Cultural Heritage Study, and requested a meeting with KAM to review. Also provided a discussion paper on what First Nations expect with respect to the EA process.
Letter	May 12, 2011	SSN, KAM	SSN informed KAM they had toured the mine site with Terra to discuss the archaeological assessment and had no issues with methodology for the archaeology work being done.
Meeting	May 18, 2011	SSN, KAM, Arbutus Consulting,	Leadership meeting. KAM provided a project update, noting the Feasibility Study will be complete by October. Discussed capacity funding, BC EAO Working Group meetings, an agreement that covers after the Feasibility Study is complete, BC EAO strength of claim and process, need for a Cultural Heritage Study, archaeology studies done to date and going forward, and permits.
Site Tour	July 7, 2011	SSN, KAM, Arbutus Consulting, Terra Archaeology	Leadership meeting and site tour. During the meeting, SSN provided information on their communities and governance, and the importance of working together with companies operating in their area. KAM reviewed project information, key activities, and timelines. This was followed by a site tour, which ended at the hunting blind. During the tour, topics of discussion included: the hunting blind, archaeology work to understand cultural significance, importance of having SSN involved in the EA process, and potential business opportunities. Copies of the project information package (project details and overview map) were provided to participants. Issues: (a) avoidance of the hunting blind; (b) SSN involvement throughout the EA process.

Event Type	Date	Participating Organizations	Summary
Site Tour	July 21, 2011	SSN, KAM	Leadership meeting and biology site tour. KAM provided a brief project overview. KAM also provided a site tour with stops at Ink Lake, the hunting blind, the waste rock dump, and the mill complex valley. A discussion about the engagement process also occurred.
Letter	August 9, 2011	SSN, KAM	SSN requested a meeting to start negotiations on a long-term Working Interest Agreement. SSN committed to providing a proposed annual consultation budget for KAM to review. SSN requested an update on the Cultural Heritage Study proposal. KAM suggested a meeting on August 18, 2011 (August 15, 2011).
Letter	August 15, 2011	SSN, KAM	KAM responded to SSN's August 9, 2011 letter, suggesting a meeting on August 18, 2011 to discuss a work plan for negotiations, studies, and the engagement plan. KAM noted they would like to participate in the Joint Resource Council meeting, and will have a representative at the August 25, 2011 meeting.
Meeting	August 18, 2011	SSN, Arbutus Consulting, KAM	Leadership meeting. Topics of discussion included: the Advanced Exploration Agreement, timing and process to develop a Project Agreement, capacity funding, clarifying objectives of KAM and SSN, reviewing the Cultural Heritage Study proposal, and the strength of claim process. Hunting blind - SSN would like to have meetings in their communities to discuss the hunting blind as it is a sensitive area. Cultural Heritage Study - SSN wants to start the study before the Feasibility Study is complete. SSN-KAM technical working group - Will look at legal obligations, SSN traditional values/laws, heritage management/monitoring, training/education/employment, social development/cultural enhancement/community development, business development (contracting/procurement), and a closure plan. Issues: (a) effects on the hunting blind.
Letter	August 23, 2011	TteS, KAM	TteS thanked KAM for ensuring that project consultation with TteS is properly fulfilled, and looks forward to continuing to build a working relationship with KAM. On August 23, 2011, KAM thanked TteS for their letter, noting they also look forward to building a relationship with SSN.
Letter	September 21, 2011	SSN, KAM	KAM noted that a meeting date for the SSN-KAM technical working group has not yet been provided.

Event Type	Date	Participating Organizations	Summary
Meeting	September 26, 2011	SSN, Arbutus Consulting, KAM	Leadership meeting at the KAM office. Topics of discussion included: the SSN-KAM technical working group, project updates, completion of the Feasibility Study, Crown consultation, SSN request for a visit to the KAM Poland facilities, and a term sheet. SSN-KAM technical working group - meeting scheduled for October 3, 2011. Group includes people from SSN and KAM. Term sheet - SSN provided a term sheet for review.
Letter	September 28, 2011	SSN, KAM	KAM reviewed the term sheet for negotiation provided by SSN at the September 26, 2011 meeting, and noted that KAM is not in a position to consider or respond to the financial and resourcing items in the proposal, but welcomes the opportunity to explore and negotiate terms that provide economic benefits and employment opportunities for KAM while meeting KAM's investment criteria.
Meeting	October 3, 2011	SSN, Arbutus Consulting, KAM	SSN-KAM technical working group meeting at the KAM office. Topics of discussion included: priorities and negotiation timelines for an engagement plan, Project Agreement, the EA and studies, other joint initiatives, government-to-government processes on major projects, development of a term sheet for the Project Agreement negotiations, timeline for Feasibility Study completion, appropriate lines of communication, Cultural Heritage Study proposal, study area for the archaeology work, and project funding. Cultural Heritage Study - SSN provided a map showing the approximate boundaries for the study and explained some of what has been proposed. Discussed the need for clarity on what the report will cover. In follow-up, on October 15, 2011, Arbutus provided information relating to the Cultural Heritage Study to SSN. Communication protocol - SSN will provide. Protocol later provided by SSN (Nov. 18, 2011).
Meeting	October 27, 2011	BC EAO Working Group: BC EAO, MEM, MOE, MFLNRO, CEA Agency, City of Kamloops, DFO, Interior Health Authority, Natural Resources Canada, Thompson-Nicola Regional District, SSN, Transport Canada, KAM, Knight Piesold Consulting	BC EAO Working Group meeting. Topics of discussion included: objectives, roles, and responsibilities of the Working Group, the provincial and federal EA processes, deliverables to date, and next steps. Also reviewed the dAIR public comments relating to public engagement, land use zoning, water discharge, site safety, utility requirements, air emissions, noise dispersion modelling, and light pollution.

Event Type	Date	Participating Organizations	Summary
Letter	November 14, 2011	SSN, KAM	KAM notified SSN (on October 28 and November 14, 2011) that they cannot discuss or negotiate an agreement with SSN until a decision on whether or not to proceed with the Project has been made.
Letter	November 17, 2011	SSN, KAM	<p>Agreements - Further to KAM's letters dated October 28 and November 14, 2011, SSN stated their expectations for a Project Agreement, and believe that KAM is in violation of their Exploration Agreement. SSN would prefer to work together rather than pursue legal actions. KAM requested clarification on obligations in accordance with the Advanced Exploration Agreement, noting that KAM believes all terms have been fulfilled in accordance with the contract (December 6, 2011).</p> <p>Cultural Heritage Study - SSN confirmed that the study discussions can move forward independently of agreement discussions.</p> <p>SSN Chiefs requested a meeting with KAM about the Cultural Heritage Study on December 12, 2011 to discuss the exchange of correspondence, effective communication, mandates, and timelines. Provided a copy of the communication protocol e-mailed on August 9, 2011 (November 18, 2011). (Meeting occurred on December 12, 2011.)</p>
Meeting	November 21, 2011	SSN, Arbutus Consulting	<p>Leadership meeting at the SSN office. Topics of discussion included: the Cultural Heritage Study, Feasibility Study, hunting blind, SSN-KAM technical working group meetings, update on project consultation activities, collection of socio-economic information, and potential economic opportunities.</p> <p>Cultural Heritage Study - Arbutus will follow up on SSN's questions regarding archaeological data for the study. SSN requested a commitment by KAM for the study. (The archaeology study was discussed further at the December 2, 2011 meeting.)</p> <p>Hunting blind - SSN noted that the hunting blind is within the open pit footprint.</p> <p>Actions SSN sees as outstanding include: discussion/commitment on a term sheet, terms of reference for the SSN-KAM technical working group, provision of the Feasibility Study and archaeology report, and agreement for the Cultural Heritage Study. (Action items discussed further at the December 12, 2011 meeting.)</p> <p>Issues: (a) hunting blind is within the open pit footprint; (b) effects from the Alkali creek diversion; (c) effects on wildlife habitat.</p>

Event Type	Date	Participating Organizations	Summary
Meeting	December 2, 2011	InterGroup, SSN, Arbutus Consulting, KAM	<p>SSN-KAM technical working group meeting. Topics of discussion included: the Feasibility Study, archaeology work, Cultural Heritage Study, panel review for the Project, clarification of why SSN believes that KAM is in violation of their Exploration Agreement (related to good faith relations; reminder that SSN and KAM need to move forward), socio-economic information, and NOW applications.</p> <p>Feasibility study - KAM provided an update on the Feasibility Study (expected completion mid-December). SSN requested a meeting to discuss after it is released. SSN also requested a briefing of the feasibility information at the December 12, 2011 leadership meeting.</p> <p>Cultural Heritage Study - KAM provided an update on archaeology work being undertaken. SSN need to do a Cultural Heritage Study so they can address gaps in the archaeology study.</p> <p>Socio-economic information - KAM provided information on InterGroup, their socio-economic consultant, and the type of information they wish to collect for the EA.</p>
Letter	December 6, 2011	SSN, KAM	Further to receiving SSN's invoice, KAM noted that expenditures to be billed must follow the agreed-upon budget.
Meeting	December 12, 2011	SSN, KAM	Leadership meeting at the TteS office. Topics of discussion included: developing a preliminary work plan for negotiating a Project Agreement, status of the Advanced Exploration Agreement, correspondence to date, and draft terms of reference for an engagement plan.
Phone Call	January 6, 2012	SSN, KAM	Discussed the terms of reference, draft work plan, Feasibility Study results, and next steps through a number of calls from January 6-10, 2012.
E-mail	January 12, 2012	SSN, KAM	KAM provided a draft work plan proposal for the EA and related permitting as well as negotiation of a Project Agreement. Requested further discussion with SSN to create a proposed budget to cover SSN costs of consultation and negotiation.
E-mail	January 12, 2012	SSN, KAM	KAM provided a project update, including water use and quality, dust management, noise control, and jobs.
E-mail	January 13, 2012	SSN, Arbutus Consulting	<p>SSN requested a copy of the terms of reference for the engagement plan; document provided by Arbutus. SSN noted that the terms of reference needs to be revised, and will send comments.</p> <p>KAM requested feedback on the proposed engagement plan terms of reference and work plan. SSN cancelled their conference call shortly before it was to occur, advising that SSN has suspended communication with KAM until requested consultation fees have been provided (January 25, 2012).</p>

Event Type	Date	Participating Organizations	Summary
Meeting	January 24, 2012	BC EAO Working Group: BC EAO, City of Kamloops, Health Canada, InterGroup, Interior Health Authority, SSN, KAM, Knight Piesold Consulting, Stantec	<p>BC EAO health sub-working group meeting to discuss health-related components of the dAIR. Topics of discussion included: air quality, noise and vibration, water quality, vegetation and plant communities, First Nations engagement, and community relations. It was noted that discussions would not be considered as feedback to the dAIR, and that KAM would be expected to address comments provided in the meeting.</p> <p>Requests - SSN requested to include the SSN community in the domain for the project health risk assessment. Other requests were for a list of locations for dust monitoring and other substances of concern, to include recreational water quality in the dAIR, qualitative assessment be undertaken by KAM to analyze noise effects in relation to mental health, and data from Highland Valley Copper be considered to illustrate impacts of a similar project.</p> <p>Working Group concerns: (a) light pollution is a potential health concern for those living close to the project area; (b) ongoing dust from mining operations after closure; (c) potential effects of noise on wildlife.</p>
Meeting	February 27, 2012	BC EAO Working Group: AIB, BC EAO, MEM, MOE, MFLNRO, CEA Agency, Environment Canada, DFO, Interior Health Authority, Natural Resources Canada, SSN, KAM, Knight Piesold Consulting, Lorax Environmental Services	<p>BC EAO water quality sub-working group meeting to discuss key water quality-related components for further development of the dAIR.</p> <p>Working Group concerns: (a) effect of local climate (e.g., freezing) on dry stack tailings; (b) potential effects of open collection ditches on wildlife, particularly birds; (c) water quality changes to Inks Lake.</p>
Letter	April 4, 2012	SSN, KAM	<p>KAM notified SSN of their NOW application for drill sites.</p> <p>SSN replied via letter on April 19, 2012, noting that an archaeological assessment has not been done for the road/trail to the drill sites, and that the work is being done in the absence of an Exploration Agreement. Requested that KAM contact SSN to arrange a meeting to discuss.</p>
Letter	April 4, 2012	SSN, KAM	<p>KAM invited SSN to attend a public community workshop on April 18, 2012, at which specific project-related information on areas of concern will be provided and discussed.</p>
E-mail	April 4, 2012	SSN, Arbutus Consulting, KAM	<p>Discussed KAM's plan to put a few drill holes on the existing southern waste rock dump, as requested by MOE.</p>

Event Type	Date	Participating Organizations	Summary
Letter	April 5, 2012	SSN, KAM	<p>SSN is disappointed in the lack of progress on agreement negotiations, and provided formal notice that SSN is ending the current agreement. Outlined the actions they plan to take. SSN invited KAM to their next Joint Council meeting on May 3, 2012 to discuss further.</p> <p>In response, KAM confirmed attendance and suggested agenda items (study plans, negotiation processes for a Project Agreement, and other opportunities for project participation by SSN community members). Also noted that KAM plans to move forward with the Project, and is ready to continue with the EA and engineering studies required (April 30, 2012).</p> <p>Cultural Heritage Study - SSN noted the study has been on the table for almost a year, and that it should be completed before the Project moves forward.</p>
Meeting	May 3, 2012	SSN, KAM	<p>Joint Council meeting. KAM provided a project update, noting that they have made the commitment for development and construction expenditures through to production. KAM noted the desire to explore additional opportunities for training, employment, and business development for SSN.</p> <p>Project Agreement - KAM committed to providing a draft contract for SSN to review that includes the consultation process and studies as well as a schedule and budget for negotiating a Project Agreement. In follow-up, KAM provided a Letter of Understanding Agreement that contains a scope of work and funding commitment for activities outlined in the Ajax First Nations Consultation Plan, and a work plan for negotiating a Project Agreement (May 10, 2012).</p>
Letter	May 7, 2012	SSN, KAM	<p>SSN thanked KAM for their April 30, 2012 letter, and for attending the Joint Council meeting on May 3, 2012. SSN suggested a meeting on May 17, 2012 to initiate negotiations and proposed a tripartite meeting in June.</p>
Meeting	May 10, 2012	BC EAO Working Group: BC EAO, MOE, City of Kamloops, Health Canada, Interior Health Authority, SSN, InterGroup, KAM, Knight Piesold Consulting, Stantec	<p>BC EAO health sub-working group meeting to discuss KAM's proposed draft noise modelling and air dispersion modelling plans. Topics of discussion included: the modelling plans, generation of power, monitoring of radioactive substances, particulate matter in country foods, if there would be polycyclic aromatic hydrocarbons (PAHs) in the explosives to be used, mine life, contaminant concentrations in nearby lakes, toxicology receptors, and line of site for waste piles.</p>

Event Type	Date	Participating Organizations	Summary
Conference Call	May 16, 2012	BC EAO Working Group: AIB, BC EAO, MEM, MOE, MFLNRO, CEA Agency, Environment Canada, DFO, Interior Health Authority, Natural Resources Canada, SSN, Golder Associates, KAM, Knight Piesold Consulting, Lorax Environmental Services	<p>BC EAO health sub-working group conference call to provide members with an opportunity to discuss any outstanding questions regarding KAM's proposed water quality model, specific to the tailings storage facility. Other topics of discussion included: fish and aquatic, water quality/resources, Kinder Morgan pipeline, air quality, visual impacts, and reclamation.</p> <p>Working Group Issues: (a) potential effects of wind blowing the dry tailings onto waterbodies; (b) stability of portions of the tailings storage facility that do not contain wet tailings; (c) effects of effluent on Inks Lake and interaction with migratory birds; (d) potential seepage of tailings into groundwater; (e) implications of the Kinder Morgan pipeline expansion on the right-of-way between the pit boundary and Jacko Lake; (f) potential visual effects of the tailings storage facility.</p>
Letter	May 18, 2012	SSN, KAM	KAM proposed a community information meeting in each community to provide information on the Project, followed by workshops for more detailed dialogue on specific areas of interest to community members.
Letter	May 23, 2012	SSN, KAM	<p>SSN noted that the Advanced Exploration Agreement expired in December, and a term sheet for negotiating a new agreement had been provided by SSN as well as the information on their expected consultation fee for engaging on the Project. SSN noted that the Letter of Understanding provided by KAM on May 10, 2012 does not maintain the interests for SSN's title and rights, and will not provide a foundation for future agreements.</p> <p>On May 31, 2012 KAM responded by letter acknowledging that SSN has Aboriginal rights and title in the project area, and efforts to engage have been intended to ensure those rights and interests are understood and respected. KAM is not in a position to pay the level of funding requested by SSN, and requested feedback on modifying the Letter of Understanding and study plan to be acceptable to SSN. Provided a retainer for the work proposed in the study plan. (A meeting took place on the same day to discuss these items further.)</p>
E-mail	May 28, 2012	SSN, KAM	KAM provided two NOW applications for SSN review prior to their upcoming meeting.
Meeting	May 31, 2012	SSN, KAM	Joint Council meeting. Topics of discussion included: NOW applications, the Letter of Understanding, and the study plan.
Meeting	June 7, 2012	SSN, KAM	Leadership meeting. KAM agreed to the Cultural Heritage Study, and will provide a list of information required for the EA process.

Event Type	Date	Participating Organizations	Summary
Letter	June 12, 2012	SSN, KAM	SSN requested confirmation that KAM will fund a Cultural Heritage Study at the suggested fee, KAM will draft an MOU, and KAM is willing to negotiate a Participation Agreement. On June 14, 2012, KAM provided a proposed Study Funding Agreement (includes the Cultural Heritage Study), and asked if SSN agrees with the terms proposed. However, on June 15, 2012, SSN noted concerns with the Study Funding Agreement provided by KAM. As a result, on June 22, 2012, KAM provided a revised Study Funding Agreement for SSN to review.
Letter	June 29, 2012	SSN, KAM	Further to notification and discussions regarding the NOW applications, KAM requested a letter of support to help move the applications through the government review process. Requested again on July 3, 2012.
Meeting	July 4, 2012	SSN, KAM	Leadership meeting in Kamloops. Discussed capacity funding, timeline for the Cultural Heritage Study, economic and business requirements for the Project, and involvement of other First Nations. SSN agreed to provide a letter of support to the government for KAM's NOW applications. Next meeting set for August 20, 2012. Further to discussions, KAM provided a revised Study Funding Agreement for SSN to review. Noted that progress of the Cultural Heritage Study will occur in September 2012, and that the parties agree that the proposed schedule/deliverables can be modified based on actual progress. A day later, SSN informed KAM they have approval for the Study Funding Agreement.
E-mail	July 4, 2012	SSN, KAM	KAM provided a revised Study Funding Agreement for KAM to review. Noted that progress of the Cultural Heritage Study will occur in September 2012, and that the parties agree that the proposed schedule/deliverables can be modified based on actual progress. SSN informed KAM they have approval for the Study Funding Agreement (July 5, 2012).
E-mail	July 17, 2012	SSN, KAM	KAM provided SSN with a list of plant species at the project site, and requested that SSN provide information on their traditional and medicinal use of these plants by August 1, 2012. SSN subsequently provided this information as part of the Cultural Heritage Study.
Meeting	July 24, 2012	BC EAO, Ministry of Aboriginal Relations & Reconciliation, MFLNRO, SSN, KAM	Tripartite meeting to discuss the EA review process, as well as roles and responsibilities of the government agencies.
E-mail	July 31, 2012	SSN, KAM	KAM requested a revised version of the Cultural Heritage Study Agreement so that SSN can begin the study (July 31 and August 8, 2012). (Discussed this subject further in a meeting on August 20, 2012.)

Event Type	Date	Participating Organizations	Summary
Meeting	August 20, 2012	SSN, KAM	Leadership meeting in Kamloops. The Cultural Heritage Study Agreement is close to being signed. The draft MOU for capacity funding and an Impact Benefits Agreement will be provided in the following week.
E-mail	September 7, 2012	SSN, KAM	As a follow up to the leadership meeting in Kamloops on August 20, 2012, KAM provided a revised Study Funding Agreement for SSN to sign. SSN provided the signed copy of the Cultural Heritage Study Agreement on September 12, 2012, with a revised timeline from the version provided by KAM (extended six months). KAM and SSN agreed to meet on September 13, 2012 to sign the Cultural Heritage Study Agreement.
E-mail	October 3, 2012	SSN, KAM	KAM asked if SSN could recommend any drilling companies for the upcoming drilling program. KAM would like to use First Nations companies where practical.
Letter	October 11, 2012	SSN, KAM	KAM requested that SSN sign a letter noting they are in agreement with future NOW applications on their traditional territory. KAM will continue to provide project-related employment opportunities. Also noted that signing the letter does not preclude SSN from responding directly to the government on future NOW applications if they have concerns. There is no record of the signed letter being received by KAM.
Meeting	October 25, 2012	SSN, KAM	Discussed involvement of SSN contractors for upcoming winter work. SSN wishes to be involved in planning and executing closure options; KAM agreed.
Meeting	October 29, 2012	SSN, KAM	KAM agreed to fund the Cultural Heritage Study based on the scope presented by SSN (scope covers a larger area and study components than requested by KAM). Study will cover past and current practices, traditions and customs in the area; potential project impacts on these practices, traditions or customs; potential mitigation; and if those practices, traditions and customs could be engaged in at a different location on SSN's traditional territory, and SSN's views on the meaningfulness of the opportunity to do this. There was also a discussion on potential project agreements.
E-mail	November 1, 2012	SSN, KAM	KAM provided information on upcoming contracting opportunities.
E-mail	November 9, 2012	SSN, KAM	Discussed the Cultural Heritage Study.
E-mail	November 10, 2012	SSN, KAM	KAM requested a community meeting to provide information and answer questions on the Project and assessment process.
E-mail	November 13, 2012	SSN, KAM	KAM requested an electronic copy of the Cultural Heritage Study document; SSN provided the Study Funding Agreement and Cultural Heritage Study proposal.

Event Type	Date	Participating Organizations	Summary
E-mail	November 13, 2012	SSN, KAM	KAM provided information on available Project First Nations Coordinator position.
E-mail	November 15, 2012	SSN, KAM	KAM noted that the BC EAO has provided feedback on the 2008-2012 First Nations Consultation Plan submitted in March, and asked if SSN agrees with the sequence of engagement events outlined in the Plan.
E-mail	November 20, 2012	SSN, KAM	KAM provided a copy of the NOW application for induced polarization testing that will be submitted to MEM.
Meetings	December 10, 2012	SSN, KAM	Leadership meeting. KAM and SSN sign the Cultural Heritage Study Funding Agreement, as well as an MOU regarding capacity funding and negotiation for future agreements.
Meeting	December 12, 2012	SSN, KAM	Leadership meeting. Discussed the Cultural Heritage Study, including clarification of scope and information to be provided.
Letter	January 14, 2013	SSN, KAM	KAM provided a draft Capacity Funding Agreement for SSN to review.
Meeting	January 16, 2013	BC EAO, SSN, Arbutus Consulting, KAM	Meeting at SSN office. Discussed the Project, the EA process, and opportunities for SSN input. Also clarified SSN information regarding their strength of claim assessment.
Meeting	January 22, 2013	SSN, KAM	Leadership meeting in Kamloops. Introduced new SIB chief. Discussed the Cultural Heritage Study and draft Capacity Funding Agreement.
E-mail	January 25, 2013	SSN, KAM	Following up to the meeting on January 16, 2013, SSN proposed an MOU for contracting opportunities related to the Project (January 25, 2013). KAM suggested a meeting to discuss upcoming work associated with the Project, and requested a list of recommended contractors to be included on future bid lists. KAM noted they see an MOU as suggested as part of the overall Project Agreement. Meeting arranged for February 18, 2013.
E-mail	January 29, 2013	SSN, KAM	Further to earlier discussions in October and November 2012, SSN requested specific information from KAM to assist them with the Cultural Heritage Study. Information requests related to baseline studies, plant list, ungulates and wildlife migratory patterns, list of species at risk, large map of proposed site, mock up scale of project, mineral rights, list of purchased properties, and process for access to the site. KAM confirmed they will provide the information (January 31, 2013). The information was presented to SSN during a Joint Resource Council meeting on February 28, 2013. On March 6, 2013, SSN requested answers again from KAM regarding their information request e-mailed January 29, 2013. On March 18, 2013, KAM provided responses to and information for the questions SSN asked in relation to the Cultural Heritage Study, and noted that many of the baseline studies are being redone because of the recent scope change.

Event Type	Date	Participating Organizations	Summary
Meeting	February 18, 2013	SSN, KAM	Leadership meeting in Kamloops. Discussed the Cultural Heritage Study, Capacity Funding Agreement proposal from SSN, Jacko Lake drilling, and contract opportunities onsite.
Meeting	February 28, 2013	SSN, KAM	Joint Resource Council meeting. KAM presented information on the upcoming drilling program. Further to the information request from SSN on January 29, 2013, also discussed setting up an FTP site for transferring files relating to the Cultural Heritage Study. After the meeting, KAM provided information on the FTP site to be used for transferring large files relating to the Cultural Heritage Study. On March 5, 2013, KAM requested clarification for the details SSN requested for the Cultural Heritage Study, and provided links to where some of the requested information could be found.
E-mail	March 5, 2013	SSN, KAM	In follow-up to the map request from SSN, KAM noted that an electronic copy of the archaeology report as well as electronic copies of maps showing the General Arrangement in more detail were provided. Noted that finer mine plan details will be provided once they have been finalized.
Meeting and letter	March 7, 2013	MFLNRO, SSN, KAM, Terra Archaeology, MEM	Discussed archaeology work for the Jacko Lake drilling NOW. SSN requested shape files for the work; Terra will provide. Follow up to this meeting, in a letter on March 15, 2013 and in response to receiving the NOW application from MEM, SSN highlighted their preliminary requirements, noting that the Capacity Funding Agreement should be signed and consultation activities implemented before drilling begins. Also expressed concern that the activity is in an area of cultural heritage and traditional activities for SSN, and will affect their Aboriginal rights and title.
Meeting	March 25, 2013	SSN, KAM	SSN clarified that the individual First Nations (TteS and SIB) are in charge of anything within reserve lands and anything on traditional territory is dealt with by the SSN. SSN requested consultation about Section 9 Orders. Cultural Heritage Study - Discussed the five questions that KAM requested be covered by the Cultural Heritage Study; SSN noted it will take four seasons to compile the requested information. (Discussed this further in a phone call on March 26, 2013.) NOW applications - SSN asked that information be shared early in the process so they have time to review the plans. Discussed the current NOW for Jacko Lake. SSN later requested a call regarding this subject (April 2, 2013). Meetings - SSN requested a meeting to move the MOU process forward.

Event Type	Date	Participating Organizations	Summary
Phone Call	March 26, 2013	SSN, KAM	Discussed the information KAM requested for the Cultural Heritage Study (5 questions), as well as the agreed-upon timeline for this work. KAM noted the questions need to be answered before KAM and SSN can discuss a Capacity Funding Agreement. In follow-up, the Chief stated that answers would be provided the following week so that discussions can begin on the Capacity Funding Agreement. Answers were received on March 28, 2013.
E-mail	April 3, 2013	MFLNRO, SSN, KAM	As a follow up to SSN's request on April 2, 2014, KAM requested a meeting to discuss the NOW applications. SSN noted that their questions had been answered by MFLNRO and a meeting would not be required. SSN requested a formal response from KAM to their letter of March 15, 2013 about the application.
Phone Call	April 3, 2013	SSN, KAM	SSN requested bathymetry information for Jacko Lake. KAM provided some historical maps of the Jacko Lake bathymetry.
E-mail	April 8, 2013	SSN, KAM	KAM provided information on a contracting opportunities for test pit excavations.
E-mail	April 11, 2013	SSN, KAM	KAM requested SSN's availability for a site tour and discussion of a NOW application KAM plans to submit. After multiple phone and e-mail discussions (April 12, 15, 19, 20, 2013), KAM provided information on the proposed work, and asked that SSN call if they have any questions. Further to KAM's e-mail on April 20, 2013, SSN noted they are available to discuss the NOW application anytime on April 16, 2013.
Meeting	April 11, 2013	SSN, KAM	<p>Leadership meeting in Kamloops. Topics of discussion included: site access, agreements, KAM's consultation team, 3-D digital model, consultation protocols, socio-economic opportunities from the Project, Project Agreement, Capacity Funding Agreement, forming a Mine Development Committee, offer to SSN for a site tour of Ontario or Arizona operations, safety training for site access, process for contracting opportunities, sponsorship opportunities, and next meeting (planned for mid-May).</p> <p>Agreement negotiations - KAM will prepare a document showing the various levels of consultation/negotiation structure; SSN will do the same. Once documents are in place, negotiations can be started.</p> <p>Cultural Heritage Study - SSN asked how the EA process can proceed without full information from SSN on the Cultural Heritage Study; KAM noted that this information can be submitted later. SSN noted that they would prefer to have the study complete before their members are consulted on the Project. SSN is still committed to providing answers to the five questions posed for the Cultural Heritage Study. KAM noted there are two reports outstanding that were to be delivered in February; SSN is still working on them.</p>

Event Type	Date	Participating Organizations	Summary
Phone Call	April 15, 2013	SSN, KAM	KAM requested confirmation from SSN that the SIB cultural heritage team is authorized by SSN to receive information on and access to the project area. A site safety orientation for SSN was also discussed. Further to KAM's request, SSN provided clarification on the roles of various staff members involved in the Cultural Heritage Study, and gave permission to provide the requested information and site access (April 17, 2013).
E-mail	April 15, 2013	SSN, KAM	SSN requested shape files for access roads, drill sites, development footprint areas, property boundaries, utility rights-of-way, and archaeological sites for their cultural heritage assessment (April 15 and 25, 2013). KAM provided the shape files on April 26, 2013. Also requested access to the property over the next two months. KAM stated that a site tour will be provided, and asked that SSN call to discuss potential dates (April 23, 2013).
Phone Call	April 16, 2013	SSN, KAM	SSN requested a meeting to discuss the Project. KAM's First Nations Liaison was not available that day, but would call the following week to arrange a meeting.
E-mail	April 19, 2013	SSN, KAM	NOW application - KAM suggested a call to discuss the NOW application, and resent the application in case SSN had not received it the first time (April 17, 2013). On May 6, 2013, KAM offered to meet to discuss the two NOW applications KAM submitted in the past month. However, a day later SSN informed KAM they are not willing to discuss the NOW applications until the Capacity Funding Agreement has been signed. (Discussed further at a meeting on May 16, 2013.) Site tour - SSN noted that they are interested in a site tour for Elders, council, managers, and the Cultural Heritage Team, and requested potential dates for a tour. As a follow up, two SSN members were onsite on April 25, 2013 to review the hunting blind as part of the Cultural Heritage Study.
Phone Call	April 26, 2013	SSN, KAM	KAM's First Nations Liaison introduced himself. SSN asked why KAM had not responded to their January 29, 2013 request (responses to 11 questions). KAM provided responses on March 18, 2013.
Letter	April 30, 2013	SSN, KAM	Further to their meeting on April 11, 2013, KAM noted that they see the Capacity Funding Agreement as a short-term agreement to provide funding for engagement during the EA process as well as discussions with KAM. KAM provided a revised draft agreement and budget for SSN to review. Once the Capacity Funding Agreement is signed, a Project Agreement can be negotiated. Also provided details of what KAM would expect to see in a Project Agreement.

Event Type	Date	Participating Organizations	Summary
Meeting	May 2, 2013	SIB, KAM	<p>Test pits - Discussed archaeological monitoring for the test pit work, as well as sizes for the test pits.</p> <p>Site tour - SIB would like to provide a tour for their Elders. On May 7, 2013, KAM provided information on safety requirements for the Elders' site tour as well as information on the safety protocols required; Site tour was done on May 8, 2013.</p>
E-mail	May 3, 2013	SSN, KAM	KAM provided SSN with a copy of their response to the City of Kamloops on April 29, 2013.
E-mail	May 6, 2013	SSN, KAM	KAM invited SSN to view the 3-D model prior to public release on May 9, 2013. However, SSN is unable to attend the preview session for the 3-D model. KAM will be unveiling the 3-D model to the public on May 14, 2013. Offered a session to SSN on a future date if interested (May 7, 2013).
E-mail	May 6, 2013	SSN, KAM	KAM provided information on two contracting opportunities for SSN: test pit work and a tailings storage facility dust mitigation plan.
Meeting	May 6, 2013	SSN, KAM, WPC Inc.	<p>Leadership meeting at the TteS office. Discussed negotiation of a Capacity Funding Agreement. Next SSN-KAM technical working group meeting set for May 16 and leadership meeting for June 11, 2013.</p> <p>Capacity funding - SSN expressed concern with the level of funding offered by KAM, noting it is not sufficient to cover the costs of engagement and negotiation. SSN suggested the Capacity Funding Agreement should relate to the NOW applications, consultation, and the Project Agreement. (SSN followed up by letter on May 15, 2012.)</p>
Drop-in Visit/ Casual Meeting	May 7, 2013	SSN, KAM	Discussed the process for hiring contractors through SSN. SSN requested an MOU that states this procedure.
E-mail	May 7, 2013	SSN, KAM	Discussed contracting and monitoring opportunities on the project site.
Site Tour	May 8, 2013	SIB, KAM	<p>KAM provided a site tour for a number of SIB Elders. Some of the Elders visited the hunting blind and provided information on how the area has been used traditionally. Topics of discussion and viewing included Jacko Lake, noise from the processing plant, diversion of Peterson Creek, and water withdrawal from Thompson River and Kamloops Lake.</p> <p>Issues: (a) protection of Jacko Lake; (b) diversion of Peterson Creek; (c) potential volume of water drawn from Kamloops Lake.</p>
E-mail	May 14, 2013	SSN, KAM	KAM provided information on viewing the 3-D digital model before it is provided for public reviewing that afternoon.

Event Type	Date	Participating Organizations	Summary
E-mail	May 14, 2013	SSN, KAM	KAM offered to discuss the NOW applications in the queue, provided an update on geotechnical drilling work onsite, and noted that exploration drilling is on hold. Invited SSN to visit the site to see the work and reclamation being done.
Letter	May 15, 2013	SSN, KAM	SSN sent a letter to KAM regarding the latest Capacity Funding Agreement and Project Agreement.
E-mail	May 15, 2013	SSN, KAM	KAM provided information on a contracting opportunity.
Meeting	May 16, 2013	SSN, KAM, WPC Inc.	Meeting at the SIB office. Discussed the Capacity Funding Agreement and Project Agreement. KAM provided a counter offer for SSN to review. Also discussed SSN's Mineral Royalty Agreement and Economic Development Agreement with the Province.
E-mail	May 22, 2013	TteS, KAM	TteS suggested a small contract opportunity that could be offered to their Natural Resource Department (building and maintaining bluebird houses in the project area).
E-mail	May 23, 2013	SSN, KAM	KAM requested a list of the Cultural Heritage Team members that will be regularly accessing the site so that access can be granted efficiently and safety training provided. SSN noted that some people will be there regularly, but others will be different for every visit.
E-mail	May 27, 2013	SSN, KAM	KAM requested consultation with SSN regarding an upcoming multi-year NOW application for geotechnical and exploration investigations. Noted that the 2013 spring reclamation program is underway.
Letter	May 27, 2013	SSN, KAM	KAM provided a draft Capacity Funding Agreement to SSN to review. SSN responded by letter on June 11, 2013.
E-mail	June 3, 2013	SSN, KAM	KAM provided First Nations content for their new Ajax-specific website for SSN to review.
E-mail	June 5, 2013	SSN, KAM	SSN thanked KAM for the NOW application consultation summary provided on June 3, 2013. Requested consultation summaries for all other NOW application consultation summaries. KAM noted that consultation summaries had only been included for the last two applications; these were provided. On June 11, 2013, KAM provided copies of all NOW application consultation summaries, as well as the chance finds procedure. Noted that contractors are trained in the procedure before completing any work onsite.
E-mail	June 6, 2013	PR Associates, SSN, KAM	KAM notified SSN that the AIR has been approved by BC EAO and CEA Agency, and provided a link to the document.
E-mail	June 6, 2013	SSN, KAM	KAM provided a NOW amendment to expand the ongoing condemnation drill program. Requested consultation with SSN to discuss; SSN will review and get back to KAM.

Event Type	Date	Participating Organizations	Summary
E-mail	June 21, 2013	SSN, KAM	KAM requested a call or meeting to discuss an upcoming NOW application to address potential hydrogeological connectivity between the proposed pit edge and the lake. Further to this notification, KAM requested consultation for the upcoming NOW application (June 28, 2013).
Letter	June 26, 2013	SSN, KAM	KAM provided a revised draft Capacity Funding Agreement for SSN's consideration. SSN responded on July 18, 2013.
E-mail	July 3, 2013	SSN, KAM, Terra Archaeology	SSN requested updates regarding 2013 archaeological activities on the project site (July 3 and 16, 2013). In follow-up to SSN's request, Terra offered to provide the interim reports for archaeology work completed in February (July 8, 2013). Terra noted that they have a Terra/Band archaeology crew working on the Ajax archaeological impact assessment, and Band member involvement on the field crew has been coordinated with the Band this year, as in past years (July 17, 2013).
E-mail	July 16, 2013	SSN, KAM	<p>Further to the NOW application submitted by KAM, SSN requested that KAM present technical plans for drilling and test pits on, near and around Jacko Lake at the Joint Resource Council meeting on July 25, 2013 and also to the Joint Council meeting on August 1, 2013 (July 3, and 16, 2013). KAM accepted the offer to present information on the NOW application at the upcoming Joint Council meeting, however noted that the work may already be complete by that time. Asked if they would prefer a presentation prior to the NOW being approved (July 9, 2013).</p> <p>KAM agreed to present the NOW information at the meeting on August 1, 2013, and will also provide an overview of KAM and the Ajax Project if time permits (July 17, 2013). KAM provided SSN with a copy of the NOW approval and original application for the work related to exploration surface drilling and test pits (July 23, 2013).</p>
E-mail	July 23, 2013	SSN, KAM	<p>KAM requested a Cultural Heritage Team member to be present during set up of drill pads and sump pits onsite; SSN will get back to KAM after their Cultural Heritage Oversight Committee meeting the following day. Involvement of the Cultural Heritage Team in the exploration program was further discussed by phone (July 25 and 29, 2013). SSN confirmed they would like someone to be there when undisturbed ground is moved.</p> <p>On July 24, 2014, KAM left a message for a call to discuss the Cultural Heritage Study for earth works around exploration drilling. Further to KAM's request, SSN confirmed they will arrange for a monitor to be onsite during drill pad creation. On July 30, 2013, KAM provided SSN with a table of historic features with coordinates for the monitoring work.</p>
E-mail	July 25, 2013	SSN, KAM	KAM requested confirmation that KAM will be presenting at the Joint Council meeting on August 1, 2013. SSN confirmed the presentation (July 26, 2013).

Event Type	Date	Participating Organizations	Summary
Meeting	August 1, 2013	MEM, SSN, KAM	<p>Joint Council meeting at the SSN office. KAM presented information on the Jacko Lake NOW work. Topics of discussion included: drill holes and test pits, diversion of Peterson Creek, fish spawning, proximity of Kinder Morgan pipeline to the proposed work, and Elder access to the area.</p> <p>SSN noted that they had discontinued consultation with KAM until the Capacity Funding Agreement was signed, but requested a presentation on this NOW because it relates to Jacko Lake, one of their most important resources. Noted that the presentation is not considered consultation.</p> <p>SSN requested copies of the cross section and plan view for the work to be done. KAM provided the requested information after the meeting.</p>
E-mail	August 2, 2013	SSN, KAM	KAM left messages for a number of SSN staff, noting that KAM will be holding a press conference to announce some changes in the Project, and that the EA application will be submitted once the new studies have been completed.
E-mail	August 8, 2013	SSN, KAM	KAM requested a meeting to present information to SSN's environmental/technical representatives on dust control for the historic Afton tailings pond (August 8, 15, 2013). KAM also sent a draft of the dust mitigation work plan for review in advance of the meeting (August 15, 2013). In follow-up to the earlier meeting requests, it was agreed that this topic will be added to the agenda for the Joint Resources Council meeting on August 29, 2013. SSN confirmed that the dust mitigation plan needs to be discussed at the Joint Resources Council prior to any discussions with SSN staff (August 21, 2013). SSN also asked if the historic Afton site dust mitigation program is part of the Ajax Project; KAM confirmed that it is and will provide further details (August 22, 2013). SSN confirmed the presentation (August 27, 2013)
E-mail	August 8, 2013	SSN, KAM	SSN requested a copy of KAM's presentation at the August 1, 2013 meeting for those who were unable to attend the meeting; KAM provided the presentation.
Letter	August 19, 2013	SSN, KAM	KAM provided information on an upcoming NOW application for an exploration drilling program to understand the geological and groundwater conditions of the mine site.
E-mail	August 22, 2013	SSN, KAM	KAM requested a meeting to discuss the Noxious Weed Control Plan; provided the draft plan for SSN to review. SSN expressed interest in reviewing options for the Noxious Weed Control Plan and providing a cost estimate for work this year (August 27, 2013).
Meeting	August 22, 2013	SIB, Terra Archaeology	Discussed the artifact recovered at drill pad 11 with the SIB Chief, who deferred the final go-ahead to the Natural Resources Department. A day later, Terra notified SSN they plan to conduct a subsurface testing program starting August 27, 2013 around the location where the artifact was identified the previous week to delineate the archaeological site.

Event Type	Date	Participating Organizations	Summary
Letter	August 23, 2013	SSN, KAM	KAM provided a draft Capacity Funding Agreement to SSN for feedback.
Site visit	August 29, 2013	SSN, KAM	SSN members visited the project site to perform a pipe ceremony in light of a recent suicide in the proposed pit footprint, near the hunting blind.
E-mail	September 6, 2013	SSN, KAM	KAM invited SSN to the public community information sessions on September 9-12, 2013. Topics to be discussed include ground vibration and air-blast controls, noise and vibration models, water quality models, air quality models, and human health and ecological risk assessment.
E-mail	September 9, 2013	MOE, SSN, KAM	Further to the meeting on August 29, 2013, MOE clarified that it doesn't matter if the historic Afton site is part of the Ajax Project; what's important is that as the current owners, KAM is taking responsibility for dust mitigation at the site. Also offered to participate in any meetings about dust mitigation planning.
Letter	September 17, 2013	SSN, KAM	KAM responded to SSN's August 9, 2013 letter to MEM expressing SSN's concerns about the Jacko Lake NOW application. KAM provided additional information on the purpose of the proposed work and mitigation to avoid adverse impacts on Jacko Lake. Requested a meeting with SSN to review the proposed works and concerns raised by SSN. On October 17, 2013, KAM informed SSN by letter that the Jacko Lake NOW application closes on October 31, 2013. KAM requested a meeting with technical staff to table the proposal and work together to find a way to balance KAM's information requirements with protection of Jacko Lake and SSN's Aboriginal rights and interests.
E-mail	October 8, 2013	SSN, KAM	SSN requested a digital LiDAR file of the project site. KAM provided the requested LiDAR data, and noted that the 2012 ortho photos on the City of Kamloops website may also be of interest to SSN (October 9, 2013).

Event Type	Date	Participating Organizations	Summary
E-mail	October 9, 2013	SSN, KAM	<p>KAM requested an update on two deliverables that were due July 31, 2013, as per the Study Funding Agreement: (a) a ¾ interim technical report on historical and contemporary land/resources uses, heritage resources, and traditional use/cultural heritage (including the hunting blind) that would potentially be affected by the Project; and (b) an interim report on potential mitigation measures (Preliminary Mitigation Report) for the Consultation Plan and EA.</p> <p>In follow-up to this request, KAM provided a copy of the noted agreement that specifies the deliverables and their due dates (October 10, 2013).</p> <p>On October 30, 2013, KAM again requested an update on the two reports due in July (interim Cultural Heritage Study report and Preliminary Mitigation Report). SSN noted that the Cultural Heritage Study report is expected to be complete by October 31, 2013. (Report provided on November 4, 2013).</p>
Letter	October 10, 2013	SSN, KAM	<p>KAM provided information on a NOW application for additional geotechnical, exploration, test pit, and soil investigation work at the site.</p> <p>In follow-up, KAM requested a meeting to discuss the proposed environmental and geological activities for the NOW application (October 21, 2013). (SSN responded on November 5, 2013.)</p>
E-mail	October 18, 2013	SSN, KAM	SSN requested, and KAM provided, site archaeology maps.
Letter	October 18, 2013	SSN, KAM	KAM provided a revised draft Capacity Funding Agreement to SSN for review.
E-mail	October 24, 2013	SSN, KAM	<p>KAM provided an engineering design to refurbish an existing licensed diversion channel for Alkali Creek for SSN to review; the design will be submitted to MEM to ensure it meets requirements.</p> <p>Further to the information provided, SSN requested permission to share the design basis letter for review within SSN; permission provided by KAM (November 5, 2013).</p> <p>SSN requested a meeting to discuss; KAM will get back to SSN with potential meeting dates (January 29, 2014).</p>
E-mail	November 4, 2013	SSN, KAM	SSN provided a copy of the second preliminary report for the Cultural Heritage Study. The first report was received on May 20, 2013.

Event Type	Date	Participating Organizations	Summary
E-mail	November 5, 2013	SSN, KAM	<p>Further to the upcoming NOW application information provided by KAM on October 10, 2013, SSN noted that the Capacity Funding Agreement still needs to be signed, and KAM has not yet fulfilled their duty to consult with SSN to develop accommodations to assess and preserve SSN interests for proposed exploration activities. Noted that costs for reviewing continuous NOW applications is substantial.</p> <p>KAM responded by letter on November 6, 2013, noting that KAM has made a series of offers for capacity funding over the last several months, including funds to review permits. KAM and SSN agreed on a procedure for notification and consultation for mechanized work onsite. KAM requested a meeting to discuss a formal structure for the project consultation process. (KAM made a correction to the date of the Exploration Agreement in the letter dated November 6, 2013, and resent the letter dated November 8, 2013.)</p> <p>Further to KAM's November 19, 2013 letter regarding NOW consultation, SSN informed KAM that no consultation would take place for NOW applications until the Capacity Funding Agreement is in place (November 26, 2013).</p>
E-mail	November 15, 2013	SSN, KAM, Terra Archaeology	SIB SSN requested a site visit to the hunting blind area with Terra before equipment is brought onsite.
Letter	November 19, 2013	SSN, KAM	<p>Further to KAM's letter dated October 10, 2013 about the upcoming NOW application for exploration, geotechnical, water well drilling and soil characterization test pits, MEM requested additional information on the program. KAM has altered the extent of the proposed work and is refilling the application. Provided information on the revised program.</p> <p>SSN requested, and KAM provided, an ESRI-format map for the cultural heritage mapping (November 22, 2013). SSN noted that the file provided is not what they need, and requested shape files for all items listed in the exploration NOWs to date, along with the site layout. KAM will look into if these files are in the package currently being prepared as part of capacity funding negotiations (December 3, 2013). SSN requested shape files for the mine site again on December 20, 2013 and January 22, 2014. KAM responded to SSN's requests on January 24, 2014, noting that providing files based on the old General Arrangement would not be of benefit to SSN. KAM will supply the updated shape files as soon as the new General Arrangement is announced.</p> <p>KAM requested a meeting to discuss the revised NOW work and provided potential meeting dates (November 26, 2013). SSN informed KAM that no consultation will take place for NOW applications until the Capacity Funding Agreement is in place.</p>
Meeting	November 20, 2013	SSN, KAM	Leadership meeting. Discussed the Capacity Funding Agreement. Revised draft will be sent to SSN for final review. (Revised agreement provided on December 19, 2013.)

Event Type	Date	Participating Organizations	Summary
E-mail	November 25, 2013	SSN, KAM	KAM provided information on an upcoming contracting opportunity.
E-mail	December 9, 2013	SSN, KAM	Discussed payments per the Study Funding Agreement. KAM noted that the interim Cultural Heritage Study report had been received, but the Preliminary Mitigation Report is outstanding. Also noted that the second report was not submitted as SSN is unable to complete the report until the overall footprint is provided. KAM suggested alternate payment options.
E-mail	December 13, 2013	SSN, KAM	SSN asked if the dust mitigation work had been completed at the historic Afton site; KAM noted the program had been delayed to spring because of the early arrival of snow.
Letter	December 19, 2013	SSN, KAM	KAM provided a draft Capacity Funding Agreement for SSN to review.
Letter	January 10, 2014	SSN, KAM	<p>KAM received approval from MEM for their Jacko Lake connectivity investigation, and requested the opportunity for a presentation on the work at the January 30, 2014 Joint Resource Council Meeting. Further requests for a meeting and potential meeting dates were discussed (January 16, 17, 18, 20, 21, 23, 27, 2014).</p> <p>On February 1, 2014, KAM suggested that information the Jacko Lake investigation as well as the upcoming multi-year NOW application information be presented at the meeting, which would allow internal SSN discussion on these programs before the capacity funding negotiations meeting on February 18, 2014. If SSN is not available on February 11, KAM suggested the technical team attend a portion of the February 18 meeting to discuss these two programs.</p> <p>On February 10, 2014, KAM asked if SSN wanted to meet with the technical team regarding the NOW applications before the scheduled February 28, 2014 meeting. SSN informed KAM they were trying to set up the Jacko Lake Investigation Meeting for that afternoon (February 11, 2014). Meeting arranged for February 17, 2014.</p>
Letter	January 10, 2014	SSN, KAM	SSN made revisions to the Capacity Funding Agreement per their discussions on November 20, 2013, and provided it to KAM for sign-off. (Revised agreement provided by KAM on February 12, 2014).

Event Type	Date	Participating Organizations	Summary
E-mail	January 21, 2014	SSN, KAM	SSN asked about status of payments relating to the Study Funding Agreement. KAM responded on January 22, 2014 that the potential mitigation measures report has not been received, and that KAM feels that a report based on the original project footprint is required (per the agreement) as the pit will be in the same area and the Project will still be utilizing the majority of the original project General Arrangement. Requested, in writing, confirmation of the expected completion date of this report, after which payment options can be discussed. KAM requested a delivery date again on February 20, 2014.
Letter	January 31, 2014	SSN, KAM	KAM notified SSN they will be submitting a multi-year NOW application for all exploration and engineering investigations required for their EA submission, and will contact SSN to discuss prior to submission. Multiple e-mails on February 11, 2014 to set up a technical meeting to discuss the NOW applications. KAM suggested February 17, 2014 for the meeting; meeting arranged for that date.
E-mail	February 4, 2014	SSN, KAM	SSN requested GIS data for all exploration activities proposed, completed, and applied for relating to the project (February 4 and 5, 2014). KAM will be able to provide the data within a week of submitting the multi-year NOW application. SSN also asked for mineral tenures information (February 5, 2014). KAM provided a map showing the mineral tenures in and around the project area (February 6, 2014). SSN noted that the mineral tenures information provided by KAM is also available online (February 7, 2014).
E-mail	February 4, 2014	SSN, KAM	KAM provided SSN with a copy of the approval for the Jacko Lake investigation NOW application. Noted that the program will be discussed at the technical meeting on February 17, 2014 (February 13, 2014).
E-mail	February 5, 2014	SSN, KAM	SSN reviewed the archaeological work maps provided for upcoming field work, noting that the majority fall outside the original footprint SSN was consulted on for the Cultural Heritage Study. Suggested the matter be discussed further at the upcoming Joint Resource Council meeting with KAM.
Letter	February 6, 2014	SSN, KAM	SSN outlined requests from KAM regarding the Capacity Funding Agreement, as well as the multi-year NOW application and Jacko Lake investigation NOW application. (KAM responded by letter on February 14, 2014.)
E-mail	February 11, 2014	SSN, KAM	KAM requested an update on the Preliminary Mitigation Report based on the current project footprint. Also noted that the draft final Cultural Heritage Study report is due January 31, 2014, and requested a timeline for completion of the report.

Event Type	Date	Participating Organizations	Summary
Letter	February 12, 2014	SSN, KAM	KAM provided a revised draft Capacity Funding Agreement to SSN for review.
E-mail	February 14, 2014	SSN, KAM	KAM noted that the original target date of February 20, 2014 to start work on the Jacko Lake investigation has been adjusted to February 24, 2014. Further information provided via letter on February 14, 2014.
E-mail	February 14, 2014	SSN, KAM	<p>SSN requested the following information in advance of the February 17, 2014 meeting: (a) 2014 exploration program - shape file, GIS map of each NOW location on a territorial map, coordinates for the program on the territorial map; and (b) Jacko Lake investigation - if the NOW has been completed and when. KAM responded by letter that the NOW application was approved by MEM on December 23, 2014, however work has not yet started to provide time for KAM and SSN to discuss any concerns SSN may have. Work is planned to start on February 24, 2014. Provided information on the surface and mineral rights for the area (February 14, 2014). KAM also provided further information on the multi-year NOW application, and noted it will be discussed further at the February 17, 2014 meeting.</p> <p>SSN noted that work in the NOW application covers tenures previously held by Cicada Ventures and outside the Ajax mine permit area, and that material changes in a company need to be reviewed by the Joint Resource Council before a NOW is considered. KAM responded that no business arrangement has been concluded with Cicada Ventures, and will provide information on this when available (February 14, 2014).</p> <p>KAM also provided a change to the proposed relationship structure in their response.</p>
Meeting	February 17, 2014	Klohn Crippen Berger, SSN, KAM	<p>Technical meeting at the SSN office. Topics of discussion included: multi-year NOW application, Jacko Lake investigation, consultation, KAM's intentions for exploration outside the project area, need for more specific data at NOW review meetings, inadequate archaeological surveys, GIS data, cumulative effects, and length of operations.</p> <p>Consultation - SSN saw the meeting as information sharing only; KAM noted it would be recorded as consultation.</p> <p>Jacko Lake investigation - SSN was not happy it was approved by MEM and will start on February 24, 2014. Had concerns about cumulative effects on the lake, and that the archaeological survey may be inadequate. SSN noted there needs to be a distinction between archaeology and cultural resources. SSN asked about addressing archaeological and cultural resources in the south area outside the current footprint. KAM confirmed there would be no drilling under the lake and no water drawdown.</p> <p>GIS data - SSN requested GIS and 3-D data for the Jacko Lake holes, as well as shape files for all planned work so SSN can determine potential impacts on the lake. On February 24, 2014,</p>

Event Type	Date	Participating Organizations	Summary
			<p>KAM noted they are unable to provide the agreed-upon GIS files yet as the NOW application has not yet been finalized. Will provide the files after the application is submitted. KAM provided the requested shape files for the 2014 exploration program and recently approved NOW permits on February 28, 2014.</p> <p>Capacity Funding Agreement – SSN noted that the extensive NOW reviews have delayed the agreement process.</p> <p>Archaeology – SSN asked for data collected from archaeological investigations. KAM noted that SSN has that information to 2010, and KAM will provide the remaining data. Files provided on March 14, 2014.</p> <p>Issues: (a) cumulative effects on Jacko Lake.</p>
Meeting	February 18, 2014	SSN, KAM, Lawson Lundell LLP, WPC Inc.	<p>Leadership meeting at the SSN office. Discussed the Capacity Funding Agreement and NOW applications.</p> <p>Capacity Funding Agreement – Agreed on amount and term; need to put together a list of issues to be resolved. Will create a draft document defining next steps to finalize the agreement.</p> <p>NOW applications – Agreed that all work in the original footprint has SSN’s approval, including the Jacko Lake investigation. All work outside the original footprint must go through SSN for review. SSN will not approve a multi-year application. KAM to provide the 2014 exploration program information by February 28, 2014. All future exploration drilling contracts to be awarded to SSN. On March 5, 2014, KAM provided a map showing the 2014 proposed work, and requested that SSN review and approve the 2014 exploration program. Noted that the multi-year NOW application has been submitted to MEM for referral and consultation. Asked that SSN let KAM know if they require further information, and requested a timeline for program approval.</p> <p>Call to continue discussions set for February 25, 2014.</p>
E-mail	February 19, 2014	SSN, KAM	Discussed upcoming archaeology contracting opportunities.
E-mail	February 20, 2014	SSN, KAM	KAM requested an update on the expected delivery of the final draft Cultural Heritage Study report and potential mitigation measures report. On February 21, 2014, SSN confirmed the reports should be ready by February 24, 2014.
E-mail	February 21, 2014	SSN, KAM	KAM provided information on the new Peterson Creek culvert crossing, noting that the contract has been awarded to an SSN company.

Event Type	Date	Participating Organizations	Summary
Meeting	February 21, 2014	SSN, KAM	<p>Cultural Heritage Study - SSN confirmed the outstanding reports should be ready by February 24, 2014. SSN provided the draft final Cultural Heritage Study report on February 28, 2014. KAM thanked SSN for the draft final Cultural Heritage Study report, noting it is a deliverable from the Study Funding Agreement (March 12, 2014).</p> <p>Contracting opportunities - Discussed direct award of drilling contracts to SSN. SSN requested a yearly business opportunities list. Discussed funding of SSN's basic adult education and training program.</p>
E-mail	February 24, 2014	SSN, KAM	SSN requested, and KAM provided, a copy of the MEM approval for the Jacko Lake investigation NOW application.
E-mail	February 24, 2014	SSN, KAM	<p>SSN requested, and received, confirmation that KAM's February 21, 2014 e-mail regarding the Peterson Creek culvert crossing repair is notification of the project. KAM confirmed that they will continue to share information as the project is designed and before submitting their application.</p> <p>KAM also clarified some of the history of the Peterson Creek crossing repair project. SSN thanked KAM for the information, and will take the information to the Joint Resource Council meeting to request a summary of the MFLNRO design criteria reviews to date. SSN does not consider it a minor project because of the potential impacts to Aboriginal cultural heritage, spiritual, and traditional interest in Jacko Lake (February 25, 2014).</p> <p>On March 21, 2014, SSN responded regarding the proposed work for the Peterson Creek culvert crossing repair provided by MFLNRO. SSN's Joint Council has concluded that the project will impact their Aboriginal practices, traditions, customs, and interests in Jacko Lake, and asked that the project not be approved. SSN noted that further information before the MFLNRO decision can be presented at the Joint Resource Council meeting on March 27 and Joint Council meeting on April 3, 2014.</p> <p>SSN requested an update on Peterson Creek on April 29, 2014 (KAM had noted that MEM approval was obtained March 7, 2014). The culvert upgrade is the only work being completed as additional work on the weir cannot be replaced prior to feshet. A TteS contractor was involved in design and is completing the work.</p> <p>Issues: potential impacts on Jacko Lake, affecting SSN's Aboriginal practices, traditions, customs, and interests in the lake.</p>
E-mail	February 26, 2014	SSN, KAM	KAM provided information on an archaeological/environmental monitor position for the Alkali Creek diversion. Further information provided on February 28, 2014.
E-mail	March 4, 2014	SSN, KAM	KAM requested a monitor for the drill program the following week.

Event Type	Date	Participating Organizations	Summary
E-mail	March 7, 2014	SSN, KAM	SSN noted that the SSN technical team will review and advise the Joint Council on the 2014 exploration program, but they do not provide approval on the program (the Joint Council provides approval). Without an executed Capacity Funding Agreement, SSN cannot determine when the review and potential approval would be completed.
Letter	March 7, 2014	SSN, KAM	KAM provided a revised draft Capacity Funding Agreement to SSN for review.
E-mail	March 10, 2014	SSN, KAM	KAM noted that the NOW application for exploration, geotechnical, water well drilling, and soil characterization test pits has been approved by MEM, and that work will begin on March 17, 2014. The Cultural Heritage team will be invited to view the area before disturbance. A copy of the approval was also provided.
E-mail	March 10, 2014	SSN, KAM	KAM offered to show SSN how to work with polygons and transparency with the GIS data.
E-mail	March 10, 2014	SSN, KAM	KAM provided an incident report for a small diesel fuel on the geotechnical drilling site by Peterson Creek and Jacko Lake. SSN asked if the spill was assessed by MOE at the time of incident (March 10, 2014). KAM confirmed that the incident was reported to MOE, but that MOE has not reviewed the site. The mine inspector onsite on March 10, 2014 had no concerns (March 12, 2014).
Meeting	March 13, 2014	SSN, KAM	Leadership meeting. Discussed the draft Capacity Funding Agreement and approach to drilling work.
E-mail	March 14, 2014	SSN, KAM	Further to the request on February 17, 2014, KAM provided shape files for previous NOW permits. Additional files to follow by March 28, 2014. SSN thanked KAM for the GIS data and maps (April 1, 2014). Asked when remaining data for all inclined holes and any additional side dimensional mapping for the multi-year NOW permit and Jacko Lake exploration will be available for review.
E-mail	March 17, 2014	SSN, KAM	At the meeting on February 17, 2014, SSN requested engineering quality maps showing drill holes to maximum depth in relation to and inclusion of the depth of Jacko Lake, as well as groundwater data KAM used to make engineering decisions. KAM provided the engineering drawings on March 28, 2015, noting the delay was because the drawings had to be developed for SSN. Groundwater will be available over the coming months as the water wells are just being installed. SSN thanked KAM for clearing up their GIS inquiry. KAM sent the remaining requested GIS files on March 29, 2014.

Event Type	Date	Participating Organizations	Summary
E-mail	March 19, 2014	SSN, KAM	<p>KAM informed SSN that the heritage impact assessment was awarded to ERM, but that KAM would like to have SSN field crews working in tandem with the ERM archaeologists during the summer program.</p> <p>On April 1, 2015, KAM provided the Heritage Conservation Act application that will be submitted by ERM. Discussed SSN involvement in the archaeology work. KAM clarified that ERM has the contract for the heritage impact assessment, and SSN field crews will work in tandem with their archaeologists.</p>
E-mail	March 19, 2014	SSN, KAM	<p>SSN requested, and KAM sent, a copy of the map provided with the multi-year NOW application to SSN on March 5, 2014.</p>
E-mail	March 25, 2014	SSN, KAM	<p>SSN asked if the NOW for the 2014 exploration program had been approved.</p> <p>KAM responded that the NOW application for 16 groundwater wells and 20 exploration holes was approved by MEM. Work has started on the program; the water well portion is complete, and exploration holes will be drilled in the summer (March 28, 2014).</p>
Phone Call	March 26, 2014	SSN, KAM	<p>SSN expressed concern with having a monitor for the condemnation drill pads as they are out of the original scope of work; will need to follow up with leadership before providing a monitor.</p> <p>On April 2, 2015, SSN and KAM discussed the condemnation drill pads that are outside the original scope of work.</p>
E-mail	March 28, 2014	SSN, KAM	<p>KAM notified SSN that Knight Piesold will be submitting a Research Park Use Permit application, and provided information on the application.</p> <p>On May 15, 2014, SSN noted they have concerns regarding the McConnell Lake Research Park Use application, and requested an update from KAM on the project. KAM noted the application has been submitted but not reviewed, so no work has been done. KAM offered to answer any questions the Joint Resource Council has, and offered a meeting with technical staff to discuss the program. SSN will get back to KAM on the offer if they would like a presentation. SSN also requested a discussion with Parks Canada on the application.</p>
E-mail	March 28, 2014	SSN, KAM	<p>SSN requested a copy of the Wildlife Management Plan dated August 2013. On March 31, 2015, SSN asked what KAM has done to ensure employees on site are familiar with the plan and what portions of the plan are being revised and not accepted by MOE. Expressed concern regarding management strategies regarding blue-listed sharp-tailed leks during their spring breeding season.</p> <p>KAM sent a copy of the plan on April 1, 2014. KAM noted that the document will be sent to MOE for approval that week, and KAM will provide a copy of the revised plan when approved.</p>

Event Type	Date	Participating Organizations	Summary
			Also discussed mapping of the lek sites. KAM noted that all work areas will be surveyed prior to use to ensure that lek sites are not present. If any are discovered, drill holes/test pits will be adjusted to avoid the site, or work will be completed after the breeding season is over. Issues: (a) lack of awareness of management strategies during field work for sharp-tailed leks during their breeding season.
Letter	March 28, 2014	SSN, KAM	KAM provided a revised draft Capacity Funding Agreement to SSN for review.
Letter	April 7, 2014	SSN, KAM	Further to the MOU signed on December 10, 2012 and that the Capacity Funding Agreement has not yet been signed, KAM offered interim capacity funding to SSN upon signing the letter of agreement. On May 5, 2015, KAM noted that SSN had not responded to KAM's offer nor the revised draft Capacity Funding Agreement of the same date. Provided information on completing the agreement and an alternate term of agreement.
Meeting	April 9, 2014	SSN, KAM	Leadership meeting at the SSN office. Topics of discussion included: Capacity Funding Agreement, funding for reviewing drilling programs, contracts for the drilling program and environmental monitors, potential trip to Poland to view KAM facilities, and SSN participation in the project field programs.
E-mail	April 10, 2014	SSN, KAM	KAM requested availability of monitors for upcoming field work.
E-mail	April 10, 2014	SSN, KAM	SSN expressed concern about the amount of activity around the hunting blind complex, and asked if the Chiefs had agreed to the level of activity being undertaken. As a follow up, KAM offered to delay locations of concern on April 14, 2014. On May 28, 2014 KAM confirmed that they will be working outside the hunting blind area that Terra has deemed as having significant archaeological potential. Requested a monitor for the in-pit exploration work. Issues: (a) potential effects on the hunting blind.
E-mail	April 10, 2014	SSN, KAM	KAM provided draft notes from their April 9, 2014 meeting for SSN review. On April 14, 2014, SSN provided comments on the draft notes for the April 9, 2014 meeting. It was noted that SSN will not provide "blanket approval" to multi-year permits, and that SSN has not been consulted on the tailings pond work.
E-mail	April 14, 2014	SSN, KAM	KAM provided the data set for the IP survey NOW from 2012. SSN asked that a map with the GIS data included be provided; KAM agreed to provide in that format going forward.

Event Type	Date	Participating Organizations	Summary
E-mail	April 16, 2014	SSN, KAM	KAM requested an update on the delivery date for the Preliminary Mitigation Report and the final Cultural Heritage Study report. On June 17, 2014, SSN noted they will inquire about the Cultural Heritage Study. On July 11, 2014, SSN noted they expect the final study to be complete by end of July. (No update provided on the Preliminary Mitigation Report.)
Letter	April 17, 2014	Stk'emlupsemc Enterprises Inc. (SEI), KAM	KAM is evaluating potential contractors and suppliers for the Ajax Project, and requested that SEI fill out their contractor survey form.
E-mail	April 23, 2014	SSN, KAM	SSN asked if KAM has any information regarding a survey monument north of Jacko Lake. After confirming the communication protocols related to the request, KAM agreed to look for any information on the monument (April 28, 2015). KAM provided information on the survey monument on April 30, 2014, noting that it marked out KAM's mineral leases at the beginning of a project that never completed, so the monument was not registered. The monument does not represent any boundary.
E-mail	April 25, 2014	SSN, KAM	KAM provided shape files for the road and tree removal area relating to NOW Permit 12-1620666-115, as well as a PDF of the area.
E-mail	April 30, 2014	SSN, KAM	Further to the discussion about a weekly meeting at the April 9, 2014 meeting, KAM requested a short update meeting; SSN is available on May 2, 2014. KAM is waiting for a response on the draft Capacity Funding Agreement; one should be available the following day. On May 2, 2014, SSN noted they are still working on a response.
E-mail	May 1, 2014	SSN, KAM	KAM notified SSN that work for the NOW Permit 14-162-066-0131 will begin in 10 days, and attached the approval for SSN's review.
E-mail	May 1, 2014	SSN, KAM	KAM provided coordinates for the next drilling locations and asked if SSN would like to have a monitor onsite during building of the pads.
Meeting	May 2, 2014	SSN, KAM	Capacity Funding Agreement - SSN is working on a response to the most recent revised draft. Contracting opportunities - KAM is working with Target Drilling to sole source in-pit drilling work. SSN needs to have an agreement with Target Drilling in place before KAM will enter into an agreement with them. Agreed to meet biweekly to discuss potential opportunities for SSN. On May 12, 2014, SSN provided a letter of support for Target Drilling to respond to KAM requests for proposal through its association with SSN.
E-mail	May 9, 2014	SSN, KAM	KAM provided GIS data for NOW Permit 12-162-066-0295.
E-mail	May 12, 2014	SSN, KAM	KAM requested time at the Joint Resource Council meeting on May 29, 2014 to present information on the updated General Arrangement for the Project. On May 21, 2014, KAM confirmed the meeting with the Chiefs for May 30, 2014 and requested confirmation of a presentation at the Joint Resource Council meeting on May 29, 2014.

Event Type	Date	Participating Organizations	Summary
E-mail	May 15, 2014	SSN, KAM	KAM notified SSN of an opportunity for SSN's archaeology crews to work with ERM on the 2014 archaeology field studies.
E-mail	May 24, 2014	SSN, KAM	KAM provided the last set of GIS data, for NOW Permit 12-162-066-0709. SSN requested further clarification and further information for the GIS files provided (May 26, 2014).
Letter	May 28, 2014	SSN, KAM	KAM provided information on the updated General Arrangement in advance of the public release on May 29 and their meeting on May 30, 2014. Noted that changes are based on feedback received from the public and Aboriginal groups.
Meeting	May 29, 2014	MFLNRO, SSN, KAM	Joint Resource Council meeting. Topics of discussion included: the updated General Arrangement, drilling program with Target Drilling/SSN, removal of the Kinder Morgan pipeline, Jacko Lake investigation, field programs, need for a Cultural Heritage Study on the south footprint, closure plans, tailings storage facility, site access, Goose Lake, and capacity funding. SSN requested GIS and shape files for the updated General Arrangement. Also requested all historic information on Jacko Lake, and a map with the hunting blind shown on it. KAM provided the requested files on June 3, 2014.
Meeting	May 30, 2014	SSN, KAM	Leadership meeting. KAM presented information on the updated General Arrangement. Topics of discussion included: the updated General Arrangement, arrangement with Target Drilling, Jacko Lake investigation, hunting blind location, need for a Cultural Heritage Study for the south footprint, Goose Lake, Capacity Funding Agreement, and a trip to Poland to review KAM facilities. SSN asked for proof that the new General Arrangement has a smaller footprint in Jacko Lake. KAM provided this information on June 3, 2014, including a PDF map showing the updated General Arrangement and the hunting blind locations, as well as shape files for the General Arrangement. Noted that the footprint of the facilities may change with ongoing engagement and design of the Project. Capacity Funding Agreement - KAM has not had a response to the April 30, 2014 revised draft; SSN noted their comments had not been incorporated into that version. KAM proposed a one-year agreement. Reviewed and revised the April 30, 2014 version. Issues: (a) hunting blind is in the pit with the updated General Arrangement; (b) Goose Lake no longer available for moose hunting.

Event Type	Date	Participating Organizations	Summary
Letter	June 5, 2014	SSN, KAM	KAM requested confirmation of the consultation framework with SSN for the remainder of the pre-application as well as the application review stages of the EA. Outlined past protocols for communication, and noted there are three preferred levels of consultation and/or communication. Further discussion occurred on the lines of communication on June 9 and 10, 2015.
Report	June 5, 2014	SSN, KAM	SSN provided the Preliminary Mitigation Report.
E-mail	June 12, 2014	TteS, KAM	TteS requested site access for a class of ethnobotany students from TteS to look at food and medicinal plants in the area. Permission given by KAM.
E-mail	June 16, 2014	New Gold Inc., SSN, KAM	KAM asked for SSN's preference on seed mix to be used for reclamation around the Alkali Creek diversion channel. KAM followed up on this request on June 25 and 27, 2014, and noted that if response is not received, KAM will use the dryland forage mix for reclamation at the Alkali Creek diversion site. No response was received from SSN.
Phone Call	June 17, 2014	SSN, KAM	Public community information session - KAM invited SSN to say an opening prayer at the upcoming public community information sessions. SSN will inquire about the opening prayer. Preliminary Mitigation Report - KAM will let SSN know the following week if it meets the objectives outlined in the Study Funding Agreement. Archaeology field crews - Discussed having separate contracts with the SIB and TteS Natural Resource Departments. Capacity Funding Agreement - Asked if it is SSN or KAM that is updating the draft agreement with decisions made on May 30, 2014. SSN confirmed that KAM will amend and forward to SSN for review. Cultural Heritage Study - KAM asked for an expected delivery timeline for the final report. SSN noted they will inquire about the status.
E-mail	June 17, 2014	SSN, KAM	SSN noted they had no changes for the May 30, 2014 meeting notes. However, on June 23, 2014, they requested a Word version to provide revisions in.
Letter	June 19, 2014	SSN, KAM	SSN's legal counsel wrote a letter to KAM explaining their frustrations with respect to KAM's lack of consultation with the SSN prior to the change in the general arrangement. The letter also states that a new CFA must be signed to include work to be done on the new site design.
E-mail	June 20, 2014	SSN, KAM	KAM provided notification of the various programs starting up under NOW Permit #14-1620666-0602 from the end of June through the middle of July - exploration drilling, geotechnical and soil characterization test pits, and geotechnical drilling.

Event Type	Date	Participating Organizations	Summary
Meeting and Site Tour	June 23, 2014	BC EAO Working Group: AIB, BC EAO, MEM, MOE, MFLNRO, MOTI, CEA Agency, City of Kamloops, Environment Canada, DFO, Health Canada, Interior Health Authority, LNIB, Natural Resources Canada, SSN, Thompson-Nicola Regional District, Transport Canada, ERM, KAM	BC EAO Working Group meeting. BC EAO and CEA Agency provided information on their respective processes. KAM provided information on the Project and the updated General Arrangement. Also discussed the tailings storage facility, water resources, Jacko Lake, design of the Peterson Creek diversion, dAIR, air quality, and public consultation. Working Group Issues: (a) mine water source; (b) design flood for the tailings storage facility; (c) lack of plan for surface water discharge; (d) exclusion of the Thompson River in water quality and quantity regional study area; (e) potential restriction of access to Jacko Lake; (f) effects of dust generation; (g) potential extension of effects beyond the air quality model; (h) effects of noise and vibration on sensitive receptors such as schools and hospitals; (i) potential effects of the updated General Arrangement. A site tour of the project area was hosted by KAM after the meeting.
E-mail	June 24, 2014	SSN, KAM	KAM requested a monitor for the upcoming drilling program.
E-mail	June 27, 2014	SSN, KAM	Meeting to discuss SSN concerns about contract awards set for July 2, 2014 at the KAM office.
Meeting	June 27, 2014	Knucwentwécw Development Corporation, SSN, Tk'emlups Development Corporation, KAM	Discussed concerns with the site security contract.
E-mail	July 2, 2014	SSN, KAM	The Joint Council is interested in touring the project site without KAM; requested a call to discuss.
Meeting	July 2, 2014	SSN, KAM	Discussed SSN concerns with the First Aid and Security contracts. Also discussed the process of awarding contracts for site work. SSN requested information on the contracting strategy, and KAM requested that a confidentiality agreement be signed before this information is provided. KAM suggested that SSN look at ways to create capacity, and identify young workers to receive training. This would help to create beneficial employment for its members.
Phone Call	July 3, 2014	SSN, KAM	Further to their call that morning, KAM confirmed by e-mail they will provide the following: (a) minutes of the 15/07/02 meeting (provided on July 15, 2014); (b) findings of KAM's review of the tender and award of this contract (after SSN signs a confidentiality agreement); and (c) KAM's contract package plan outlining tenders forthcoming and associated dates. SSN declined to sign the confidentiality agreement.

Event Type	Date	Participating Organizations	Summary
Letter	July 4, 2014	SSN, KAM	KAM offered SSN capacity funding for SSN's review of the drilling program shape files associated with field programs while the Capacity Funding Agreement is in negotiation. Requested that SSN sign and return the letter if the proposal is acceptable to SSN. SSN responded by letter on July 11, 2014.
Letter	July 4, 2014	SSN, KAM	KAM provided a revised draft Capacity Funding Agreement for SSN to review.
Letter	July 7, 2014	SSN, KAM	KAM offered to have their First Nations Liaison work from the SSN office one day/week to improve communication and engagement between KAM and SSN. SSN responded to KAM on July 11, 2014, noting that it will not improve the lack of capacity funding or help them obtain technical expertise to review the AIR document.
E-mail	July 7, 2014	SSN, KAM	SSN requested a digital copy of the information on the updated General Arrangement presented at the Joint Resource Council meeting, as well as the presentation given to the BC EAO. KAM provided the digital copies of information on July 11, 2014.
E-mail	July 9, 2014	SSN, KAM	SSN would like to pursue drilling with KAM in a more structured way, and requested a 24-month list of projects discussed at the meeting on July 2, 2014. KAM has a contracting schedule ready for SSN, but is waiting for the confidentiality agreement to be signed before it can be provided (July 15 and 24, 2014). SSN has concerns about agreement wording. KAM followed up again on August 19, 2014. SSN declined to sign the confidentiality agreement.
E-mail	July 9, 2014	SSN, KAM	Capacity Funding Agreement - SSN sees the agreement and bidding processes for field work as separate processes, and does not believe they should be linked. The current draft agreement is not acceptable to SSN given the updated General Arrangement. KAM asked what SSN's concerns are for the agreement related to the updated General Arrangement. SSN responded suggestions related to funding on July 11, 2014. Target Drilling - KAM requested confirmation that Target Drilling is affiliated with the SSN; SSN confirmed the contents of their letter of support dated May 12, 2014. SSN noted that these matters need to be resolved before they can meet again. Also requested that KAM clarify that the meetings are "without prejudice" before SSN is willing to meet.
E-mail	July 10, 2014	SSN, KAM	KAM requested monitors for the geotechnical drill and test pit programs.
E-mail	July 11, 2014	SSN, KAM	SSN notified KAM of their new Economic Development Manager.
Letter	July 11, 2014	SSN, KAM	SSN suggested that KAM provide funding not tied to approval of KAM's exploration and development plans, and to participate in the technical review process to meet the BC EAO deadline. KAM responded by letter on July 15, 2014.

Event Type	Date	Participating Organizations	Summary
E-mail	July 15, 2014	SSN, KAM	<p>KAM provided draft notes from the July 2, 2014 meeting about the First Aid and Security Contract.</p> <p>Also included a confidentiality agreement to sign, after which a summary of the bidding process review can be provided. (Discussed further on August 19, 2014).</p> <p>A revised Capacity Funding Agreement will be forwarded separately (sent on by letter on the same day).</p>
Letter	July 15, 2014	SSN, KAM	<p>KAM responded to SSN's letter of July 11, 2014, noting they agree with the approach proposed by SSN. KAM provided a revised draft of the Capacity Funding Agreement for SSN to review, noting that provisions relating to SSN's support for exploration and development work have been removed.</p>
Letter	July 22, 2014	SSN, KAM	<p>Capacity Funding Agreement - SSN responded to KAM's letter dated July 15, 2014. SSN is unwilling to sign the agreement because of the substantial project changes without seeking SSN's advanced input on the design and location. Requested a funding commitment from KAM for an expanded Cultural Heritage Study and a delay in the EA process to allow the work to be completed. Requested written confirmation that negotiations are without prejudice and may not be disclosed unless and until an agreement is reached.</p> <p>Community engagement - SSN will not support until they are prepared to answer their members' questions about potential adverse effects.</p>
E-mail	July 23, 2014	SSN, KAM	<p>KAM provided information on the history of the Jacko Lake area. SSN noted that the history of Jacko Lake provided by KAM on July 23, 2014 does not match up with their history of the area (July 24, 2014). On July 28, 2014, KAM responded that the information provided on the history of Jacko Lake comes from searches done by KAM. Asked that SSN share their information to increase KAM's understanding of the area.</p>
Meeting	July 29, 2014	SSN, KAM	<p>Leadership meeting. Discussed the draft Capacity Funding Agreement.</p>
Letter	August 1, 2014	SSN, KAM	<p>KAM notified SSN that an upwind air quality monitoring station will be installed at the location of a recently installed meteorological monitoring station, and provided details on the information to be collected. Also offered a site tour and meeting with SSN to discuss the work program.</p> <p>On August 6, 2014, SSN noted the KAM letter did not provide enough information to satisfy a meaningful consultative process. KAM provided a map of the monitoring station, and noted the letter was provided as information only and consultation is not required for an upwind station. SSN noted that consultation will be required for a downwind station.</p> <p>SSN requested a separate agreement for the roles and responsibilities of those involved in the historic Afton site research project on August 7, 2014. KAM suggested that SSN, Thompson Rivers University and KAM meet to discuss on September 3, 2014.</p>

Event Type	Date	Participating Organizations	Summary
E-mail	August 1, 2014	SSN, KAM	KAM provided a copy of the Archaeological Impact Assessment Annual Report.
Letter	August 5, 2014	SSN, KAM	Further to their July 29, 2014 meeting, KAM provided a revised draft Capacity Funding Agreement for SSN review. Discussed by phone on August 21, 2014. SSN provided a revised agreement on August 26, 2014.
Letter	August 7, 2014	SSN, KAM	KAM thanked SSN for the Preliminary Mitigation Report provided on June 5, 2014. Requested a meeting on August 21, 2014 with the Cultural Heritage Study Committee to clarify some points in the report and gain a better understanding of SSN's perceptions of potential project effects and mitigation. The SSN Cultural Heritage Study Committee is not available until mid-September, and will contact KAM with potential dates (August 18, 2014). Discussed potential dates on August 8, 14 and 18, 2014. SSN had no confirmed date for meeting yet, but it would likely be September 21, 2014. Eventually agreed to discuss at the November 3, 2014 meeting (October 30, 2014).
E-mail	August 20, 2014	SSN, KAM	KAM informed SSN they would like to extend the current contract for the archaeological field crews.
Phone Call	August 21, 2014	SSN, KAM	Cultural Heritage Study - Final report is complete and being reviewed by SSN members; no delivery date available yet. KAM requested an update again on November 17, 2014.
Letter	August 26, 2014	SSN, KAM	SSN provided a revised Draft Capacity Funding Agreement to KAM for review.
E-mail	September 3, 2014	MOE, SSN, KAM	MOE responded to questions raised by SSN about the air quality monitoring station, noting that MOE will review the proposal as part of the EA process and will be responsible for any potential air permit. Noted that MOE has had some dialogue with KAM on siting and equipment, but the monitoring station had not yet been approved.
E-mail	September 3, 2014	SSN, KAM	SSN asked which NOW Permit program is taking place adjacent to New Gold's property near the highway junction. KAM noted that the work by the highway junction falls under NOW Permit 14-162-066-0602 (September 4, 2014).
E-mail	September 16, 2014	SSN, KAM	SSN expressed concern that they are not being properly consulted regarding the programs within the multi-year NOW permit, particularly relating to drilling and road development activities. Noted that SSN has had archaeological crews on some parts of the site, but that this is only part of the consultation process. SSN would like KAM to attend the Joint Resource Council meeting on September 25, 2014 to discuss further.

Event Type	Date	Participating Organizations	Summary
E-mail	October 1, 2014	SSN, KAM	<p>Further to the Chief Inspector's August 18, 2014 letter to all tailings dam impoundment owners in British Columbia, SSN asked how KAM will deal with the letter's requests and related consultation.</p> <p>KAM responded on October 10, 2014, noting that the letter applies to the historic Afton tailings storage facility that has been KAM's responsibility since 2012. KAM provided information on the steps they have taken and those they have planned to address the letter. Offered to meet with SSN in November to discuss in more detail. KAM provided further information at the Joint Resource Council meeting on October 30, 2014.</p>
Letter	October 6, 2014	SSN, KAM	<p>KAM invited SSN to attend a meeting on the Jacko Lake fish habitat compensation plans and opportunities, noting their input is vital to developing fish habitat loss offsetting requirements. KAM provided an agenda for the meeting. SSN asked by e-mail what ground penetrating radar data and equipment will be used for the site.</p>
Letter	October 15, 2014	SSN, KAM	<p>KAM requested a technical meeting with SSN the first week of November to discuss water considerations associated with the Project. Provided an agenda for the meeting.</p>
E-mail	October 21, 2014	SSN, KAM	<p>SSN confirmed the Joint Resource Council meeting on October 30, 2014, and will let KAM know if they will be making a presentation at the meeting. On October 23, 2014, SSN confirmed KAM's presentation and discussion of the Mines and Minerals Agreement at the upcoming Joint Resource Council meeting.</p>
Agreement	October 24, 2014	SSN, KAM	<p>SSN and KAM signed a Capacity Funding Agreement for an engagement and consultation framework on the Ajax Project (including Pre-Application information required for the EA) and negotiation of a Project Agreement.</p>
Letter	October 30, 2014	SSN, KAM	<p>KAM provided a list of questions about the Preliminary Mitigation Report to be discussed at the November 3, 2014 meeting.</p> <p>On November 3, 2014, SSN requested, and KAM provided, a digital copy of this letter. SSN is unable to meet on November 3, 2014, KAM suggested a meeting on November 20, 2014 instead, but SSN is not available that day either (November 5, 2014). (Discussed further at the January 14, 2015 meeting.)</p>
Meeting	October 30, 2014	SSN, KAM	<p>Joint Resource Council meeting at the SSN office. KAM presented information on the historic Afton tailings storage facility, and the Chief Inspector's August letter.</p>
E-mail	October 31, 2014	SSN, KAM	<p>SSN requested potential meeting dates in November to start negotiations for a Project Agreement. Agreed to meet on November 24, 2014 (November 4, 2014).</p>

Event Type	Date	Participating Organizations	Summary
E-mail	November 3, 2014	SSN, KAM	KAM provided responses to technical questions asked at the historic Afton tailings storage facility presentation on October 30, 2014. Questions related to the Alkali Creek diversion; tailings storage facility security, liability, risk of flood or failure; involvement in the third-party review; water quality results for seepage ponds; emergency response plan. KAM proposed a meeting to discuss reclamation research projects, a framework for a dam breach study, the third-party review, and a process framework for facility maintenance; suggested a tour of the facility and Alkali Creek after the meeting. Requested potential dates. On November 18, 2014, KAM proposed a meeting and site tour on December 1, 3 or 5, 2014. SSN provided potential dates for the meeting (November 19, 2014). Tour arranged for December 5, 2014.
E-mail	November 3, 2014	SSN, KAM	SSN requested a copy of the presentation made to the Joint Resource Council on October 30, 2014 regarding the historic Afton tailings storage facility. Copy provided by KAM on November 4, 2014.
E-mail	November 4, 2014	SSN, KAM	KAM provided a suggested framework for meetings between the different levels of SSN and KAM based on the Capacity Funding Agreement terms. Also suggested holding the first of three community meetings in December to provide information on employment opportunities, mine and process plan, dust control, and water management.
E-mail	November 5, 2014	SSN, KAM	KAM requested field assistants for upcoming field work.
E-mail	November 5, 2014	SSN, KAM	SSN requested a digital copy of the October 30, 2014 presentation; KAM dropped off a copy.
E-mail	November 5, 2014	SSN, KAM	KAM requested assistants for an upcoming field program.
E-mail	November 13, 2014	SSN, KAM	Negotiations meeting confirmed for November 24, 2014; agenda provided by KAM. KAM informed SSN they are no longer available that date, and potential dates discussed on November 17, 18, 25 and 27, 2014. Meeting confirmed for November 28, 2014. Additional agenda items added by KAM.
E-mail	November 17, 2014	SSN, KAM	KAM requested an update on the two outstanding deliverables: the final Cultural Heritage Study report (due October 31, 2014) and a map of SSN's traditional territory. The final Cultural Heritage Report was provided on December 5, 2014. The map was also provided.
E-mail	November 18, 2014	SSN, KAM	KAM provided an agenda for the first joint project team monthly meeting, and suggested potential dates (November 24-27, 2014) for the meeting. Meeting set for December 15, 2014.

Event Type	Date	Participating Organizations	Summary
E-mail	November 24, 2014	SSN, KAM	SSN received a notice from the government that KAM's mineral leases are expiring. Asked if there is a pre-notice and requested detailed information to review before their Joint Resource Council meeting on November 27, 2014. KAM agreed to provide as much information as possible before SSN's meeting. This information was provided on December 4, 2014, and followed up on January 5, 2015
Phone Call	November 25, 2014	SSN, KAM	KAM requested a monitor for upcoming archaeological work.
Meeting	November 28, 2014	SSN, KAM	Leadership meeting. Topics of discussion included: presentation of the Capacity Funding Agreement to membership, importance of consultation, potential option of no tailings pond (proposed by SSN), and next meetings. Project Agreement - SSN provided their high-level expectations for a Project Agreement. SSN will draft an agreement as a starting point. In follow-up, KAM provided a copy of the New Afton Participation Agreement for SSN to review on January 12, 2015. Next meetings - Joint project team meeting on December 15, 2014, SIB community meeting on January 19, 2015, TteS community meeting on January 21, 2015.
E-mail	December 2, 2014	SSN, KAM	KAM is working on a draft document for their mineral leases and would like to share mapping with SSN; requested a call to discuss. KAM provided the letter and maps that will be sent to the Gold Commissioner regarding KAM's mineral leases on December 4, 2014. Requested a call once SSN has reviewed the documents. On January 5, 2015, KAM asked if SSN has any questions or comments about the mineral lease extension. KAM was asked to present at the Joint Resource Council on a variety of topics including mineral leases on January 29, 2015.
Meeting and Site Tour	December 5, 2014	SSN, KAM	KAM provided a presentation on the historic Afton tailings storage facility inspection overview, followed by discussion on the facility. Other topics of discussion included: water diversion during the Alkali Creek improvements and use of the tailings facility water for revegetation of beach areas. SSN requested a copy of the third-party review; KAM will share once a confidentiality agreement is signed by SSN (last requested on August 19, 2014). Following their meeting, KAM provided a short tour of the historic Afton site. Agreed to have another tour in the spring when there is less snow.

Event Type	Date	Participating Organizations	Summary
E-mail	December 9, 2014	SSN, KAM	KAM provided an updated First Nations Consultation Plan for SSN to review; requested comments back by January 9, 2015. SSN asked about the map at the end of the plan; KAM confirmed it is the original footprint map, provided for reference only (December 10, 2014). SSN provided an appropriate map for use in the First Nations Consultation Plan (December 11, 2014). KAM thanked SSN for the updated map (December 13, 2014).
E-mail	December 13, 2014	SSN, KAM	KAM provided an overview of the types of questions KAM will be asking at the joint project team meeting on December 15, 2014.
E-mail	December 15, 2014	SSN, KAM	SSN is unable to send the final Cultural Heritage Study report electronically; dropped a copy of the report off for KAM.
Meeting	December 15, 2014	SSN, Amec Foster Wheeler, InterGroup, KAM	Joint project team meeting. Topics of discussion included: Aboriginal rights and title and how they are handled in the EA, SSN's concerns with the EA process to date, dry stack vs. wet stack tailings facility, collection of socio-economic information, need for a project Human Resource Development Plan, training and jobs for community members, consideration of cumulative effects, SSN interaction with the City of Kamloops, and the final Cultural Heritage Study report. Panel review - SSN asked that KAM voluntarily request a panel review; KAM noted this needs to be a leadership discussion. Discussed further at the February 4, 2014 meeting. Training - SSN requested a full-time HR person at SSN focused on First Nations hiring and training. SSN requested KAM's construction plan so they can see what training and life-of-mine opportunities will be available. Requested again by SSN on December 19, 2014. Socio-economic baseline data collection - SIB is working on a community snapshot, which should be available in the spring. SIB and TteS need to confirm if they will share socio-economic information with KAM. Discussed again at meeting on December 19, 2014. Cultural Heritage Study - SSN provided a copy of the draft final report to KAM; to be used for internal purposes only. Issues: proposed change from a dry stack to wet stack tailings facility.
Letter	December 17, 2014	SSN, KAM	KAM invited SSN to submit a proposal on contracting opportunities.
E-mail	December 18, 2014	SSN, KAM	SSN asked if KAM notified SSN of their request to MEM to remove the provision of notifying mineral tenure holders before work is completed (NOW Permit #14-1620666-0602), approved in MEM's letter dated December 12, 2014. In follow-up KAM responded that the work applied for under the multi-year NOW permit was provided to SSN for review before being submitted. The permit was not expanded by the amendment (December 19, 2014).

Event Type	Date	Participating Organizations	Summary
E-mail	December 19, 2014	SSN, KAM	SSN asked questions regarding award of the security contract as it was not to an SSN firm.
Meeting	December 19, 2014	SSN, KAM	Meeting with new Executive Director. KAM provided an overview of the Project, EA process, permitting process, business and procurement opportunities, schedule for all project meetings, and collection of socio-economic data. SSN asked for a list of upcoming contract opportunities and list of contractors KAM likes to work with. KAM asked for a list of contractors SSN has joint ventures with, which SSN provided.
E-mail	December 30, 2014	SSN, KAM	SSN provided a proposal for keeping the BCAMTA training database up to date. KAM is unable to support the initiative at this time, but recommends that it be discussed as part of the Project Agreement (January 7, 2015).
E-mail	January 5, 2015	SSN, KAM	SSN requested, and KAM provided, a copy of the questions on the Preliminary Mitigation Report sent to SSN on October 30, 2014.
E-mail	January 6, 2015	SSN, KAM	KAM requested a meeting to discuss SSN's comments on the First Nation Consultation Plan, provided on December 9, 2014. SSN will get back to KAM on a date once the plan has been reviewed internally (January 7, 2015). SSN requested that the review period for the First Nations Consultation Plan be extended to the end of January because of the Christmas break (January 8, 2015). SSN suggested February 4, 2015 to discuss the draft First Nations Consultation Plan (January 12, 2015).
E-mail	January 7, 2015	SSN, KAM	SSN requested, and was provided with, a signed copy of the Capacity Funding Agreement.
E-mail	January 7, 2015	SSN, KAM	KAM requested confirmation of the community meetings with SIB on January 19 and TteS on January 21, 2015. Provided information on what would be presented at the meeting. On January 8, 2015, SSN confirmed the SIB presentation for January 19 and the TteS presentation for January 21, 2015, with the following conditions: (a) payment is received (see Study Funding Agreement); (b) there is a leadership meeting before to discuss the presentations; (c) the meetings are not consultation; and (d) KAM will cover the costs. Asked that the presentations also include information on the overall Project, the environment, contract opportunities, and socio-economic effects. In follow-up, SSN noted that the meetings would be considered consultation and SSN will cover the costs. KAM requested a date for the leadership meeting to discuss the presentations, and suggested also including negotiations for the Project Agreement (January 9, 2015).

Event Type	Date	Participating Organizations	Summary
E-mail	January 8, 2015	SSN, KAM	<p>SSN informed KAM that the Joint Council discussed KAM's questions on the Preliminary Mitigation Report; they are willing to meet to discuss once the Study Funding Agreement payment has been made. SSN suggested postponing the January 15, 2015 meeting.</p> <p>On January 10, 2015, SSN clarified wording from the Study Funding Agreement relating to payment for the provision of the Preliminary Mitigation Report, and noted that SSN would like to meet before the end of January to discuss KAM's questions on the report.</p> <p>KAM provided the questions they would like to discuss regarding the Cultural Heritage Study and Preliminary Mitigation reports, in preparation for their meeting proposed for the following week (January 11, 2015).</p> <p>SSN has an internal meeting scheduled for January 21, 2015 to discuss the Cultural Heritage Study and mitigation, and will provide a date to meet with KAM to discuss after the meeting (January 13, 2015).</p>
E-mail	January 8, 2015	SSN, KAM	<p>SSN has hired someone to work on KAM tenders, and asked KAM how much time they feel will be needed for KAM work, what his role will be for gathering/sharing information with SSN, and how the cost of this position will be covered. KAM provided the requested information.</p>
Letter	January 12, 2015	SSN, KAM	<p>Further to their meeting in December, SSN had agreed to review the New Afton Participation Agreement and provide changes they would like to see in the Project Agreement for the Ajax Project; KAM provided a copy of the agreement and requested comments by January 27, 2015 and a meeting near the end of the month to discuss. (Discussed further at the March 11, 2015 meeting.)</p>
E-mail	January 12, 2015	SSN, KAM	<p>KAM informed SSN of upcoming potential contracting opportunities.</p>
E-mail	January 12, 2015	SSN, KAM	<p>SSN noted that the community meetings planned for the following week will likely not occur; will provide new dates the following day. On January 13, 2015, SSN confirmed the community meetings for the TteS on January 21 and February 17, 2015.</p>
E-mail	January 13, 2015	TteS, KAM	<p>KAM is looking at opportunities for developing an RV park and parking lots in the TteS community to provide temporary housing and parking during project construction. Asked if TteS is comfortable with an RV park in Rayleigh and parking at the KXA grounds.</p> <p>TteS provided information on lots for the RV park (January 20, 2015).</p>
E-mail	January 13, 2015	SSN, KAM	<p>SSN confirmed a meet and greet on January 15, 2015, requested a meeting after to discuss past and future possible works. Confirmed by KAM on January 14, 2015. KAM added the agenda item of going over the previous year's field work.</p>

Event Type	Date	Participating Organizations	Summary
E-mail	January 14, 2015	SSN, KAM	<p>Further to receiving payment for the Preliminary Mitigation Report, SSN noted the following plans.</p> <p>Community meetings - TteS meeting dates planned, SIB dates to be confirmed.</p> <p>Cultural Heritage Study/Preliminary Mitigation Report - SSN will be reviewing the documents and mitigation questions on January 28, 2015. A meeting with KAM to discuss mitigation was scheduled for February 4, 2015.</p> <p>First Nations Consultation Plan - Meeting to review scheduled for February 4, 2015. SSN provided an update on the review process for the First Nations Consultation Plan on January 27, 2015.</p> <p>Socio-economic data - Will review the socio-economic items after the above have been completed.</p>
E-mail	January 14, 2015	SSN, KAM	<p>Discussed logistics for the community meetings. KAM requested confirmation of the SIB sessions. SSN will confirm dates for the SIB community meetings after their Chief & Council meeting on January 20, 2015.</p> <p>SSN postponed the SIB community meeting planned for January 19, 2015 and will provide new dates soon (January 15, 2015). On January 20, 2015, SSN confirmed the SIB community meetings for February 17, March 10 and March 17, 2015.</p> <p>On January 21, 2015, KAM noted that meetings are planned for TteS and SIB on the same date (February 17, 2015), and requested that the TteS meeting be moved to March. (Date of SIB meeting changed instead.)</p>
Meeting	January 15, 2015	SSN, KAM	<p>Meet and greet held between KAM and SSN staff, followed by a discussion on the 2014 field programs.</p>
E-mail	January 15, 2015	SSN, KAM	<p>SSN requested, and KAM provided, clarification of payments and deliverables from the Study Funding Agreement.</p>
E-mail	January 15, 2015	SSN, KAM	<p>KAM informed SSN that drilling under NOW Permit #14-1620666-0602 will be started around January 26, 2015. Work includes in-pit metallurgical drilling, plant site geotechnical drilling, and drilling to investigate the Edith Lake thrust zone. All have been cleared for archaeology. SSN requested a map showing the drill sites.</p>

Event Type	Date	Participating Organizations	Summary
Community Meeting	January 21, 2015	TteS, Amec Foster Wheeler, InterGroup, KAM	<p>Community meeting attended by the Chief, Councillors and 63 TteS members. First of three community meetings to provide SSN members with an opportunity to learn more about the Project and ask questions. KAM presented information on the Project, specifically relating to employment opportunities, the mine and process plan, dust control, and water management (per the Capacity Funding Agreement). Questions after the presentation related to: tailings facility, jobs and training, project agreements, EA submission, effects on area lakes and creeks, reclamation, effects on hunting and fishing, investment in the Project, need for a "Mining 101" video, size of the mine footprint, property value in the area, effects on the environment, dust control, need for more public information and consultation, and proximity to the city.</p> <p>Issues: (a) tailings storage facility - size, chemicals, potential for failure, location, effects on air quality and health; (b) dam failure; (c) Jacko Lake drained for the tailings facility; (d) need for steady (not temporary) employment; (e) protection of sacred sites near Jacko Lake; (f) level of reclamation; (g) potential effects on hunting, fishing, and other traditional activities and areas; (h) size of the mine footprint; (i) reduced property values near the mine; (j) effects of seepage on health; (k) effects on the environment; (l) dust suppression; (m) proximity to Kamloops.</p>
E-mail	January 22, 2015	SSN, KAM	SSN invited KAM to the Joint Resource Council meeting on January 29, 2015. KAM asked if there were specific topics to discuss.
E-mail	January 24, 2015	SSN, KAM	SSN asked, and KAM provided, information on responsibility for the Kinder Morgan pipeline.
E-mail	January 25, 2015	SSN, KAM	SSN asked to demonstrate their ability to supply and process aggregate, and offered a tour of their pits.
E-mail	January 26, 2015	SSN, KAM	KAM requested socio-economic information to be incorporated into the baseline studies. KAM did not receive this information.
E-mail	January 27, 2015	SSN, KAM	KAM confirmed they will share the full dam safety inspection report on January 29, 2015, along with a presentation overview.
E-mail	January 27, 2015	SSN, KAM	SSN asked, and KAM provided, minimum hiring requirements for the Project.
E-mail	January 27, 2015	SSN, KAM	<p>SSN informed KAM that the TteS Council has asked that the March 24, 2015 community meeting be postponed; will provide a new date when available. SSN noted that per the Capacity Funding Agreement, KAM should cover the costs of future community meetings.</p> <p>In follow-up on February 2, 2015, SSN noted that the community meetings will go ahead as planned and SSN will cover the cost of the meetings. All meeting dates have been finalized, except the last date for TteS.</p>

Event Type	Date	Participating Organizations	Summary
Meeting	January 29, 2015	SSN, KAM	Joint Resource Council meeting at the TteS office. Topics of discussion included: extension of KAM's mineral leases, Kinder Morgan pipeline rerouting, and dam safety inspection. Pipeline reroute - NEB has determined the pipeline under the northeast arm of Jacko Lake must be removed. Kinder Morgan is responsible for the work being done.
E-mail	January 29, 2015	SSN, KAM	SSN responded to the questions raised by KAM on the Preliminary Mitigation Report.
E-mail	January 29, 2015	SSN, KAM	SSN informed KAM they have been directed to not initiate or receive any calls from KAM unless it is stated in writing that the calls are for informational purposes only and not to be considered consultation.
E-mail	January 29, 2015	SSN, KAM	SSN informed KAM they have hired a new project-specific lead for the Ajax Project.
E-mail	January 30, 2015	SSN, KAM	KAM invited SSN to a technical meeting to discuss fish and aquatics on February 5, 2015. (SSN attended the meeting.)
Letter	February 3, 2015	SSN, KAM	SSN provided comments on the First Nations Consultation Plan, in advance of their discussion on February 4, 2015.
E-mail	February 3, 2015	SSN, KAM	SSN requested a leadership meeting for March 16, 2015. Meeting date confirmed.
E-mail	February 3, 2015	SSN, KAM	SSN requested an extension of the Cultural Heritage Study report completion date to February 28, 2015 because of the complexity of the additional Cultural Heritage Study. On February 11, 2015, SSN asked about their extension request of February 3, 2015 for the Cultural Heritage Study report. KAM noted that the Capacity Funding Agreement states delivery by February 28, 2015, and that the updated General Arrangement was provided on May 29, 2014. Asked what extension date SSN is looking for; SSN suggested May 1, 2015. Discussed further at meeting on February 18, 2015. To-date, this additional work has not been initiated.
Meeting	February 4, 2015	SSN, Amec Foster Wheeler, KAM	Cultural Heritage Study Report - KAM will look at the study to decide how it will be considered within the relationship and EA associated plans. KAM will draft up a front-end piece that addresses the context of the report and what it represents to SSN for SSN to review before inclusion in the EA. Panel request - Will be discussed at the next leadership meeting.

Event Type	Date	Participating Organizations	Summary
Meeting	February 4, 2015	SSN, KAM	SSN opened the meeting in good faith to best address SSN's consultation rights and title and effect. The SSN believes the Williams case gives them a stronger claim to title on the land. KAM did not realize SSN was given a low title designation by the EAO. The SSN discussed a 1% fee of project capital cost would be required to develop the project. The SSN then informed KAM that the comments provided on the FN consultation plan on February 3, 2015 were not for discussion, the SSN could provide explanation or provide clarity but these comments were final. The SSN then provided context around the 16 comments for KAM.
E-mail	February 4, 2015	TteS, KAM	TteS provided information on the land available for the RV park.
E-mail	February 4, 2015	SSN, KAM	SSN requested, and KAM provided, the action items from the mitigation meeting on February 4, 2015.
E-mail	February 5, 2015	SSN, KAM	KAM confirmed the leadership meeting for March 16, 2015. SSN confirmed who will be attending, and asked that the old and proposed tailings facilities be on the agenda.
Meeting	February 5, 2015	BC EAO, MOE, MFLNRO, CEA Agency, SSN, KAM, Knight Piesold Consulting	Fisheries and aquatics technical meeting. Reviewed project baseline information, discussed high-level preliminary offsetting opportunities, and collected feedback on preliminary data on Jacko Lake and Peterson Creek.
E-mail	February 6, 2015	SIB, KAM	KAM requested confirmation of timing for the SIB community meetings.
E-mail	February 11, 2015	SSN, KAM	Notes from the February 5, 2015 meeting will be provided once finalized. Asked if SSN wanted the October notes and presentation right away, or with the February notes. SSN asked that an electronic copy of the October fish and aquatics meeting notes and presentation be left at the KAM reception for pickup, and that the February meeting notes and presentation be provided when finalized (February 12, 2015).
E-mail	February 11, 2015	SSN, KAM	KAM requested a meeting with SSN to discuss their comments on the AIR on February 26, March 2 or March 3, 2015. SSN is unable to meet on February 26, 2015; new potential dates were discussed (February 18, 2015).
E-mail	February 11, 2015	SSN, KAM	SSN requested the updated footprint shape files per the map provided. Requested again on February 20, 2015; KAM agreed to provide by the end of the week. KAM provided shape files for the updated General Arrangement. On February 24, 2015, KAM responded to SSN's concern that the files had been requested multiple times; according to KAM's records the request on Feb. 20, 2015 was the only request.

Event Type	Date	Participating Organizations	Summary
			SSN noted on February 26, 2015 that they had been requested verbally at meetings. Agreed that meeting notes should be formalized to ensure items like this do not get missed. KAM provided information on previous shape file requests.
E-mail	February 12, 2015	SSN, KAM	SSN confirmed that the list of action items from the February 4, 2015 meeting provided by e-mail are correct. Asked that the discussion on having KAM request a panel review be added to the agenda for the March 16, 2015 leadership meeting.
Community Meeting	February 17, 2015	TteS, Amec Foster Wheeler, KAM	<p>Community meeting attended by the Chief, Councillors and 67 TteS members. Second of three community meetings to provide SSN members with an opportunity to learn more about the Project and ask questions. KAM presented information on the Project, specifically about employment opportunities, mine and process plan, traffic, and vibration and noise (per the Capacity Funding Agreement). Questions after the presentation related to: the updated General Arrangement, employment and training opportunities, water usage, what an EA is, potential social effects, reclamation, need for water and health care for Band members, hunting blind, air quality, KAM partnerships with First Nations, the Cultural Heritage Study, and relocation of the Kinder Morgan pipeline.</p> <p>Issues: (a) job opportunities for band members; (b) potential negative social effects; (c) reclamation; (d) what happens to remains and the hunting blind; (e) effects of air quality on grasslands.</p>
Meeting	February 18, 2015	SSN, KAM	<p>Managers' meeting. Topics of discussion included: formalizing the agenda for future meetings, mission and mandate for meetings, review of work packages, attendance and agenda for the leadership meeting, Project Agreement negotiations, RV park, Cultural Heritage Study deadline, and current studies.</p> <p>Work packages - KAM asked to have someone from SSN review KAM's model with Norwest. SSN confirmed that a staff member will be available one day/week to assist with the review (March 18, 2015).</p> <p>RV park - Now being handled by the TteS office. KAM would like to enter a joint venture agreement for TteS to provide the land and KAM to provide the capital.</p> <p>Cultural Heritage Study - SSN requested an extension of the February 28, 2015 deadline. KAM noted that extending the deadline will affect submission of the EA application. KAM suggested that SSN issue the report as final, but note that there are ongoing studies. KAM responded by letter to SSN's request on February 19, 2015.</p> <p>Next meeting scheduled for March 11, 2015.</p>

Event Type	Date	Participating Organizations	Summary
Letter	February 19, 2015	SSN, KAM	Further to SSN's request to extend the February 28, 2015 deadline for submission of the final Cultural Heritage Study report, KAM requested that the report be provided by that date per the Capacity Funding Agreement to allow time for the findings to be incorporated into the EA submission. SSN's legal counsel responded to this letter on March 16, 2015.
E-mail	February 20, 2015	SSN, KAM	SSN requested that the mining glossary from the KAM website be included as part of the print-out package for the upcoming SIB and TteS community meetings.
Letter	February 23, 2015	Miller Thomson LLP (SSN), Lawson Lundell LLP (KAM)	SSN's legal counsel expressed concern regarding previous shape file requests that had not been met.
E-mail	February 24, 2015	SSN, KAM	KAM requested a time to deliver a hard copy and electronic copy of the final Archaeological Impact Assessment for the Project. Arrangements were made for delivery of the Archaeological Impact Assessment report on February 25, 2015.
E-mail	February 24, 2015	TteS, KAM	TteS requested a copy of the presentation from the community meeting. KAM will drop off a digital copy of the community meeting presentation to the SSN office (February 26, 2015).
E-mail	February 25, 2015	SSN, KAM	SSN provided information relating to the RV park layout.
E-mail	February 26, 2015	CEA Agency, SSN, KAM	SSN asked why they had not received notification of the fish and aquatics meeting on February 5, 2015. KAM noted that SSN had a representative at the meeting, and that a request for SSN's involvement in fish habitat compensation planning was sent on October 6, 2014.
E-mail	February 27, 2015	SSN, KAM	KAM responded to SSN's questions regarding the first aid and security services contract. Suggested a meeting on March 12 or 13, 2015 to provide an update on upcoming contract opportunities. SSN is available on March 12 or 13, 2015 to discuss upcoming contract opportunities (March 2, 2015).
E-mail	March 2, 2015	SSN, KAM	SSN requested assistance with funding so that SSN can review the Archaeological Impact Assessment provided by KAM.
E-mail	March 3, 2015	SSN, KAM	KAM provided information for a heavy duty equipment operator training program at Thompson Rivers University, and asked if SSN supports training at the mine site for the onsite portion of the course. SSN is not in support of the program as it does not fit into the mission or vision of SSN training (March 18, 2015).

Event Type	Date	Participating Organizations	Summary
Community Meeting	March 5, 2015	SIB, Amec Foster Wheeler, KAM	<p>Community meeting attended by the Chief, Councillors and SIB members. First of three community meetings to provide SSN members with an opportunity to learn more about the Project and ask questions. KAM presented information on the Project, specifically relating to employment opportunities, the mine and process plan, dust control, and water management (per the Capacity Funding Agreement). Questions after the presentation related to: project transport, cumulative effects, traditional land use, Cultural Heritage Study, Jacko Lake, tailings storage facility, community health, training and employment, reclamation, EA application and process, water usage, consultation with area First Nations, updated General Arrangement, Peterson Creek diversion, and trace elements in the ground.</p> <p>Issues: (a) cumulative effects of industry, ranching, and infrastructure on traditional land use; (b) landscape changes that affect wildlife migration; (c) ability to travel to Kamloops via traditional means; (d) effects on area waterbodies from tailings storage facility accidents/malfunctions; (e) effects of increased dust in the atmosphere/inversion; (f) level of industrial water usage on already limited water resources; (g) effects on the grassland ecosystem; (h) trace elements from the ground becoming airborne.</p>
E-mail	March 7, 2015	SSN, KAM	KAM provided the draft Aboriginal background sections (Part C) and preliminary socio-economic baseline report for SSN to review. Requested a meeting to discuss. On March 20, 2015, KAM again requested a meeting to discuss.
E-mail	March 9, 2015	SSN, KAM	SSN provided a copy of the draft Tailings Pond Agreement first presented for discussion at the November 28, 2014 meeting.
E-mail	March 9, 2015	SSN, KAM	KAM requested dates for a technical meeting to discuss waterbody enhancement strategies. On March 18, 2015, KAM again requested a meeting to discuss.
E-mail	March 9, 2015	SSN, KAM	KAM requested a monitor for upcoming field work.
E-mail	March 9, 2015	SSN, KAM	SSN asked for an update on the RV park project. Discussed at meeting on March 13, 2015.
E-mail	March 9, 2015	BC EAO, MOE, MFLNRO, CEA Agency, SSN, KAM	<p>KAM provided draft notes for the February 5, 2015 fisheries and aquatics meeting, as well as the revised presentation. Requested comments on the notes by March 20, 2015.</p> <p>On March 24, 2015, KAM again provided notes from the February 5, 2015 meeting regarding fisheries and aquatics offsets and requested any comments by April 7, 2015. Comments were received on March 16, 2015.</p>

Event Type	Date	Participating Organizations	Summary
Community Meeting	March 10, 2015	SIB, Amec Foster Wheeler, KAM	Community meeting attended by the Chief, Councillors and SIB members. Second of three community meetings to provide SSN members with an opportunity to learn more about the Project and ask questions. KAM presented information on the Project, specifically about employment opportunities, mine and process plan, traffic, and vibration and noise (per the Capacity Funding Agreement). Questions after the presentation related to: tailings storage facility, consultation with SIB, strength of claim, employment and training, traditional knowledge, water usage, mine life, project benefits to SIB, EA process, Cultural Heritage Study, involvement of SIB in the socio-economic baseline report, and dust control. Issues: (a) lack of training for members to participate in project employment; (b) contamination of water, affecting human health, fish, and wildlife.
Meeting	March 11, 2015	SSN, KAM	Managers' meeting. Topics of discussion included: action items from the previous meeting, a project fact booklet, contract business plan, Project Agreement, potential Joint Venture Agreement for the RV park, EA application section review, Cultural Heritage Study, and agenda for the leadership meeting. Fact booklet - KAM would like to put together a booklet that can provide information to the communities on mining in general and be used as an educational tool; SSN agreed with the idea and will distribute to their mailing list once approved. Approval to prepare the booklet provided by SSN (March 18, 2015). Project Agreement - KAM provided an agreement template on January 12, 2015 requesting that SSN revise to what they would like in the agreement. SSN requested, in a letter dated March 16, 2015, clarification of the type of agreement KAM wishes to pursue. (Discussed at meeting on March 16, 2015.) EA Application Review Stage Agreement - SSN to review the list of EA application sections and reports, and provide a budget for their review. Cultural Heritage Study - KAM requires the study so it can be incorporated into the EA application. SSN will provide a new completion date the following week.
E-mail	March 11, 2015	SSN, KAM	KAM confirmed the next manager's meeting will be April 8, 2015, and that notes from that day's meeting would be provided by March 16, 2015.
Letter	March 11, 2015	SSN, KAM	KAM provided information on a NOW application for a booster station for review by SSN. On March 24, 2015, SSN noted they will see if it can be added to the agenda for the next Joint Resource Council meeting.
E-mail	March 12, 2015	SSN, KAM	SSN is not available for the managers' meeting scheduled for April 8, 2015, but is available April 9, 2015.

Event Type	Date	Participating Organizations	Summary
Meeting	March 13, 2015	TteS, KAM	Discussed a partnership between TteS and KAM for temporary housing and parking during project construction, which could be operated as an RV park once construction is complete. Topics of discussion included: financial arrangements, land available, permitting, timelines, power/water hookups. TteS will provide property plans for potential sites. Agreed to discuss further. TteS provided the property plans.
Letter	March 16, 2015	SSN, KAM	<p>Further to the fisheries and aquatics meeting on February 5, 2015, SSN provided outstanding concerns and requests for information. Requested KAM's plan to address their information requests and project design concerns by April 1, 2015. These included outstanding items requested in SSN's letter to the BC EAO dated June 11, 2014, concerns noted in SSN's June 19, 2014 letter to KAM, and concerns based on information received to date. SSN also provided a list of valued components they would like included in the AIR.</p> <p>Issues: (a) destruction of Goose Lake; (b) dewatering the northeast arm of Jacko Lake; (c) diversion of Peterson Creek; (d) level of water usage and water source.</p> <p>On March 18, 2015, KAM requested a meeting to discuss SSN's concerns as well as mitigation strategies. In June 2014, KAM followed up via letter.</p>
Meeting	March 16, 2015	SSN, KAM	<p>Leadership meeting. Topics of discussion included: community meetings, site access for traditional use, consultation, Kinder Morgan pipeline relocation, Project Agreement, Cultural Heritage Study, Capacity Funding Agreement, potential tailings dam issues, and request for more site tours. Next meeting scheduled for April 7, 2015.</p> <p>Community meetings - First session went well, but no KAM technical people were present to answer questions at the second session.</p> <p>Access to site - Raised concern that SSN members must request permission to access their traditional lands onsite.</p> <p>Consultation - SSN believe CEA Agency should be present to respond to questions on the EA application. Need more consultation on the pipeline relocation, as well as on Jacko Lake and Goose Lake.</p> <p>Project Agreement - SSN provided a table of contents for the agreement. Would like to have the draft agreement in place before June.</p> <p>Cultural Heritage Study - SSN brought up a number of items relating to the study, noting that it has not been completed because of seasonality issues, and that more funding may be required.</p> <p>Capacity Funding Agreement - SSN noted that some provisions may require modification.</p> <p>Issues: (a) permission required to access traditional lands onsite; (b) Kinder Morgan pipeline relocation; (c) potential effects on Jacko Lake and Goose Lake.</p>

Event Type	Date	Participating Organizations	Summary
Letter	March 16, 2015	Miller Thomson LLP (SSN), KAM	<p>Cultural Heritage Study - SSN's legal counsel responded to KAM's letter of February 19, 2015 regarding extension of the final Cultural Heritage Study report deadline. SSN will complete the work for the expanded study and submit it to KAM in due course. SSN will advise the BC EAO that the expanded report must be considered as part of the EA process once complete. Provided clarification of the 15-km radius. Discussed at the meeting on March 16, 2015.</p> <p>Fisheries and aquatics working meetings - SSN has outstanding concerns related to issues addressed at the February 5, 2015 meeting (provided separately). Requested a response to questions before another meeting is held. Also noted that SSN has not received notes for the meeting. (Notes were provided on March 9 and 24, 2015.)</p> <p>Project Agreement - SSN requested clarification of the type of agreement KAM wishes to pursue, and a draft or outline of the proposed agreement in advance of the next negotiation meeting.</p>
E-mail	March 18, 2015	SSN, KAM	<p>Further to KAM's request for a technical meeting to develop mitigation strategies for Jacko Lake (sent March 9, 2015) and SSN's letter of concerns regarding water, fish, and aquatics and project design issues and concerns (dated March 16, 2015), KAM noted they have been and will continue to request engagement with SSN and work towards avoidance wherever possible. Noted there are areas where alteration of waterbodies will be necessary, and that KAM would like SSN's input on the development of compensation and offsetting strategies for these areas. KAM proposed a meeting the week of March 30, 2015 to discuss further.</p> <p>On March 30, 2015, KAM requested a meeting to discuss fish habitat enhancement projects the SSN would like to have developed within their traditional territory.</p>
E-mail	March 19, 2015	SSN, KAM	<p>SSN requested, and KAM provided, confirmation that they received the Archaeology Impact Assessment report electronically.</p>
E-mail	March 19, 2015	SSN, KAM	<p>KAM requested a meeting with SSN on March 27, March 30 or April 2, 2015 to develop a Contracts and Contractors Protocol. Meeting arranged for March 30, 2015.</p>
E-mail	March 19, 2015	SSN, KAM	<p>KAM noted outstanding items from the last managers' meeting: (a) Cultural Heritage Protocol due April 7, 2015; (b) Respecting Traditional Ceremonies Protocol due April 7, 2015; (c) ensuring all SSN members are registered with the SSN. KAM requested a copy of the protocols prior to a meeting on March 25, 26 or 31, 2015.</p>
E-mail	March 19, 2015	SIB, KAM	<p>SIB asked when the third community meeting will be held; KAM noted that the date has not yet been confirmed.</p>

Event Type	Date	Participating Organizations	Summary
Letter	March 20, 2015	SSN, KAM	KAM offered to collaborate with SSN on identifying and formally recording locations of cultural significance noted in the Cultural Heritage Study report to assist with protecting the locations from unintentional impacts. Requested digital data on the locations or a site visit if none are available, as well as further information that can be incorporated into the EA.
E-mail	March 24, 2015	SSN, KAM	NOW application - SSN will determine if the booster station NOW application discussion can be added to the agenda for the next Joint Resource Council meeting. SSN asked if they had been invited to the Ajax supporters' meeting. KAM noted it was for those who have filled out a project supporter card; SSN as a whole was not invited, but individual members may have been if they had filled out a card.
E-mail	March 25, 2015	SSN, KAM	Discussed a request from Allnorth to SSN for a letter of support.
E-mail	March 25, 2015	SSN, KAM	KAM provided a draft scope of work related to the First Aid and Security Contract RFP to come out in the spring.
E-mail	March 27, 2015	SSN, KAM	SSN requested that KAM bring two electronic copies of the Archaeological Impact Assessment report to the upcoming meeting; KAM agreed to provide.
Email	March 29, 2015	SSN, KAM	SSN informed KAM that Victor Tom no longer represents SSN or SEI.
Meeting	March 30, 2015	SSN, KAM	Discussed the Contracts and Contractors Protocol and changes to the draft document.
E-mail	March 31, 2015	SSN, KAM	SSN requested up-to-date geospatial information for KAM's mineral tenures, the updated General Arrangement, the updated footprint, recorded archaeological sites, exploration activities separated for the updated General Arrangement and old footprint, geophysical 3-D modelling, and depth mapping of diagonal and vertical drilling around for Jacko Lake.
E-mail	March 31, 2015	SSN, KAM	SSN requested a copy of the draft Project Agreement by April 2, 2015 so they have time to review and respond before the leadership meeting set for April 7, 2015.
E-mail	March 31, 2015	SSN, KAM	SSN requested a contact at Kinder Morgan to discuss the rerouting of the pipeline.
Email / Letter	April 1, 2015	SSN, KAM	Written on March 3, 2015 and delivered by email on March 20, KAM inquired by letter to SSN on potential burial sites identified in SSN's Cultural Heritage Study Final Report (ROC990). KAM offered to collaborate with SSN on identifying and formally recording locations of cultural significance. On April 2, 2015 SSN sent a letter in response to KAM's letters regarding burial sites. SSN articulated the need for further resources (including time) to develop an enhanced CHS (at the time of writing this study had not commenced). The AIA final report review will constitute a chapter of the CHS and will be examining the report for reference and work already completed on the burial sites before planning any follow up work which will include investigations necessary to protect the burial sites.

Event Type	Date	Participating Organizations	Summary
			<p>The SSN was also waiting to share any additional information until a confidentiality agreement is signed (no such agreement has been signed between both parties). On April 20, 2015 KAM wrote a letter to SSN in response to SSN's letter from April 2, 2015 about burial sites. Following up from this letter KAM committed to set dates with SSN for meetings regarding information review of burial sites and to provide assistance for potential follow up work if need be. KAM would like to meet on a technical level to discuss the information already gathered for the CHS. KAM expressed their willingness to meet with SSN and discuss concerns regarding confidentiality. Internally KAM investigated all potential burial sites within the LSA and found no indication of any burial sites.</p>
Email / Letter	April 1, 2015	SSN, KAM	<p>SSN confirmed receipt of KAM's e-mails regarding the socio-economic baseline studies (March 20, 2015). On April 2, 2015 SSN sent a letter in response to KAM's letters regarding Socio-Economic baseline reports. SSN intends on internally reviewing the Socio- Economic baseline studies for both communities. SSN welcomes the opportunity to meet and discuss the nature, scope and budget for such a comprehensive review. SSN noted that in the draft Application section 12 KGHM has listed the CHS as an appendix. SSN notes that information of a personnel nature is contained within this study and a meeting to discuss what sections must be removed in order to allow for public sharing of the document. KAM decided not to insert the CHS into the Application as an appendix. On April 20, 2015, KAM sent a letter to SSN reiterating their interest in meeting with SSN to gather baseline information. On May 1, 2015, KAM received a formal response from SSN regarding Section 8.4 Socio-economic Baseline report. SSN requested more community-specific information be included in the report on topics such as (a) labour force, employment and training, income; and (b) business, property values, economic diversification, community health and well-being, infrastructure, public facilities and services, outdoor recreation. SSN also expressed concern over the lack of information for: (a) governance; (b) legacy of wrongs; (c) cumulative effects assessment; (d) intangible impacts and invisible losses; and (e) visual impact and aesthetic features.</p> <p>On May 21, 2015 KAM sent a response letter to the SSN. KAM's letter noted the socio-economic and land use information available in the CHS and the Preliminary Mitigation Report had not yet been incorporated into the baseline report shared in March 2015. In addition, KAM noted additional information was incorporated from the consultation process including feedback provided through letters and meetings and relevant portions of SSN's affidavits with respect to the Kinder Morgan Trans Mountain Pipeline Expansion Project. KAM also gathered further community specific information from other sources including interviews with a local health organization (Q'wemtsin Health Society) and local law enforcement authorities as well as the Tk'emlups te Secwepemc Annual Reports. In regards to the issues surrounding the cumulative effects assessment, KAM noted it is following the</p>

Event Type	Date	Participating Organizations	Summary
			guidelines set forth by BC EAO and the CEA Agency; however, KAM considered the information provided by SSN in respect of the Legacy of Wrongs and incorporated it into Section 12 (Background and Aboriginal Group Settings).
Email	April 1, 2015	SSN, KAM	SSN confirmed receipt of KAM's e-mails regarding the fish mitigation meeting (March 30, 2015) and will provide responses that week. On April 2, 2015 KAM confirmed receipt of SSN's email (April 1, 2015) looking forward to the SSN's response. On April 2, 2015 SSN sent a letter in response to KAM's letters regarding fish mitigation. SSN is requesting clarification on what the offsetting measures are intended to compensate. SSN would like a response to their letter dated March 16, 2015 which voiced a number of concerns regarding fish, water and aquatics. On April 20, 2015 KAM responded to SSN's letter from April 2, 2015 discussing offsetting measures and to obtain feedback from SSN. KAM's technical staff suggested a meeting with SSN to discuss possible offsetting measures for Jacko Lake and Peterson Creek.
Email	April 1, 2015	SSN, KAM	KAM emailed SSN a draft consultation and benefits agreement. On April 7, 2015 SSN responded to the draft agreement.
Email	April 2, 2015	SSN, KAM	Email exchange between KAM and SIB regarding sponsorship for the Deadmans Creek Rodeo. KAM told SIB all requests must go through the SSN; no additional requests received
Email / Phone Call	April 2, 2015	SSN, KAM	Emails and phone calls were exchanged about the upcoming field program. KAM informed SIB and TteS that the site safety programs have changed and that each member would have to redo a site orientation. KAM also notified SIB and TteS about the need for workers for an upcoming field program.
Email	April 2, 2015	SSN, KAM	KAM sent TteS 3 emails following the voicemail left earlier in the day regarding workers for the upcoming field program. KAM sent TteS the contracts for authorization for the workers and reminded that workers must update their site orientation before work can begin due to a change in KAM's safety program.
Letter	April 2, 2015	SSN, KAM	SSN requested the boundary shapefiles metadata for the updated GA SSN also requested: (a) KAM's mineral tenures; (b) any updated GA information; (c) an updated footprint; (d) all recorded archaeological sites; and (e) diagonal drill hole data. KAM provided SSN with all the information requested in a letter on April 23, 2015
Email	April 7, 2015	SSN, KAM	KAM provided SIB with new coordinates for a drill site. The site had to change locations due to bad ground.
Email	April 7, 2015	SSN, KAM	KAM provided SIB with road files, coordinates and a map of the next drill program that is being built.

Event Type	Date	Participating Organizations	Summary
Email	April 8, 2015	SSN, KAM	KAM informed SIB and TteS that there will be an additional field program in April and it will require an additional field assistant from each band. On April 9, 2015 TteS confirms that they will send a field assistant. On April 13 KAM sent an email to SIB and TteS updating the dates for the second field program in April. On April 14, 2015 SIB confirms that they will provide a field assistant for the program.
Email	April 8, 2015	SSN, KAM	Email exchange between KAM and SSN regarding the number of copies of the AIA Report SSN wanted and who from the SSN would be picking them up. The SSN picked up 5 thumb drives each with copies of the AIA report the same day.
Email	April 8, 2015	SSN, KAM	KAM was unable to send a copy of the meeting minutes for the fish habitat offsetting meeting to SSN due to the file size. SSN picked up copies at KAM's office.
Email	April 8, 2015	SSN, KAM	KAM provided SSN and the Chiefs with meeting minutes from previous managers meetings (Feb. 18, 2015, March 11, 2015) and the agenda for the upcoming meeting. SSN requested the meeting be postponed until the Chiefs are able to meet with the Chief Executive Officer of KGHM Ajax Mining Inc. again. KAM reinforced the importance of continuing communication between SSN and KAM, however the Chiefs noted they would have to "pause" communication with KAM for the time being.
Phone Call / Email	April 8, 2015	SSN, KAM	KAM and SSN had a phone conversation regarding the Engineering Procurement Construction and TSF Request For Proposal Pre-Qualification [further details not available]. SSN sent KAM an email stating that they are in support of the Allnorth/Sedgman partnership in relation to the EPC and TSF pre-qualification. SSN also stated that if any other respondent suggest they have the support of the Aboriginal Communities involved, it is not true.
Email	April 9, 2015	SSN, KAM	Email exchange regarding temporary camp facilities between KAM and TteS. d. TteS gave KAM the details of the possibility of leasing Sagebrush Downs for the purpose of a temporary camp accommodations. TteS requested that KAM send one of their geotechnical engineers to the grounds for a tour and to see if there are any geotechnical constraints. On April 10, 2015 TteS emailed KAM informing them that the lands of interest at Sagebrush Downs are situated within the MPC lands and the Head lease is held by the Kamloops Indian Band Development Corporation (KIBDC). TteS also sent KAM the application for a sublease of the Sagebrush Downs site to complete and return to the SSN office for approval. On April 14, 2015 KAM asked TteS questions about the potential temporary housing site (Sagebrush Downs): (a) lease application timeline; (b) utility hookups; (c) geotechnical information; (d) additional ground details; (e) buildings on the site. KAM is interested in a 5-year lease.

Event Type	Date	Participating Organizations	Summary
			On April 21, 2015 TteS responded to KAM's questions regarding the potential site. The typical application timeline for the lease is 90 days, TteS also provided KAM with a list of all the outbuildings on the property and their usability. On April 22, 2015 TteS provided KAM with a site plan detailing water and sewer. TteS also provided a geotechnical report and informed KAM that there is power throughout the entire site and all buildings.
Email	April 9, 2015	SSN, KAM	SSN requested information about who supplies KAM with all the cleaning supplies, mats, etc. in the office. On April 10, 2015 KAM sent SSN an email providing them with the company who supplies the KAM office. On April 11, 2015 SSN asked when the contact is up for renewal.
Email / Letter	April 10, 2015	SSN, KAM, BCEAO, CEAA	KAM sent the SSN the updated First Nations Consultation Plan and requested comments by April 24, 2015. On April 23, 2015 SSN sent a letter to KAM stating that they are currently in discussions with BCEAO and CEAA regarding the AIR/EISG which reference the FN Consultation Plan, and after reviewing KAM's memo to BCEAO, SSN does not support the revisions to the AIR/EISG. SSN is rescheduling further discussions with BCEAO and will address the Consultation Plan at that time. On May 4, 2015 KAM and SSN exchanged emails about receiving comments from the SSN on the FN Consultation Plan. KAM requests comments by May 11, 2015, however SSN does not believe this will be enough time to review and comment. On May 20, 2015 KAM returned that draft consultation plan to SSN with the track changes. KAM stated that they believe the plan is a standalone document, separate from the AIR/EISG and requests any additional comments by May 27, 2015. On June 10, 2015 SSN sent a letter to BCEAO and CEAA stating that KAM has made a good effort to make the easier changes, however the harder issues have yet to be addressed. SSN provided BCEAO and CEAA with a list of SSN comments yet to be addressed. On June 24, 2015 KAM thanked SSN for their comments. KAM made some changes to the Plan to incorporate many of the comments. KAM also notified SSN that the final revision and comments tracking table were sent to BCEAO and CEAA on June 19, 2015.
Email	April 13, 2015	SSN, KAM	SSN asked for an update on the potential use of the Rayleigh RV site for development of a temporary camp during construction of the Project. TteS informed SSN that with the Additions to Reserve process taking until the fall that the uncertainty of RV site did not work for KAM. However, Sagebrush Downs was mentioned and became an option. TteS is waiting on further comments from KAM.
Email	April 13, 2015	SSN, KAM	SSN sent KAM a copy of certain sections of the draft Participation Agreement being negotiated between the parties.

Event Type	Date	Participating Organizations	Summary
Phone Call	April 15, 2015	SSN, KAM	KAM spoke to TteS about doing electro fishing and gillnet sampling and TteS is interested in doing the work. TteS thanked KAM for the phone call on this opportunity.
Email	April 16, 2015	SSN, KAM	SSN wants to know if the work (geotechnical work to investigate the water intake and booster station locations) from the March 11, 2015 email has been completed; KAM says it has not yet officially been awarded, should have contract with Urban Systems within a day. SSN asks if there will be a drilling component and informs KAM that SSN now has a partnership with Geotech Drilling, Allnorth and Summit Electric. KAM asks for a meet and greet with Summit.
Email	April 16, 2015	SSN, KAM	SSN wants to know if KAM is starting or thinking about starting a drilling program on the New Afton property. KAM informs SSN that there are currently no plans to start a new drill program at the New Afton property.
Email	April 17, 2015	SSN, KAM	KAM asked SSN if they had the resources to do timber cruising work. On April 20, 2015 SSN noted that Brian Dill may be licensed for that work. On April 22, 2015 KAM informed SSN that they are going to use Jim McGrath from TteS for the work.
Email	April 20, 2015	SSN, KAM	SSN sent KAM a newspaper article that states that there will be a new drilling program at the Iron Mask Claim and asks what the location is and what is currently being done at site.
Meeting / Email	April 21, 2015	SSN, FLNRO, DFO, CEAA, MOE, BCEAO, KAM, KP, Keystone, IG	On April 21, 2015 KAM and its consultants met with the SSN and government agencies to discuss Jacko Lake, Peterson Creek, Fish Habitat and the Fisheries. SSN believes that impacts to fish on Jacko Lake are unmitigatable, they also consider Jacko Lake and Peterson Creek a cultural keystone place and are unable to move their Aboriginal practices and activities from that site. KAM requested meetings with the SSN to discuss these issues. DFO wants in writing: (a) confirmation that the Kinder Morgan Pipeline absolutely has to be removed; and (b) explanation why it must be removed. DFO states that old blasting guidelines are no longer endorsed but may be used as guidance. New blasting guidelines require to demonstrate avoidance of harm to fish. General concern from each group surrounding the effects of blasting on the fish. FLNRO concerned that blasting may cause breaks in the bedrock under Jacko Lake and could cause the lake to gradually drain; KAM explains that the blasts are designed to not cause fractures and KAM is planning on closely monitoring the lake as the blasting gets closer and working with MEM to develop adaptive measures. SSN asked if creating a natural habitat between Jacko Lake and Peterson Creek Diversion is an option, KAM explains that it is uphill and cannot be done. DFO doesn't consider the downstream pond at Peterson Creek to be an offsetting measure since it is required for the project. KAM asked to meet with SSN on offsetting measures, the AIR, VC's and Aboriginal Fisheries. A copy of the presentation was provided on April 22, 2015 by FLNRO

Event Type	Date	Participating Organizations	Summary
Email	April 22, 2015	SSN, KAM	KAM informed TteS that they will need some assistance for the fish and aquatics field program. KAM provided TteS with the details and requirements for this program. On April 27, 2015 KAM followed up with TteS to request a list of potential workers for the field program.
Letter	April 23, 2015	BCEAO, CEAA, SSN [cc KAM]	SSN sent BCEAO and CEAA a letter regarding their outstanding information requests and copied KAM on the letter. SSN requested: (a) most recent Project Design & General Arrangement; (b) metadata for all boundary shapefiles and mapping information provided to date; (c) draft baseline reports; (d) mapping data and information for the AIA; (e) summary of archaeological information relating to work completed by Rescan. SSN also requested the following outstanding information requests relating to Project Design & Planning: (a) Goose Lake- TSF design description (including location) and rationale; (b) Peterson Creek Diversion- project design description and rationale; (c) Water Use- project design & description in relation to water quantity and source and rationale; (d) Jacko Lake- request for studies relating to connection between Jacko Lake and the proposed pit. The following are the outstanding information requests in relation to water, fish and aquatics: (e) Goose Lake (i) detailed descriptions of viable alternatives to TSF design relating to Goose Lake; (ii) baseline information for Goose Lake. (f) Jacko Lake (i) requested copies of baseline studies & reports regarding Jacko Lake; (ii) Description of changes to baseline study methodologies based on change to project design; (iii) Description of the distribution of sample effort over the entire watershed; (iv) Information collected relative to the original/natural state of Jacko Lake (pre-1920); (v) Information regarding water source for proposed raising of Jacko Lake; (vi) Requested alternative project designs which will not result in the loss & impacts at Jacko Lake. (g) Peterson Creek (i) Requested information regarding the proposed diversion design and rationale; (ii) Requested detailed information regarding alternatives to a pipeline/penstock design in relation to the diversion; (iii) Baseline studies conducted on Peterson Creek; (iv) Information regarding the historical alterations and diversions conducted by Teck including maps and information on the historical (original/natural) creek channel. (h) Water (i) Copies of the water Use Plan and any existing water licenses; (ii) Hydrology and other water related baseline studies; (iii) Information relating to the current ownership of dam at Jacko Lake and water use management in relation to the dam; (iv) MOE water license at Jacko Lake and potential project related impacts; (v) Water quantity related project design and water source; (vi) Information on the proposed point of diversion at Kamloops Lake; (vii) Information relating to any foreshore mapping completed in area of proposed and existing water intake and ground water foreshore mapping in particular; (viii) Project design considerations relating to water intake mortality report conducted by New Gold/New Afton (ix) Cumulative Impacts information and assessments relating to Kamloops Lake.

Event Type	Date	Participating Organizations	Summary
			<p>On April 28, 2015 KAM sent SSN a letter in response to their outstanding information requests. KAM's letter stated that: (a) KAM's mineral tenures were provided to the SSN on February 6, 2014; (b) All updated GA information was provided on June 3, 2014 and again on February 24, 2015; (c) The updated footprint (including waste rock piles, TSF, roads, etc.) was included and outlined in the updated GA which has been provided on June 3, 2014 and again February 24, 2015; (d) KAM provided SSN with Terra Archaeology's final AIA report on February 25, 2015; (e) On February 17, 2014 KAM completed a presentation to the SSN technical team that included a project update, an overview of the upcoming MYAB application and an overview of the approved Jacko Lake – pit wall connectivity investigation; (f) Although KAM has provided all exploration activities (drill holes, forest removal, road development, test pits, etc.) since Fall 2012, KAM will coordinate the transfer of all data since 2002. On March 7, 2015 KAM provided SSN with a draft socio-economic baseline report. KAM hand delivered both paper and electronic copies of the AIA on February 25, 2015. KAM requested the following meetings in this letter: (a) to discuss socio-economic information for both SIB and TteS; (b) with technical group to present and discuss all project water, fish and aquatics programs; (c) further understand SSN's request to separate exploration activities for the GA and old footprint; and (d) present and discuss all archaeological findings on site to date.</p>
Site Visit	April 25, 2015	SSN, ERM	<p>SSN will email the additional information about the sites that were recorded during the course of the CHS to ERM. SSN also states that when the site was originally recorded a round of ammo and green paint was found at the hunting blind and was removed by a member of SSN.</p>
Email	April 28, 2015	SSN, KAM	<p>SSN requested a site orientation for their fishing crew. KAM provided SSN with the name and contact number of the site safety manager to schedule an orientation.</p>
Email	April 28, 2015	SSN, KAM	<p>A councillor from TteS asked who to contact regarding access to the Ajax property for fishing purposes. KAM provided the requested information and worked with the SSN to provide the necessary safety training and implement safety protocols allowing the SSN to participate in their traditional fishing in Peterson and Jacko Creek.</p>
Email	April 29, 2015	SSN, KAM	<p>KAM provided SIB and TteS with the dates and times for the upcoming field program in May; also reminds SIB and TteS that whoever hasn't updated their site orientation must do so before work begins. On April 30, 2015 KAM sent an email to TteS requesting the roster for the upcoming field program.</p>
Email	May 1, 2015	SSN, KAM	<p>KAM invited the SSN and chiefs from both bands to attend the upcoming golf tournament on June 18, 2015. SSN was unable to attend.</p>
Email	May 4, 2015	BCEAO, FLNRO, CEAA, MOE, SSN, KP, KAM	<p>KAM provided BCEAO, FLNRO, CEAA, MOE and SSN with the meeting minutes from the Fish Habitat Conditions and Potential offsetting Options held on February 5, 2015.</p>

Event Type	Date	Participating Organizations	Summary
Email	May 6, 2015	SSN, KAM	<p>In TteS's email they outline the process they had to go through to access Jacko Lake to monitor creek inflows and outflows. The councillor from TteS stated in the email that they felt a sense of discrimination towards the Aboriginal fishery and traditions due to the long process (site orientation, PPE, carry special safety equipment) they had to go through to partake in something that is part of their rights. On May 11, 2015 KAM replied to TteS's email addressing their concerns about the Aboriginal fishery at Jacko. KAM explained that any person who accesses any land that is on the mine site must, by law, obtain a site orientation and go through the same process that TteS did on the day mentioned above. KAM explains that safety is the number one priority. KAM told TteS that they have the same accessibility as any other person from the public to Jacko Lake through the public boat launch, as well as access to Jacko Creek and Peterson Creek which general public does not have access to. On May 14, 2015 the SSN noted they wish to access Jacko Lake through the mine site and was wondering what PPE, vehicle passes and safety orientation they would require for adults and children. On May 15, 2015 KAM told SSN that they will be calling the SSN to find a solution to the issue of mine site safety vs SSN's request to use the land in the traditional way.</p>
Email	May 7, 2015	SSN KAM	<p>KAM sent an email to SIB and TteS with the details for the upcoming field program and asked if each group had an archaeology assistant that could assist in this work.</p>
Email	May 8, 2015	SSN, KAM	<p>SSN sent an email to KAM asking if there is an upcoming drill program at the Ajax site via New Afton and what the details are. On May 11, 2015 KAM emailed SSN saying that the program is part of the 2015 drill program and was part of the bidding process that happened in January.</p>
Letter	May 8, 2015	SSN, KAM	<p>KAM sent SSN a letter in response to their comments on the revised AIR/EISG. KAM informed SSN that the metal mill was always a part of the plan, and is not a new addition. The use of water from Kamloops Lake has also always been a part of the plan, however modifications will be made to the existing infrastructure in regards to the existing pumps, piping and electrical systems. The SSN's concerns about the waste rock storage facility and shift of project area has been addressed in the AIR/EISG. KAM told SSN that since Kinder Morgan is the owner of the pipeline they are best suited to answer any questions regarding the details of the pipeline removal. The environmental regulators are currently engaged in ongoing dialogue regarding the identification of VC's. KAM believes that those conversations are the most appropriate venue for KAM to consider SSN's concerns regarding VC's. On May 12, 2015 KAM sent SSN the email that contained the letter mentioned above.</p>

Event Type	Date	Participating Organizations	Summary
Email	May 11, 2015	SSN, KAM	SSN asked KAM if they postponed their planned Application submission date of June 3, 2015. KAM estimated a submission in late summer.
Email	May 12, 2015	SSN, KAM	SSN requested the new site shapefiles from KAM for the new facility locations and proposed elements of the mine. KAM was unable to provide the shapefiles by email but sent the new GA for their use. KAM delivered the shapefiles in person.
Site Tour	May 13, 2015	SSN, Mining Watch, KAM	A short safety orientation was given to a member of the SSN and Mining Watch representatives prior to accessing Peterson Creek and Jacko Creek via the mine site. After the orientation the two met up with other members of the SSN. Once on the site, members of the SSN began traditional fishing. The SSN was able to traditionally harvest 4 trout from the creek.
Email	May 14, 2015	SSN, KAM	SSN sent KAM a flyer with information on their upcoming open house. On June 2, 2015 SSN sent a follow up email to KAM asking if they are able to attend the open house. On June 10, 2015 KAM sent in their RSVP form saying that they will be attending.
Email	May 15, 2015	SSN, KAM	KAM provided SSN with a draft Term Sheet for review. KAM asked SSN for their comments on these proposed terms. On May 22, 2015 SSN responded to KAM's email and stated that the Chief of TteS is on leave until June 1, 2015 and will provide feedback after that date. KAM made a request to reconvene the Chief to Chief meetings. On May 24, 2015 SSN notified KAM that no action will occur until after June 1, 2015 in regards to meetings.
Email	May 19, 2015	SSN, KAM	Email exchange between KAM and SSN on obtaining vehicle passes and safety orientation for SSN members to access the site below Jacko Lake. On May 20, 2015 SSN notified KAM of their arrival time for the vehicle inspection and site orientation.
Email	May 20, 2015	SSN, KAM	SSN requested information about which KAM representative is responsible for finances at KAM. No response was received
Email	May 25, 2015	SSN, KAM	KAM followed up with TteS regarding candidates to help with the upcoming fish and aquatics field program in June. On May 29, 2015 TteS asked for the details of the program (length, rate of pay, requirements). On June 1, 2015 KAM emailed TteS and provided them with all the details for the program.
Letter	May 25, 2015	SSN, KAM	KAM sent a letter to SSN requesting meetings regarding fish habitat offsetting and potential changes in the fishing experience.
Email	May 25, 2015	SSN, KAM	KAM sent SSN the name of a company interested in doing surveying work at site and asked if the company had the support of the SSN. SSN informed KAM that the company does not have the support of the SSN.

Event Type	Date	Participating Organizations	Summary
Email	May 27, 2015	SSN, KAM	SSN provided KAM with an up to date list of the companies in partnership with the SSN.
Email	May 28, 2015	SSN, ERM	SIB informed KAM's consultants (ERM) that SSN Archaeology field assistants found 7 flakes (surface and subsurface) at a proposed Drill Pad site, and are concerned that tests done were not adequate. SIB requested the GPS coordinates and other information of the PDH before further works continues. On May 30, 2015 ERM replied to SIB saying that the site was recorded on the way to the PDH and it was well outside any drill pad location. ERM provided SIB with the temporary site number and the UTM coordinate. On June 2, 2015 SIB thanked KAM's consultants for their prompt reply.
Letter	May 29, 2015	SSN, KAM	KAM sent a letter to SSN asking to present the preliminary results for the EA and the proposed mitigation measures and solicit technical feedback.
Letter	May 29, 2015	SSN, KAM	KAM requested a technical meeting with the SSN to discuss the TSF and the BCEAO guidelines following the Mount Polley incident.
Letter	May 29, 2015	SSN, KAM	SSN legal counsel requested a brief review of the drilling program shapefiles associated with the Identified Exploration and Development Work to determine if the amount of funding set forth by KAM will be sufficient for the work entailed for the major review.
Meeting	June 8, 2015	SSN, KAM	SSN met with KAM to review what was discussed at the SSN executive meeting. SSN invited KAM to attend the June 15, 2015 meeting with BCEAO to discuss the AIR.
Email	June 8, 2015	SSN, KAM	KAM asked for the agenda for the upcoming meeting with BCEAO and SSN. On June 9, 2015 SSN informed KAM that the meeting would focus on the draft AIR/EISG and the proposed SSN revisions and outstanding comments and recommendations.
Meeting	June 8, 2015	SSN, MOE, IHA, Domtar, CoK, FNHA, Lafarge, Fraser Basin Council, KAM	KAM met with members of different government and community organizations to discuss the option to start up a multi-stakeholder group to address air-quality issues in the Kamloops Area.
Letter / Email	June 9, 2015	SSN, KAM	In SSN's letter to KAM they discuss their issues surrounding the Ajax Project in relation to fish, water, aquatics and the Aboriginal fishery. SSN informed KAM that BCEAO reassessed their Strength of Claim to a strong prima facie claim on both Aboriginal Rights and Title. SSN has continuously communicated their concerns about Jacko Lake and their belief that it is a cultural keystone. Any impacts on Jacko Lake are considered unmitigatable. The SSN believe the diversion of Peterson Creek will lead to a serious permanent impact to the Aboriginal fishery. SSN wants to know any alternatives to a diversion at Peterson Creek. On June 10, 2015 SSN sent an email to KAM containing the above letter.

Event Type	Date	Participating Organizations	Summary
Meeting / Email	June 15, 2015	SSN, BCEAO, CEAA, KAM	Meeting between SSN, SIB, TteS, BCEAO, CEAA and KAM to discuss SSN's comments and concerns on the AIR/EISG . On June 23, 2015 SSN emailed KAM and asked when they would have their response to the AIR comment table and the information from the March 2015 fish and aquatics letter. KAM said that both would be sent to SSN by the end of the week.
Email	June 17, 2015	SSN, KAM	In SSN's email to KAM they recapped what was discussed in an earlier phone conversation regarding the Kinder Morgan Pipeline relocation and the berm to be built around the pit and below Jacko Lake.
Press Release	June 17, 2015	SSN, KAM	SSN provided KAM with a copy of their press release for their Declaration of Aboriginal Title over Jacko Lake.
Email	June 18, 2015	SSN, KAM	SSN invited members of KAM to attend the Declaration of Aboriginal Title at Jacko Lake on June 21, 2015. On June 20, 2015 KAM declined the invitation to attend.
Email	June 22, 2015	SSN, KAM	KAM sent an email to TteS providing the hours that each field worker worked during the May field program and asked that the invoice be adjusted accordingly.
Letter	June 24, 2015	SSN, KAM	In SSN's letter they raise concerns regarding who had the authority to consult with KAM on potential contracts. SSN informs KAM that they are not to engage with SSN representatives outside of the stated process in the signed CFA. On July 2, 2015 KAM responded saying that they understand who could and could not represent SSN. KAM asked to resume meetings with the SSN. On July 2, 2015 KAM and SSN agreed on a date to resume meetings between the groups.
Letter	June 24, 2015	SSN, KAM	KAM responded to SSN's comments on fish, water, aquatics and project design issues in the specific comment response table which responds to each comment. On June 25, 2015 SSN requested a copy of the comment table in a larger font. KAM provided SSN with the enlarged comment table.
Email	June 30, 2015	SSN, KAM	KAM asked TteS if they had someone with boat work / gill netting experience to help with the fish and aquatics field program in August 2015.
Email	July 2, 2015	SSN, KAM	SSN requested a list of the Part C and other related First Nation sections of the Application that KAM hoped to have SSN review. On July 3, 2015 KAM sent SSN a table of documents and a high level TOC to provide context. KAM offered to facilitate each review and answer questions if need be. On July 6, 2015 SSN asks to know when they can expect to review all of the other sections of the Application. On July 7, 2015 KAM informed SSN that they will have full access to the other sections during the Application review phase, the timing of which is dependent on BCEAO and CEAA's process. On July 15, 2015 KAM provided the data that was requested above.

Event Type	Date	Participating Organizations	Summary
Email	July 3, 2015	SSN, KAM	KAM provided SSN with the updated AIR/EISG that was sent to BCEAO and CEAA on July 2, 2015.
Email	July 6, 2015	SSN, KAM	KAM provided SSN with the login information to access the Archaeological and Heritage Baseline Reports online for their review. Prior to providing the online information KAM tried to email the documents to SSN, however the documents were too large to send via email. On July 7, 2015 SSN thanked KAM for the information provided.
Letter	July 7, 2015	SSN, KAM	SSN provided KAM with the new desired budget for the second phase of the CHS. SSN informed KAM that the service was put out to tender and SSN has provided KAM with the most reasonable budget. On July 8, 2015 SSN sent KAM a revised budget to include completion dates. On July 16, 2015 KAM thanked SSN for the budget and completion dates and asked to make this an agenda item for their next meeting. On July 18, 2015 SSN informed KAM that a portion of the budget was missing in the version sent to KAM, so it would have to be revised and resubmitted to KAM. KAM asked to set a meeting with the SSN once the budget is complete. On July 21, 2015 SSN provided KAM with the amended budget. KAM asked to put this on the agenda for their July 31, 2015 meeting.
Email	July 7, 2015	SSN, KAM	KAM provided access to the Wildlife and Vegetation and Water Quality Baseline Reports for SSN review.
Meeting	July 7, 2015	SSN, LNIB, KAM, ERM, Knight Piesold, Lorax, Stantec, BGC, MEM, BC EAO, CEAA, Interior Health, FLNRO, Environment Canada, MoTI, City of Kamloops, TNRD, JTST, NRCAN, MMPO, MOE	<p>Working Group Meeting. The first of three working group meetings was held with approximately 50 attendees in person or over the phone. Topics included an overview of the application, project description, project alternatives, geochemistry, water quantity and quality as well as fish and aquatics.</p> <p>Comments and concerns raised by SSN included the following:</p> <ul style="list-style-type: none"> - Water Use: concern regarding the use of freshwater and importance of wastewater reuse; - Kamloops Lake: concern that the focus on this lake is on habitat loss and not on water quantity; - Jacko Lake: concern regarding groundwater quantity; - Jacko Lake: do not support the current design that removes the Aboriginal spring trout fishery at the outflow of Jacko Lake. SSN wants a voice in ensuring the mine does not encroach on Jacko Lake because it is sacred to SSN. SSN identified that there are impacts that cannot be mitigated and would like alternatives that does not impact the northeast arm of Jacko Lake; - Peterson Creek: consider alternatives that would not remove the creek;

Event Type	Date	Participating Organizations	Summary
			<ul style="list-style-type: none"> - Hunting blind complex: concern regarding the loss of a food source alternatives as a result of the destruction of the complex; - Aboriginal fisheries; the destruction of Jacko Lake and 8 hectares of spawning habitat is a significant impact to sustainable fisheries and culture. Discussion of sustainable business for SSN might be considered as mitigation to loss of cultural use. Another mitigation to consider could be an aquaculture facility. Would help with sustainable business development and would also help offset the cultural impact to Jacko Lake; - Safety: concerns regarding dam failure and preference for a dry stack.
Meeting	July 8, 2015	SSN, LNIB, KAM, ERM, Knight Piesold, BGC, BC EAO, MEM, FLNRO, MMPO, CEAA, NRCAN, City of Kamloops, MOE, Environment Canada	<p>Working Group Meeting. The second of three working group meetings was held with approximately 50 attendees in person or over the phone. Topics included noise and vibration, air quality, human health and ecological risk assessment, social VCs as well as accidents and malfunctions.</p> <p>Comments and concerns raised by SSN included the following:</p> <ul style="list-style-type: none"> - Jacko Lake title claim: resulting in community confrontations directed at certain groups.
Meeting	July 8, 2015	SSN, LNIB, KAM, Stantec, Intergroup, BC EAO, MOE, Interior Health, Health Canada, MMPO, FLNRO, City of Kamloops	<p>As sub-working group meeting regarding health was held with approximately 20 attendees.</p>
Meeting	July 8, 2015	SSN, LNIB, KAM, Stantec, Intergroup, BC EAO, City of Kamloops, Interior Health, TNRD, MOE	<p>As sub-working group meeting regarding social aspects was held with approximately 20 attendees.</p> <p>Comments and concerns raised by SSN included the following:</p> <ul style="list-style-type: none"> - Potential effects as a result of population increases that could reduce accessibility to health care, and other community services (some of which already have capacity issues); - Effects on human health from noise and vibration (in particular, blasting).
Meeting	July 8, 2015	SSN, LNIB, KAM, ERM, Knight Piesold, Lorax, BGC, MEM, BC EAO, TNRD, Environment Canada, NRCAN, FLNRO, CEAA	<p>As sub-working group meeting regarding water was held with approximately 30 attendees.</p> <p>Comments and concerns raised by SSN included the following:</p> <ul style="list-style-type: none"> - Trout fishery: concern that no alternatives appear to maintain/protect/rehabilitate the fishery.

Event Type	Date	Participating Organizations	Summary
Meeting	July 8, 2015	SSN, LNIB, KAM, ERM, Knight Piesold, BGC, BC EAO, CEAA, MEM, MMPO, FLNRO, Environment Canada, NRCAN, City of Kamloops, MOE	As sub-working group meeting regarding fish and aquatics was held with approximately 30 attendees.
Meeting	July 9, 2015	SSN, LNIB, KAM, ERM, Amec Foster Wheeler, Keystone, MEM, BC EAO, CEAA, City of Kamloops, FLNRO, Environment Canada, MOE, Interior Health, TNRD, Health Canada, NRCAN, Canadian Wildlife Services	<p>Working Group Meeting. The last of three working group meetings was held with about 50 attendees in person or over the phone. Topics included terrestrial wildlife, soils and reclamation, archaeology as well as Part C (Aboriginal Groups Information Setting and Background; Procedural Aspects of Consultation; Aboriginal Interests (Rights and Title)).</p> <p>Comments and concerns raised by SSN included the following:</p> <ul style="list-style-type: none"> - Traditional plants and medicinal plants: concern about cumulative effects since some of these plants cannot be collected elsewhere and other plants collected here are being impacted elsewhere by other projects; - Biodiversity: concern that riparian is being considered only from the context of fish; - Restoration: suggests working with First Nations when restoring grasslands and consider using traditional species; - Bioaccumulation: concern that raptors have a varied diet that may not be accounted for; - Porcupine: identified as an important species traditionally and are considered to be declining in the area; - Limited First Nation content: concern that First Nations interests are not being included and that involvement is occurring late in the process; - Hunting Blind Complex: it is a complex and not a single feature that incorporates the topography of the land to funnel animals. Ceremonies are practiced in the complex and would no longer be able to occur; - Traditional stories: Concerned with the absence of the black capped chickadee, the red headed woodpecker and the owl in the indicator species as they are part of the SSN story of the Trout-Children; - Cumulative impacts: SSN has notified the province that they expect a full CEA for cumulative impacts from the top of the watershed to the ocean; impacts need to be identified for all First Nations and resources; - Part C: does not reflect SSN's title to land and right to protect the land for future generations, which is an impoverished view of human rights (right to access, economy and human health);

Event Type	Date	Participating Organizations	Summary
			- SSN assessment process: existing assessment process is not satisfactory. SSN's proposed assessment process uses SSN laws and governance and goes beyond dietary contributions to health.
Email	July 13, 2015	FLNRO, DFO, SSN, KP, KAM	KAM proposed various dates for a follow up meeting on fish habitat offsetting.
Email	July 13, 2015	SSN, KAM	KAM provided SSN with the First Nation Consultation Report for their review and noted that pages 8-44 represent section 15 of the EA Application. On July 16, 2015 KAM requested any comments on the Report by August 12, 2015.
Email	July 14, 2015	SSN, KAM	KAM provided SSN with access the Fish and Aquatics Baseline Report for review.
Email	July 14, 2015	SSN, KAM	SSN provided KAM with reference material to help in revising section 12 of the EA. SSN found the section to be lacking important information. On July 16, 2015 KAM thanked SSN for the additional information and informed them that section 12 has heavily relied on the CHS reports provided by SSN.
Email	July 16, 2015	BCEAO, MARR, CEAA, MEM, SSN, KAM	SSN, via email, provided each participating group with the draft agenda for the upcoming Project Assessment meeting. On July 17, 2015 SSN provided KAM with a copy of the PowerPoint Presentation for the Project Assessment Process.
Email	July 21, 2015	SSN, KAM	KAM provided SSN with a copy of the Chance Find Procedures. This document does not need to be reviewed by SSN.
Email	July 21, 2015	SSN, KAM	SSN and KAM set their next Negotiation meeting for July 31, 2015.
Email	July 21, 2015	SSN, KAM	KAM provided SSN with section 8.5 CULRTP draft for their review. KAM requested comments back by August 20, 2015. KAM also provided SSN with the login information to access section 8.5 online. On July 22, 2015 SSN noted they are out of the office until the following week and will respond then.
Email	July 24, 2015	SSN, KAM	KAM requested a meeting with SSN to discuss the framework and information gathering for the Aboriginal Economies and Governance VC's post submission. KAM provided 3 dates and times for the SSN to choose from.
Email	July 24, 2015	SSN, KAM	KAM provided section 14 - Other Potential Effects on Aboriginal Interests to review. KAM requested all comments by August 23, 2015.
Email	July 24, 2015	SSN, KAM	KAM informed SIB that there will be another test pit / drill program starting in 2-3 weeks.

Event Type	Date	Participating Organizations	Summary
Email	July 24, 2015	SSN, KAM	KAM offered to hold presentations on the various Application sections sent to SSN to facilitate their review process. On July 27, 2015 SSN agreed to hold these meetings to discuss the sections provided to them. SSN noted the 30 day comment deadlines are not in the best interests and will discuss further at the initial meeting. On July 29, 2015 KAM suggested various times and dates for the meeting.
Email	July 28, 2015	SSN, New Gold, KAM	SSN requested assistance from New Gold and KAM to help interview potential candidates for the open career coach position within the SSN. On July 29, 2015 SSN asked to push the interviews ahead a few days. On July 30, 2015 SSN provided the name and interview times for each candidate.
Letter	July 28, 2015	SSN, KAM	SSN provided KAM with a letter to confirm the partnership between the SSN and Allnorth Consultants.
Email	July 29, 2015	SSN, KAM	SSN inquires why KAM gave a company their contact information, KAM says because they could possibly do work for SSN. SSN informs KAM that they already have a partner doing the work they provide. KAM asked for an updated partner list.
Letter	July 30, 2015	SSN, KAM	In SSN's letter they request that KAM stop sending the Application sections for 30 day reviews until they can develop a mutually agreeable process and schedule. SSN noted a lack of capacity funding to support reviews. SSN believes that the current consultation process is insufficient. SSN objected to the current FN Consultation Plan due to not being advised of the revisions made before it was sent to BCEAO. SSN noted that the agreement to resume negotiations and technical/management level meetings is dependent on KAM's commitment to the Project Assessment Process.
Email	July 30, 2015	SSN, KAM	KAM provided SSN with a copy of its Draft Section 13 of the EA Application- Aboriginal Interests (rights and title) requesting comments by August 28, 2015.
Email	July 31, 2015	SSN, KAM	SSN notified KAM they heard that Gisborne is currently pricing work at site, however Gisborne does not have a partnership with SSN. KAM informed SSN that there is currently an RFP out on an Engineering Procurement Construction basis, and it is not for work currently happening at site.
Email	July 31, 2015	SSN, KAM	KAM provided SSN with the Peterson Creek Geotechnical Program Management Plan. KAM asked to discuss and review the program. SIB asked when a site visit could be scheduled. KAM told SSN that they would like to start an archaeological assessment on August 12, 2015.

Table 4: Ajax Project – Engagement with Whispering Pines/Clinton Indian Band to July 31, 2015

Event Type	Date	Participating Organizations	Summary
E-mail	July 10, 2013	WP/CIB, KAM	WP/CIB requested a meeting to discuss the Project. KAM is not available on the requested date, and will follow up to confirm a suitable date.
E-mail	September 6, 2013	WP/CIB, KAM	KAM invited WP/CIB to the community information sessions on September 9-12, 2013. Topics to be discussed include ground vibration and air-blast controls, noise and vibration models, water quality models, air quality models, and human health and ecological risk assessment.
Letter	May 12, 2014	WP/CIB, KAM	WP/CIB is opposed to the Project and raised a number of concerns, noting that capacity issues had prevented involvement in the EA process to date. Issues: (a) no attempts to consult with the Band since the Project was announced in 2011; (b) air quality effects; (c) acid rock drainage and other water contamination; (d) soils contamination from fugitive dust emissions; (e) contamination of country foods; (f) over use of local ground and surface water resources; (g) effects of noise associated with heavy equipment and mining activities; (h) reduction in area available for traditional land use (cumulative effects); (i) reclamation of lands; (j) potential effects on the Kinder Morgan pipeline that crosses their reserve.
Phone Call	June 26, 2014	WP/CIB, KAM	KAM left messages on June 26 and 27, requesting an introductory meeting with the Chief & Council. Meeting set for July 8, 2014 at the WP/CIB office.
Meeting	July 8, 2014	WP/CIB, KAM	Meeting with Chief & Council. KAM introduced the Ajax Project. Topics of discussion included: Discussed topics for consultation, including potential effects, mitigation, and collection of baseline socio-economic information.
Letter	July 9, 2014	WP/CIB, KAM	Further to their meeting on July 8, 2014, KAM provided an engagement proposal for WP/CIB to review. KAM will compensate WP/CIB for discussions relating to potential project effects and mitigation, as well as collection of socio-economic information required for the EA.
E-mail	July 28, 2014	WP/CIB, KAM	KAM provided the updated GA shape files for review and noted that there will be design changes as the Project moves along.
E-mail	October 16, 2014	WP/CIB, KAM	KAM requested a meeting to discuss the Project and next steps; meeting arranged for November 19, 2014 (October 20, 22, November 6, 17, 2014).
E-mail	November 6, 2014	WP/CIB, KAM	KAM asked if WP/CIB had specific items they would like to discuss.

Event Type	Date	Participating Organizations	Summary
Meeting	November 19, 2014	Alwarid and Associates (WP/CIB), WP/CIB, KAM	<p>Meeting with WP/CIB Chief and legal counsel. KAM provided an overview of the Project. Discussed the level of consultation required. WP/CIB would like to review the impact assessment, health and socio-economic studies.</p> <p>Discussed a Capacity Funding/Impact Benefits Agreement; WP/CIB will provide a draft agreement by December 5, 2014. WP/CIB provided a proposal outlining their requirements for consultation on November 27, 2014, and KAM followed up with a draft Capacity Funding and Project Benefits Agreement for WP/CIB to review (December 4, 2014).</p> <p>WP/CIB will provide KAM with a copy of their bylaws.</p>
Letter	December 17, 2014	WP/CIB, KAM	<p>WP/CIB provided comments on the draft Capacity Funding and Project Benefits Agreement provided by KAM on December 4, 2014. Noted that the agreement does not capture the discussion from WP/CIB's November 27, 2014 e-mail, and that they wish to have separate capacity funding and benefits agreements. WP/CIB declined the agreement provided, and stand by their original proposal.</p> <p>WP/CIB wishes to conduct an independent TLU study. Discussed further on January 30, 2015. Issues: (a) effects on Aboriginal rights and title; (b) effects on health.</p>
Letter	December 19, 2014	WP/CIB, KAM	<p>KAM responded to WP/CIB's December 17, 2014 letter regarding capacity funding. In response to WP/CIB's concern, KAM provided a revised draft agreement that covered only capacity funding. Also provided information on timing for submission of the Application as well as receipt of information from WP/CIB. KAM followed up with requests for feedback on the draft agreement on January 6 and 28, 2015. The Chief responded that they did not accept the agreement as written, and asked that KAM discuss the agreement with their legal counsel (January 28, 2015).</p>
Phone Call, E-mail	January 30, 2015	Alwarid and Associates (WP/CIB), KAM	<p>KAM and WP/CIB's legal counsel discussed the draft Capacity Funding Agreement by phone. In follow-up by e-mail, the legal counsel noted the portions of the agreement WP/CIB accepts as well as suggested wording changes. Noted that the need for a TLU study is not included in the agreement, and asked that a terms of reference for the study be attached to the agreement. Also asked that the map submitted to the BC EAO replace the map provided in Appendix E.</p> <p>WP/CIB's legal counsel followed up with a request for a response on February 4, 2015.</p>

Event Type	Date	Participating Organizations	Summary
E-mail	February 4, 2015	Alwarid and Associates (WP/CIB), KAM	WP/CIB's legal counsel requested a meeting between the Chief & Council and KAM on February 17, 2015. Meeting between KAM and Chief & Council set for February 17, 2015, but postponed as KAM is unavailable (February 10, 2015). KAM will provide the draft Capacity Funding Agreement by February 11, 2015 so WP/CIB can review in advance of the meeting (February 6, 2015). WP/CIB requested the revised agreement on February 10, 2015. Revised draft Capacity Funding Agreement provided by KAM on March 2, 2015.
Letter	March 2, 2015	WP/CIB, KAM	KAM provided a revised draft Capacity Funding Agreement for review, noting specific comments about the TLU study, funding payments and the appendix map. KAM requested a meeting to review the revised agreement and consider all options that meet the needs of WP/CIB and KAM.
E-mail	March 7, 2015	WP/CIB, KAM	KAM provided the preliminary socio-economic and background baseline information reports for review. Asked for a meeting to discuss the reports, and to discuss any additional community-specific information WP/CIB can provide. WP/CIB's legal counsel asked why KAM didn't contract with WP/CIB (instead of InterGroup) to prepare the socio-economic baseline report (March 10, 2015). KAM responded that it is important to have a third-party consultant prepare the reports so they are unbiased. Noted that the preliminary report is a reference point to engage WP/CIB and collect further information (March 11, 2015).
E-mail	March 10, 2015	Alwarid and Associates (WP/CIB), KAM	WP/CIB requested a response from KAM on the draft Capacity Funding Agreement. KAM provided a revised draft Capacity Funding Agreement for review (March 11, 2015).
E-mail	March 12, 2015	Alwarid and Associates (WP/CIB), KAM	WP/CIB's legal counsel requested a meeting with the Chief and KAM to discuss the draft Capacity Funding Agreement. KAM suggested March 24, 2015; meeting confirmed (March 17, 2015). KAM asked that the meeting be rescheduled (March 23, 2015); decided the meeting would go ahead as planned.
E-mail	March 18, 2015	Alwarid and Associates (WP/CIB), KAM	Discussed the draft Capacity Funding Agreement by phone. WP/CIB's legal counsel followed up with an e-mail on outstanding matters to be discussed at the March 24, 2014 meeting, including: (a) TLU study funding; (b) map of project area (different than submitted to the BC EAO); (c) language for negotiable items; (d) term for Liaison Officer.
Meeting	March 24, 2015	Alwarid and Associates (WP/CIB), WP/CIB, KAM	KAM met with the Chief and legal counsel to discuss the draft Capacity Funding Agreement.

Event Type	Date	Participating Organizations	Summary
E-mail	March 26, 2015	Alwarid and Associates (WP/CIB), KAM	WP/CIB has tentatively scheduled May 26-28, 2015 for a community meeting, contingent on execution of the Capacity Funding Agreement. Requested confirmation that these dates work for KAM. WP/CIB's legal counsel requested the revised draft Capacity Funding Agreement and template IBA.
Email / Phone Call	April 9, 2015	WP/CIB, KAM	KAM sent an email to WP/CIB's legal counsel regarding the CFA. KAM is waiting to hear back from WP/CIB on some missing information and then will send the revised CFA for review and signing. On April 15, 2015 KAM provided WPIB with the CFA. On April 17, 2015 there was a phone call between KAM and WP/CIB's legal counsel regarding the CFA. On April 20, 2015 KAM sent WP/CIB's legal counsel inquiring on the status of the CFA. On April 27, 2015 KAM and WP/CIB legal counsel exchanged emails about the CFA and KAM committed to providing payment as soon as the CFA is signed.
Email	May 6, 2015	WP/CIB, KAM	WP/CIB provided KAM with their comments on draft Capacity Funding Agreement. On May 10, 2015 KAM legal counsel returned the draft CFA to WPIB with the appropriate changes requested by WPIB legal counsel. On May 10, 2015 WPIB informed KAM that the June 30, 2015 deadline for the TUS work will not work as they have not received funding to do the work. On May 11, 2015 KAM emailed WPIB and told them that they changed the deadline to July 30, 2015 as per their previous email. On May 15, 2015 KAM sent out the final, signed CFA.
Email	May 22, 2015	WP/CIB, KAM, BCEAO, CEAA, FLNRO	WP/CIB notified KAM that the Chief will be sending out the letters of notice asap regarding the completion of negotiations of the CFA. On May 25, 2015 KAM emailed WP/CIB asking if there is any updates on the letters and asked to set up dates for community meetings. On May 28, 2015 WPIB sent a letter to BCEAO, CEAA, FLNRO informing them that WP/CIB and KAM entered into an agreed upon CFA. KAM emailed WP/CIB thanking everyone for their effort put into completing the CFA.
Email	June 3, 2015	WP/CIB, KAM	WP/CIB informed KAM of the details and changes to their upcoming meeting in July.
Email	July 13, 2015	WP/CIB, KAM	Email exchange between KAM and WP/CIB on the location and time of the upcoming community meeting. On July 15, 2015 one member of KAM's team informed WPIB that they will be running a few minutes late to the community meeting, however all other members attending will be there on time.

Event Type	Date	Participating Organizations	Summary
Community Meeting	July 15, 2015	WP/CIB, KAM	24 WP/CIB members and KAM participated in a WP/CIB community meeting. KAM provided a presentation on the Ajax Mine History, the updated GA, Project reconfiguration, Project fact comparison, Environmental studies, surface groundwater studies, Dust control during operations/processing and Economic/Employment opportunities. In this meeting WP/CIB members were able to ask KAM any questions they had. Most of the questions focused on job creation, water use from Kamloops Lake, water quality and acid rock drainage, effects on wildlife and human life.
Email	July 20, 2015	WP/CIB, KAM	WP/CIB and KAM confirmed the date for the second of three community meetings. WP/CIB requested a copy of the presentation, KAM provided the PowerPoint.
Email	July 24, 2015	WP/CIB, KAM	WP/CIB informed KAM that the consultant that they are using to complete the traditional use information is unable to complete the work at this time due to medical issues, WP/CIB is hoping KAM can accommodate these issues and extend the deadline.
Email	August 5, 2015	WP/CIB, KAM	KAM provided WPIB with Part C of the Application for their review and requested comments by September 3, 2015.

Table 5: Ajax Project – Engagement with Métis Nation of British Columbia to July 31, 2015

Event Type	Date	Participating Organizations	Summary
Letter	January 19, 2012	MNBC, KAM	KAM provided information on the Ajax Project. Noted that MNBC has requested of the CEA Agency and BC EAO that they be consulted on the Project, and asked that MNBC contact Arbutus Consulting (KAM's Aboriginal liaison) if they wish to discuss the Project with KAM.
Phone Call	June 27, 2014	MNBC, Amec Foster Wheeler	<p>Amec Foster Wheeler provided information on the Project and the updated General Arrangement. After their call, Amec Foster Wheeler provided a link to KAM's website. MNBC suggested a meeting to discuss the information KAM may want from MNBC (such as Metis interests in the project area and potential effects on Metis interests). Amec Foster Wheeler will follow up with MNBC around July 9, 2014 to discuss any questions and a potential meeting.</p> <p>On July 22, 2014, Amec Foster Wheeler proposed a meeting in the next few weeks to discuss questions about the Project, as well as Metis current use of lands and resources for traditional purposes, MNBC perspectives on how the Project will affect this use, and the role of the Two Rivers Metis office. MNBC agreed to meet, dates were discussed, and a meeting was set for August 22, 2014.</p>
E-mail	August 21, 2014	MNBC, Amec Foster Wheeler	Amec Foster Wheeler provided agenda items for the August 22, 2014 meeting.
Meeting	August 22, 2014	MNBC, Amec Foster Wheeler	<p>Meeting at the MNBC office. Amec Foster Wheeler provided information about the Project. MNBC provided information on their organization, and lack of recognition for Metis rights. Topics of discussion included: importance of jobs and economic opportunities, current use information for the EA and timeline for collecting this information, socio-economic baseline information, economic opportunities, and training initiatives.</p> <p>MNBC will check with the Kamloops Metis on potential meeting dates in October or November. On November 6, 2014, a community meeting with the Kamloops Metis Community was set for November 17, 2014.</p> <p>MNBC requested capacity funding to provide current use information to KAM; Amec Foster Wheeler will discuss with KAM. Discussed further at the meeting on October 2, 2014.</p>

Event Type	Date	Participating Organizations	Summary
E-mail	September 5, 2014	MNBC, Amec Foster Wheeler	Amec Foster Wheeler provided details on the type of land use and socio-economic information relevant to the EA, noting that some funding is available for providing this information. Amec Foster Wheeler asked if MNBC could discuss socio-economic information with KAM's consultant; MNBC is available to discuss on September 22 or 23, 2014. MNBC asked for further information about the Project (September 9, 2014). Amec Foster Wheeler provided a link to the project website for MNBC to get information on the Project. Will try to set up a meeting for September 22, 2014 to discuss socio-economic information (September 10, 2014).
E-mail	September 9, 2014	MNBC, Amec Foster Wheeler	Amec Foster Wheeler asked if MNBC's harvester database includes information related to the project area; MNBC will advise when this information is available.
E-mail	September 22, 2014	MNBC, Amec Foster Wheeler	Amec Foster Wheeler would like to discuss the protocols for collecting socio-economic information from MNBC in advance of collecting that information. MNBC's protocol includes an initial meeting between KAM and the MNBC CEO and President to discuss a Protocol Agreement. MNBC is available to discuss by phone on September 24, 2014. Meeting rescheduled to October 2, 2014 (September 25, 2014).
Meeting	October 2, 2014	MNBC, Amec Foster Wheeler	Amec Foster Wheeler provided information about the Project. MNBC provided an overview of their organization and Crown consultation they engage in. Topics of discussion included: Metis communities to be engaged (Ashcroft, Kamloops, Merritt), signing an Industry Protocol, collection of information for the EA, mitigation options, scope of work and capacity funding, and socio-economic information. Current land use information - KAM should contact the Captains in the Metis communities for current information, and information on land use in previous years is available from the harvester database. Capacity funding - MNBC would like to see the data collected for all three communities, not just the Kamloops community (Two Rivers Society). Amec Foster Wheeler will revise the scope of work and provide a Master Services Subcontracting Agreement within a week. In follow-up, Amec Foster Wheeler provided the draft funding proposal for MNBC to review (October 14, 2014). Socio-economic information - will be shared once the Industry Protocol is in place. MNBC has lots of information on Metis skills, training, and businesses, and they are connected with BCAMTA. Discussed further on November 18, 2014.
E-mail	October 2, 2014	MNBC, Amec Foster Wheeler	MNBC noted there are harvester card holders and the types of wildlife and plants harvested. Will discuss next steps at the meeting that afternoon.

Event Type	Date	Participating Organizations	Summary
E-mail	October 14, 2014	MNBC, Amec Foster Wheeler	Amec Foster Wheeler provided the draft funding proposal for MNBC to review, along with a Master Services Subcontracting Agreement and Task Order. Requested feedback on the proposal on October 22, 28, and 31, 2014. Comments provided on October 31, 2014. Requested that MNBC provide the Industry Protocol discussed at their meeting on October 2, 2014. Requested again on October 22 and 28, 2014; MNBC will provide soon.
E-mail	October 31, 2014	MNBC, Amec Foster Wheeler	MNBC provided comments on the funding proposal. Suggested there should be three community meetings (Kamloops, Ashcroft, and Merritt), with a draft overview report provided by November 30 and the final overview report by December 15, 2014. Amec Foster Wheeler will make the requested changes in the document and send to MNBC for review the following week. In follow-up, the proposal was discussed further by e-mail (November 3, 2014).
E-mail	November 3, 2014	MNBC, Amec Foster Wheeler	MNBC's Director of Industry Engagement, Partnerships and Education will review the funding proposal and other documents, and will call Amec Foster Wheeler the following day to discuss next steps. Amec Foster Wheeler noted that the Administrative Representative's comments had been incorporated into the funding proposal and it is being reviewed and signed.
Phone, Email	November 5, 2014	MNBC, Amec Foster Wheeler	Discussed the funding proposal and community sessions by phone. In follow-up, Amec provided the revised funding proposal and Task Order for MNBC to review. Funding proposal provided by Amec Foster Wheeler again on November 18, 2014; MNBC will review. On December 1, 2014, Amec Foster Wheeler requested an update; MNBC agreed to send it that day. MNBC will send the Industry Protocol to Amec Foster Wheeler for review. In follow-up, MNBC is still working on the protocol, and it will be reviewed by their Board in early December (November 18, 2014). MNBC will arrange the community meetings and provide potential dates. On November 6, 2014, MNBC confirmed the community meetings arranged for Merritt on November 18, Kamloops on November 17 and Ashcroft on November 19, 2014.
Community Meeting	November 17, 2014	MNBC, Amec Foster Wheeler, KAM	Meeting with the Kamloops Metis community. KAM provided information on the Project and the regulatory process. Topics of discussion included: opportunities for engagement, the updated General Arrangement, the tailings storage facility, dust, noise and vibration, site access, reclamation, Jacko Lake, mine water sources and discharge, Peterson Creek diversion, property values; wildlife and hunting, product transport, adaptive management, power, and economic and job opportunities. Issues: (a) effects of vibrations on fish in Jacko Lake, as well as on buildings; (b) effects on Jacko Lake; (c) effects on surface and groundwater; (d) effects on property values; (e) effects on wildlife and hunting; (f) effects of poly lines on waterfowl.

Event Type	Date	Participating Organizations	Summary
E-mail	November 18, 2014	MNBC, Amec Foster Wheeler	Amec Foster Wheeler thanked MNBC for arranging the community meeting on November 17, 2014; MNBC confirmed it was well received by the community. Socio-economic information - Amec Foster Wheeler requested a call to discuss provision of socio-economic information. Call requested again on November 24, 2014; set for December 1, 2014.
Community Meeting	November 18, 2014	MNBC, Amec Foster Wheeler, KAM	Meeting with the Merritt Metis community. KAM provided information on the Project and the regulatory process, including the updated General Arrangement. Topics of discussion included: tailings storage facility, dust, noise and vibration, site access, reclamation, Jacko Lake, mine water source and discharge, Peterson Creek diversion, product transport, mining process, visual impacts, open pit, wildlife, monitoring, dark sky effects, adaptive management, employment and training opportunities, engagement opportunities, and potential partnership between KAM and MNBC. Issues: (a) effects on Jacko Lake; (b) potential for endangered species on the project site; (c) focus on local employment; (d) use of foreign workers.
Community Meeting	November 19, 2014	MNBC, Amec Foster Wheeler, KAM	Meeting with the Ashcroft Metis community. KAM provided information on the Project and the regulatory process, including the updated General Arrangement. Topics of discussion included: the mining process, the updated General Arrangement, the tailings storage facility, visual impacts, the open pit (vs. underground), Jacko Lake, product transport, mine water source and discharge, reclamation, mitigation for wildlife, adaptive management, site access, economic and job opportunities, housing, and public site tours. No concerns were raised.
E-mail	November 29, 2014	MNBC, Amec Foster Wheeler	In preparation for their call on December 1, 2014, Amec Foster Wheeler provided an outline of the type of socio-economic information KAM wishes to collect for the EA.
Phone Call	December 1, 2014	MNBC, InterGroup, Amec Foster Wheeler	Socio-economic data collection. MNBC provided information about their organization, and noted that they are already collecting much of the information KAM is looking for, and there is lots of information on employment, business, and training already available for use in the EA.
E-mail	December 4, 2014	MNBC, Amec Foster Wheeler	Amec Foster Wheeler provided draft notes from the three community meetings on November 17-19, 2014, requesting any comments. Requested comments again on December 28, 2014. Final notes were provided by Amec Foster Wheeler on January 7, 2015.

Event Type	Date	Participating Organizations	Summary
E-mail	December 8, 2014	MNBC, Amec Foster Wheeler	Amec Foster Wheeler requested the status of the funding agreement and Industry Protocol. MNBC will send the signed funding agreement the following day. The Industry Protocol is still being reviewed by MNBC, but should be provided to Amec Foster Wheeler later in the week. MNBC expects to provide the document by the end of the week (December 10, 2014). In follow-up, Amec Foster Wheeler requested an update on the protocol (December 27, 2014). On December 28, 2014, MNBC noted the protocol would be provided by January 6, 2015. Amec Foster Wheeler requested an update on January 13, 2015. Protocol provided by MNBC on March 23, 2015.
E-mail	December 9, 2014	MNBC, Amec Foster Wheeler	MNBC provided the signed Task Order. Will send the Master Services Subcontracting Agreement the following day. In follow up, MNBC provided a signed copy of the agreement and Task Order, and Amec Foster Wheeler provided counter-signed copies (December 10, 2014).
E-mail	December 10, 2014	MNBC, Amec Foster Wheeler	MNBC expects to provide the socio-economic information in the next couple weeks. On December 17, 2014, Amec Foster Wheeler requested an update on the information, and a call to discuss. On December 27, 2014, Amec Foster Wheeler requested a meeting to review the socio-economic information being collected by MNBC.
E-mail	December 12, 2014	MNBC, Amec Foster Wheeler	MNBC provided the draft overview report from the community meetings. Amec Foster Wheeler noted additional items to be included in the final report (harvest data, MNBC views on potential effects and mitigation). On December 27, 2014, Amec Foster Wheeler asked when MNBC would be able to provide their final overview (harvester) report. On December 28, 2014, MNBC noted it will be provided by January 2, 2015. On December 29, 2014, MNBC noted that the draft overview (harvester) report had been provided by e-mail on December 12, 2014, and that it contained all the information gathered from the community meetings and their database.
E-mail	January 5, 2015	MNBC, Amec Foster Wheeler	Amec Foster Wheeler requested that further information be added to the overview (harvester) report as per the scope of work, as more detailed information will help KAM better identify and respond to MNBC member concerns. MNBC will get back to Amec Foster Wheeler on when the remaining requested information can be added to the overview (harvester) report; Amec Foster Wheeler requested by January 16, 2015 if possible. Discussed further on January 13, 2015. Amec Foster Wheeler requested an update on the information on January 7, 2015, and asked that MNBC include MNBC's perspectives on future land and resource use/land use plans in the project area in the overview (harvester) report. Discussed further on January 19, 2015. MNBC provided the revised overview (harvester) report for Amec Foster Wheeler to review (January 30, 2015).

Event Type	Date	Participating Organizations	Summary
E-mail	January 13, 2015	MNBC, Amec Foster Wheeler	Amec Foster Wheeler/KAM provided answers to the outstanding questions from the community meetings in November. Questions related to size of the footprint and confirmation that rail transport was evaluated (and why it was not chosen). Asked if MNBC would be able to provide the socio-economic information and revised overview (harvester) report by the end of the week. MNBC will not be able to get the overview report sent until the following week. Both agreed that information and requests from questionnaires could be ongoing; these will be answered and the information incorporated into the EA as they are received.
E-mail	January 19, 2015	MNBC, Amec Foster Wheeler	Amec Foster Wheeler requested a call to discuss the socio-economic information, overview report and Industry Protocol. No response received.
E-mail	January 22, 2015	MNBC, Amec Foster Wheeler	MNBC provided an update on the socio-economic information, noting that a draft will be provided by January 26, 2015. On January 29 and February 3, 2015, Amec Foster Wheeler requested updates on the information. Update provided on February 5, 2015. MNBC noted they want to include information from their nation-wide environmental scan, but need to confirm the data are current and accurate first. A further update was requested by Amec Foster Wheeler on February 19, 2015.
E-mail	February 2, 2015	MNBC, Amec Foster Wheeler	Further to receipt of the overview (harvester) report on January 30, 2015, Amec Foster Wheeler asked if MNBC has any comments on future Metis land use in the area.
E-mail	February 26, 2015	MNBC, Amec Foster Wheeler	Amec Foster Wheeler requested a call the following week to discuss the socio-economic information. No response received.
E-mail	March 16, 2015	MNBC, Amec Foster Wheeler	Amec Foster Wheeler provided a draft of the socio-economic baseline information for the Metis proposed to be used for the EA. Available information has been incorporated, but MNBC input is required to fill in some of the data gaps. Requested a meeting to discuss. MNBC is available to discuss the socio-economic information on March 23, 2015.
E-mail	March 23, 2015	MNBC, Amec Foster Wheeler	In advance of their call, MNBC provided the Industry Protocol and socio-economic information specific to Metis in the mining industry.
Phone Call	March 23, 2015	MNBC, Amec Foster Wheeler, InterGroup, KAM	Discussed socio-economic information, as well as job and contracting opportunities for the Project.
E-mail	March 23, 2015	MNBC, Amec Foster Wheeler	As discussed at their meeting, Amec Foster Wheeler provided a preliminary workforce estimate, noting that it will be further defined if the Project is approved.

Event Type	Date	Participating Organizations	Summary
Email	April 17, 2015	MNBC, AMEC, IG	MNBC provided KAM and its consultants (AMEC and IG) with a list of all Métis businesses registered on their resource business directory. KAM requested a copy of the MNBC environmental scan but it was not yet finalized.. MNBC also requested information on KAM hiring of environmental monitors for the summer.
Email	August 5, 2015	MNBC, KAM	KAM provided MNBC with Part C of the Application for their review and requested comments by September 3, 2015.

Table 6: Ajax Project – Engagement with Other Aboriginal Groups to July 31, 2015

Event Type	Date	Participating Organizations	Summary
Letter	July 7, 2014	Adams Lake Indian Band, KAM	Adams Lake Indian Band requested that KAM address their Aboriginal title and rights in relation to the Project. Asked how KAM will protect the Adams River salmon runs that pass by the Project. Issues: (a) potential effects on the Adams River salmon runs. KAM emailed a letter response requesting a meeting on September 10, 2014.
Letter	September 9, 2014	Adams Lake Indian Band, KAM	KAM thanked Adams Lake Indian Band for their letter on the bands interests in the Ajax Project. KAM requested a meeting with ALIB to present the new GA of the project and allow them to ask any questions. At the time of writing ALIB had not responded.
