

Version 3 Hammond Reef Gold Project EIS/EA – Addendum (Part B)
Responses to Provincial Information Requests

1656263

Identifier	Topic	Reference to EIS/EA Report	Summary of Previous Comment	Proponent's Response to Previous Comment	Follow-up comment/ Request for Information	New Proponent Response	Subsequent Comment
					<i>Date: September 2015</i>	<i>Date: August 2017</i>	
EAB4	Project Effects and Proposed Mitigation		A discussion of the impacts and mitigation measures should be in the forefront and not described only at a high level in a table (<i>Table 6-55 to Table 6-57</i>).	<p>A discussion of potential effects and proposed mitigation measures is provided at the forefront in the Executive Summary.</p> <p>The potential effects are discussed in detail in Chapter 6. Chapter 6 is 227 pages, and is therefore summarized in table form. The inclusion of the table which summarizes the potential effects of the project is intended to allow an easy overview of the details within the chapter, and is also based on CEAA's request to be used in the development of their Comprehensive Study Report.</p> <p>In-design mitigation measures are detailed in Chapter 6 and additional planned mitigation is detailed in Chapter 8.</p>	See comment EAB3 for further information requirements regarding effects assessment and Table 6-55 to Table 6-57.	<p>Response provided in the attached technical memorandum.</p> <p>Version 3 EIS/EA submitted including all information available between 2014 and 2017 submission date, with clarifying text and narrative added within the chapters added including discussion of impacts and mitigation measures.</p> <p>Attachment: Technical Memorandum – Response to Comments regarding the Method for Assessment of Potential Environmental Impacts and Alternatives - Hammond Reef Gold Project</p>
