Identifier	Topic	Reference to EIS/EA Report	Summary of Previous Comment	Proponent's Response to Previous Comment	Follow-up comment/ Request for Information	New Proponent Response	Subsequent Comment
			<i>Date: March 2014</i> MNDM 6	<i>Date: June 2015</i>	<i>August 2015</i>		
MNDM 6B	Mine Closure and Rehabilitation		Ensure a local committee is established and tourism/recreation representative is broad so not only one sector is represented.	<p>As stated in the Final EIS/EA Report, a social monitoring committee will be established prior to construction of the Project. The mandate of the Atikokan/ Hammond Reef Gold Committee will be to provide a direct link for communications between community members and Hammond Reef Gold.</p> <p>The structure of the committee will be based on the key parameters to be monitored and is anticipated to include representatives from recreation and tourism, emergency response and preparedness, health and wellness, education and training, and municipal infrastructure and services.</p> <p>Yes, Canadian Malartic will work with the Local Conservation Club and the Atikokan Bass Classic. Canadian Malartic has sponsored the Atikokan Bass Classic over the past several years that we have been present in the community. Canadian Malartic has also worked with the Atikokan Sportsmen's Club, and is currently undertaking a fish tissue study with the Club in response to comments received from the Club on the Draft EIS/EA Report.</p>	The response is sufficient.	Acknowledged.	N/A
