MNRF-16B	Emergency Response		<p>Clarification from the town of Atikokan has not been provided.</p> <p>The establishment of a committee should be a commitment in the EA, rather than an anticipated action.</p> <p>Please identify MNRF as a responsible agency for providing responses.</p> <p>The response to available water for fire suppression should be included in the amended water management plan (i.e. storage)</p>	<p>No response submitted. MNRF comment superseded by follow-up comment submitted to CMC on April 6, 2017.</p> <p>See CMC response to MNRF April 6, 2017 follow-up comment.</p>	<p>MNRF and other local service suppliers (OPP, Fire, Hospital, Town of Atikokan) should be included in the documentation and consulted appropriately to ensure available resources and provision of services for this operation, during each of the phases of the Mine Development.</p>	<p>CMC will continue to maintain communication with the Town of Atikokan and the local service suppliers. Prior to construction, CMC intends to develop appropriate agreements with key service providers. An example of this ongoing communication and willingness of the local community to support the project is provided in the attached letter from the Town of Atikokan Fire Chief.</p> <p>Attachment: Letter from Town of Atikokan Fire Chief Graham Warburton. February 8, 2017</p>	N/A
