

**Table A - IR2: Information Requests Derived from the Canadian Malartic Corporation’s Responses to Information Request #1 (IR1) on the Final Environmental Impact Statement /Environmental Assessment Report for the Federal Environmental Assessment of the Hammond Reef Gold Mine Project**

| Reference # | Link to IR1 | Ecosystem Topic | Reference to EIS Guidelines | Reference to EIS                                  | Summary of Comment/ Rationale  | Information Request<br>Response to Information Request  |
|-------------|-------------|-----------------|-----------------------------|---|--|---|
| T(2)-05     | T-32        | Geochemistry    | 10.2.3.2                    | Geochemistry, Geology and Soils TSD Section 3.6.2 | Section 3.6.2 of the Geochemistry, Geology and Soils Technical Support Document discusses the results of the tailings leach testing. In that section is a sentence that states: “Other metals reporting sporadic concentrations greater than the comparison guideline values in waste rock leach testing include cadmium, silver, chromium, zinc and iron.” It should be clarified whether the reference to “waste rock leach testing” should be “tailings leach testing”. | <p>Clarify whether the sentence referring to “waste rock leach testing” comparison guideline values is a typographical error and should reference “tailings leach testing” comparison guideline values.</p> <p><b>Response:</b></p> <p>Section 3.6.2 of the Geochemistry, Geology and Soils TSD discusses the results of the tailings leach testing. The reference to waste rock leach testing in the third sentence of the second paragraph of this section is a typographical error. The correct sentence is:</p> <p><i>“Other metals reporting sporadic concentrations greater than the comparison guideline values in tailings leach testing include cadmium, silver, chromium, zinc and iron.”</i></p> |
