PURPOSE OF THE NOTICE

The purpose of this Notice is to notify BC Hydro, to whom the attached draft Order is directed, that the undersigned Enforcement Officer, designated under section 89 of the *Canadian Environmental Assessment Act, 2012* (CEAA 2012), intends to issue an Order pursuant to section 94 of CEAA 2012.

OPPORTUNITY TO MAKE REPRESENTATIONS

The Canadian Environmental Assessment Agency (the Agency) hereby provides BC Hydro with a reasonable opportunity to make representations in relation to the proposed Order.

BC Hydro is under no legal obligation to make representations. Representations, including any documents that BC Hydro provides, are strictly voluntary.

Representations enable BC Hydro to provide comments and/or information about the alleged contravention or the contents of the Order or both. It also provides the opportunity for BC Hydro to establish, for instance, that:

- BC Hydro was actually in compliance or have taken measures to come back into compliance;
- the measures set out in the Order are not achievable; and,
- that BC Hydro requires more time to comply than the period stipulated by the Order.

Please notify the undersigned no later than January 5, 2017 whether or not BC Hydro wishes to make representations. If I do not hear from BC Hydro by that date, I shall

issue the Order as currently worded. If BC Hydro notifies me of their wish to participate in representations, I will contact BC Hydro to set a date and time.

Following BC Hydro's representations, I may decide to issue the Order as originally worded or as amended in light of the comments or new information provided. I may also decide to withdraw the proposed Order.

If BC Hydro wishes to make representations and plan to bring any written documents to the attention of the undersigned, please send me a copy via e-mail at the e-mail address below if representations will take place via teleconference or video conference. If the representations take place in person, please provide me a copy of the documents 3 business days in advance. The documents can be in Canada's official language of BC Hydro's choice.

DATE OF ISSUANCE

This Order will be issued on January 6, 2017 by Senior Enforcement Officer Nicolas Courville, unless amended or withdrawn by the undersigned.
