8/16/2017	Meeting	New Gold discussed the Participation Agreement.	No follow up required.	Anishinaabeg of Naongashiing	Aboriginal
8/16/2017	Meeting	Meeting to discuss Truck driver training course for Big Grassy First Nation Members	No further action required.	Big Grassy First Nation, Seven Generations Education Institute	Aboriginal
8/17/2017	Site Visit	New Gold provided a site tour for attendees of the Metis Nation of Ontario Annual General Assembly (held in Kenora).	No further action required.	Métis Nation of Ontario	Aboriginal
8/21/2017	Meeting	New Gold met with the Chief & Council of RRFN to discuss the upcoming Closure Plan amendment.	New Gold to organize communication session with MNM and New Gold to provide a presentation to Chief and Council on the Closure Plan amendment.	Rainy River First Nations	Aboriginal
8/21/2017	Site Visit	New Gold provided a site tour for local neighbours with an interest in the site area.	No further action required.	General Public	Public
8/22/2017	Meeting	New Gold provided a project update to the Men's Breakfast Club (Sioux Narrows).	No further action required.		Public
8/23/2017	Meeting	New Gold held a quarterly meeting with the representatives from Métis Nation of Ontario.	Ongoing quarterly meetings are held.	Métis Nation of Ontario	Aboriginal
8/28/2017	E-mail	New Gold sent Weekly Spill Reports by email (July 24-30, July 31-Aug 6 and Aug 7-13/2017) to Rainy River First Nations and Naicatchewenin First Nation.	No further action required.	Naicatchewenin First Nation, Rainy River First Nations	Aboriginal
8/28/2017	E-mail	New Gold provided information to RRFN and NFN regarding 2017 April Total Dustfall Air Quality Exceedance.	New Gold offered to provide additional information and to answer questions, as requested.	Rainy River First Nations, Naicatchewenin First Nation	Aboriginal
8/29/2017	E-mail	New Gold sent Weekly Spill Reports by email (Aug 14-20/2017) to Rainy River First Nations and Naicatchewenin First Nation.	No further action required.	Rainy River First Nations, Naicatchewenin First Nation	Aboriginal
8/29/2017	E-mail	New Gold sent the final version of the Big Grassy First Nation community newsletter to the community.	No further action required.	Big Grassy First Nation	Aboriginal
8/31/2017	Meeting	New Gold held a quarterly RRFN/NFN Environmental Monitoring Board Meeting.	Minutes are taken and distributed to monitoring board members.	Rainy River First Nations, Naicatchewenin First Nation	Aboriginal
8/31/2017	Site Visit	New Gold hosted a tour of the RRP mine site for members of the public.	There were 48 people in attendance.	General Public	Public
9/6/2017	E-mail	New Gold released an update on the construction of the Rainy River project.	No further action required.	Naicatchewenin First Nation, Ojibways of Onigaming First Nation, Rainy River First Nations, Métis Nation of Ontario, Big Grassy First Nation, Naotkamegwaning First Nation	Aboriginal
9/6/2017	Meeting	New Gold hosted a tour of the RRP mine site and held committee meetings at site.	Minutes are taken and distributed to monitoring board members.	Seine River First Nation, Lac La Croix First Nation, Couchiching First Nation, Mitaanjigamiing First Nation	Aboriginal
9/7/2017	E-mail	A New Gold employee forwarded concerns from a community member regarding the following questions: 1) Are berries near the Clark creek area monitored (as animals eat them); 2) Is soil tested for Blastomycosis; 3) Is daily wind direction recorded?	The New Gold Environmental Monitoring board advised that the first 2 questions were discussed at the last Environmental monitoring board meeting that the community member was invited but did not attend; and that wind direction is recorded daily. The member can access the meeting minutes when completed or call the New Gold Environmental department directly.	Rainy River First Nations	Aboriginal
9/11/2017	Negotiation Meeting	New Gold met with Animakee Wa Zhing First Nation to discuss a Participation Agreement.	Discussions are ongoing.	Animakee Wa Zhing First Nation	Aboriginal

Date	Consultation Type	Topics	Notes on Implementation	Stakeholders	Focus
9/12/2017	Meeting	New Gold held a monthly Joint Implementation Committee meeting with Rainy River First Nations and Naicatchewenin First Nation.	Ongoing monthly meetings are held.	Rainy River First Nations, Naicatchewenin First Nation	Aboriginal
9/13/2017	E-mail	Weekly Spill Report as distributed by the Community Department (Aug 21-Sept 11/2017).	No further action required.	Métis Nation of Ontario, Rainy River First Nations, Naicatchewenin First Nation	Aboriginal
9/14/2017	Site Visit	New Gold hosted a tour of the RRP mine site for members of the public.	There were 47 people in attendance.	General Public	Public
9/15/2017	E-mail	New Gold distributed a summary of all current employment opportunities.	No further action required.	Rainy River First Nations, Ojibways of Onigaming First Nation, Naicatchewenin First Nation, Métis Nation of Ontario, Big Grassy First Nation, Anishinabe of Wauzhushk Onigum First Nation, Anishinaabeg of Naongashiing, United Native Friendship Centre, Nigigoonsiminikaaning First Nation, Shooniyaa Wa-Biitong, Town of Atikokan, Pwi-Di-Goo-Zing Ne-Yaa-Zhing Advisory Services, Couchiching First Nation, Naotkamegwanning First Nation, Animakee Wa Zhing First Nation, Mitaanjigamiing First Nation, Lac La Croix First Nation, Seine River First Nation, Buffalo Point First Nation	Aboriginal
9/18/2017	Meeting	New Gold held a quarterly Joint Implementation Committee meeting with Naotkamegwanning First Nation. It was the first JIC meeting since the Participation Agreement was signed with the community.	Ongoing quarterly meetings will be held.	Naotkamegwanning First Nation	Aboriginal
9/18/2017	E-mail	Weekly Spill Report as distributed by the Environmental Department (Sept 11-17/2017).	No further action required.	Naicatchewenin First Nation, Métis Nation of Ontario, Rainy River First Nations	Aboriginal
9/20/2017	Community Meeting	New Gold held a session in the community to provide information on the 2017 Closure Plan Amendment.	A follow up meeting was offered to the community; this was declined as they felt they did not require any further information.	Ojibways of Onigaming First Nation, O'Kane Consultants	Aboriginal
9/20/2017	Negotiation Meeting	New Gold met with Anishinaabeg of Naongashiing First Nation to discuss a Participation Agreement.	Discussions are ongoing.	Anishinaabeg of Naongashiing	Aboriginal
9/25/2017	E-mail	Weekly Spill Report as distributed by the Environmental Department (Sept 18-24/2017).	No further action required.	Naicatchewenin First Nation, Métis Nation of Ontario, Rainy River First Nations	Aboriginal
9/26/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked if birds can safely use the TMA.	New Gold advised that adaptive management will be ongoing through mine life and no problems are anticipated because water will meet discharge guidelines.	Ojibways of Onigaming First Nation	Aboriginal
9/26/2017	Community Meeting	A community member at the Closure Plan Amendment presentation advised that NG should try growing 'bear root' as it likes acidic soil.	New Gold will keep this in mind for Closure vegetation plantings.	Ojibways of Onigaming First Nation	Aboriginal
9/26/2017	Community Meeting	A community member at the Closure Plan Amendment presentation advised that they had previously voiced concerns at an open house about how long it would take to turn the pit into a lake.	New Gold explained the process and time frame for the pit reclamation. No further follow up required.	Ojibways of Onigaming First Nation	Aboriginal
9/26/2017	Community Meeting	A community member at the Closure Plan Amendment presentation advised that blasto is more prevalent now, elders say because of more soil disturbance; and asked if land disturbance and sickness has been talked about at ceremonies.	New Gold advised that elders have talked about this at spring and fall ceremonies. New Gold is currently working with a JIC member to set up a date in the summer of 2018 for the elders tour/ceremony.	Ojibways of Onigaming First Nation	Aboriginal
9/26/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked if the community should review the list of traditional plants that New Gold has as part of the TEK studies.	New Gold advised that it can provide and review to the community. The community was provided a copy of the Environmental Assessment; the information is available in this document.	Ojibways of Onigaming First Nation	Aboriginal
9/26/2017	Community Meeting	A community member at the Closure Plan Amendment presentation advised that members see things online about mining and it is often the worst case scenario.	New Gold and the consultant indicated they understand that awareness needs to be increased and that maps showing scale, including Hwy 71, Lake of the Woods and Rainy Lake, would be helpful. The consultant has updated his presentation to include distance from site to each of the communities.	Ojibways of Onigaming First Nation	Aboriginal
9/26/2017	Community Meeting	At the Closure Plan Amendment presentation, the Chief asked if New Gold has any properties that it has closed.	New Gold committed to providing this information at a later date.	Ojibways of Onigaming First Nation	Aboriginal
9/26/2017	Community Meeting	At the Closure Plan Amendment presentation, the Chief advised that maps and photos and renderings of closure over time would be helpful for community members.	The consultant will be working on useful renderings and maps. Updated renderings and maps have been completed.	Ojibways of Onigaming First Nation	Aboriginal

Date	Consultation Type	Topics	Notes on Implementation	Stakeholders	Focus
9/26/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked what the lifetime of the pipes is.	New Gold advised that the pipes will be changed as required and are routinely monitored for wear.	Ojibways of Onigaming First Nation	Aboriginal
9/26/2017	Community Meeting	A community member at the Closure Plan Amendment presentation indicated that they would like a tour to see the changes at the site since their last visit.	New Gold to coordinate a tour for Chief and Council. The tour was held on April 6, 2017.	Ojibways of Onigaming First Nation	Aboriginal
9/26/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked if any of the pipes on site have leaked.	New Gold advised that all pipes are pressure tested before any tailings are pumped through. None of the pipes have been used at this point.	Ojibways of Onigaming First Nation	Aboriginal
9/26/2017	Community Meeting	A community member at the Closure Plan Amendment presentation advised that Ojibwa people are inherent protectors of the land, they may not have the same knowledge of ancestors, just an inherent feeling of being a protector.	New Gold acknowledged that that was an important realization. Traditional Ecological Knowledge (TEK) is important and New Gold is always available to discuss.	Ojibways of Onigaming First Nation	Aboriginal
9/26/2017	Community Meeting	At the Closure Plan Amendment presentation, the Chief asked if the session was about the amendment to the Closure Plan and if the amendment was at the request of the government.	New Gold explained the amendment and the process for filing the amendment. No further follow up required.	Ojibways of Onigaming First Nation	Aboriginal
9/26/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked what PAG means?	New Gold described the different types of potentially acid generating (PAG) rock. No follow up required.	Ojibways of Onigaming First Nation	Aboriginal
9/26/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked when the mining is done, does the pit become a lake on its' own or does it require work and who pays for it.	New Gold explained that once open pit mining is complete, reclamation work will begin on the pit lake. The bonding held with the government will cover the costs of reclamation.	Ojibways of Onigaming First Nation	Aboriginal
9/26/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked if ducks are being protected at the site; they assumed the Ducks Unlimited has been involved.	New Gold advised that the TMA is generally only used during migration because there is no food available, birds will land to rest because they are safe, and then carry on. The constructed wetland will also be a natural area for ducks to use on site. Ducks Unlimited has made little effort here, likely because the area is not within a major fly way.	Ojibways of Onigaming First Nation	Aboriginal
9/26/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked if the clay caps have been tested.	New Gold will be undertaking trials at site with the actual material. Testing was beginning this week (week of Sept 25, 2017). The consultant explained that each system they implement is instrumented and tested over time. They have also taken learnings from past decades of cover applications.	Ojibways of Onigaming First Nation	Aboriginal
9/26/2017	Community Meeting	A community member at the Closure Plan Amendment presentation advised that they hear questions from the community about how far the site is from Lake of the Woods, and that maps showing distance, water flow, and watersheds would be useful.	The consultant updated his maps for the next presentation.	Ojibways of Onigaming First Nation	Aboriginal
9/26/2017	Community Meeting	A Seine River community member at the Closure Plan Amendment presentation asked how long it will take to fill up the pit?	New Gold advised it would take 50 to 70 years with groundwater, but there will also be rain and inflow from the West Creek.	Seine River First Nation, Lac La Croix First Nation, Mitaanjigamiing First Nation, Couchiching First Nation	Aboriginal
9/26/2017	Community Meeting	A Seine River community member at the Closure Plan Amendment presentation asked how much water is in the TMA.	New Gold advised that there is none yet, the tailings will be pumped to that location in pipelines. The consultant added that studies have shown that 1m of water is enough cover on tailings to disallow atmospheric conditions to reach them, accounting for dry and wet years.	Seine River First Nation, Lac La Croix First Nation, Mitaanjigamiing First Nation, Couchiching First Nation	Aboriginal
9/26/2017	Community Meeting	A Seine River community member at the Closure Plan Amendment presentation asked if edible plants could be planted.	New Gold advised that edible plant, e.g. blueberries, can be planted.	Seine River First Nation, Couchiching First Nation, Lac La Croix First Nation, Mitaanjigamiing First Nation	Aboriginal

Date	Consultation Type	Topics	Notes on Implementation	Stakeholders	Focus
9/26/2017	Community Meeting	A Seine River community member at the Closure Plan Amendment presentation asked if this would be a good time to choose what they want the land to be used for and what animals they would like to be able to use it.	New Gold advised, yes, this is the time and the people of the land know best. New Gold is always interested in hearing comments.	Seine River First Nation, Lac La Croix First Nation, Mitaanjugamiing First Nation, Couchiching First Nation	Aboriginal
9/26/2017	Community Meeting	A Seine River community member at the Closure Plan Amendment presentation asked if fencing is in place now for cyanide.	New Gold advised that fencing is in place in the TMA area.	Seine River First Nation, Lac La Croix First Nation, Mitaanjugamiing First Nation, Couchiching First Nation	Aboriginal
9/26/2017	Community Meeting	New Gold held a session at Couchiching to provide information on the 2017 Closure Plan Amendment to the communities of Seine River First Nation, Lac La Croix First Nation, Couchiching First Nation, and Mitaanjugamiing First Nation.	A follow up meeting was offered to the community; this was held on October 12, 2017.	Seine River First Nation, O'Kane Consultants, Lac La Croix First Nation, Couchiching First Nation, Mitaanjugamiing First Nation	Aboriginal
9/26/2017	Community Meeting	New Gold provided information on the recent planting of wild rice in Teeple pond as was suggested by a First Nations member on a tour. This also provides good duck habitat.	New Gold provided this as an example of taking real time suggestions and testing them at site.	Seine River First Nation, Lac La Croix First Nation, Couchiching First Nation, Mitaanjugamiing First Nation	Aboriginal
9/26/2017	Community Meeting	A Seine River community member at the Closure Plan Amendment presentation asked if anyone has thought of using the area for carbon credits to use as a cash flow for First Nations.	New Gold advised that the site will be monitored for 15 to 40 years and New Gold will then determine what will happen with the land.	Seine River First Nation, Lac La Croix First Nation, Couchiching First Nation, Mitaanjugamiing First Nation	Aboriginal
9/26/2017	Community Meeting	A Seine River community member at the Closure Plan Amendment presentation asked if the mine was evicting animal populations.	New Gold advised that in some areas, there would be nothing to eat so they will move on.	Couchiching First Nation, Seine River First Nation, Lac La Croix First Nation, Mitaanjugamiing First Nation	Aboriginal
9/26/2017	Community Meeting	A Seine River community member at the Closure Plan Amendment presentation asked if this was a public document.	New Gold advised that the Closure Plan is a public document and that a copy was dropped off at the band office.	Couchiching First Nation, Seine River First Nation, Lac La Croix First Nation, Mitaanjugamiing First Nation	Aboriginal
9/28/2017	E-mail	New Gold provided a notice that the amendment to Schedule 2 of the Metal Mining Effluent Regulations has become effective.	No further action required.	Naicatchewenin First Nation, Rainy River First Nations	Aboriginal
9/28/2017	Site Visit	New Gold hosted a tour of the RRP mine site for neighbours living near the project site and also held a lunch for the group at the accommodation camp.	No further action required.	General Public	Public
9/29/2017	Site Visit	New Gold hosted a tour of the RRP mine site for Naicatchewenin First Nation community members.	No further action required.	Naicatchewenin First Nation	Aboriginal
10/2/2017	Meeting	New Gold held a quarterly Joint Implementation Committee meeting with Ojibways of Onigaming First Nation. It was the first JIC meeting since the Participation Agreement was signed with the community.	Ongoing quarterly meetings will be held.	Ojibways of Onigaming First Nation	Aboriginal
10/3/2017	Ceremony	New Gold hosted a Fall Ceremony at Gallinger Road ceremony site. The ceremony was conducted by an Elder from Rainy River First Nations.	No further action required.		Aboriginal
10/4/2017	E-mail	Weekly Spill Report as distributed by the Environmental Department (Sept 25-Oct 1/2017).	No further action required.	Naicatchewenin First Nation, Rainy River First Nations, Métis Nation of Ontario	Aboriginal
10/4/2017	Negotiation Meeting	New Gold met with Anishinaabeg of Naongashiing First Nation to discuss a Participation Agreement.	Discussions are ongoing.	Anishinaabeg of Naongashiing	Aboriginal
10/6/2017	E-mail	New Gold announced that Rainy River has completed its first gold pour.	No further action required.	Métis Nation of Ontario, Big Grassy First Nation, Naicatchewenin First Nation, Rainy River First Nations, Naotkamegwanning First Nation	Aboriginal
10/6/2017	E-mail	The MOECC notified communities of New Gold's Permit to Take Water (PTTW) application Ref. No. 2167-AR4JQ7. The application is for a Category 2 amendment to PTTW No. 8776-9W2QN3 (Pinewood River).	No further action required.	Seine River First Nation, Big Grassy First Nation, Anishinaabeg of Naongashiing, Nigigoonsiminikaaning First Nation, Ministry of the Environment and Climate Change, Anishinabe of Wauzhushk Onigum First Nation, Rainy River First Nations, Naicatchewenin First Nation, Ojibways of Onigaming First Nation, Northwest Angle 33 First Nation, Animakee Wa Zhing First Nation, Naotkamegwanning First Nation, Couchiching First Nation, Mitaanjugamiing First Nation, Lac La Croix First Nation, Buffalo Point First Nation	Aboriginal
10/11/2017	Meeting	New Gold held a session in the community to provide information on the 2017 Closure Plan Amendment.	A follow up meeting was offered to the community; this was held on October 25, 2017.	O'Kane Consultants, Big Grassy First Nation	Aboriginal
10/11/2017	E-mail	Weekly Spill Report as distributed by the Environmental Department (Oct 2-8/2017).	No further action required.	Naicatchewenin First Nation, Rainy River First Nations, Métis Nation of Ontario	Aboriginal
10/11/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked if progressive reclamation is a trial only being done at New Gold Rainy River.	The consultant advised that all 'good' companies try to practice this method and learn.	Big Grassy First Nation	Aboriginal

Date	Consultation Type	Topics	Notes on Implementation	Stakeholders	Focus
10/11/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked what is done with the rock that is blasted.	The consultant advised that the rock is initially drilled and blasted to move it out of the way of the ore body (non acid generating rock); once the gold bearing rock is blasted, it is either processed through the mill or sorted and sent to stockpiles.	Big Grassy First Nation	Aboriginal
10/11/2017	Community Meeting	A community member at the Closure Plan Amendment presentation if the TMA is between the mine and the community, and does the water flow from the it towards the community.	The consultant advised that the TMA is located on the north west portion of the site. Water flows in a south west direction through the site, towards the Rainy River.	Big Grassy First Nation	Aboriginal
10/11/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked if there are underground streams at site.	The consultant clarified that the community member was referencing groundwater. He advised that New Gold has committed to groundwater monitoring which is completed by the Environment team to ensure that the groundwater remains uncontaminated.	Big Grassy First Nation	Aboriginal
10/11/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked if this same presentation is provided to all the communities and what if different ideas are proposed.	The consultant advised that everyone receives the same information. Notes are taken and all comments are incorporated and considered equally.	Big Grassy First Nation	Aboriginal
10/11/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked if they would be able to to see the TMA and how it is built.	New Gold advised that photos or drone video could show the TMA construction currently. The consultant offered to bring clay to the next session and discuss its' inability to pass water; the community agreed. New Gold is always open to provide tours to all interested community members at the site.	Big Grassy First Nation	Aboriginal
10/11/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked what the volume of the TMA is.	The consultant did not know and advised he would have the information at the follow up meeting that would be held at a later date.	Big Grassy First Nation	Aboriginal
10/11/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked how often New Gold would review the Closure Plan, as many companies are on a 5 year review.	The consultant advised that Closure Plans are reviewed at certain times based on the government's timeframe or if there are changes that the company needs to make the public aware of. In addition, the bonding must remain suitable to ensure enough funds are set aside for mine closure and reclamation of the site.	Big Grassy First Nation	Aboriginal
10/11/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked if spills from equipment are reported at site.	New Gold advised that all spills, whether originating from New Gold or a contractor, are reported to the environment team and those spills deemed externally reportable based on government standards are reported to government agencies. A JIC member of Big Grassy commented that she receives all spill reports and has them available should any community member want to see them.	Big Grassy First Nation	Aboriginal
10/11/2017	Community Meeting	A community member at the Closure Plan Amendment presentation advised that a lot of people are concerned with the tailings and what will happen to them.	The consultant stated that this was understandable and explained that the water cover will be in place to stop oxygen from getting to the rock.	Big Grassy First Nation	Aboriginal
10/11/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked if this check point and amendment was due to the start of production.	The consultant advised that the minor changes in the amendment were due in part to the start of production as well as a result of more learnings at site.	Big Grassy First Nation	Aboriginal

Date	Consultation Type	Topics	Notes on Implementation	Stakeholders	Focus
10/11/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked who will be monitoring the TMA and pit.	The consultant advised that New Gold has set aside a large sum of money to pay for monitoring going forward after closure. There are new regulations regarding dam inspections. Some examples of monitoring in his experience have been local contractors or members of a First Nation community.	Big Grassy First Nation	Aboriginal
10/11/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked what the size of the TMA is.	The consultant advised that it is approximately 2.5km by 1km, the full extent that will be reached by closure.	Big Grassy First Nation	Aboriginal
10/12/2017	Meeting	New Gold held a session in the community to provide information on the 2017 Closure Plan Amendment.	No further action required.	Seine River First Nation, O'Kane Consultants, Lac La Croix First Nation, Mitaanjigamiing First Nation, Couchiching First Nation	Aboriginal
10/12/2017	Community Meeting	A community member asked who acts as a watchdog for the closure planning.	The consultant advised that though the Closure Plan is approved by MNDM, all the provincial government ministries are watch dogs for all of the permits as well as the federal government.	Couchiching First Nation, Lac La Croix First Nation, Mitaanjigamiing First Nation, Seine River First Nation	Aboriginal
10/12/2017	Community Meeting	A community member asked if there was a breach in the tailings pond, what ministries would be involved?	The consultant advised that if there were a breach, all of the ministries would become involved.	Couchiching First Nation, Lac La Croix First Nation, Mitaanjigamiing First Nation, Seine River First Nation	Aboriginal
10/12/2017	Community Meeting	A community member asked if the water management ponds are areas that are set aside to hold water for use during mining.	The consultant advised yes, that most of the water comes from the pit or precipitation.	Couchiching First Nation, Lac La Croix First Nation, Mitaanjigamiing First Nation, Seine River First Nation	Aboriginal
10/12/2017	Community Meeting	A community member asked why there are no dams on the north side of the TMA.	New Gold advised that dams are not required on the north side of the TMA as natural elevation changes create the natural boundary on the north side; water flows from north to south following the elevation.	Couchiching First Nation, Lac La Croix First Nation, Mitaanjigamiing First Nation, Seine River First Nation	Aboriginal
10/12/2017	Community Meeting	A community member asked if cells in the TMA exist to separate different types of water (like a lagoon).	New Gold advised that the cells were created because New Gold was waiting for the Schedule 2 approval.	Couchiching First Nation, Lac La Croix First Nation, Mitaanjigamiing First Nation, Seine River First Nation	Aboriginal
10/12/2017	Community Meeting	A community member asked what the reason for the material mixing in the West Mine Rock Stockpiles.	The consultant advised that mixing material increases stability in the stockpiles.	Couchiching First Nation, Lac La Croix First Nation, Mitaanjigamiing First Nation, Seine River First Nation	Aboriginal
10/12/2017	Community Meeting	A community member asked if acid rock drainage (rusting) is a natural process.	The consultant confirmed that it is a natural process.	Couchiching First Nation, Lac La Croix First Nation, Mitaanjigamiing First Nation, Seine River First Nation	Aboriginal
10/12/2017	Community Meeting	A community member asked that if the encapsulation is done and it leaches, is it harmful and what are the effects.	The consultant advised that it is potentially harmful. The effect depends on the minerals in the rock, as they can cause metals in the water. This is why it is important to have a plan in place for the future.	Couchiching First Nation, Lac La Croix First Nation, Mitaanjigamiing First Nation, Seine River First Nation	Aboriginal
10/12/2017	Community Meeting	A community member asked if a baseline of metals was taken in fish and animals prior to starting operations.	The consultant confirmed that baseline studies were taken and the information is available in the EA.	Couchiching First Nation, Lac La Croix First Nation, Mitaanjigamiing First Nation, Seine River First Nation	Aboriginal
10/12/2017	Community Meeting	A community member asked how often fish and animals are tested.	New Gold advised that fish tissue is sampled on an annual basis; testing will begin on deer in a few years.	Couchiching First Nation, Lac La Croix First Nation, Mitaanjigamiing First Nation, Seine River First Nation	Aboriginal
10/12/2017	Community Meeting	A community member asked what the expected life of mine is.	New Gold advised that it is currently predicted to be 15 years, but it could be longer.	Couchiching First Nation, Lac La Croix First Nation, Mitaanjigamiing First Nation, Seine River First Nation	Aboriginal
10/12/2017	Community Meeting	A community member asked that when the mining is all done, will things go back to how they were.	New Gold advised that the goal is to bring it back to the original natural state as much as possible.	Couchiching First Nation, Lac La Croix First Nation, Mitaanjigamiing First Nation, Seine River First Nation	Aboriginal
10/12/2017	Community Meeting	A community member asked if there are ways to monitor whether the rock is rusting.	The consultant advised yes, there is; testing is already being done with sensors placed within the rock.	Couchiching First Nation, Lac La Croix First Nation, Mitaanjigamiing First Nation, Seine River First Nation	Aboriginal
10/12/2017	Community Meeting	A community member asked who gets the final say in what happens to the area, i.e. if the communities want deer habitat and MNR wants caribou; how is this determined.	New Gold advised that MNR is fairly aligned with the community and has an understanding of what works best, but help may be required in making this happen.	Couchiching First Nation, Lac La Croix First Nation, Mitaanjigamiing First Nation, Seine River First Nation	Aboriginal

Date	Consultation Type	Topics	Notes on Implementation	Stakeholders	Focus
10/13/2017	Meeting	New Gold held a session in the community to provide information on the 2017 Closure Plan Amendment.	No further action required.	O'Kane Consultants,Naotkamegwanning First Nation	Aboriginal
10/13/2017	Meeting	New Gold provided a brief overview of the 2017 Closure Plan Amendment to Whitefish Bay Chief and Council prior to the community meeting.	No further action required.	O'Kane Consultants,Naotkamegwanning First Nation	Aboriginal
10/13/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked if there are underground streams at site.	The consultant clarified that the community member was referencing groundwater. He advised that New Gold has committed to groundwater monitoring which is completed by the Environment team to ensure that the groundwater remains uncontaminated.	Naotkamegwanning First Nation	Aboriginal
10/13/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked if the tree growth will be different compared to the natural soil they are growing in.	New Gold advised that it should be the same as we are removing the overburden layer with the soil and nutrients in it an storing it until it is needed for reclamation.	Naotkamegwanning First Nation	Aboriginal
10/13/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked how New Gold will reclaim the water (ponds, creeks).	New Gold has already taken measures, starting as soon as construction began. The idea is to create areas where erosion doesn't happen, e.g. stable slopes, etc. Areas for water have been created and also require the ability to move the water.	Naotkamegwanning First Nation	Aboriginal
10/13/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked who is paying for O'Kane's work (the consultant).	New Gold is paying for O'Kane's work.	Naotkamegwanning First Nation	Aboriginal
10/13/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked if the potential for earthquakes has been considered.	New Gold has considered this as there is a nationwide regulation that all engineered designs have to be able to withstand a certain magnitude earthquake. All the dams onsite are approved by our engineers, the government, and world specialists. Also, dam structures get stronger the longer they exist.	Naotkamegwanning First Nation	Aboriginal
10/13/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked if monitoring continues after closure.	New Gold advised that it has budgeted for 100 years of monitoring after closure, and as targets are achieved in certain areas, monitoring will stop.	Naotkamegwanning First Nation	Aboriginal
10/13/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked what happens if you get vegetation growing in the tailings ponds?	New Gold advised that there will be no plans for vegetation to be planted there. Trees won't grow on the dams because the layer of soil placed on them won't allow for trees to root and because of the water cover depth, trees cannot grow in the pond itself.	Naotkamegwanning First Nation	Aboriginal
10/13/2017	Community Meeting	A community member at the Closure Plan Amendment presentation advised that they think the same natural vegetation should be back after closure.	New Gold agrees and advised that many others also state this. New Gold welcomes input to understand what community members want to see at the site after closure and which natural systems supported.	Naotkamegwanning First Nation	Aboriginal
10/13/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked if all communities were included in these presentations, even those that do not have an agreement with New Gold.	New Gold advised that all communities were included, not just those with agreements.	Naotkamegwanning First Nation	Aboriginal
10/13/2017	Community Meeting	New Gold advised that the Closure Plan is a living document and the intent is to capture thoughts and ideas and grow it over time. The government and stakeholders so far have said to put it back the way it was, but there are other options and ideas; in the future there may be another type of economic development that will be important.	No follow up required.	Naotkamegwanning First Nation	Aboriginal
10/13/2017	Community Meeting	A community member at the Closure Plan Amendment presentation asked where they can see the closure plan and if it was a public document.	New Gold advised that it is a public document and the original Closure Plan has been provided to the community.	Naotkamegwanning First Nation	Aboriginal

Date	Consultation Type	Topics	Notes on Implementation	Stakeholders	Focus
10/13/2017	E-mail	New Gold e-mailed the community to confirm the date of the follow up meeting to the Closure Plan Amendment presentation; it was scheduled for October 19, 2017. New Gold phoned the community on October 17, 2017 to follow up the email.	The community advised that a follow up meeting would not be necessary .	Ojibways of Onigaming First Nation	Aboriginal
10/16/2017	E-mail	Weekly Spill Report as distributed by the Environmental Department (Oct 9-15/2017).	No further action required.	Rainy River First Nations,Métis Nation of Ontario,Naicatchewenin First Nation	Aboriginal

10/17/2017	Meeting	New Gold held a monthly Joint Implementation Committee meeting with Rainy River First Nations and Naicatchewenin First Nation.	Ongoing monthly meetings are held.	Naicatchewenin First Nation,Rainy River First Nations	Aboriginal
10/17/2017	Meeting	New Gold provided an information booth at the Mining Forum at Wabigoon Lake First Nation	Approximately 45 people visited the New Gold booth.	General Public	Aboriginal
10/19/2017	Site Visit	New Gold invited individuals to watch the pouring of a gold bar.	No further action required.	Couchiching First Nation,Naotkamegwanning First Nation	Aboriginal
10/20/2017	E-mail	New Gold announced that Rainy River achieved Commercial Production.	No further action required.	Naotkamegwanning First Nation,Pwi-Di-Goo-Zing Ne-Yaa-Zhing Advisory Services,Rainy River First Nations,Naicatchewenin First Nation,Big Grassy First Nation,Métis Nation of Ontario	Aboriginal
10/23/2017	E-mail	New Gold provided information on the Deer Tissue Sampling Program to Rainy River First Nations and Naicatchewenin First Nation.	No further action required.	Naicatchewenin First Nation,Rainy River First Nations	Aboriginal
10/23/2017	Negotiation Meeting	New Gold met with Animakee Wa Zhing First Nation to discuss a Participation Agreement.	Discussions are ongoing.	Animakee Wa Zhing First Nation	Aboriginal
10/25/2017	Meeting	New Gold held a session in the community to provide follow up answers from questions asked at the first session (October 11, 2017).	No further action required.	O'Kane Consultants,Big Grassy First Nation	Aboriginal
10/25/2017	Community Meeting	A community member had asked at the previous Closure Plan Amendment presentation what the volume of the TMA is.	The consultant advised that the volume of the TMA at maximum impoundment will be 88,375,000 m3. This was calculated using the consultant's site water balance.	Big Grassy First Nation	Aboriginal
10/25/2017	Community Meeting	The consultant brought clay to the community for the followup presentation as requested. There was one participant who was able to view the clay.	No further followups required.	Big Grassy First Nation	Aboriginal
10/26/2017	E-mail	Weekly Spill Report as distributed by the Environmental Department (Oct 16-22/2017).	No further action required.	Métis Nation of Ontario,Rainy River First Nations,Naicatchewenin First Nation	Aboriginal
10/27/2017	E-mail	New Gold provided a letter of support for the proposed Hyperbaric Oxygen Therapy and Wound Care Clinic.	No further action required.	Rainy River First Nations,Naicatchewenin First Nation	Aboriginal
10/27/2017	Site Visit	New Gold hosted a tour of the RRP mine site for Rainy River First Nations community members.	No further action required.	General Public	Aboriginal
10/30/2017	E-mail	Weekly Spill Report as distributed by the Environmental Department (Oct 23-29/2017).	No further action required.	Naicatchewenin First Nation,Métis Nation of Ontario,Rainy River First Nations	Aboriginal
10/31/2017	Agreement	New Gold signed a Participation Agreement with Anishinaabeg of Naongashiing First Nation	No follow up required.	Anishinaabeg of Naongashiing	Aboriginal
11/7/2017	E-mail	New Gold received confirmation from the Ministry of Northern Development and Mines that they had received an electronic copy of the draft Rainy River Mine Comprehensive Closure Plan Amendment on October 24, 2017.	No further action required.	Ontario Ministry of Northern Development and Mines	Public
11/8/2017	Phone Call	New Gold asked the property owner of Korpi and Hwy 71 if they would be amenable to having New Gold add reflective markings to the existing fence posts on the north side of Korpi (running east to west) and eventually adding in fence posts to the south side of Korpi as well and adding more relective markers.	The neighbour agreed to allowing New Gold to add reflective markers to the existing fence posts and to eventually having posts added on the south side of Korpi for the sole purpose of having the reflective markers on them. The neighbour was pleased that New Gold would be promoting safety at the Korpi & Hwy 71 corner.	Site Neighbour (within 10km of project footprint)	Public

Date	Consultation Type	Topics	Notes on Implementation	Stakeholders	Focus
11/8/2017	E-mail	Weekly Spill Report as distributed by the Environmental Department (Oct 30-Nov 5/2017).	No further action required.	Rainy River First Nations,Naicatchewenin First Nation,Métis Nation of Ontario	Aboriginal
