5.2 Atmospheric and Acoustic Environment Effects Assessment

This section presents the assessment of effects for the atmospheric and acoustic environment following the methods described in **Section 4**. **Section 5.2.1** presents the identification and selection of atmospheric and acoustic environment Valued Components (VCs). **Sections 5.2.2 through 5.2.4** present in-depth effects analysis for:

- Noise and Vibration (**Section 5.2.2**);
- Climate Change (**Section 5.2.3**); and
- Air Quality (**Section 5.2.4**).
