**Subject:** Information Request #2 Submission  
**Date:** March 6, 2019 2:51:37 PM

---

Hello Amy:

As discussed, Treasury Metals is pleased to submit responses to Round 2 Information Requests. We have uploaded the documents for download on our data transfer site with the following link:

<https://treasurymetals.firmex.com/projects/18/documents>

The following response packages and technical memorandum have been updated to address your review and memo dated February 22, 2019:

- Aboriginal Consultation Information Requests;
- Groundwater Information Requests;
- Mine Waste Information Requests;
- Goliath Gold Project Water Addendum; and
- Goliath Gold Project Mitigation, Monitoring and Commitments List.

It should be noted that while we have focussed on the revisions as detailed in your memo, we have also reviewed each of the IRs in the packages to ensure consistency for any revisions that we made in the specific IRs that were detailed in your memo. These changes are not considered to be material and we have not made any other changes to IRs that you have indicated are sufficient to meet completeness.

While preparing the revised final Round 2 Information Request responses as detailed above, the following documents were also updated to ensure consistency throughout the Round 2 information request responses:

- Fish and Fish Habitat Information Requests;
- Regulatory Information Requests;
- Goliath Gold Project Fish Addendum; and
- Goliath Gold Project Follow Up Addendum.

Should you have any questions, please feel free to contact us.

Regards,  
Mark

**Mark Wheeler, P.Eng, MBA**
