**Subject:** LNG or Coal? Its in your hands

Dear Canadian Environmental Assessment Agency.

Please take the global net savings of carbon output into account in evaluating this project.

My letter of support is enclosed.

Thanks,  
Gordon

Pacific NorthWest LNG Project  
Canadian Environmental Assessment Agency  
410-701 West Georgia Street  
Vancouver, B.C.  
V7Y 1C6

Dear Canadian Environmental Assessment Agency,

I am writing to you to express my support for the Pacific NorthWest LNG project.

I feel the increased carbon footprint in Canada must be considered in a global context. Any increase in Canada will be offset by a larger decrease globally in carbon output as LNG is a cleaner fuel than the coal it will replace.

Also, with the Site C dam providing clean gravity fed energy to the project, this LNG project has an even smaller footprint than conventional LNG projects.

Please take a global view of the impact of this project when making your recommendations.

It is a step in the right direction.

Thank you,
