**Subject:** FW: NRCan Comments on Howse Minerals Ltd Response to CEAA IRs 16-20

**Importance:** High

Hello Mariana,

The Canadian Environmental Assessment Agency (the Agency), with input from NRCan, has conducted a technical review of the proponent's responses to Information Requests (IRs) CEAA 16 to 20 (Round 1, Part 1). Please see the attached document, Howse\_IR 106\_June 2017.docx, which includes an additional information request, primarily to clarify the information in the SNC May 2017 report and to correct errors. Once revised, the report will be posted on the Agency's registry internet site.

The legislated environmental assessment timeline will remain paused until adequate responses to all outstanding information requests are submitted. Upon receipt of a response from the proponent, the Agency will determine whether the response provides the information requested, and if so, will review the information.

Please call if you have any questions or wish to discuss.

Regards,

Joe Vigder, MREM
