GLOSSARY, UNITS, AND ABBREVIATIONS

Chapter 1

1.0	INTRODUCTION AND OVERVIEW	1-1
1.1	The Proponent – Manitoba East Side Road Authority.....	1-1
1.1.1	Contact Information	1-1
1.1.2	Corporate and Management Structures.....	1-2
1.1.3	Document Preparation	1-3
1.2	Project Overview.....	1-3
1.2.1	The East Side Transportation Initiative	1-7
1.3	Project Location	1-9
1.3.1	Coordinates.....	1-9
1.3.2	Current Land Use	1-9
1.3.3	Proximity to Federal Lands	1-11
1.3.4	Environmental Significance of the Area	1-11
1.3.5	Proximity to Environmentally Sensitive Areas.....	1-11
1.3.6	Proximity to Local and Aboriginal Communities, Treaty Lands, and Reserves.....	1-12
1.4	Regulatory Framework and the Role of Government	1-12
1.4.1	Federal Regulatory Requirements	1-12
1.4.2	Provincial Regulatory Requirements	1-15
1.5	Environmental Impact Assessment Overview	1-17
1.6	Report Organization.....	1-18

LIST OF FIGURES

Figure 1-1:	Proposed P4 All-Season Road Alignment	1-4
Figure 1-2:	Junction of P1 All-Season Road Alignment at Berens River First Nation	1-5
Figure 1-3:	Proposed P4 All-Season Road Terminus at Poplar River First Nation.....	1-6
Figure 1-4:	Regional Transportation Network of Planned All-Season Roads on the East Side of Lake Winnipeg in the Large Area Transportation Network Study.....	1-8
Figure 1-5:	Land Cover in the Vicinity of the Proposed P4 Project	1-10
Figure 1-6:	Regional Parks and Protected Areas.....	1-13
Figure 1-7:	Locations of Major Water Crossings.....	1-14
Figure 1-8:	Summary of Environmental Impact Assessment Approach	1-18

MASTER TABLE OF CONTENTS

Chapter 2

2.0	PROJECT JUSTIFICATION AND ALTERNATIVES CONSIDERED	2-1
2.1	Project Need and Purpose	2-1
2.1.1	Project Need	2-1
2.1.2	Background	2-2
2.1.3	Purpose of the Project	2-3
2.2	Project Alternatives	2-3
2.2.1	Alternative Transportation Options.....	2-3
2.2.2	Road Route Alignment.....	2-5
2.2.3	Watercourse Crossings	2-7
2.2.4	Other Components	2-9

LIST OF TABLES

Table 2.1:	Alternative Surface and Air Transportation Modes.....	2-4
Table 2.2:	Chronology of Alignment Revisions to the P4 All-Season Road Route Options (Refer to Figure 2-1).....	2-7

LIST OF FIGURES

Figure 2 1:	History of the P4 All-Season Road Alignment Alternatives Table.....	2-6
-------------	---	-----

Chapter 3

3.0	PROJECT DESCRIPTION	3-1
3.1	Scope of the Project.....	3-1
3.2	Project Phases.....	3-1
3.2.1	Planning Phase.....	3-1
3.2.2	Design Phase.....	3-3
3.2.3	Construction Phase.....	3-3
3.2.4	Operation and Maintenance Phase.....	3-5
3.2.5	Decommissioning.....	3-5
3.3	Project Components	3-5
3.3.1	All-Season Road	3-6
3.3.2	Watercourse Crossings	3-7
3.3.3	Temporary Access.....	3-16

MASTER TABLE OF CONTENTS

	Page
3.3.4	Temporary Construction Staging Areas 3-16
3.3.5	Temporary Construction Camps 3-17
3.3.6	Quarries and Borrow Areas 3-17
3.3.7	Facilities for the Storage of Explosives 3-20
3.4	Project Activities 3-20
3.4.1	Right-of-Way Clearing Activities 3-20
3.4.2	Blasting Activities 3-20
3.4.3	Road Construction Activities 3-22
3.4.4	Alterations to Linked Roadways 3-22
3.4.5	Bridge Construction Activities 3-23
3.4.6	Culvert Installation Activities 3-24
3.4.7	Closure and Reclamation of Temporary Components 3-24
3.4.8	Road Maintenance Activities 3-25
3.4.9	Bridge and Culvert Maintenance Activities 3-26
3.5	Construction Vehicles and Equipment 3-26
3.6	Project Construction Materials 3-27
3.7	Fuel and Hazardous Materials 3-29
3.8	Potable Water Supply 3-29
3.9	Waste and Hazardous Materials Handling, Disposal and Treatment 3-29
3.10	Project Workforce 3-30
3.11	Project Schedule 3-31
3.12	Project Funding 3-31

LIST OF TABLES

Table 3.1:	Geometric Design Criteria for the Proposed P4 Project 3-7
Table 3.2:	List of Watercourse Crossings and Proposed Crossing Standards 3-9
Table 3.3:	Crossing Structures with Navigation Requirements 3-10
Table 3.4:	Project Activities Expected During Construction and Operation and Maintenance Project Phases 3-21
Table 3.5:	Expected Construction Equipment and Vehicles Used for Project Components 3-26
Table 3.6:	Expected Construction Materials List 3-27
Table 3.7:	Projected Quantities of Raw Materials Required for P4 Construction 3-28
Table 3.8:	Expected Fuels and Hazardous Materials List 3-29
Table 3.9:	Planned Schedule for the P4 All-Season Road 3-31

LIST OF FIGURES

Figure 3-1:	Proposed P1 and P4 All-Season Roads on the East Side of Lake Winnipeg 3-2
Figure 3-2:	Proposed P4 All-Season Road Alignment 3-4

MASTER TABLE OF CONTENTS

	Page
Figure 3-3: P4 All-Season Road Proposed Watercourse Crossings	3-8
Figure 3-4: Locations of Bridge Crossings	3-11
Figure 3-5: Example of Culvert Installation Method for Boreal Fen and Bog Areas (after Louisiana Pacific et al. 2014).....	3-15
Figure 3-6: Potential Construction Quarry Sites	3-19

LIST OF PHOTOGRAPHS

Photograph 3-1: Typical Multi-Span Bridge with Piers – Longbody Creek (P1 All-Season Road)	3-13
Photograph 3-2: Typical Clear-Span Bridge – Loon Creek (P1 All-Season Road).....	3-13
Photograph 3-3: Typical Multi-Culvert Stream Crossing	3-14
Photograph 3-4: Typical Single-Culvert Stream Crossing	3-14
Photograph 3-5: Typical All-Season Road 60 Metre-Wide Right-of-Way Clearing for Construction	3-22
Photograph 3-6: Typical Road Construction along an All-Season Road Right-of-Way.....	3-23

LIST OF APPENDICES

Appendix 3-1: Project Drawings	
Appendix 3-2: Representative Watercourse Crossing Design Drawings	
Appendix 3-3: Potential Quarry Site Locations	
Appendix 3-4: Examples of Erosion and Sedimentation Control Methods	
Appendix 3-5: Culvert Installation at Environmentally Sensitive Watercourse Crossings	
Appendix 3-6: ESRA’s Native Seed Mix for Revegetation	

Chapter 4

4.0	ABORIGINAL AND PUBLIC ENGAGEMENT	4-1
4.1	Aboriginal and Public Engagement Objectives and Approaches	4-1
4.1.1	Objectives	4-1
4.1.2	Engagement Methods.....	4-3
4.1.3	Traditional Knowledge	4-5
4.2	Engagement History on the East Side of Lake Winnipeg	4-6
4.2.1	Initial Provincial Engagement Steps.....	4-6
4.2.2	The East Side of Lake Winnipeg All-Weather Road Feasibility Study	4-8
4.2.3	Large Area Transportation Network Study	4-11
4.2.4	Project Level Planning and Design – Road Alignment Selection and Refinement	4-14

MASTER TABLE OF CONTENTS

	Page
4.3	The P4 Aboriginal and Public Engagement Program 4-16
4.3.1	Round 4 (April 2015) – P4 Project Overview and Environmental Impact Assessment 4-17
4.3.2	Round 5 (May 2015) – EIA: Valued Components, Potential Effects and Mitigation..... 4-19
4.3.3	Round 6 (August/September 2015) – EIA: Potential Effects and Mitigation Confirmation 4-22
4.4	Additional Engagement Information 4-26
4.4.1	Aboriginal Communities 4-27
4.4.2	Government Engagement..... 4-33
4.4.3	Other Stakeholder Engagement 4-34
4.5	Summary of Key Engagement Activities 4-34
4.6	Summary of Questions/Comments and Responses 4-36
4.7	Future Engagement Activities..... 4-38

LIST OF TABLES

Table 4.1:	Aboriginal and Public Engagement and Coordination Methods Used by ESRA for Projects on the East Side of Lake Winnipeg Including Project 4..... 4-4
Table 4.2:	Summary of Community Comments Related to Existing and Future Road Networks Compiled by the Feasibility Study (Dillon Consulting Limited and H.N. Westdal & Associates 2000) 4-10
Table 4.3:	Summary of Key Round 3 Meetings with Berens River and Poplar River First Nations..... 4-15
Table 4.4:	Training Courses Delivered to Berens River and Poplar River First Nations Community Members..... 4-29
Table 4.5:	Summary of P4 All-Season Road Engagement Activities 4-35
Table 4.6:	Summary of Key Comments Received, Response and Reference Location in the EIA 4-37
Table 4.7:	Summary of Proposed Future Engagement Activities & Notifications..... 4-39

LIST OF FIGURES

Figure 4-1:	Steps to Select, Design and Construct an All-Season Road 4-2
Figure 4-2:	Areas of TK that Inform the EIS..... 4-6
Figure 4-3:	Key Elements of the East Side Planning Initiative..... 4-7
Figure 4-4:	Summary of ESRA’s All-Season Road Planning Process and Rounds of Public Engagement 4-12

MASTER TABLE OF CONTENTS

Figure 4-5: Regional Transportation Network of Planned All-Season Roads on the East Side of Lake Winnipeg in the Large Area Transportation Network Study.....	4-13
Figure 4-6: Community Input into Potential Effects and Proposed Mitigation	4-23

LIST OF PHOTOGRAPHS

Photograph 4-1: Berens River First Nation/NAC In-Community Meeting (Round 4).....	4-18
Photograph 4-2: Poplar River First Nation In-Community Meeting (Round 4)	4-19
Photograph 4-3: Berens River First Nation/NAC In-Community Meeting (Round 5).....	4-21
Photograph 4-4: Winnipeg Public Open House (Round 5)	4-22
Photograph 4-5: Poplar River First Nation In-Community Meeting (Round 6)	4-25
Photograph 4-6: Winnipeg Public Open House (September 2015).....	4-26

LIST OF APPENDICES

Appendix 4-1: Round 1 APEP Questions and Comments	
Appendix 4-2: Round 2 APEP Questions and Comments	
Appendix 4-3: Round 3 APEP Meeting Information	
Appendix 4-4: Round 4 APEP Questions and Comments	
Appendix 4-5: Round 5 APEP Questions and Comments	
Appendix 4-6: Round 6 APEP Questions and Comments	
Appendix 4-7: Community Interest in Project 4	
Appendix 4-8: Project Comments from First Nations Community Engagement and ESRA Responses	
Appendix 4-9: Project Comments from Manitoba Metis Federation and ESRA Responses	

Chapter 5

5.0 ENVIRONMENTAL PROTECTION AND SUSTAINABLE DEVELOPMENT	5-1
5.1 ESRA’s Environmental Program	5-1
5.2 Environmental Protection - Project Planning	5-9
5.2.1 Design Mitigation and Community and Stakeholder Input	5-9
5.3 Environmental Protection - Construction Planning	5-11
5.3.1 Environmental Management Plan (EMP)	5-11
5.3.2 Environmental Protection Procedures (EPPs)	5-13
5.4 Environmental Protection – Construction	5-13
5.4.1 Contract Specifications	5-13
5.4.2 Contractor-Required Plans	5-11

MASTER TABLE OF CONTENTS

	Page
5.5 Environmental Protection – Operations and Maintenance.....	5-12
5.6 Management Structure, Compliance and Reporting.....	5-13
5.6.1 Project Design	5-13
5.6.2 Project Construction	5-13
5.6.3 Contractor’s Requirements.....	5-14
5.7 Commitment to Sustainable Development	5-14

LIST OF TABLES

Table 5.1: Design Mitigation Resulting from Community Feedback Related to Changes in the P4 All-Season Road Route Options.....	5-10
--	------

LIST OF FIGURES

Figure 5 1: ESRA’s Environmental Program across Project Stages	5-3
Figure 5-2: ISO 14001 Environmental Management System Structure	5-12

LIST OF APPENDICES

Appendix 5-1: ESRA’s Environmental Protection Policy
Appendix 5-2: Framework for ESRA’s Environmental Management Plan
Appendix 5-3: ESRA’s Environmental Protection Procedures
Appendix 5-4: ESRA’s GR130s Environmental Protection Specifications
Appendix 5-5: ESRA’s GR140s Workplace Safety and Health Specifications
Appendix 5-6: ESRA’s Safe Work Plan
Appendix 5-7 Sustainability Assessment of the Proposed P4 All-Season Road Project

Chapter 6

6.0 ENVIRONMENTAL IMPACT ASSESSMENT SCOPE AND APPROACH.....	6-1
6.1 Scope of the Environmental Impact Assessment	6-1
6.2 Project Assessment Boundaries.....	6-3
6.2.1 Area Boundaries.....	6-3
6.2.2 Temporal Boundaries.....	6-6
6.3 Information Sources for the Environmental Impact Assessment.....	6-6

MASTER TABLE OF CONTENTS

	Page
6.3.1 Other Environmental Assessments.....	6-8
6.3.2 Baseline Studies and Site Visits.....	6-9
6.3.3 Traditional Knowledge, Land Use & Heritage Resource Studies	6-9
6.3.4 Aboriginal and Public Engagement	6-10
6.3.5 Other Local Area Information Sources	6-10
6.4 Environmental Impact Assessment Methods	6-10
6.4.1 Selection of Valued Components	6-11
6.4.2 Identification of Potential Environmental Effects of the Project Prior to Mitigation.....	6-13
6.4.3 Initial Screening of Potential Environmental Effects	6-14
6.4.4 Mitigation.....	6-14
6.4.5 Determining Significance of Residual Effects	6-14

LIST OF TABLES

Table 6.1:	Information Sources for the EIA	6-7
Table 6.2:	Factors Considered in Determining Potential Environmental Effects	6-13
Table 6.3:	Description of Assessment Criteria and Levels of Potential Environmental Effects.....	6-16

LIST OF FIGURES

Figure 6-1:	Local Assessment Area.....	6-4
Figure 6-2:	Regional Assessment Area	6-5

LIST OF APPENDICES

Appendix 6-1: Valued Components (VCs) and Rationale for Selection

Chapter 7

7.0	PHYSICAL ENVIRONMENT.....	7-1
7.1	Existing Conditions.....	7-1
7.1.1	Climate and Climate Change.....	7-1
7.1.2	Air Quality	7-4

MASTER TABLE OF CONTENTS

	Page
7.1.3	Physiography..... 7-4
7.1.4	Surface Water and Groundwater 7-11
7.1.5	Noise and Vibration 7-17
7.1.6	Valued Components 7-17
7.2	Environmental Effects and Mitigation 7-18
7.2.1	Valued Components and Project Interactions..... 7-18
7.2.2	Assessment of Potential Effects..... 7-20
7.2.3	Mitigation..... 7-20
7.2.4	Effects on Surface Water, Air Quality and Noise 7-21
7.3	Summary of Project Residual Effects and Conclusion 7-38
7.3.1	Surface Water 7-38
7.3.2	Air Quality 7-41
7.3.3	Noise and Vibration 7-43

LIST OF TABLES

Table 7.1:	Monthly Temperature, Rainfall and Snowfall Data from the Berens River Climate Station (1981-2010) 7-2
Table 7.2:	Surficial Geology of the Local Assessment Area 7-9
Table 7.3:	Key Attributes of River Crossings in the Local Assessment Area 7-14
Table 7.4:	In situ Water Quality Measured at Major Watercourse Crossings along the Proposed All-Season Road (July 2014)..... 7-16
Table 7.5:	Physical Environment Valued Components and Selection Rationale 7-18
Table 7.6:	Key Project Activity Interactions with Physical Environment Valued Components 7-19
Table 7.7:	ESRA’s Protection Procedures and Specifications for Surface Water..... 7-24
Table 7.8:	Summary of Potential Construction-Related Environmental Effects on Surface Water and Proposed Mitigation Measures 7-25
Table 7.9:	ESRA’s Protection Procedures and Specifications for Air Quality..... 7-31
Table 7.10:	Summary of Potential Construction-Related Environmental Effects on Air Quality and Proposed Mitigation Measures 7-32
Table 7.11:	Summary of Potential Construction-Related Environmental Effects of Noise and/or Vibration and Proposed Mitigation Measures..... 7-37
Table 7.12:	Summary of Residual Project Effects and Significance Conclusions for Surface Water 7-40
Table 7.13:	Summary of Residual Project Effects and Significance Conclusions for Air Quality 7-42
Table 7.14:	Summary of Residual Project Effects and Significance Conclusions for Noise and Vibration 7-44

LIST OF APPENDICES

Appendix 7-1:	Water Quality at Five Proposed Stream Crossings
Appendix 7-2:	Summary of Potential Construction and Operations and Maintenance Effects on Physical Environment Valued Components Prior to Mitigation

Chapter 8

8.0	AQUATIC ENVIRONMENT	8-1
8.1	Existing Conditions.....	8-1
8.1.1	Traditional Knowledge.....	8-5
8.1.2	Fish Habitat	8-5
8.1.3	Fish Community	8-11
8.1.4	Mussels	8-13
8.1.5	Aquatic Species at Risk.....	8-14
8.1.6	Valued Components	8-19
8.2	Environmental Effects and Mitigation	8-19
8.2.1	Valued Components and Project Interactions.....	8-19
8.2.2	Assessment of Potential Effects.....	8-21
8.2.3	Mitigation.....	8-22
8.2.4	Effects on Fish Habitat, Harvested Fish Species and Aquatic Species at Risk... 8-23	
8.3	Summary of Project Residual Effects and Conclusion	8-37

MASTER TABLE OF CONTENTS

Appendix 9-1: Wildlife Technical Report
Appendix 9-2: Vegetation Characterization and Effects Assessment Report
Appendix 9-3: Botanical and Vegetation Resource Survey Field Report
Appendix 9-4: Mammal Species List
Appendix 9-5: Amphibian and Reptile Species List
Appendix 9-6: Bird Species List
Appendix 9-7: Terrestrial Species at Risk in the Local Assessment Area
Appendix 9-8: Breeding Evidence Maps for Selected Bird Species at Risk
Appendix 9-9: Summary of Potential Construction Effects on Terrestrial Valued Components Prior to Mitigation
Appendix 9-10: Summary of Potential Operations and Maintenance Effects on Terrestrial Valued Components Prior to Mitigation

Chapter 10

0.0	SOCIO-ECONOMIC AND CULTURAL ENVIRONMENT.....	10-1
10.1	Existing Conditions.....	10-5
10.1.1	Local Landscape	10-5
10.1.2	Socio-Economic and Cultural History.....	10-5
10.1.3	Overview of Regional Communities	10-6
10.1.4	Berens River First Nation and Poplar River First Nation Communities.....	10-9
10.1.5	Land and Resource Use.....	10-18
10.1.6	Traditional Knowledge and Land Use	10-31

MASTER TABLE OF CONTENTS

	Page
10.1.7 Valued Components	10-44
10.2 Socio-Economic and Cultural Effects and Mitigation.....	10-45
10.2.1 Valued Components and Project Interactions.....	10-45
10.2.2 Assessment of Potential Effects.....	10-47
10.2.3 Mitigation.....	10-47
10.2.4 Effects on the Socio-Economic and Cultural Environment	10-49
10.3 Summary of Project Residual Effects and Conclusion	10-81
10.3.1 Tourism	10-81
10.3.2 Hunting, Trapping, Fishing and Gathering	10-83
10.3.3 Travel Routes	10-86
10.3.4 Cultural, Heritage and Archaeological Resources.....	10-88
10.3.5 Human Health and Safety	10-88
