<sup>&</sup>lt;sup>1</sup> Only applicable to vascular flora.

Note: Species names in red are Priority Species.

<sup>&</sup>lt;sup>2</sup> These species were commonly observed through the PA. In addition to the dates listed, these species were observed during multiple surveys types and times during multiple survey years, including incidental observations.

<sup>&</sup>lt;sup>3</sup> Lichen species observed within the LSA and Haul Road.

<sup>&</sup>lt;sup>4</sup> Fish species observed within the specified study area, which extends beyond the PA.

Note: Observations that could not be identified to the species level have not been included in this list.
