MASTER TABLE OF CONTENTS

GLOSSARY OF TERMS AND ACRONYMS

CONCORDANCE TABLES

CHAPTER 1

1.0	INTRODUCTION AND OVERVIEW	1-1
1.1	The Proponent – Manitoba Infrastructure	1-1
1.1.1	Contact Information	1-1
1.1.2	Legal Entity.....	1-1
1.1.3	Corporate And Management Structures	1-1
1.1.4	Corporate Policy Implementation	1-2
1.1.5	Document Preparation	1-2
1.2	Project Overview.....	1-3
1.2.1	Project Components	1-11
1.2.2	Project Phases And Scheduling	1-11
1.2.3	The East Side Transportation Initiative.....	1-14
1.3	Project Location	1-16
1.3.1	Coordinates.....	1-16
1.3.2	Current Land Use	1-17
1.3.3	Proximity To Federal Lands.....	1-20
1.3.4	Environmental Significance Of The Area	1-20
1.3.5	Proximity To Environmentally Sensitive Areas	1-21
1.3.6	Description Of Local Communities	1-22
1.3.7	Proximity To Indigenous Territories, Treaty Lands And Reserves	1-22
1.4	Regulatory Framework And The Role Of Government.....	1-23
1.4.1	Federal Regulatory Requirements	1-23
1.4.2	Provincial Regulatory Requirements	1-24
1.4.3	Indigenous Governance	1-26
1.4.4	Land Use And Community Plans And Zoning.....	1-27
1.5	Environmental Assessment Overview	1-28
1.6	Report Organization.....	1-29

LIST OF FIGURES

Figure 1-1:	Proposed Project All-Season Road Alignment	1-4
Figure 1-2:	East Terminus Of The Proposed Project Alignment Near Manto Sipi Cree Nation	1-5
Figure 1-3:	Northwest Terminus Of The Proposed Project Alignment Near Bunibonibee Cree Nation	1-6

Figure 1-4: South Terminus Of The Proposed Project Alignment Near God’s Lake First Nation 1-7
 Figure 1-5: Intersection Of The Proposed Project Alignment Between Manto Sipi Cree Nation,
 Bunibonibee Cree Nation And God’s Lake First Nation 1-8
 Figure 1-6: Alignment Options For Proposed All-Season Road Segment Near Manto Sipi Cree
 Nation 1-9
 Figure 1-7: Proposed Major Water Crossings (Bridges) Along The Project Alignment..... 1-10
 Figure 1-8: Local Assessment Areas For The Proposed Project Showing Registered Traplines..... 1-12
 Figure 1-9: Regional Assessment Areas For The Proposed Project 1-13
 Figure 1-10: Regional Transportation Network Of Planned All-Season Roads On The East Side
 of Lake Winnipeg In The Large Area Transportation Network Study. 1-15
 Figure 1-11: Ecodistricts And Areas Of Special Interest In The Vicinity Of The Proposed Project..... 1-18
 Figure 1-12: Land Cover In The Vicinity Of The Proposed Project 1-19
 Figure 1-13: Summary Of Environmental Assessment Approach 1-29

CHAPTER 2

2.0 PROJECT JUSTIFICATION AND ALTERNATIVES CONSIDERED2-1
 2.1 Purpose of the Project 2-1
 2.1.1 Background 2-1
 2.1.2 Project Need 2-3
 2.1.3 Project Objectives 2-3
 2.2 Alternative Means of Carrying Out the Project 2-4
 2.2.1 Alternative Transportation Options..... 2-4
 2.2.2 Road Route Alignment 2-6
 2.2.3 Watercourse Crossings 2-11
 2.2.4 Access Roads..... 2-12
 2.2.5 Borrow Areas, Quarries and Pits..... 2-12
 2.2.6 Construction Camps and Staging Areas 2-13

LIST OF TABLES

Table 2.1: Alternative Surface and Air Transportation Modes 2-5
 Table 2.2: Chronology of Alignment Revisions to the Proposed Project All-Season Road
 Route Options (Refer to Figure 2-1) 2-10

LIST OF FIGURES

Figure 2-1: History of the proposed Project all-season road alignment alternatives 2-7
 Figure 2-2: Alignment options for proposed all-season road segment near Manto Sipi Cree
 Nation 2-9

CHAPTER 3

3.0	PROJECT DESCRIPTION	3-1
3.1	Scope of the Project.....	3-1
3.2	Project Phases.....	3-1
3.2.1	Planning	3-1
3.2.2	Design	3-3
3.2.3	Construction	3-3
3.2.4	Operation and Maintenance.....	3-4
3.2.5	Decommissioning.....	3-4
3.3	Project Components	3-4
3.3.1	All-Season Road	3-5
3.3.2	Watercourse Crossings	3-6
3.3.3	Temporary Access.....	3-14
3.3.4	Temporary Construction Laydown Areas	3-14
3.3.5	Quarries and Borrow Areas	3-15
3.3.6	Water Management Infrastructure	3-17
3.3.7	Temporary Construction Camps	3-17
3.3.8	Waste Disposal.....	3-18
3.3.9	Facilities for the Storage of Explosives	3-19
3.4	Project Activities	3-20
3.4.1	Site Preparation and Construction	3-21
3.4.2	Operation.....	3-30
3.5	Project Schedule	3-34
3.6	Project Funding.....	3-35

LIST OF TABLES

Table 3.1:	Geometric Design Criteria for the Proposed Project.....	3-6
Table 3.2:	List of Watercourse Crossings and Proposed Crossing Structure.....	3-8
Table 3.3:	Expected Fuels and Hazardous Materials List.....	3-19
Table 3.4:	Project Activities Expected During Construction and Operation and Maintenance Project Phases.....	3-20
Table 3.5:	Expected Construction Materials List	3-25
Table 3.6:	Estimated Quantities of Raw Materials Required for Project Construction.....	3-26
Table 3.7:	Expected Construction Equipment and Vehicles Used for Project Components	3-27
Table 3.8:	Planned Project Schedule	3-34

LIST OF FIGURES

Figure 3-1:	Proposed Project all-season road alignment on the east side of Lake Winnipeg	3-2
Figure 3-2:	Proposed Project all-season road watercourse crossings	3-7
Figure 3-3:	Example of Culvert Installation Method for Boreal Fen and Bog Areas (after Louisiana Pacific et al. 2014).....	3-13
Figure 3-4:	Potential Construction Quarry Sites	3-16

LIST OF PHOTOGRAPHS¹

Photograph 3-1:	Typical Multi-Span Bridge With Piers – Longbody Creek (Project P1)	3-10
Photograph 3-2:	Typical Clear-Span Bridge – Loon Creek (Project P1)	3-11
Photograph 3-3:	Typical Multi-Culvert Stream Crossing	3-12
Photograph 3-4:	Typical Single-Culvert Stream Crossing	3-12
Photograph 3-5:	Typical All-Season Road 60 Metre-Wide Right-of-Way Clearing for Construction	3-22
Photograph 3-6:	Typical Road Construction along an All-Season Road Right-of-Way.....	3-24

LIST OF APPENDICES

Appendix 3-1:	Manitoba Infrastructure Geometric Design Criteria and Typical Cross Section Drawings
Appendix 3-2:	Representative Watercourse Crossing Design Drawings
Appendix 3-3:	Examples of Erosion and Sedimentation Control Methods
Appendix 3-4:	Culvert Installation at Environmentally Sensitive Watercourse Crossings
Appendix 3-5:	Manitoba Infrastructure Native Revegetation Program
Appendix 3-6:	Manitoba Infrastructure Nuisance Beaver Management Program
Appendix 3-7:	Topographic Maps of Route Alignment

CHAPTER 4

4.0	ENVIRONMENTAL ASSESSMENT APPROACH	4-1
4.1	Introduction	4-1
4.2	Overview of Approach	4-1
4.3	Scope of the Environmental Assessment	4-6
	4.3.1 Project Description	4-6
	4.3.2 Factors to be Considered	4-6
	4.3.3 Spatial and Temporal Boundaries.....	4-6
4.4	Sources of Information	4-11
	4.4.1 Other Environmental Assessments and Reviews	4-13
	4.4.2 Project 6 Baseline Studies.....	4-13
	4.4.3 Community Knowledge, Traditional Knowledge, Land Use and Heritage Resource Studies.....	4-14
	4.4.4 Indigenous and Public Engagement Program.....	4-14
	4.4.5 Other Information Sources	4-15
4.5	Assessment Approach.....	4-15
	4.5.1 Selection of Valued Components	4-15
	4.5.2 Project Setting and Baseline Conditions	4-17

¹ Unless otherwise indicated, photos showing construction-related activities and components such as constructed road, bridges and culverts are from the Project 1 area (P1 All-Season Road recently constructed between PR 304 and Berens River First Nation).

4.5.3	Identification of Potential Effects	4-18
4.5.4	Mitigation of Adverse Effects	4-19
4.5.5	Assessment of Residual Effects.....	4-19
4.5.6	Other Effects to Consider.....	4-26
4.5.7	Follow-up Program	4-27

LIST OF TABLES

Table 4.1:	Canadian Environmental Assessment Agency’s OPS, Technical Guidance Documents and Reference Guides under the CEAA, 2012 and Policies and Guidelines under the Species at Risk Act.....	4-3
Table 4.2:	Information Sources for the EA	4-11
Table 4.3:	Factors Considered in Identifying Potential Environmental Effects	4-18
Table 4.4:	Description of Assessment Criteria and Levels of Potential Environmental Effects.....	4-20
Table 4.5:	Description of Magnitude Criteria and VC Specific Levels of Potential Environmental Effects.....	4-22

LIST OF FIGURES

Figure 4-1:	Local Assessment Areas for the proposed Project	4-9
Figure 4-2:	Regional Assessment Areas for the proposed Project.....	4-10

LIST OF APPENDICES

Appendix 4-1:	Valued Components and Rationale for Their Selection
Appendix 4-2:	Baseline Consultants Memorandum - Valued Components and Rationale for Their Selection

CHAPTER 5

5.0	INDIGENOUS AND PUBLIC ENGAGEMENT	5-1
5.1	Indigenous and Public Engagement Objectives and Approaches.....	5-1
5.1.1	Objectives	5-1
5.1.2	Engagement Methods.....	5-3
5.1.3	Traditional Knowledge.....	5-5
5.2	Engagement History on the East Side of Lake Winnipeg	5-6
5.2.1	Initial Provincial Engagement Steps.....	5-6
5.2.2	The East Side of Lake Winnipeg All-Weather Road Feasibility Study	5-9
5.2.3	Large Area Transportation Network Study	5-11
5.2.4	Project Level Planning and Design – Road Alignment Selection and Refinement	5-13
5.3	Indigenous Groups to Engage and Engagement Activities	5-17

5.3.1	Round 4 – Project Overview and Environmental Impact Assessment	5-18
5.3.2	Round 5 – Valued Components, Potential Effects and Mitigation	5-20
5.3.3	Round 6 – Potential Effects and Mitigation Confirmation.....	5-22
5.3.4	Other Engagement Activities	5-24
5.4	Public Consultation	5-25
5.4.1	Other Indigenous Groups	5-28
5.4.2	Government Engagement.....	5-30
5.5	Summary of Key Engagement Activities	5-31
5.6	Summary of Questions, Comments and Responses	5-33
5.7	Future Engagement Activities.....	5-59

LIST OF TABLES

Table 5.1:	Indigenous and Public Engagement Methods Used by MI for Projects on the East Side of Lake Winnipeg Including the Proposed Project.....	5-3
Table 5.2:	Summary of Community Comments Related to Existing and Future Road Networks Compiled by the Feasibility Study	5-10
Table 5.3:	Round 1 Summary of Comments.....	5-12
Table 5.4:	Round 2 Summary of Comments.....	5-13
Table 5.5:	Summary of Key Round 3 Meetings.....	5-14
Table 5.6:	Training Courses Delivered to Manto Sipi Cree Nation, Bunibonabee Cree Nation and God’s Lake First Nation Members.....	5-25
Table 5.7:	Summary of Project Engagement Activities.....	5-31
Table 5.8:	Summary of Key Questions and Comments Received from Directly Affected Communities, Response and Reference Location in the EIS	5-33
Table 5.9:	Summary of Key Questions and Comments Received from Other Indigenous Communities and the Public, Response and Reference Location in the EIS	5-46
Table 5.10:	Summary of Key Questions and Comments Received from Government, Response and Reference Location in the EIS	5-52
Table 5.11:	Summary of Proposed Future Engagement Activities & Notifications for Directly Affected Communities	5-60
Table 5.12:	Summary of Proposed Future Engagement Activities & Notifications for other Indigenous Communities	5-60

LIST OF FIGURES

Figure 5-1:	Steps to select, design and construct an all-season road.....	5-2
Figure 5-2:	Summary of MI’s all-season road planning process and rounds of public engagement	5-7

LIST OF APPENDICES

Appendix 5-1:	Summary of Community Engagement Comments (Round 1)
Appendix 5-2:	Summary Feedback from Round 2 Leadership and Community Meetings
Appendix 5-3:	Round 4 IPEP Community Meeting Summaries
Appendix 5-4:	Round 5 IPEP Community Meeting Summaries

- Appendix 5-5: Round 6 IPEP Community Meeting Summaries
- Appendix 5-6: Letters to Indigenous Groups Regarding the Submission of the EIS
- Appendix 5-7: Letters to Indigenous Groups Regarding the Posting of Annex A on the Manitoba Infrastructure Website
- Appendix 5-8: Winnipeg Open House Summaries
- Appendix 5-9: Manitoba Infrastructure Engagement Letter to Other Indigenous Groups
- Appendix 5-10: Manitoba Metis Federation Response to Engagement Letter
- Appendix 5-11: Manitoba Infrastructure Letter to Manitoba Metis Federation Requesting Supporting Information
- Appendix 5-12: Manitoba Metis Federation Response to Manitoba Infrastructure’s Request for Supporting Information
- Appendix 5-13: Comments Submitted to the Canadian Environmental Assessment Agency

CHAPTER 6

6.0	EFFECTS ASSESSMENT	6-1
6.1	Project Setting and Baseline Conditions	6-1
6.1.1	Atmospheric Environment	6-1
6.1.2	Geology and Geochemistry	6-8
6.1.3	Topography and Soil	6-13
6.1.4	Riparian, Wetland and Terrestrial Environments	6-20
6.1.5	Groundwater and Surface Water	6-47
6.1.6	Fish and Fish Habitat	6-53
6.1.7	Migratory Birds and Habitat	6-62
6.1.8	Species at Risk	6-67
6.1.9	Indigenous Peoples	6-89
6.1.10	Federal Decisions and Transboundary Effects	6-129
6.1.11	Human Environment	6-1230
6.2	Predicted Changes to the Physical Environment	6-135
6.2.1	Changes to Atmospheric Environment	6-136
6.2.2	Changes to Geology and Geochemistry	6-142
6.2.3	Changes to Topography and Soil	6-143
6.2.4	Changes to Groundwater and Surface Water	6-144
6.2.5	Changes to Riparian, Wetland and Terrestrial Environments	6-148
6.3	Predicted Effects on Valued Components	6-163
6.3.1	Fish and Fish Habitat	6-164
6.3.2	Migratory Birds	6-172
6.3.3	Species at Risk	6-176
6.3.4	Indigenous Peoples and Human Health	6-181
6.3.5	Federal Decision and Transboundary Effects	6-192
6.4	Mitigation	6-193
6.4.1	Atmospheric Environment	6-194
6.4.2	Geology and Geochemistry	6-196
6.4.3	Topography and Soil	6-196

6.4.4	Groundwater and Surface Water	6-199
6.4.5	Riparian, Wetland and Terrestrial Environments	6-201
6.4.6	Fish and Fish Habitat.....	6-209
6.4.7	Migratory Birds	6-213
6.4.8	Species at Risk.....	6-215
6.4.9	Indigenous Peoples	6-217
6.4.10	Federal Decision and Transboundary Effects	6-225
6.5	Significance of Residual Effects.....	6-225
6.5.1	Atmospheric Environment.....	6-226
6.5.2	Geology and Geochemistry.....	6-229
6.5.3	Topography and Soil	6-229
6.5.4	Groundwater and Surface Water	6-230
6.5.5	Riparian, Wetland and Terrestrial Environments	6-233
6.5.6	Fish and Fish Habitat.....	6-240
6.5.7	Migratory Birds	6-243
6.5.8	Species at Risk.....	6-245
6.5.9	Indigenous Peoples	6-248
6.5.10	Federal Decision and Transboundary Effects	6-254
6.6	Other Effects	6-254
6.6.1	Effects of Potential Accidents or Malfunctions	6-254
6.6.2	Effects of the Environment on the Project	6-260
6.6.3	Cumulative Effects Assessment	6-268

LIST OF TABLES

Table 6.1:	Monthly Temperature, Rainfall and Snowfall Data from the Island Lake Climate Station (1981 to 2010)	6-4
Table 6.2:	Area (km ²) and Percent Coverage of Soil Classes Among Assessment Areas	6-15
Table 6.3:	Vegetation Cover Classes among Vegetation Assessment Areas	6-23
Table 6.4:	Land Burned by Forest Fire among Vegetation Assessment Areas.	6-25
Table 6.5:	Plants of Sustenance and Cultural Value Identified by Members of the Manto Sipi Cree Nation, Bunibonibee Cree Nation and God's Lake First Nation Within the Vegetation Local Assessment Area	6-30
Table 6.6:	Area and Proportion of Wetland Types Among Vegetation Assessment Areas.....	6-35
Table 6.7:	Trail Camera data for caribou, moose, wolf and bear in the Wildlife RAA, March 1, 2016 to March 31, 2017.....	6-38
Table 6.8:	Trail Camera Counts for Furbearer in the Wildlife RAA, March 1, 2016 to March 31, 2017	6-39
Table 6.9:	Aerial Multi-Species Surveys conducted in portions of the RAA, 2012 – 2016	6-40
Table 6.10:	Aerial Moose Survey Results.....	6-42
Table 6.11:	Mammal Species Observation by Participants of Wildlife Workshops in Local Communities.....	6-43
Table 6.12:	Key Attributes of Major Watercourse Crossings Along the All-Season Road	6-47
Table 6.13:	Key In situ Water Quality Measured at Major Watercourse Crossings Along the Proposed All-Season Road (June 2016)	6-51

Table 6.14:	Documented Fish Species Presence in Major Watercourses in the Aquatic RAA	6-55
Table 6.15:	Aquatic Environment Characteristics of Watercourse Crossings Along the All-Season Road Alignment.	6-58
Table 6.16:	Total number of bird observations by habitat type.....	6-68
Table 6.17:	Vegetation Species at Risk previously recorded in the God’s Lake area and surrounding Hayes River Upland Ecoregion.	6-68
Table 6.18:	Mammal Species at Risk That May Occur in the Wildlife Regional Assessment Area.....	6-70
Table 6.19:	Bird Species at Risk That May Occur in the Wildlife Regional Assessment Area.....	6-79
Table 6.20:	Manto Sipi Cree Nation: On-Reserve Population 2016 and 2011	6-93
Table 6.21:	Population Demographics for Manto Sipi Cree Nation, 2011	6-93
Table 6.22:	Select Local Businesses in Manto Sipi Cree Nation.....	6-94
Table 6.23:	Overview of Infrastructure and Utilities – Manto Sipi Cree Nation.....	6-96
Table 6.24:	Summary of Services in Manto Sipi Cree Nation	6-96
Table 6.25:	Bunibonibee Cree Nation: On-Reserve Population 2016 and 2011	6-99
Table 6.26:	Population Demographics for Bunibonibee Cree Nation, 2011	6-100
Table 6.27:	Select Local Businesses in Bunibonibee Cree Nation.....	6-101
Table 6.28:	Overview of Infrastructure and Utilities – Bunibonibee Cree Nation.....	6-101
Table 6.29:	Summary of Services in Bunibonibee Cree Nation	6-103
Table 6.30:	God’s Lake First Nation: On-Reserve Population 2016 and 2011.....	6-106
Table 6.31:	Population Demographics for God’s Lake First Nation, 2011.....	6-107
Table 6.32:	Select Local Businesses in God’s Lake First Nation	6-109
Table 6.33:	Overview of Infrastructure and Utilities – God’s Lake First Nation	6-109
Table 6.34:	Summary of Services in God’s Lake First Nation.....	6-110
Table 6.35:	God’s Lake Narrows Northern Affairs Community Population, 1985 to 2016	6-113
Table 6.36:	Population Demographics for God’s Lake Narrows Northern Affairs Community, 2016	6-114
Table 6.37:	Select Local Businesses in God’s Lake Narrows Northern Affairs Community	6-114
Table 6.38:	Overview of Infrastructure and Utilities – God’s Lake Narrows Northern Affairs Community.....	6-115
Table 6.39:	Summary of Services in God’s Lake Narrows Northern Affairs Community.....	6-115
Table 6.40:	Harvesting Areas for Plants of Sustenance and Cultural Value Identified by Community Members.	6-133
Table 6.41:	Total Habitat Alteration and Loss at the Proposed Watercourse Crossings.....	6-170
Table 6.42:	Accidents and Malfunctions – Release of Hazardous Materials.....	6-255
Table 6.43:	Potential Accidents and Malfunctions, Mitigation Measures and Evaluation of Environmental Risk	6-262
Table 6.44:	Evaluation of Effects of the Environment on the Project	6-269
Table 6.45:	Past, Present and Future Physical Activities Considered in the Cumulative Effects Assessment	6-276
Table 6.46:	Summary of Cumulative Residual Environmental Effects on VCs	6-278

LIST OF FIGURES

LIST OF APPENDICES

Appendix 6-1: Plant Species Observed in the Vegetation Local Assessment Area
 Appendix 6-2: Bird Species Observed in the Wildlife Regional Assessment Area
 Appendix 6-3: Interaction Between the VCs and Key Project Activities
 Appendix 6-4: Assessment of Environmental Effects Before Application of Proposed Mitigation
 Measures
 Appendix 6-5: Assessment of Environmental Effects After Application of Proposed Mitigation Measures

CHAPTER 7

7.0 SUMMARY AND CONCLUSION 7-1
 7.1 Summary 7-1
 7.1.1 All-Season Road Network 7-1
 7.1.2 Proposed Project..... 7-1
 7.1.3 Environmental Setting 7-2
 7.1.4 Engagement Program 7-3
 7.1.5 Environmental Assessment..... 7-3
 7.1.6 Environmental Protection..... 7-4
 7.2 Conclusion..... 7-4

LIST OF APPENDICES

Appendix 7-1: Environmental Assessment Summary Table

CHAPTER 8

8.0	ENVIRONMENTAL PROTECTION AND SUSTAINABLE DEVELOPMENT	8-1
8.1	MI’s Environmental Commitment	8-1
8.2	Environmental Protection – Project Planning.....	8-1
	8.2.1 Stakeholder Involvement and Design Mitigation	8-3
8.3	Environmental Protection - Construction Planning.....	8-6
	8.3.1 Environmental Management Plan	8-6
	8.3.2 Environmental Protection Procedures	8-8
8.4	Environmental Protection - Construction.....	8-8
	8.4.1 Contract Specifications	8-9
	8.4.2 Contractor-Required Plans	8-10
8.5	Environmental Protection - Operations and Maintenance	8-12
8.6	Management Structure, Compliance and Reporting.....	8-12
	8.6.1 Monitoring and Compliance	8-15
	8.6.2 Schedule and Activity Tracking	8-16
	8.6.3 Project Construction and Contractor Requirements	8-17
	8.6.4 Reporting	8-17
8.7	Commitment to Sustainable Development	8-19

LIST OF TABLES

Table 8.1:	Design Mitigation Resulting from Community Feedback	8-5
Table 8.2:	Environmental Components and Associated Protections	8-15

LIST OF FIGURES

Figure 8-1:	MI’s environmental program across Project stages	8-2

LIST OF APPENDICES

Appendix 8-1:	Project 6 - All-Season Road Linking Manto Sipi Cree Nation, Bunibonibee Cree Nation and God’s Lake First Nation Environmental Management Plan Framework
Appendix 8-2:	Environmental Protection Procedures
Appendix 8-3:	Environmental Protection Specifications
Appendix 8-4:	Safe Work Plan (Sample)
Appendix 8-5:	Sustainability Assessment of the Proposed Project

CHAPTER 9

9.0 FOLLOW-UP AND MONITORING PROGRAMS9-1

9.1 Follow-up Program 9-1

 9.1.1 Inspection 9-2

 9.1.2 Monitoring 9-2

9.2 Management Structure..... 9-3

9.3 Compliance Monitoring Program 9-4

 9.3.1 Oversight of Design and Construction Plans..... 9-4

 9.3.2 Preliminary Environmental Monitoring Programs..... 9-5

 9.3.3 Construction Monitoring 9-5

 9.3.4 Post-Construction Monitoring 9-6

9.4 Reporting 9-6

LIST OF APPENDICES

Appendix 9-1: Mitigation Inspections at Watercourse Crossings

CHAPTER 10

10.0 REFERENCES 10-1

10.1 Literature Cited 10-1

10.2 Personal Communications 10-22

TECHNICAL REPORTS

Appendix A: Greenhouse Gas Follow-Up Assessment

Appendix B: Vegetation Reports

 Appendix B-1: Botanical and Vegetation Resource Survey of the Proposed All-Season Road
 Project 6: Field Report

 Appendix B-2: Vegetation Characterization and Effects Assessment of the Proposed All-Season
 Road Project 6 Interim Report

Appendix C: Aquatic Environment Reports

 Appendix C-1: Project 6 – All Season Road Linking Manto Sipi Cree Nation, Bunibonibee Cree
 Nation and God’s Lake First Nation, Aquatic Environment Report – Effects
 Assessment

 Appendix C-2: Project 6 – All Season Road Linking Manto Sipi Cree Nation, Bunibonibee Cree
 Nation and God’s Lake First Nation, Aquatic Environment Report – Existing
 Environment

Appendix D: Wildlife Reports

 Appendix D-1: Project 6: Existing Environment Wildlife Report

Appendix D-2: Wildlife Characterization and Effects Assessment of the Proposed All-Season
Road Project 6
