

ERRATA to March 2022 version

*Page 48 - Section 4.3*

*Add the following item to the list :*

- 1. the materials from the waste rocks will be returned to the storage piles with the waste rock of the last 6 months of operation.*

*Page 54 - Section 4.8*

*Replace the first sentence with the following two sentences:*

*Once the mining operations completed, the road infrastructure will be dismantled, the geomembrane sent to a licensed landfill, the waste rock and some of the borrow material from the road base sent to the storage piles, along with the waste rock from the last 6 months of operation. The borrow materials used as road base will be characterized before they are reused for the reclamation of the site. If a portion was found to be contaminated with waste rock leachate, it would be transported to the waste rock storage piles, if a portion was found to be contaminated with oil, it would be transported to a site authorized for that purpose.*
