**SENT BY EMAIL ONLY** 

Timothy Greene Chairman Makah Tribal Council <sensitive information removed>

Neah Bay, WA <sensitive informat USA

<sensitive information removed>

Dear Honorable Timothy Greene:

Subject: Joint BC Environmental Assessment Office (EAO) and Impact Assessment Agency of Canada (IAAC) - end of the Planning phase for the GCT Deltaport Expansion – Berth Four Project

The objective of this letter is to:

- Inform you that the Impact Statement Development and Review Phase has formally commenced; and
- Inform you of the finalisation of key documents from the Planning Phase:
  - Joint Guidelines
  - o Joint Indigenous Engagement and Partnership Plan
  - o Joint Assessment Plan
  - Joint Permitting and Regulatory Coordination Plan; and
  - o the provincial Process Order

Section 4.2 of the Joint Indigenous Engagement and Partnership Plan describes IAAC's and EAO's objectives in engaging with Tribes of Washington State, and includes information about Makah Indian Tribe of the Makah Indian Reservation.

EAO sent a notification about the project on April 1, 2022 and did not receive a response; however, IAAC and EAO are aware that Makah Indian Tribe of the Makah Indian Reservation has participated in environmental assessment processes in this region of Canada in the past. If Makah Indian Tribe of the Makah Indian Reservation would like to discuss involvement in the next steps of the assessment process related to the project, please let us know some dates and times that you are available to meet.

## End of the Planning phase and commencement of the Impact Statement phase

On October 28, 2021, the EAO issued a notice of the Readiness Decision and IAAC issued an Impact Assessment Decision to proceed to an assessment, which initiated the Planning phase for this project. On November 3, 2021, the Minister of the Environment Climate Change Canada referred the project to assessment by Review Panel. During the Planning phase, IAAC and EAO worked closely with Indigenous nations, the proponent and other interested parties to develop the final documents listed above. IAAC and EAO are committed to a coordinated assessment process and cooperation throughout all phases of the EA, per the overarching Impact Assessment Cooperation Agreement Between Canada and British Columbia.

On May 31, 2022, IAAC issued a Notice of Commencement for the Impact Statement phase and EAO issued the Process Order and Joint Permitting/Regulatory Coordination Plan. This means we have begun the Impact Statement Development and Review phase, which has a legislated time limit of three years (up to May 31, 2025). During this phase, the Proponent will collect information and conduct studies, as outlined in the Joint Guidelines.

## Next Steps

IAAC and EAO have included the Makah Indian Tribe of the Makah Indian Reservation to our distribution list, by which you will be receiving updates and notices on the coordinated assessment of the project as the process unfolds.

If you have questions, concerns or would like to set up a meeting with IAAC and EAO, please do not hesitate to contact us at your earliest convenience.

Thank you.

## Sincerely,

Angeles Albornoz Senior Project Analyst Impact Assessment Agency of Canada
