Dear Colleagues:

Subject: Designation Request for the Proposed GTA West Project under the *Impact Assessment Act*

On February 3, 2021, the Minister of Environment and Climate Change received a request to designate the proposed GTA West Project under subsection 9(1) of the *Impact Assessment Act* (IAA). The designation request from Ecojustice, on behalf of Environmental Defense, is enclosed (Enclosure 1).

The Proposed Project

The Ontario Ministry of Transportation is proposing the construction and operation, including maintenance, of a new 59-kilometre all-season public highway in the northwest Greater Toronto Area. The proposed new highway, which would be named Highway 413, would connect highway 400 between Kirby Road and King-Vaughan Road in the east, to the highway 401/407 interchange area, near the northern end of highway 403, in the west. The highway would stretch through the municipalities of Vaughan, Caledon, Brampton and Halton Hills in the regions of York, Peel and Halton. The Project as proposed is not a designated project as described in the *Physical Activities Regulations*. The impact assessment process under IAA only applies to designated projects.

Further information on the Project can be found on the proponent's website (<https://www.gta-west.com/>).

.../2

Provincial Process

The Government of Ontario is proposing to create a new streamlined process for assessing potential environmental impacts of the Project, as well as consulting on it. More information on this is available at: ero.ontario.ca/notice/019-1882

Designation Request

Under subsection 9(1) of IAA the Minister may, by order, designate a physical activity that is not prescribed in the *Physical Activities Regulations*. The Minister may do this, if, in the Minister's opinion, the physical activity may cause adverse effects within federal jurisdiction or adverse direct or incidental effects (resulting from a federal decision), or public concerns related to those effects warrant the designation. In accordance with subsection 9(4) of IAA, it is expected that the Minister will respond, with reasons, to the request by May 4, 2021.

The Impact Assessment Agency of Canada will review information about the Project, any concerns expressed by the public and Indigenous groups, expert advice from federal authorities and input from provincial ministries and municipalities to prepare a recommendation to the Minister on whether to designate the Project. If the Project were designated by the Minister, the Ontario Ministry of Transportation (the proponent) would be prohibited from carrying out the Project and would be required to submit an Initial Project Description, thereby commencing the planning phase of IAA. During the planning phase, the Agency would determine whether an impact assessment is required.

Additional information regarding the process for designation requests can be found at the following link: <https://www.canada.ca/en/impact-assessment-agency/services/policy-guidance/designating-project-impact-assessment-act.html>

Invitation for Input

The Agency notes that the project assessment process by the Ontario Ministry of Transportation has included consultation with your municipality. However, to support the Agency's analysis of the designation request, we wish to invite the views and input from representatives of your municipality.

In particular, the Agency would like to confirm whether any bylaws or requirements of your municipality apply to the Project.

- If applicable, would any of those involve consultation with the public and Indigenous groups?
- If applicable, what environmental, social, economic or health issues would those bylaws or requirements address?

In general, please confirm whether the Ontario Ministry of Transportation is addressing the interests and issues of importance to your municipality. The Agency will be pleased to receive any other comments. Given the legislated timeline for the Minister to make a decision, your response is requested by **Wednesday, March 3, 2021**.

In the coming days, a Registry page for the Project will be available on the Canadian Impact Assessment Registry Internet site at [iaac-aeic.gc.ca/050/evaluations](https://www.iaac-aeic.gc.ca/050/evaluations). Please use the *Submit a Comment* feature on the Project's Registry page to provide the Agency with information regarding this file. Letters can be uploaded using this feature. If you have difficulties using this feature, please immediately contact Owais Khurshid, Project Manager, at owais.khurshid@canada.ca or 647-262-8046.

Important Note:

All records produced, collected or received in relation to the designation request process – unless prohibited under the *Access to Information Act* or *Privacy Act*¹ – are considered public and may be released. The Agency's Submission Policy determines which submitted information can be shared publicly, and what should remain private. For further information on how we protect your privacy, please refer to the Privacy Notice².
