Dear Ms. Siddiqui,

**Reference: Horsefly Regional Emergency Spillway Project: Detailed Project Description  
Timeline Suspension Request**

On December 8, 2021, the Impact Assessment Agency of Canada (the Agency) issued the Summary of Issues for the Horsefly Regional Emergency Spillway Project by the Municipal District of Taber. In the cover letter, the Agency notes that pursuant to subsection 15(1) of the *Impact Assessment Act*, The Municipal District of Taber must provide the Agency with a Detailed Project Description that sets out how it intends to address the issues outlined in the Summary of Issues and include the information described in the *Information and Management of Time Limits Regulations*. The Agency requests the Detailed Project Description be provided by January 6, 2022.

Stantec Consulting Ltd., on behalf of the Municipal of Taber, will need time beyond January 6, 2022 to prepare the Detailed Project Description containing the required information and a response to the Summary of Issues. We are requesting the Agency suspend the time limit until the required information is provided. We estimate this information will be provided by January 31, 2022.

Thank you for your understanding for this request in the planning stage of the Impact Assessment.

Regards,
