Dear Pierre-Philippe Dupont:

**Subject: Summary Table of Comments Received during the
Planning Phase of the Impact Assessment for the Crawford
Nickel Project**

The Impact Assessment Agency of Canada (the Agency) is writing to share a summary table of comments (**Enclosure 1**) to demonstrate how comments received during the Planning phase from Indigenous communities, the public, municipalities, federal departments, and provincial ministries were considered in the finalized Tailored Impact Statement Guidelines (the Guidelines).

The Agency will be notifying the Project's public distribution list, municipalities, federal departments, provincial ministries, and Indigenous communities engaged on the Project that the summary table of comments is posted on the Registry page for the Project.

This information may help inform the proposed Indigenous engagement activities that the Proponent will undertake in fulfilling the requirement of Section 6 of the Guidelines. Please note that the Proponent should validate and address the information contained in this attachment with the Indigenous communities.

.../2

In addition, the summary table contains summarized comments directed at both the Agency and the Proponent, from Indigenous communities and the public. The Agency requests that the Proponent note especially the comments in row numbers 7, 25, 29, 33, and 37 and use all comments and responses in the table to inform the development of the Impact Statement.

Sincerely,

<Original signed by>

Grant Jensen
Project Manager

Enclosures: Summary Table of Comments
