This information will be used to develop an updated, more detailed, federal Permitting Plan² for the Crawford Nickel Project and to provide guidance to the proponent on next steps for applicable permits, authorizations or licenses (“permits”).

1. Review the Impact Statement and any other documents presented by the proponent and complete Table 1:
 - characterize the likelihood that a federal permit will be required to start construction;
 - identify information or actions needed to confirm if a permit will be required;
 - indicate whether information provided in the Impact Statement could be sufficient to complete the permitting process, or briefly describe what is missing or needs to be resolved; and
 - indicate if any federal permits are missing and update the table accordingly.
2. Please indicate any other relevant guidance on permitting, or issues related to permitting, you would like to highlight to the proponent (use point form and plain language):
 - [Insert comments here]
 - [Insert comments here]
 - [Insert comments here]
3. Please indicate if a meeting with the Proponent to discuss your federal permits is needed.
 Yes No

¹ All comments should be submitted via the **Submit a Comment** feature available on the Project’s Canadian Impact Assessment Registry page (CIAR #83857). Letters and forms can be uploaded using this feature. If you have any difficulties submitting this way, please contact IAAC at Crawford@iaac-aeic.gc.ca for assistance.
