RE: Moraine Power Generation Project: Reference No. 84591

Dear Hon. Steven Guilbeault:

Moraine is submitting this request to the Impact Assessment Agency of Canada (IAAC) to suspend the impact assessment process timeline to prepare responses to the Summary of Issues and to submit the Detailed Project Description (DPD) for the Moraine Power Generation Project (the Project).

The Project is currently in the Planning Phase and the Initial Project Description for the Project was submitted to the IAAC on April 26, 2023. A Summary of Issues was received from the IAAC by Moraine on July 17, 2023. The deadline to respond to the Summary of Issues and submit the DPD is currently August 16, 2023.

To effectively respond to the IAAC's Summary of Issues, Moraine requests that the IAAC suspend the timeline for submission of the DPD. During this suspension period, Moraine intends to meet with IAAC through a series of meetings to confirm that the Summary of Issues are being addressed appropriately with a level of detail sufficient for IAAC's review and information needs.

Moraine remains committed to doing its part to advance the review of this Project in a timely and efficient manner and appreciates the IAAC's efforts to provide an efficient regulatory review process. If you have any questions regarding this request, please contact me at ^{<personal information removed>} (<Email address removed>) or Jason Doupe at ^{<personal information removed>} (<Email address removed>).

Sincerely,

<original signed by>

Roy S, Belden, Vice President
