### **World Energy GH2 Inc. Additional Information Request: Potential Designation Request under the IAA**

If a designation request is required, the Agency may request additional information from World Energy GH2 Inc. about the Project at that time. However, if any of this information is currently available, it may expedite the potential review process, or may be relevant to the Agency's initial review to determine if the Project is on the Project List.

In particular, the Agency requests available information regarding:

1. Information about key Project activities, maps and layouts of the location of Project components, land tenure, and zoning.
2. Description of the Project's potential effects on:
  - a. components of the environment within legislative authority of Parliament:
    - i. fish and fish habitat;
    - ii. migratory birds; and
    - iii. species at risk.
  - b. the environment that would occur on federal lands and lands outside Newfoundland and Labrador or Canada;
  - c. potential greenhouse gas emissions during all phases of the Project including loss of carbon sequestration;
  - d. Indigenous peoples resulting from changes to the environment (e.g. changes to the environment impacting physical and cultural heritage, current use of lands and resources for traditional purposes, and structures, sites or things of historical, archaeological, paleontological or architectural significance) or changes to their health, social or economic conditions;
  - e. the rights of Indigenous peoples recognized and affirmed by section 35 of the *Constitution Act*, and
  - f. on the environment or to health, social or economic conditions that are directly linked or necessarily incidental to a federal authority's exercise of a power, performance of a duty or function, or provision of financial assistance, that would enable the carrying out of the Project, in whole or in part.
3. Any federal financial assistance that would be required, or has already been attained or provided, for the Project and the associated project components or activities.
4.
  - a) For each regulatory approval that would be required, please provide the following information:

- i. name of the licence, permit, authorization or approval, the associated legislative framework, and the responsible jurisdiction;
  - ii. the status of attaining any regulatory approvals;
  - iii. whether it would involve an assessment of any of the effects outlined in the paragraphs above, and if so, a general description of the assessment that you intend to undertake and if applicable, any benchmarks or standards you intend to meet;
  - iv. whether conditions be set and if yes, what effects would those conditions address;
  - v. whether public and/or Indigenous consultation would be required and if yes, provide information on the approach you intend to take (if any steps have been taken, please provide a summary, including issues raised as well as your responses); and
  - vi. if the Project is anticipated to result in changes or cumulative effects, how you intend to manage those impacts.
- b) Identify whether any licence, permit, authorization or approval listed above would address any of the following matters:
  - i. cumulative effects, effects of potential accidents or malfunctions, alternatives to and alternative means of carrying out the project and long-term management of waste; and
  - ii. if yes, discuss, in general, the benchmarks or standards that you intend to meet (or would be expected to meet).
5. If the Project is anticipated to result in effects within federal jurisdiction including cumulative effects, how you intend to manage those impacts.
6. For all federal licences, permits, authorizations, approvals, and/or financial assistance that has or may be provided for the Project, describe any anticipated adverse direct or incidental effects (including changes to health, social and economic conditions) that may occur as a result.
7. What steps have you taken to consult with the public? What steps do you plan to undertake during all phases of the Project? Are you aware of any public concerns in relation to this project? If yes, provide an overview of the key issues and the way in which (in general terms) you intend to address these matters?
8. What steps have you taken to engage or consult with Indigenous communities? What steps do you plan to undertake during all phases of the Project? Are you aware of any Indigenous community concerns in relation to this project? If yes, provide an overview of the key issues and the way in which (in general terms) you plan to address these matters?
9. Do you have any other comments in relation to environmental effects or impacts to the public or Indigenous peoples and how you intend to address and manage those?
10. Explain your views on whether the Project should be designated under the IAA.
