Mr. Mark Broeders
Director, Advanced Reactor Technologies Division
Canadian Nuclear Safety Commission
280 Slater Street
Ottawa, Ontario
K1P 5S9

Dear Ms. Cianci and Mr. Broeders:

Bruce C Impact Assessment:
Request for Temporary Planning Phase Time Limit Suspension

The purpose of this letter is to formally request an immediate temporary suspension of the time limit for the Planning Phase of the Bruce C Impact Assessment, pursuant to the *Impact Assessment Act*.

This temporary pause is needed to allow for additional engagement activities with the Saugeen Ojibway Nation (SON), based upon the concerns communicated by the Impact Assessment Agency of Canada (IAAC) to Bruce Power in Reference 1, and through direct discussions between Bruce Power and the SON. Bruce Power will provide the IAAC with an update once such activities have occurred, at which time the Planning Phase time limit will resume.

If you require further information or have any questions regarding this submission, please contact Ms. Weina Chong, Director, Regulatory Affairs, Bruce C, at <Contact information removed>, or <Contact information removed>.

Yours truly,
