Re: Thesis Gold & Silver Inc., Request for Planning Phase Time Limit Suspension

Dear Mr. Crampton,

Thesis Gold & Silver Inc (Thesis), the Proponent for the Lawyers-Ranch Gold-Silver Project (the Project), requests that the Impact Assessment Agency of Canada (the Agency) suspend the Planning Phase timeline under Section 2 of the *Information and Management of Time Limits Regulation* of the *Impact Assessment Act*. We request that the Planning Phase be suspended on March 19th, 2026 for up to 50 calendar days.

The purpose of this request is to provide Indigenous Nations with additional opportunity to provide comments on the Initial Project Description to the Agency and/or the British Columbia Environmental Assessment Office, such that any comments received during the extension period may be reflected in the Joint Summary of Issues and Engagement.

Following your review, please confirm receipt of this request for a Planning Phase time limit suspension. Should you have any questions please contact me directly.

Sincerely,
<original signed by>

Stephen Crozier, JD, MBA
Executive Vice President, External Affairs and Sustainability
Thesis Gold & Silver Inc.
