**Table 2-1 Errors and Omissions**

Shell Document	Page Number	Error	Correct
EIA Volume 5, Section 7	7-140	The values presented in Table 7.6-5 (under the column titled "Loss/Alternation Due to the Project and Jackpine Mine – Phase 1") is incorrect.	Table 7.6-5 has been superceded in Appendix 2 of the <i>October 2013, Pierre River Mine, Joint Review Panel Supplemental Information Requests</i> as Table 49-1, for the revised 2013 Planned Development Case. No correction to original (now outdated) Table 7.6-5 has been provided.
EIA Volume 5, Appendix 5.2	75	The change in suitable habitat from the Base Case to Closure reported in Appendix 5.2 of the EIA erroneously reported changes in the PRM LSA for both the PRM LSA and the JME LSA.	The change in suitable habitat from the Base Case to Closure reported in Appendix 5.2 of the EIA erroneously reported changes for both the PRM LSA and the JME LSA. The moose Resource Selection Function (RSF) model has been re-run to estimate the change in suitable moose habitat from the 2013 Base Case to Closure for PRM.
